ITEM 1: FINANCIAL STATEMENTS

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Business

Head N.V. ("Head" or the "Company") is a leading global manufacturer and marketer of branded sporting goods serving the skiing, tennis and diving markets. The Company has created or acquired a portfolio of brands – *Head* (principally alpine skis, ski bindings, ski boots, and snowboard products, tennis, racquetball, squash and badminton racquets, tennis balls and tennis footwear), *Penn* (tennis balls and racquetball balls), *Tyrolia* (ski bindings), *Mares* (diving equipment). The Company's key products have attained leading market positions based on sales and reputation and have gained high visibility through their use by many of today's top athletes.

The Company generates revenues in its principal markets by selling goods directly to retail stores and, to a lesser extent, by selling to distributors. The Company also receives licensing and royalty income. As many of the Company's products, especially Winter Sports products, are shipped during a specific part of the year, the Company experiences highly seasonal revenue streams. Following industry practice, the Company begins to receive orders from its customers in the Winter Sports division from March until September, during which time the Company books approximately three quarters of its orders for the year. The Company will typically begin shipment of skis, boots and bindings in July and August, with the peak shipping period occurring in September to November. At this time, the Company will begin to receive re-orders from customers, which constitute the remaining quarter of the yearly orders. This re-orders inflow may last, depending on the course of weather into the first quarter of the next year. Racquet Sports and Diving product revenues experience almost no seasonality.

During the first three months of any calendar year, the Company typically generates some 25% of its Racquet Sports and Diving product revenues, but some 10% of its Winter Sports revenue. Thus, the Company typically generates only some 20% of its total year gross profit in the first three months of the year, but the Company incurs some 25% of fixed general and administration and marketing expenses in this period.

Head conducts business in Europe (primarily in Austria, Italy, Germany, France, Spain, Switzerland, the Netherlands and the United Kingdom), North America and Asia.

ITEM 2: MANAGEMENT'S OPERATING AND FINANCIAL REVIEW

Overview:

The Company is a leading global manufacturer and marketer of branded sporting goods serving the skiing, tennis and diving markets. The Company has created or acquired a portfolio of brands – *Head* (principally alpine skis, ski bindings, ski boots, and snowboard and protection products, tennis, racquetball, squash and badminton racquets, tennis balls and tennis footwear), *Penn* (tennis balls and racquetball balls), *Tyrolia* (ski bindings), *Mares* (diving equipment). The Company's key products have attained leading market positions based on sales and reputation and have gained high visibility through their use by many of today's top athletes.

With a broad product offering marketed mainly from middle to high price points, the Company supplies sporting equipment and accessories to all major distribution channels in the skiing, tennis and diving markets, including pro shops, specialty sporting goods stores and mass merchants. Head N.V.'s products are sold through some 37,000 customers in over 85 countries and target sports enthusiasts of varying levels of ability and interest ranging from the novice to the professional athlete. The Company's strongest presence has traditionally been in Europe. The United States is the next largest market for the Company's products after Europe.

Over the last six decades, the Company has become one of the world's most widely recognized developers and manufacturers of innovative, high-quality and technologically advanced sporting equipment. The Company's focus continues to be its core products of skiing, tennis and diving equipment. In order to expand market share and maximize profitability, for the last ten years the Company has increased its emphasis on marketing and new product development, leveraging further its brands, global distribution network and traditional strength in manufacturing and the Company is continuously looking for a possible reduction of its fixed costs.

Business development

Winter Sports. The 2009/2010 winter season started with early snow in Europe and in some parts of the U.S. but with late snow in Japan. Retailers in Europe reported a growing winter sports equipment business mainly driven by accessories and skiwear. Ski sales in Europe have been flat compared to 2008 and significantly down in Japan and in Canada. Good snow conditions all over the world as from January onwards for the rest of the season led to some good sell through also in Japan and retailers could reduce their inventory. In the Olympic Games in Vancouver Head skiers won four Gold, one Silver and six Bronze medals the best performing Alpine Ski brand during these games. This increases the popularity and demand for our products at retail and consumer level and helps us to gain additional market share in a still slightly declining equipment market. There is still a significant trend towards renting the ski equipment. We are part way through the preseason orders for our winter sports business, and at this stage, based on our bookings we believe that winter sports sales will be broadly in line with last years.

Racquet Sports. The tennis market finished the year 2009 in better shape than anticipated. While the U.S. tennis market declined at a rate of approximately 10% in racquet sales and 1% in ball sales, the European market was stable in racquet sales and slightly declined in ball sales, driven by lower prices for balls in the market. The Japanese market also declined in 2009. For 2010, we anticipate a market similar to 2009 in racquet and ball sales in all regions of the world.

Diving. Diving markets declined in 2009 as a result of the worldwide economic crisis, with dive equipment at higher price-points having been affected stronger than soft-goods.

ITEM 2: MANAGEMENT'S OPERATING AND FINANCIAL REVIEW

The Company believes that Mares gained market share in its key European markets, of Germany, France and Spain as a result of innovative product launches and improved operations. The Mares business was most severely impacted in the U.S. with a decline of over 20% in sales. Asian countries developed differently, and were in total slightly down, with Korea up both in sales and market share, while Australia worsened due to distribution weaknesses.

Winter Sports revenues for the three months ended March 31, 2010 increased by €0.1 million, or 0.6%, to €14.0 million from €13.9 million in the comparable 2009 period mainly due to improved product mix.

Racquet Sports revenues for the three months ended March 31, 2010 increased by €4.5 million, or 14.4%, to €35.7 million from €31.2 million in the comparable 2009 period. This increase was due to higher sales volumes for racquets and tennis balls as well as improved product mix of racquets, partially offset by the effect of the stronger euro against the U.S. dollar during the reported period compared to prior years reported period.

Diving revenues for the three months ended March 31, 2010 decreased by €0.5 million, or 4.5%, to €11.5 million from €12.1 million in the comparable 2009 period. This decrease was mainly driven by the overall decline in the economic environment and consumer spending and product availability issues from a third party supplier.

Licensing revenues for the three months ended March 31, 2010 decreased by €0.1 million, or 6.4%, to €1.4 million from €1.5 million in the comparable 2009 period due to fewer licensing agreements.

Sales deductions for the three months ended March 31, 2010 increased by €0.1 million, or 8.7%, to €1.6 million from €1.5 million in the comparable 2009 period due to increased sales.

Gross Profit. For the three months ended March 31, 2010 gross profit increased by €4.4 million to €26.2 million from €21.8 million in the comparable 2009 period. This increase was mainly due to higher sales, improved product mix and manufacturing costs as well as lower sourcing cost. Gross margin increased to 42.9% for the first three months ended March 31, 2010 from 38.1% in the comparable 2009 period.

Selling and Marketing Expense. For the three months ended March 31, 2010, selling and marketing expense increased by €0.2 million, or 0.9%, to €22.5 million from €22.3 million in the comparable 2009 period. This increase was mainly due to higher advertising costs and higher sales commissions.

General and Administrative Expense. For the three months ended March 31, 2010, general and administrative expenses decreased by €0.6 million, or 9.0%, to €6.5 million from €7.2 million in the comparable 2009 period. This decrease was mainly due to lower personnel expense.

ITEM 2: MANAGEMENT'S OPERATING AND FINANCIAL REVIEW

Share-Based Compensation Income. For the three months ended March 31, 2010, we recorded €2.8 million of share-based compensation income for our Stock Option Plans compared to € 0.01 million in the comparable 2009 period due to the decrease in our share price which led to a decrease of the liability due to the option holders.
