This base prospectus ("**Base Prospectus**") has been approved as a base prospectus by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**") (as defined below). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the Central Bank should not be considered as an endorsement of the Issuer or Guarantor or of the quality of the notes (the "**Notes**"). Investors should make their own assessment as to the suitability of investing in the Notes.

Such approval relates only to the Notes that are to be admitted to trading on the regulated market of The Irish Stock Exchange plc, trading as Euronext Dublin ("**Euronext Dublin**") or on another regulated market for the purposes of the Markets in Financial Instruments Directive, (Directive 2014/65/EU) (as amended, "**MiFID II**") and/or that are to be offered to the public in any Member State of the European Economic Area (the "**EEA**") in circumstances that require the publication of a prospectus. This Base Prospectus supersedes the Base Prospectus dated 25 July 2023.

This Base Prospectus, as approved by the Central Bank, in accordance with the requirements of the Prospectus Regulation, comprises a Base Prospectus for the purposes of the Prospectus Regulation, and for the purpose of giving information with regard to the issue of Notes issued under the Euro Medium Term Note Programme (the "**Programme**") described herein, during the period of 12 months after the date hereof.

Under the Programme, Santander International Products Public Limited Company (the "**Issuer**") may issue Notes. The payment of all amounts and delivery of all assets due in respect of the Notes will be unconditionally and irrevocably guaranteed by Banco Santander, S.A. (the "**Guarantor**" or the "**Bank**" or "**Banco Santander**"), provided the Bank executes the Applicable Transaction Terms (as defined below) in relation to the relevant Notes. The aggregate principal amount of Notes outstanding and guaranteed will not at any time exceed EUR 10,000,000,000 (or the equivalent in other currencies). Particulars of the dates of, parties to and general nature of each document to which the Issuer is a party in relation to the Programme and any Notes (the "**Transaction Documents**") are set out in various sections of this Base Prospectus.

Notes may be issued in bearer, registered, in dematerialised book-entry form (*anotaciones en cuenta*) or in dematerialised book-entry form with Monte Titoli (*titoli dematerializzati*).

Application has been made to Euronext Dublin for the Notes to be admitted to its official list (the "**Official List**") and trading on the regulated market of Euronext Dublin, as set out in the applicable Final Terms. The regulated market of Euronext Dublin is a regulated market for the purposes of MiFID II. Maples and Calder (Ireland) LLP is acting solely in its capacity as listing agent for the Issuer (and not on its own behalf) in connection with the application for admission of the Notes to the Official List of Euronext Dublin and trading on the regulated market of Euronext Dublin. Application may also be made to (i) the Spanish fixed income securities market, AIAF Mercado de Renta Fija ("**AIAF**") operated by Bolsas y Mercados Españoles Renta Fija, S.A.U. (the "**Spanish Regulated Market Operator**") for the Notes to be listed and admitted to trading on AIAF, (ii) Euronext Lisbon – Sociedade Gestora de Mercados Regulamentados, S.A. ("**Euronext**") for the Notes to be listed and admitted to trading on the regulated market of Euronext Lisbon ("**Euronext Lisbon**"), (iii) the regulated market of the Warsaw Stock Exchange (the "**WSE**"), and (iv) the regulated market of Borsa Italiana S.p.A., the Electronic Bond Market organised and managed by Borsa Italiana S.p.A. ("**MOT**"). Each of AIAF, Euronext Lisbon and the regulated market of the WSE and the regulated market of the MOT, is a regulated market for the purposes of MiFID II. Application may also be made to the multilateral trading facility of securitised derivative financial instruments organised and managed by Borsa Italiana S.p.A. (the "**SeDeX Market**") or to the EuroTLX, the multilateral trading facility organised and managed by Borsa Italiana S.p.A. ("**EuroTLX**"), or to Euronext Access Milan, the multilateral trading facility organised and managed by Borsa Italiana S.p.A. ("**Euronext Access Milan**"), for the Notes to be admitted to trading on SeDeX Market or EuroTLX or Euronext Access Milan, respectively. The SeDeX Market, EuroTLX and Euronext Access Milan are not regulated markets for the purposes of MiFID II. Application may also be made to the Vienna Stock Exchange for the Notes to be admitted to listing and trading on the multilateral trading facility operated by Wiener Börse AG (the "**Vienna MTF**"), as set out in the Applicable Transaction Terms. The Vienna MTF is a multilateral trading facility for the purposes of MiFID II. The Vienna MTF is not a regulated market for the purposes of MiFID II. The Programme (as defined below) also permits Notes to be issued on the basis that they will be admitted to listing, trading and/or quotation by such other or further competent authorities, stock exchanges and/or quotation systems or may be unlisted, in each case, as may be agreed with the Issuer and as set out in the Applicable Transaction Terms. This Base Prospectus also contemplates (i) non-exempt public offers in each of Austria, France, Italy, the Netherlands, Spain, Poland and Portugal and (ii) listings on a regulated market (for the purposes of MiFID II), in each of Spain, Poland and Portugal. If the Notes are admitted to listing on the Taipei Exchange and offered in Taiwan, the Notes shall not be offered, sold or re-sold, directly or indirectly, to investors other than professional institutional investors ("**Professional Institutional Investors**") as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the Republic of China. In such case, purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to a Professional Institutional Investor.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Prospective investors should note that the Issuer is incorporated in Ireland but tax-resident in the Kingdom of Spain ("**Spain**"). Potential purchasers should note the statements on pages 668 to 677 regarding the tax treatment in Spain of income obtained in respect of the Notes and the disclosure requirements imposed by Law 10/2014 and Royal Decree 1065/2007, as amended, on the Issuer and the Guarantor relating to the Notes. Holders of Notes must seek their own advice to ensure that they comply with all procedures to ensure the correct tax treatment of their Notes is obtained.

Investors should be aware that the Issuer is not regulated by the Central Bank and that any investment in the Notes will not have the status of a bank deposit and is therefore not within the scope of the deposit protection scheme operated by the Central Bank.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or any state securities laws, and the Issuer is only offering Notes outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act ("**Regulation S**") and within the United States to qualified institutional buyers (as defined in Rule 144A under the Securities Act ("**Rule 144A**") in reliance on Rule 144A or in other transactions exempt from registration under the Securities Act and, in each case, in compliance with applicable securities laws.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency. Where a series of Notes is rated, the applicable rating(s) of a relevant Series of Notes to be issued under the Programme will be specified in the Applicable Transaction Terms. Whether or not each credit rating applied for in relation to relevant Series of Notes will be issued by a credit rating agency established in the European Union or the United Kingdom and registered under Regulation (EC) No 1060/2009 as amended (the "**CRA Regulation**") or Regulation (EC) No 1060/2009 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK CRA Regulation**"), as the case may be, will be disclosed in the Applicable Transaction Terms. The list of credit rating agencies registered under the CRA Regulation (as updated from time to time) is published on the website of the European Securities and Markets Authority ("**ESMA**") (<http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>).

The Guarantor has been rated by Fitch Ratings Ireland Limited ("**Fitch**"), Moody's, S&P Global Ratings Europe Limited ("**S&P**"), DBRS Ratings GmbH ("**DBRS Morningstar**"), Scope Ratings GmbH ("**Scope Ratings**") and GBB-Rating Gesellschaft für Bonitätsbeurteilung GmbH ("**GBB-Rating**"). Each of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings and GBB-Rating is established in the European Union. Each of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings and GBB-Rating is registered under the CRA Regulation and as such, is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the CRA Regulation. None of Fitch, Moody's, S&P, DBRS Morningstar, Scope Ratings or GBB-Rating is established in the United Kingdom and has not applied for registration under the UK CRA Regulation. The Guarantor ratings issued by Fitch, Moody's, S&P, DBRS Morningstar and Scope Ratings have been endorsed by Fitch Ratings Ltd ("**Fitch UK**"), Moody's Investors Service Limited ("**Moody's UK**"), DBRS Ratings Limited ("**DBRS UK**") and Scope Ratings UK Limited ("**Scope UK**"), respectively, in accordance with the UK CRA Regulation and have not been withdrawn. Fitch UK, Moody's UK, DBRS UK and Scope UK are established in the United Kingdom and registered under the UK CRA Regulation.

Credit ratings may be adjusted over time, and there is no assurance that the credit ratings stated in this Base Prospectus will be effective after the date of this Base Prospectus. A credit rating is not a recommendation to buy, sell or hold any Notes. The Issuer is not rated. Amounts payable under the Notes may be calculated by reference to one or more "benchmarks" for the purposes of Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the "**EU Benchmarks Regulation**"). Where relevant, a statement will be included in the applicable Final Terms or Drawdown Prospectus, as applicable, as to whether or not the relevant administrator of the "benchmark" is included in ESMA's register of administrators under Article 36 of the EU Benchmarks Regulation.

## IMPORTANT NOTICES

**IMPORTANT – EEA RETAIL INVESTORS** – Other than as provided in the Applicable Transaction Terms in respect of any Notes, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, save in relation to any jurisdiction(s) or period(s) for which the "Prohibition of Sales to EEA Retail Investors" is specified to be not applicable in any Applicable Transaction Terms, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**IMPORTANT – UK RETAIL INVESTORS** – Other than as provided in the Applicable Transaction Terms in respect of any Notes, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**MiFID II product governance / target market** – The Applicable Transaction Terms in respect of any Notes will include a legend entitled "*MiFID II product governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

**UK MiFIR product governance / target market** – The Applicable Transaction Terms in respect of any Notes may, where applicable, include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

**Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore, as modified or amended from time to time** (the "**SFA**") – Unless otherwise stated in the Applicable Transaction Terms in respect of any Notes, all Notes issued or to be issued under the Programme shall be capital markets products other than prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products)

## IMPORTANT NOTICES

Regulations 2018 of Singapore) and Specified Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

***The Notes are complex financial instruments with high risk. There are significant risks inherent in the holding of the Notes, including the risks in relation to their subordination, the circumstances in which the Guarantee and any other claim against the Guarantor may be written down or converted to ordinary shares and the implications on Noteholders (such as a substantial loss), the circumstances in which Noteholders may suffer loss as a result of holding the Notes are difficult to predict and the quantum of any loss incurred by investors in the Notes in such circumstances is also highly uncertain.***

**Guidance under the Hong Kong Monetary Authority (the "HKMA") circular** - In October 2018, the HKMA issued a circular regarding enhanced investor protection measures on the sale and distribution of debt instruments with loss-absorption features and related products (the "**HKMA Circular**"). Under the HKMA Circular, debt instruments with loss-absorption features, being subject to the possibility of being written-down or converted to ordinary shares, and investment products that invest mainly in, or whose returns are closely linked to the performance of such instruments (together, "**Loss-Absorption Products**"), may only be offered to professional investors (as defined in the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and its subsidiary legislation, "**Professional Investors**") in Hong Kong. Unless otherwise specified in the Applicable Transaction Terms in respect of any Notes, the Guarantee rights in respect of all Notes issued or to be issued under the Programme contain loss-absorption features and the Notes may therefore be considered Loss-Absorption Products under the HKMA Circular. Investors in Hong Kong should not purchase such Notes with loss-absorption features unless they are Professional Investors and understand the risks involved. Such Notes are generally not suitable for retail investors in Hong Kong in either the primary or the secondary markets.

### IMPORTANT INFORMATION RELATING TO NON EXEMPT OFFERS OF NOTES

Certain Tranches of Notes with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**".

#### **Restrictions on Non-Exempt Offers of Notes in relevant Member States of the EEA**

This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Notes in each Member State in relation to which the Issuer has given its consent, as specified in the applicable Final Terms (each specified state a "**Non-exempt Offer Jurisdiction**" and together the "**Non-exempt Offer Jurisdictions**"). Any person making or intending to make a Non-exempt Offer of Notes on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided under "*Consent given in accordance with Article 5(1) of the Prospectus*" below and provided such person complies with the conditions attached to that consent.

#### **Consent given in accordance with Article 5(1) of the Prospectus Regulation**

In the context of a Non-exempt Offer of Notes, the Issuer and the Guarantor accept responsibility, in each of the Non-exempt Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an "**Investor**") who purchases any Notes in a Non-exempt Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Common Conditions to Consent*" below.

None of the Issuer, the Guarantor or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer or any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

**Except in the circumstances set out in the following paragraphs, neither the Issuer nor the Guarantor has authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Notes. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and none of the Issuer, the Guarantor and, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.**

## IMPORTANT NOTICES

If, in the context of a Non-exempt Offer, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

The financial intermediaries referred to in paragraphs (a)(i), (a)(ii) and (b) below are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

The sale, transfer, or acquisition of Implicit Yield Notes (as defined below) other than Book-Entry Notes, including, but not limited to, Zero Coupon Notes, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as an owner of Implicit Yield Notes other than as an owner of Book-Entry Notes or (ii) list any Implicit Yield Notes other than Book-Entry Notes on AIAF.

"**Implicit Yield Notes**" means Notes in respect of which the income derives from (a) the difference between the redemption amount and the issue price of the Notes, or (b), subject to the paragraph below, a combination of (i) an explicit coupon and (ii) the difference between the redemption amount and the issue price of the Notes.

### **Stabilisation**

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the Applicable Transaction Terms may over allot Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However stabilisation may not necessarily occur. Any stabilisation action may begin on or at any time after the adequate public disclosure of the Applicable Transaction Terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation-action or over-allotment shall be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

The Issuer will notify the Noteholders prior to the relevant Part Payment Date and will give details of the account to which such payment shall be made. If the

relevant Part Payment Amount is not paid by a Noteholder, the Issuer will give notice and will redeem all the Notes by payment of the Early Redemption Amount. No interest will be paid in respect of the period from the Part Payment Date and the date on which the Notes are redeemed early.

Interest in respect of such Partly Paid Notes will be determined by reference to the paid-up amount in respect of the Notes from time-to-time.

Reference Item Linked Interest Notes: The Applicable Transaction Terms issued in respect of each issue of reference item linked interest Notes will specify the relevant type of Note and the amounts of interest payable will be calculated as provided in the conditions of the Notes set out in this Base Prospectus for that type of Note, which may be by reference to equity, a constant maturity swap, an inflation index, an equity index, a fund, reference entity, a foreign exchange rate, an EU emissions allowance contract or a formula (or in the case of Exempt Notes such other underlying reference item as may be set out in the applicable Pricing Supplement).

Interest Periods and Interest Rates: The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. All such information will be set out in the relevant Applicable Transaction Terms.

Settlement of the Notes: Notes may be cash settled or (if the Notes are reference item linked redemption Notes) physically settled, as provided in the relevant Applicable Transaction Terms.

Reference Item Linked Redemption Notes: The Applicable Transaction Terms issued in respect of each issue of reference item linked redemption Notes will specify the relevant type of Note and the redemption amounts payable or entitlements deliverable will be calculated as provided in the conditions of the Notes set out in this Base Prospectus for that type of Note, which may be (as applicable) by reference to equity, a constant maturity swap, an inflation index, an equity index, a fund, reference entity, a foreign exchange rate, an EU emissions allowance contract or a formula (or in the case of Exempt Notes such other underlying reference item as may be set out in the applicable Pricing Supplement).

Redemption by Instalments: The Applicable Transaction Terms issued in respect of each issue of Notes which are redeemable in two or more instalments will set out the date on which, and the amounts in which, such Notes may be redeemed.

Other Notes: Terms applicable to high interest Notes, low interest Notes, step-up Notes, step-down Notes, dual currency Notes, reverse dual currency Notes, optional dual currency Notes and any other type of Note which the Issuer, and any Dealer or Dealers may agree to issue under the Programme will be set out in the Pricing Supplement or in a Drawdown Prospectus (as applicable).

Optional Redemption: The Applicable Transaction Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the Issuer (either in whole or in part) and/or the Noteholders, and if so the terms applicable to such redemption.

or proper for them based upon their own judgement and upon advice from such advisers as they consider necessary.

For a description of certain risks involved in investing in the Notes, see "*Risk Factors*".

Risk factors are designed both to protect investors from investments from which they are not suitable and to set out the financial risks associated with an investment in a particular type of Note.

Representation of Noteholders:

The Agency Agreement contains provisions for convening meetings of Noteholders to consider any matter affecting their interests.

**RISK FACTORS**

*Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Guarantor and the industry(ies) in which each of them operates together with all other information contained in this Base Prospectus, including, in particular, the risk factors described below. Words and expressions defined in the "Terms and Conditions of the Notes" (including "Annex 1 – Additional Terms and Conditions for Equity Linked Notes", "Annex 2 – Additional Terms and Conditions for Inflation Linked Notes", "Annex 3 – Additional Terms and Conditions for ETF Linked Notes", "Annex 4 – Additional Terms and Conditions for Fund Linked Notes", "Annex 5 – Additional Terms and Conditions for Credit Linked Notes", "Annex 6 – Additional Terms and Conditions for Foreign Exchange (FX) Rate Linked Notes", "Annex 7 – Additional Terms and Conditions for Payouts") and Annex 8 – Additional Terms and Conditions for EUA Contract Linked Notes below or elsewhere in this Base Prospectus have the same meanings in this section.*

*Notes may be issued under the Programme which are ETF Linked Notes, Fund Linked Notes, CMS Linked Notes, Inflation Linked Notes, Equity Linked Notes, Credit Linked Notes, Foreign Exchange (FX) Rate Linked Notes, EUA Contract Linked Notes or, if the Notes are Exempt Notes, commodity linked or other reference item linked notes ("**Reference Item Linked Notes**"). The relevant terms of any Reference Item Linked Notes that are not Exempt Notes will be specified in the applicable Final Terms. The relevant terms of any Reference Item Linked Notes that are Exempt Notes will be specified in the applicable Pricing Supplement. An investment in Reference Item Linked Notes may involve a number of risks, some of which are referred to below (see "Risk Factors Relating to Reference Item Linked Notes") and which are not associated with investment in a conventional debt security. The amount paid and/or the value of assets (if any) to be delivered by the Issuer or the Guarantor, as the case may be, on redemption of the Reference Item Linked Notes may be less than the principal amount of the Reference Item Linked Notes and may in certain circumstances be zero.*

*Additional risks and uncertainties relating to the Issuer and the Guarantor that are not currently known to the Issuer and the Guarantor, or that either currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and the Guarantor and, if any such risk should occur, the price of the Notes may decline and investors could lose the value of their entire investment or part of it.*

**Risk Factors Relating to the Notes**

- 1. Risks Relating to the Purchase, Holding and Trading of the Notes**

### ***The Notes bear the credit risk of the Issuer and the Guarantor***

Holders of Notes bear the credit risk of the Issuer and the Guarantor. That is the risk that the Issuer or the Guarantor is not able to meet its obligations under such Notes, irrespective of how any principal, interest or other payments and/or assets deliverable under such Notes are to be calculated. In such circumstances Holders may lose some or all of their investment.

### ***Claims of holders under the Notes are effectively junior to those of certain other creditors***

The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will at all times rank *pari passu* and rateably among themselves and at least *pari passu* with all other unsecured and unsubordinated outstanding obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

The guarantee in respect of the Notes (the "**Guarantee**") is an unsecured and unsubordinated preferred senior obligation of the Guarantor (*crédito ordinario preferente*). Subject to statutory preferences, the Notes will rank equally with any of the Issuer's other unsecured and unsubordinated indebtedness and the Guarantee will rank equally with any of the Guarantor's other unsecured and unsubordinated senior preferred indebtedness (*créditos ordinarios preferentes*). However, the Guarantee will be effectively subordinated to all of the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under Spanish law including the covered deposits and natural persons and micro, small and medium enterprises deposits referred to in Additional Provision 14 of Law 11/2015. The Guarantee is also structurally subordinated to all indebtedness of subsidiaries of the Guarantor insofar as any right of the Guarantor to receive any assets of such companies upon their winding-up will be effectively subordinated to the claims of the creditors of those companies in the winding-up.

In addition, the BRRD, Law and SRM Regulation 11/2015 (as defined below) contemplate that any liabilities to the Guarantor including but not limited to the Guarantee may be subject to the application of the general bail-in tool (see "*The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Notes. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity*" below).

### ***There is no active trading market for the Notes***

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer and the Guarantor.

Although application may be made (i) to the regulated market of Euronext Dublin for the Notes to be admitted to its Official List of Euronext Dublin and trading on its regulated market, (ii) to AIAF for the Notes to be listed and admitted to trading on AIAF, (iii) to Euronext for the Notes to be listed and admitted to trading on the regulated market of Euronext Lisbon, (iv) the regulated market of the WSE or (v) to the Vienna Stock Exchange for the Notes to be listed and admitted to trading on the Vienna MTF, this does not mean that such Notes will be any more or less liquid than if such Notes were not listed and there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop.

Accordingly, a trading market for any particular Tranche of Notes may not develop or may be illiquid and Holders should be prepared to hold the Notes to maturity.

In addition, Series of the Notes issued under this Programme may be subscribed (upon issuance) by the Issuer itself or by its affiliate(s) for resales on the secondary market thereafter on the basis of investors' demand. Accordingly, in these cases investors purchasing the relevant Notes should be aware that there may not be a liquid secondary market for the relevant Notes immediately. Even if a market does develop subsequently, it may not be liquid. Furthermore, investors should note that when subscribing the Notes the relevant Dealer may receive in consideration underwriting commissions and selling concessions. The Issuer may also offer and sell Notes directly to investors without the involvement of any Dealer. In addition, the Issuer or one of its affiliates may act market maker, liquidity provider or specialist or perform other similar roles in connection with the Notes, including inter alia acting as intermediary performing the investment service of execution of orders. In such cases, the Issuer or one of its affiliates can purchase the Notes issued by itself. In light of the above circumstances

## RISK FACTORS

potential conflicts of interest may exist between the Issuer and/or its affiliates acting in such capacity of owners/holders of the Notes and/or market maker, liquidity provider or specialist or intermediary on the one hand and investors in the Notes on the other.

The relevant market maker, liquidity provider or specialist may act by virtue of agreements entered into with the Issuer and/or the Dealer/distributor, pursuant to which such subjects undertake to sell the Notes on the secondary market at a price calculated on the basis of predetermined conditions and/or for a maximum predetermined quantity. Where the liquidity of the Notes is supported by one or more subjects operating on the secondary market, there is a risk that the purchase price of the Notes is influenced in a prevalent manner by the activity of such subjects if the purchase price is formulated on the basis of pre-determined criteria; in such a case, in fact, the price may not reflect all the market variables and may not be indicative of the same and may, therefore, be different than the price that would have been determined independently on the market.

However, the Issuer reserves the right to cancel some or all of the Notes held by the Issuer itself or by repurchasing them from the relevant Dealer at any time prior to the final maturity of the Notes. Accordingly, the aggregate nominal amount or number of Notes outstanding at any time may be significantly less than the nominal amount outstanding on the Issue Date, and this could have a negative impact on the investor's ability to sell the Notes in the secondary market. While this risk applies to all Notes, it may be particularly the case with regard to Notes listed and/or traded on Borsa Italiana S.p.A. trading venues.

Any such right of cancellation by the Dealer or any other entity acting as Dealer, shall be exercised in accordance with applicable laws, the terms and conditions of the Notes and the applicable rules of the relevant stock exchange(s) and markets, including as to notification.

### ***The Issue Price may be greater than the market value of the Notes***

The Issue Price specified in the relevant Applicable Transaction Terms may be more than the market value of the Notes as at the Issue Date, and the price, if any, at which a Dealer or any other person is willing to purchase the Notes in secondary market transactions is likely to be lower than the Issue Price. In particular, the Issue Price may take into account amounts with respect to commissions relating to the issue and sale of the Notes as well as subscription fees, placement fees, direction fees, structuring fees and/or other additional costs as well as amounts relating to the hedging of the Issuer's obligations under the Notes, and secondary market prices are likely to exclude such amounts. Any difference between the issue price and/or offer price may have an adverse effect on the value of the Notes, particularly immediately following the offer and the issue date relating to such Notes, where any such amounts, fees and costs may be deducted from the price at which such Notes can be sold by the initial investor in the secondary market.

Furthermore, if the Notes are offered by the Issuer to the public directly on the secondary market in connection with any listing of the Notes ("**Direct Listing**"), the profit of the Notes for investors may be reduced taking into account that the purchase price of the Notes on the secondary market may be different from the Issue Price.

### ***Where Notes are issued on a partly paid basis, all the Notes will be redeemed where any investor fails to pay any subsequent instalment of the issue price***

The Issuer may issue Notes where the issue price is payable in more than one instalment. A failure by any investor to pay any instalment of the issue price in respect of the Notes held by such investor will result in all the Notes being redeemed even if all other investors have paid the relevant instalment.

### ***The Notes may be redeemed by the Issuer prior to maturity at the option of the Issuer or for taxation reasons***

Unless in the case of any particular Tranche of Notes the relevant Applicable Transaction Terms specifies otherwise, in the event that the Issuer or, as the case may be, the Guarantor would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied specifically by or on behalf of Ireland or the Kingdom of Spain where the Issuer and Guarantor are incorporated, respectively, and are tax residents of the Kingdom of Spain or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may in certain circumstances redeem all outstanding Notes in accordance with the Conditions.

If in the case of any particular Tranche of Notes the relevant Applicable Transaction Terms specifies that the Notes are redeemable at the Issuer's option in certain other circumstances, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In addition, in the case of Notes other than

## RISK FACTORS

Inflation Linked Notes, Credit Linked Notes, EUA Contract Linked Notes and Fund Linked Notes which are not linked in an ETF, if "AER Value Automatic Early Redemption Event" is specified as being applicable in the Applicable Transaction Terms, on the occurrence of an Automatic Early Redemption Event the Notes will be automatically redeemed at their Automatic Early Redemption Amount or, where such Notes are specified as Physical Delivery Notes, the Notes shall be redeemed by delivery of the AER Entitlement to the Holders thereof (and any cash amount to be delivered as a result of rounding down). In the case of an Equity Linked Note or Inflation Linked Note, if an Additional Disruption Event occurs and "Delayed Redemption on the Occurrence of Additional Disruption Event" is not specified in the Applicable Transaction Terms, the Issuer may redeem the Notes early. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the equivalent Notes and may only be able to do so at a significantly lower rate.

***Any change in the Underlying Transactions or their market value may materially adversely affect the Buy-Back Price payable in respect of Notes in relation to which the Specific Buy-Back Provisions apply***

If the Specific Buy-Back Provisions are specified as applicable in the Applicable Transaction Terms, investors should be aware that Santander International Products plc is not required to, but may at its option, maintain certain notional Underlying Transactions (as defined in Condition 6(k) (*Specific Buy-Back Provisions*)) from time to time. In the event that the Notes are bought-back by the Issuer prior to their scheduled Maturity Date in accordance with the Specific Buy-Back Provisions, the price of the Notes shall reflect and shall be determined taking into consideration, but will not necessarily be the same as, the Market Value (as defined in Condition 6(k) (*Specific Buy-Back Provisions*)) of such Underlying Transactions.

The Underlying Transactions, if any, will be selected from time to time by the Calculation Agent in its discretion and may be subject to change during the term of the Notes. In addition, the Issuer may elect not to maintain Underlying Transactions at any time, in which case the Issuer will not be able to buy back Notes in accordance with the Specific Buy-Back Provisions, although the Issuer may, at its option, purchase Notes at amounts other than the Buy-Back Price at any time. Any Underlying Transactions which are maintained at any time will, in any event, be notional transactions and the Issuer will not be required to maintain any actual transactions corresponding to Underlying Transactions. Any Underlying Transactions may have term(s) (or equivalent) which end prior to, on or after the Maturity Date of the Notes and/or notional amount(s) (or equivalent) that may be equal to or higher than the aggregate principal amount of the Notes. Information relating to the relevant Underlying Transactions (if any) will be made available to investors in accordance with the method of publication specified in the relevant Applicable Transaction Terms.

In the event that an investor requests that the Issuer buy-back any such Notes held by it prior to their maturity, and the Issuer accepts such request, the price of the Notes (the "**Buy-Back Price**") will be determined in a commercially reasonable manner by Banco Santander, S.A., acting in its capacity as Calculation Agent, taking into consideration but will not necessarily be the same as the Market Value of the Underlying Transactions. Any change in the Underlying Transactions and the Market Value of the Underlying Transactions may therefore materially adversely affect the Buy-Back Price payable to the relevant investor, particularly where the Underlying Transactions have term(s) which end after the Maturity Date of the Notes and/or notional amount(s) that are higher than the aggregate principal amount of the Notes.

Investors should refer to the "*Investment Considerations*" section for further information.

***Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued***

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of the minimum Specified Denomination. In such a case a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed (or issued)) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

## RISK FACTORS

If Notes in definitive form are issued (whether following exchange or as of the Issue Date), holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

### ***Notes which are issued at a substantial discount may experience price volatility in response to changes in market interest rates***

The market value of Notes which are issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater price volatility as compared to conventional interest-bearing notes with comparable maturities.

### ***Exchange rates will affect the calculation of the FX Factor***

The FX Factor, where the Applicable Transaction Terms states that it applies, reflects the performance of the Specified Currency and the FX Value Reference Currency (or, where the Foreign Exchange (FX) Rate Linked Note provisions apply, the Base Currency and Subject Currency) during the life of the Notes and will be applied to the calculation of certain amounts under the Notes. An investor is therefore directly exposed to the performance of such currencies. Where such performance is adverse this may result in an overall loss to an investor.

### ***Risks relating to payment disruption events***

Where the Applicable Transaction Terms states that Payment Disruption Event applies, if a disruption event occurs which prohibits or prevents the Issuer from making a payment in respect of the Notes, such payment will be postponed to the earlier of: (i) a date falling 2 business days after the date on which such disruption event is no longer occurring or (ii) a date falling 60 calendar days following the scheduled due date for payment of the relevant amount, which, for the avoidance of doubt, may be later than the scheduled Maturity Date. No interest shall accrue and no event of default will result on account of such postponement. In the event the payment is postponed in accordance with (ii) above, the Issuer shall make payment of the relevant amount in U.S. Dollars, using an exchange rate to be determined by the Calculation Agent. As such, investors should note that they may be paid in a currency that is different from their investment and which may negatively impact the return on their investment.

### ***Risks in connection with the public offer of the Notes***

If the Notes are distributed by means of a public offer, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Notes issued and, therefore, may have an adverse effect on the liquidity of the Notes. Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation.

Investors should be aware that potential conflicts of interest may arise in connection with the Notes, as any distributors or other entities involved in the offer and/or the listing of the Notes as indicated in the applicable Final Terms, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

In the case of Direct Listing, potential conflicts of interests may arise between the role of the Issuer as offeror and the role of: (i) the Issuer itself; and/or (ii) other entities of the Group; and/or (iii) other intermediaries, when the Issuer and/or the other entities of the Group and/or other intermediaries are performing the relevant investment service in relation to the Notes.

### *Certain risks relating to public offers of the Notes in Italy*

If the Notes are distributed by means of a public offer, under certain circumstances indicated in the applicable Final Terms, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to withdraw or revoke the offer, and the offer will be deemed to be null and void according to the terms indicated in the applicable Final Terms. Unless otherwise provided in the applicable Final Terms, the Issuer and/or the other entities specified in the applicable Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the applicable Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the applicable Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Notes issued and, therefore, may have an adverse effect on the liquidity of the Notes. Furthermore, under certain circumstances, the Issuer and/or the other entities indicated in the applicable Final Terms will have the right to extend the offer period and/or to postpone the originally designated issue date, and related interest payment dates. For the avoidance of doubt, this right applies also in the event that the Issuer publishes a supplement to the Base Prospectus in accordance with the provisions of the Prospectus Regulation.

The relevant Final Terms may also provide that the effectiveness of the offer of Notes is conditional upon admission to listing or to trading on the relevant regulated market and/or multilateral trading facility indicated in the relevant Final Terms, occurring by the Issue Date. In such case, in the event that admission to listing or trading of the Notes does not take place by the Issue Date for whatever reason, the Issuer may withdraw the offer, the offer will be deemed to be null and void and the relevant Notes will not be issued. As a consequence, the potential investor will not receive any Note, any subscription rights the potential investor has for the Notes will be cancelled and he/she will not be entitled to any compensation therefor.

The issue price and/or offer price of the Notes may include subscription fees, placement fees, direction fees, structuring fees and/or other additional costs. Any such fees and/or costs may not be taken into account for the purposes of determining the price of such Notes on the secondary market and could result in a difference between the original issue price and/or offer price, the theoretical value of the Notes, and/or the actual bid/offer price quoted by any intermediary in the secondary market. Any such difference may have an adverse effect on the value of the Notes, particularly immediately following the offer and the issue date relating to such Notes, where any such fees and/or costs may be deducted from the price at which such Notes can be sold by the initial investor in the secondary market.

Where Notes are offered to the public, as the relevant Dealer(s) and any distributors act pursuant to a mandate granted by the Issuer and they receive fees on the basis of the services performed and the outcome of the placement of such Notes, potential conflicts of interest could arise.

In addition, if it is indicated in the Final Terms that the Issuer will adopt the distribution process on the MOT described in article 2.4.3, paragraph 7 of the rules of the markets organised and managed by Borsa Italiana, the circumstance that, pursuant to this distribution process, potential investors can monitor (via market operators) the progress of the proposed purchases of the Notes during the offer period, may have an impact on the progress and results of the offer. Investors should also note that, pursuant to distribution process on the MOT indicated above, the proposed acquisition of the Notes during the offer period does not constitute conclusion of the contract, which remains subject to confirmation of the correct execution of the order and the issuance of the Notes.

***Notes issued as Green Bonds, Social Bonds or Sustainable Bonds, as described in Use of Proceeds, may not meet investor expectations or be suitable for an investor's investment criteria.***

The Applicable Transaction Terms relating to any specific Tranche of Notes may provide that an amount equal to the whole or a part of such net proceeds will be applied by the Guarantor to eligible assets (such Notes being "**Green Bonds**", "**Social Bonds**" or "**Sustainable Bonds**"), as described in the Santander Group Green, Social & Sustainability Funding Global Framework, published on the Santander web-site (see "*Use of Proceeds*").

The Guarantor or any of its affiliates (as the case may be) will exercise its judgment and sole discretion in determining the eligible assets that will be financed by the proceeds of any such Notes. The Guarantor will endeavour to allocate such proceeds to relevant eligible assets within 36 months of the issue of the relevant Notes. Such eligible assets may not meet the Guarantor's or any of its affiliates' (as the case may be) sustainable development goals or relevant framework agreements relating to green financing, as the case may be. In such case, if an asset fails to ensure continued compliance with the eligibility criteria, or if early repayment of an asset occurs, the Guarantor and/or any of its affiliates, as applicable, commits to replacing the asset with another one,

## RISK FACTORS

respecting the eligibility criteria, within 12 months. Pending the allocation or reallocation, as the case may be, of the net proceeds of such Notes, the Guarantor or any of its affiliates, will invest the balance of the net proceeds, at its own discretion, in cash and/or cash equivalent and/or other liquid marketable instruments.

Businesses or projects which are the subject of, or related to, the relevant framework agreements may not meet investor expectations or any binding or non-binding legal or other standards regarding environmental impact. Such standards might include any present or future applicable law or regulations or under an investor's own by-laws or other governing rules, policies or investment mandates, in particular with regard to any direct or indirect environmental impact. The purchase of such Notes should be based upon such investigation as investors deem necessary.

Furthermore, the Guarantor has no contractual obligation to allocate (or cause allocation of) the proceeds of any such Notes to finance particular businesses and projects or (except as stated in the Applicable Transaction Terms) to provide reports or obtain any opinion or certification of a third party on, for example, the updated amount of proceeds allocated to particular businesses or projects or the environmental impacts of such financings. Even if any reports are provided or any opinion or certification obtained, these may not satisfy an investor's own by-laws or other governing rules, policies or investment mandates and such reports, opinions and/or certifications may be subject to amendment. Prospective investors must determine for themselves the relevance of any such report, opinion or certification and/or the provider of any report, opinion or certification for the purpose of any investment in such Notes. The providers of such report, opinions and certifications may not be subject to any specific regulatory or other regime or oversight.

Any:

- (i) failure to apply the proceeds of any issue of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, in the manner described in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms;
- (ii) withdrawal of any opinion or certification or any opinion or certification being superseded by an opinion or certification stating that the Guarantor has not complied, in whole or in part, with any matters on which the original opinion or certification had opined or certified; and/or
- (iii) event or circumstances resulting in any issue of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, no longer being listed or admitted to trading on any stock exchange or securities market,

may have a material adverse effect on the value of Green Bonds, Social Bonds or Sustainable Bonds, as the case may be, and could also result in adverse consequences for certain investors with investment criteria or guidelines to invest in securities to be used for a particular purpose. Holders of Green Bonds, Social Bonds or Sustainable Bonds will not have any voting rights with regards to the terms of the Green, Social & Sustainability Funding Global Framework and any changes thereto, even if such changes will not be consistent with an investor's portfolio mandate.

There is currently no widely-accepted clear definition (legal, regulatory or otherwise) of, or market consensus as to what constitutes, a "green", "social", "sustainable" or an equivalently-labelled project or asset or as to what precise attributes are required for a particular project or asset to be defined as "green", "social", "sustainable" or such other equivalent label. Prospective investors should note a clear definition or consensus may not develop over time or if market consensus is developed, that any prevailing market consensus may significantly change.

Any of the above factors (and any events that negatively affect the value of any other securities of the Issuer that are intended to finance "green", "social", "sustainable" or equivalently-labelled projects or assets) could have a material adverse effect on the value of such Notes.

For the avoidance of doubt, investors should note that payments of principal and interest (as the case may be) on Green Bonds, Social Bonds and Sustainable Bonds shall not depend on the performance of any relevant project.

### **2. Risk Factors Relating to Reference Item Linked Notes**

#### ***Investors may lose some or all of the original investment amount***

The amount payable and/or the value of the assets (if any) deliverable to Holders on redemption of the Reference Item Linked Notes may be less than the principal amount invested by them in the Reference Item Linked Notes and may in certain circumstances be zero.

## RISK FACTORS

In order to realise a return upon an investment in the Reference Item Linked Notes, an investor must have correctly anticipated the timing and magnitude of an anticipated increase or the absence of a decrease in the value of the Reference Item Linked Notes relative to the Issue Price and must also be correct about when any change will occur. If the value of the Reference Item Linked Notes does not increase, or decrease, as the case may be, before such Reference Item Linked Notes are redeemed, part of the investor's investment in such Reference Item Linked Notes may be lost on such redemption. Other than in respect of Reference Item Linked Notes which are redeemable prior to the Maturity Date at the option of the Noteholder, the only means by which a Noteholder can realise value from its Reference Item Linked Notes prior to their Maturity Date is to sell such Reference Item Linked Notes at their then market price in the secondary market (if available) (see "*Illiquidity of the Secondary Market*" below).

Notes that are linked to a reference item and/or the obligations of a Reference Entity (as defined below) may be principal (or capital) protected or non-principal (or capital) protected at maturity. Investors in Notes which are not principal (or capital) protected may risk losing their entire investment (including the loss of any transaction costs paid by the investor) if the value of the reference item and/or obligation of a Reference Entity does not move in the anticipated direction. If the Notes are specified in the Applicable Transaction Terms as having a minimum redemption amount, such Notes are principal (or capital) protected at maturity only and only to such extent. If Notes are redeemed or sold before their scheduled maturity or expiration, they may return less than the minimum redemption amount, the amount invested or even zero. In addition amounts payable may be subject to deductions for taxes or expenses.

Investors should note that certain Notes linked to the performance of the reference items or obligations of the Reference Entity, as the case may be, may not benefit from a minimum redemption amount or minimum cash settlement amount and investors may receive a cash amount and/or assets the value of which may be less than the initial investment amount of the Notes and investors are exposed to the full loss of their investment (including the loss of any transaction costs paid by the investor).

### ***Fluctuations in the value of the relevant underlying will affect the value of Reference Item Linked Notes***

Fluctuations in the value of the relevant Reference Item will affect the value of Reference Item Linked Notes. Fluctuations in the value of the currency or currencies in or to which the Reference Item Linked Notes or the Reference Item itself are denominated or linked will also affect the value of such Reference Item Linked Notes.

The terms and conditions of the Reference Item Linked Notes generally may include adjustment and early redemption provisions and other terms which along with general market conditions and the financial condition of the underlying reference entity may affect the amounts due and payable and/or the value of the assets (if any) deliverable under such Reference Item Linked Notes and/or their Maturity Date. In these cases the Reference Item Linked Notes may be affected and may, in some cases, result in the Reference Item Linked Notes being redeemed early which may negatively impact the return to investors.

### ***Many factors may adversely affect the value and trading price of Reference Item Linked Notes***

Reference Item Linked Notes pose risks with regard to interim value. The interim value of the Reference Item Linked Notes varies with the price and is affected by a number of factors, many of which are beyond the Issuer's control, including but not limited to:

- (i) market interest rates;
- (ii) exposure to the performance of the Reference Item (and, in the case of Inflation Linked Notes and Equity Linked Notes, indirect exposure to the performance of the relevant index components where applicable);
- (iii) fluctuations in currency exchange rates;
- (iv) fluctuations in commodities prices;
- (v) the liquidity of the Reference Item Linked Notes or any reference item(s) in the secondary market;
- (vi) the time remaining to any redemption date or the maturity date;
- (vii) the market price of the Reference Item Linked Notes, which may be volatile;

## RISK FACTORS

- (viii) if Reference Item Linked Notes reference a Reference Item's performance in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the relevant Reference Item on principal or interest payable on such Reference Item Linked Notes is likely to be magnified;
- (ix) where the Reference Item(s) is/are credit linked, the creditworthiness of the specified reference entity or entities; and
- (x) economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally and the stock exchange(s) on which the Reference Item Linked Notes may be traded.

The effects of one or a combination of these factors may mean that a Noteholder will not be able to sell any Reference Item Linked Notes prior to maturity at a price equal to or greater than the market value of the Reference Item Linked Notes on the Issue Date and such Holder may only be able to sell Reference Item Linked Notes at a discount, which may be substantial.

### ***Reference Item Linked Notes are not ordinary debt securities***

The terms of Reference Item Linked Notes differ from those of ordinary debt securities because the Reference Item Linked Notes may not pay interest on maturity, depending on the performance of the relevant underlying Reference Item. The price of Reference Item Linked Notes may fall in value as rapidly as it may rise, and the return investors receive on Reference Item Linked Notes may be less than expected.

### ***The Calculation Agent has broad discretion and may take action which affects the relevant underlying reference item and/or the value of Reference Item Linked Notes***

Investors should note that, in exercising its duties in relation to Reference Item Linked Notes, the Calculation Agent may have considerable discretion in relation to certain matters which may affect amounts due and payable and/or assets deliverable under the Reference Item Linked Notes and/or their Maturity Date including (without limitation) the replacement of an underlying index, share or other asset, modification of amounts otherwise payable and/or assets deliverable on redemption or determining the closing price and/or potential early redemption of the Reference Item Linked Notes.

The Calculation Agent may make such adjustments as it considers appropriate as a consequence of certain corporate actions affecting the relevant underlying share or index. In making these adjustments, the Calculation Agent is entitled to exercise substantial discretion and may be subject to conflicts of interest, including the conflicts of interest highlighted above, in exercising this discretion.

### ***Illiquidity of the Secondary Market***

There may be no secondary market for the Reference Item Linked Notes. If a secondary market does exist, it may be illiquid and investors may find it difficult to trade the Reference Item Linked Notes. The number of Reference Item Linked Notes of any Series may be relatively small, further adversely affecting the liquidity of such Reference Item Linked Notes.

### ***Noteholders will not obtain any rights of ownership in the Reference Item(s)***

Purchasers of Notes should be aware that the Issuer is under no obligation to hold a position in any Reference Item(s) and should note that the relevant Reference Item(s) that may be held by the Issuer will not be held by the Issuer for the benefit of the purchasers of such Notes and, as such, Noteholders will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Notes.

### ***The past performance of a Reference Item is not indicative of future performance***

There is a risk that Reference Items perform differently than in the past and consequently any information about the past performance of the Reference Item at the time of the issuance of the Notes should not be regarded as indicative of the range of, or trends in, fluctuations in the Reference Item that may occur in the future.

### ***Delivery of Reference Items in respect of Physical Delivery Notes may be postponed or cash may be paid in lieu thereof***

In the case of Notes which are redeemable by delivery of assets (other than Credit Linked Notes), if a Settlement Disruption Event occurs or exists on the due date for redemption of the Notes, settlement will be postponed until the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event. The Issuer in these circumstances also has the right to pay the Disruption Cash Redemption Amount in lieu of delivering the Entitlement (as defined in the Terms and Conditions).

If a Failure to Deliver due to Illiquidity occurs, the Issuer has the right, in lieu of delivery of the assets affected by such event, to pay the Failure to Deliver Redemption Amount to the Noteholders. The Disruption Cash Redemption Amount and/or the Failure to Deliver Redemption Amount may be less than the fair market value of the Entitlement.

### ***Noteholders may be required to pay certain expenses in relation to Notes subject to Physical Delivery***

Holders of Notes subject to Physical Delivery must pay all Expenses relating to delivery of such Notes which may reduce the overall return on investment. As defined in the terms and conditions, "Expenses" includes all costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes arising from the delivery of the Entitlement.

### ***There are certain requirements to be fulfilled and payments to be made by the holder in order to receive Notes subject to Physical Delivery and the Issuer may decide to settle by way of cash payment instead in certain circumstances***

In order to receive the Entitlement in respect of a Note settled by way of Physical Delivery, the holder of any Notes other than Book-Entry Notes must deliver or send to the relevant Clearing System or Principal Paying Agent, or the Issuer, (through the relevant Monte Titoli Account Holder, in case of Monte Titoli Book-Entry Notes), as applicable, a duly completed Asset Transfer Notice or, the Iberclear Member of any Book-Entry Notes must send a duly completed Iberclear Settlement Instruction to the Iberclear Paying Agent on or prior to the relevant time on the Cut-off Date and pay the relevant Expenses. If a Noteholder fails to deliver as required the certification of non-US beneficial ownership or certification that it is an eligible investor for US securities law purposes, the Issuer may deliver what the Calculation Agent determines to be the fair market value of the Entitlement instead of the relevant assets.

### ***Switchable Notes may result in materially lower investment returns***

If, in relation to a Series of Notes, interest rate payout formula "Rate of Interest (xxx) – Switchable" applies or final payout formula "Redemption (xix) – Switchable" applies (such Notes being "**Switchable Notes**"), the Issuer has a right to exercise the "Switch Condition", which will change the basis on which the interest rate payout and/or final payout (as applicable) are determined by delivering a notice to the Holders in accordance with Condition 14 (*Notices*) a specified number of Business Days prior to a relevant Valuation Date (see also the definition of "Switch Condition" in Payout Condition 5.4 (*Conditional Conditions*) (as completed by the Applicable Transaction Terms)). The Issuer may exercise this right in its sole and absolute discretion. If the Issuer exercises the Switch Condition, the way in which the interest rate payouts and/or the final payout (as applicable) are determined will change. These changes may be detrimental to investors and could result in materially lower investment returns.

### ***Hedging activities may affect the market price, liquidity or value of Reference Item Linked Notes***

In connection with the offering of the Reference Item Linked Notes, the Issuer, the Guarantor and/or any of its affiliates may enter into one or more hedging transactions with respect to any potential reference item(s) or related derivatives. In connection with such hedging activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer, the Guarantor and/or any of its affiliates may enter into transactions in the reference item(s) or related derivatives which may, but are not intended to, affect the market price, liquidity or value of the Reference Item Linked Notes and which could be deemed to be adverse to the interest of the relevant Noteholders.

### ***Hedging transactions by the Issuer may affect the return on Reference Item Linked Notes***

The Issuer may use a portion or all of the total proceeds from the issue of the Notes for transactions to hedge the risks of the Issuer relating to Reference Item Linked Notes. In such case, the Issuer may conclude transactions

that correspond to the obligations of the Issuer under the Reference Item Linked Notes. As a rule, such transactions are concluded prior to or on the Issue Date, but it is also possible to conclude such transactions after issue of the Reference Item Linked Notes. On or before a valuation date or delivery date, the Issuer or its affiliates may take the steps necessary for closing out any hedging transactions. The price, level or value of a relevant underlying security, index or other underlying, or the portfolio of which a share, index or other underlying forms a part, may be influenced by such transactions. Entering into or closing out these hedging transactions may also influence the probability of occurrence or non-occurrence of determining events in the case of Reference Item Linked Notes with a value based on the occurrence of a certain event in relation to a relevant underlying security, index or other underlying, or the portfolio of which a share or index forms a part, which may in turn adversely affect the return (if any) received by investors.

### ***Conflicts of interest between the Issuer, the Guarantor and its affiliates and the Noteholders***

The Issuer, the Guarantor and its affiliates may:

- (i) engage in trading and market-making activities and hold long or short positions in the relevant reference item(s) and other instruments or derivative products based on or related to the relevant reference item(s) for their proprietary accounts or for other accounts under their management;
- (ii) issue Reference Item Linked Notes in respect of the relevant reference item(s) which are securities, or issue derivative instruments in respect thereof;
- (iii) serve as issuer, agent, manager or underwriter of such securities or other instruments;
- (iv) act as underwriter in connection with future offerings of securities which comprise the reference items; and
- (v) act as financial advisers to certain underlying companies or reference entities.

The Issuer's, the Guarantor's and its affiliates' interests with respect to such securities, instruments and products may be adverse to those of the Noteholders and such activities could present certain conflicts of interest, could influence the prices of such reference items and could adversely affect the value of the Reference Item Linked Notes. Potential conflicts of interest may also arise in connection with an issue of Notes, as any distributors or other entities involved in the offer and/or the listing of such Notes, will act pursuant to a mandate granted by the Issuer and can receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

Additionally, if acting as calculation agent for Equity Linked Notes or Inflation Linked Notes linked to one or more securities or indices or EUA Contract Linked Notes, the Guarantor or the Issuer will determine the payout (whether cash and/or assets) to the investor at maturity. The Issuer, the Guarantor and their affiliates may also carry out hedging activities related to any Equity Linked Notes or Inflation Linked Notes linked to one or more securities or indices or EUA Contract Linked Notes, including trading in the underlying securities and/or indices, as well as in other instruments related to the underlying securities and/or indices. The Issuer, the Guarantor and their affiliates may also trade the applicable underlying securities and/or indices and other financial instruments related to the underlying securities and/or indices on a regular basis as part of their general broker-dealer and other businesses. Any of these activities could influence the Calculation Agent's determination of adjustments made to any Equity Linked Notes or Inflation Linked Notes linked to one or more securities and/or indices and any such trading activity could potentially affect the price, level or value of the underlying securities and/or indices and or EUA Contract Linked Notes, which accordingly, could affect the investor's payout on any Equity Linked Notes or Inflation Linked Notes or EUA Contract Linked Notes.

### **3. Risks Relating to Specific Types of Reference Item Linked Notes**

#### ***Risks Relating to Fund Linked Notes***

*An investment in Fund Linked Notes is not comparable to an investment in a conventional debt security*

An investment in Fund Linked Notes will entail significant risks not associated with an investment in a conventional debt security. Payments and/or assets (if any) deliverable in respect of Fund Linked Notes will be calculated by reference to units, interests or shares in a single fund or basket of funds on such terms as set out in the Pricing Supplement, and the price of units or shares in a fund may be affected by the performance of the fund service providers, and in particular the investment adviser. Where the Issuer issues Fund Linked Notes linked to

## RISK FACTORS

one or more funds, including hedge funds, mutual funds, private equity funds or exchange traded funds, the relevant Fund Linked Notes reflect the performance of such fund(s). Accordingly, an investment in Fund Linked Notes may bear similar market risks to a direct fund investment. If the underlying fund does not perform sufficiently well, the value of the Fund Linked Notes will fall, and may in certain circumstances be zero.

In relation to ETFs (as defined below), see also "*Risks Relating to ETF Linked Notes*".

*The return on Fund Linked Notes may be significantly less than the reported performance of the relevant fund(s) and may be zero*

The amount payable and/or the value of the fund shares (if any) deliverable in respect of Fund Linked Notes will be dependent on the performance of the relevant fund(s) underlying the Fund Linked Notes, which (as applicable) may be linked to the NAV per Fund Share and/or the actual redemption proceeds the Hedge Provider or a (hypothetical) investor in the relevant fund(s) would receive. The amount payable or the value of the fund shares (if any) deliverable in respect of the Fund Linked Notes may be less than the amount payable from a direct investment in the relevant fund(s). In certain circumstances, a fund may continue reporting a NAV per Fund Share (or Aggregate Fund Shares NAV, as the case may be), but the Hedge Provider or a (hypothetical) investor may not be able to realise their investment in the relevant fund(s) at such reported NAV per Fund Share (or the corresponding NAV per Fund Share as calculated by the Calculation Agent). In such a case, the return on the Fund Linked Notes may be less and in certain circumstances may be significantly less than the reported performance of the relevant fund(s) and may be zero.

*Fund Linked Notes may be cancelled, adjusted or redeemed early in certain circumstances*

Fund Linked Notes may be subject to cancellation or early redemption or adjustment (including as to valuation and fund substitutions) if certain corporate events (such as insolvency (or analogous event) occurring with respect to a fund; litigation against, or regulatory events occurring with respect to, a fund; suspensions of fund subscriptions or redemptions; certain changes in net asset value of a fund; or modifications to the investment objectives or changes in the nature or administration of a fund) occur, if certain valuation or settlement disruption events occur with respect to a fund, or if certain events (such as illegality, disruptions or cost increases occur).

*The issuer of fund shares or units may not disclose all relevant information*

No fund service provider will have participated in the preparation of the relevant Applicable Transaction Terms or in establishing the terms of the Fund Linked Notes, and none of the Issuer, the Guarantor or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of fund shares or units contained in such Applicable Transaction Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the accuracy or completeness of the publicly available information described in any relevant Applicable Transaction Terms) that would affect the trading price of the fund shares or units will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of fund shares or units could affect the trading price of the fund shares or units and therefore the trading price of the Fund Linked Notes.

*Holder will have no participation or ownership rights in relation to the underlying fund(s)*

Fund Linked Notes do not provide Holders with any participation rights in the underlying fund(s) and do not entitle holders of Fund Linked Notes to any ownership interest or rights in such fund(s). Except as may be otherwise provided in the Conditions and/or the relevant Applicable Transaction Terms, Holders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant fund shares or units to which such Notes relate.

*Fund trading strategies are complex, opaque and create the risk of significant losses which may reduce any amount payable or deliverable to holders of Fund Linked Notes*

Funds may trade and invest in a broad range of investments and financial instruments using sophisticated investment techniques for hedging and non-hedging purposes such as debt and equity securities, commodities and foreign exchange and may enter into derivative transactions, including, without limitation, futures, swaps and options. Such financial instruments and investment techniques may also include, but are not limited to, the use of leverage, short sales of securities, transactions that involve the lending of securities to financial institutions, the entry into repurchase and reverse repurchase agreements for securities and the investment in foreign securities and foreign currencies. These investment strategies and financial instruments create the risk of significant losses

## RISK FACTORS

that may adversely affect the value of the fund and therefore the return on the Fund Linked Notes. Potential investors should be aware that none of the Issuer, the Guarantor, the Dealers or the Calculation Agent have any control over investments made by a fund and poor performance of a fund may significantly reduce the amount payable and/or deliverable (if any) to Holders on cancellation or redemption, as applicable, of any Fund Linked Notes. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Consequently, Holders may be exposed to the volatility in the performance of the relevant Funds which may affect the overall return on their investment.

*The Hedging Provider may hedge the Issuer's obligations under Fund Linked Notes without regard to the interests of holders*

In hedging the Issuer's obligations under the Fund Linked Notes, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the relevant fund(s), replicating the performance of the relevant fund(s) or holding any of the assets underlying the relevant fund(s). The Hedge Provider may perform any number of different hedging practices with respect to Fund Linked Notes and is not required to have regard to the interests of holders of Fund Linked Notes, notwithstanding that its actions may ultimately result in holders receiving a lower return on their investment.

*The occurrence of Extraordinary Fund Events may adversely affect the value or liquidity of the Fund Linked Notes*

If certain events ("**Extraordinary Fund Events**") including events in the determination of the Calculation Agent occur, the Issuer or, as the case may be, the Guarantor may, in its sole and absolute discretion, take no action, adjust the terms of the Fund Linked Notes to reflect such event, substitute the relevant Fund Shares or redeem the Fund Linked Notes.

*Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the Fund Linked Notes. In addition, in the event that redemption proceeds in respect of the underlying Fund Shares are not received by the Hedge Provider on or prior to the scheduled date for settlement, such settlement date may be postponed for such period as may be specified in the Applicable Transaction Terms and no additional amount shall be payable as a result of such delay.*

The Issuer will exercise its rights under the Fund Linked Note Conditions, including in particular the action it takes on the occurrence of an Extraordinary Fund Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor, any Dealer or the Calculation Agent owes any duty or responsibility to any of the Holders of the Fund Linked Notes. The exercise of such rights in such manner may result in a greater loss in performance of the Fund Linked Notes than if the Issuer had taken different action.

A fund may be established as part of a master-feeder fund structure. Generally, a master-feeder fund structure involves the incorporation of a "master" fund company into which separate and distinct "feeder" funds invest. Active management of any investment strategy is, generally, performed at the master fund level. In instances where the fund(s) underlying the relevant Fund Linked Notes are "feeder" funds, the Extraordinary Fund Events extend to include the "master" fund and its service providers.

### **Risks Relating to ETF Linked Notes**

*An investment in ETF Linked Notes is not comparable to an investment in a conventional debt security*

The Issuer may issue Notes where the amount of principal and/or interest payable in respect of the Notes are dependent upon the price or changes in the price of units or shares in an exchange traded fund or funds ("**ETFs**") or, depending on the price or changes in the price of units or shares in such ETFs, where the Issuer's obligation on redemption is to deliver a specified amount of fund shares ("**ETF Linked Notes**"). Accordingly an investment in ETF Linked Notes may bear similar market risks to a direct ETF investment but also entail significant risks not associated with an investment in a conventional ETF investment. Depending on the terms of the ETF Linked Notes (i) no or a limited amount of interest may be payable to Holders, (ii) payment of principal or interest or delivery of any specified ETF Shares may occur at a different time than expected and (iii) Holders may lose all or a substantial portion of their investment. In addition, the movements in the price of units, shares or interests in the ETFs may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the ETFs may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change

## RISK FACTORS

in the price or prices of the units, shares or interests in the ETFs, the greater the effect on yield and the return for investors.

*Holder will be exposed to the volatility of the market price of ETF Linked Notes*

The market price of ETF Linked Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of units or shares in the ETFs. The price of units or shares in an ETF may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units or shares in the ETFs may be traded. In addition, the price of units or shares in an ETF may be affected by the performance of the fund service providers, and, in particular, the investment advisor. None of the Issuer, the Guarantor, any affiliate of the Issuer or Guarantor or the Calculation Agent make any representation as to the creditworthiness of any relevant ETF or any such fund's administrative, custodian, investment manager or adviser.

*The value of ETF Linked Notes is linked to the performance of the underlying ETFs which may affect the overall return on investment*

The relevant ETFs may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. The relevant ETFs may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of ETFs are often opaque. The ETFs, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities. Consequently, Holders may be exposed to the volatility in the performance of the ETFs which may affect the overall return on their investment.

*Holder may receive physical delivery of ETF Shares in lieu of payment of cash amounts*

Where the ETF Linked Notes include the right of the Issuer, subject to the fulfilment of a particular condition, to redeem such Notes at their maturity by delivering ETF Shares to the purchaser of such Notes, the purchasers will receive such ETF Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the issuer of such ETF Shares and the risks associated with such ETF Shares. The purchaser should not assume that the Noteholder will be able to sell such ETF Shares for a specific price after the redemption of the Notes, and in particular not for the purchase price of the ETF Linked Notes. Under certain circumstances the ETF Shares may only have a very low value or a value of zero. Noteholders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such ETF Shares.

*The occurrence of Potential ETF Events or Extraordinary ETF Events may adversely affect the value or liquidity of the ETF Linked Notes*

In the event of the occurrence of certain events ("**Potential ETF Events**"), the Calculation Agent may seek to make adjustments in accordance with the ETF Linked Conditions which may reduce the overall return on investment. If certain events ("**Extraordinary ETF Events**") including events in the determination of the Calculation Agent occur, the Issuer may, take no action, require the Calculation Agent, in its sole and absolute discretion, to determine the adjustments (if any) to be made to the terms of the ETF Linked Notes to reflect such event, substitute the relevant ETF Shares or redeem the ETF Linked Notes. Consequently the occurrence of an Extraordinary Fund Event may have an adverse effect on the value or liquidity of the ETF Linked Notes.

The Issuer will exercise its rights under the ETF Linked Note Conditions, including in particular the action it takes on the occurrence of an Extraordinary ETF Event, in its sole and absolute discretion. Subject to all regulatory obligations, none of the Issuer, the Guarantor, any Dealer or the Calculation Agent owes any duty or responsibility to any of the Holders of the ETF Linked Notes. The exercise of such rights in such manner may result in a greater loss in performance of the ETF Linked Notes than if the Issuer had taken different action.

### **Risks Relating to Equity Linked Notes**

*Investors have no shareholder rights*

As an owner of Equity Linked Notes, investors will not have voting rights or rights to receive dividends, interest or other distributions, as applicable, or any other rights with respect to any underlying security or index.

### *Risk of automatic early redemption in respect of Equity Linked Notes*

In relation to certain Equity Linked Notes, Equity Linked Notes will be automatically redeemed prior to their maturity if certain conditions specified in the relevant Applicable Transaction Terms are met. Notes of this type have an uncertain maturity date. Where such Notes are redeemed prior to their scheduled maturity date, investors may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the equivalent Equity Linked Notes.

### ***Risks Common to Equity Linked and Inflation Linked Notes***

*Investors are exposed to certain key risks, including a loss of all or a substantial portion of their investment*

An investment in Equity Linked or Inflation Linked Notes entails certain risks as set out below, which may vary depending on the specification and type or structure of the Equity Linked or Inflation Linked Notes. Potential investors in Equity Linked or Inflation Linked Notes should be aware that:

- (a) they may lose all or a substantial portion of their principal or investment, depending on the performance of each relevant underlying security or index;
- (b) the market price of such Equity Linked or Inflation Linked Notes may be very volatile;
- (c) investors in Equity Linked or Inflation Linked Notes may receive no interest;
- (d) a relevant underlying security or index may be subject to significant fluctuations that may not correlate with changes in securities prices, indices or inflation indices;
- (e) any Dividend Index may carry additional specific risks not associated with a normal share index, in particular since such index will relate to dividend payments, if any, of relevant reference shares, instead of share prices;
- (f) if a relevant underlying security or index is applied to Equity Linked Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the relevant underlying security or index on principal or interest payable on such Inflation Linked Notes is likely to be magnified; and
- (g) the timing of changes in a relevant underlying security or index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant underlying security or index, the greater the effect on yield.

Prospective investors should refer to the "*Investment Considerations*" section and in particular the section therein entitled "*Considerations Relating to Equity Linked and Inflation Linked Notes – Considerations relating to whether an investment in Equity Linked and Inflation Linked Notes is suitable for a particular investor*".

*The value of Equity Linked and Inflation Linked Notes may be substantially reduced by unpredictable factors beyond the Issuer's and the Guarantor's control*

The value of the Equity Linked Notes or Inflation Linked Notes may be substantially reduced by several factors beyond the Issuer's and the Guarantor's control including:

1. *Valuation of the relevant underlying security or index.* The market price or value of an Equity Linked Note or Inflation Linked Note at any time is expected to be affected primarily by changes in the price, level or value of the relevant underlying security or index to which the Equity Linked Notes or Inflation Linked Notes are linked. As a consequence, the value of the underlying security or index may be subject to significant fluctuations that may not correlate with changes in prices or inflation indices and securities move generally. It is impossible to predict how the price, level or value of the relevant underlying security or index will vary over time. The historical performance value (if any) of the relevant underlying security or index does not indicate the future performance of the relevant underlying security or index. Factors which may have an effect on the price, level or value of the relevant underlying security or index include the rate of return of the relevant underlying security or index and, where relevant, the financial position and prospects of the issuer of the relevant underlying security or index, the market price, level or value of the applicable underlying security, index, or inflation index, or basket of securities, indices, or inflation indices. In addition, the price, level or value of the relevant underlying security or index may depend on

## RISK FACTORS

a number of inter-related factors, including economic, financial and political events and their effect on the capital markets generally and relevant stock exchanges. Potential investors should also note that while the value of the Equity Linked or Inflation Linked Notes is linked to the relevant underlying security or index and will be influenced (positively or negatively) by the relevant underlying security or index, any change may not be comparable and may be disproportionate. It is possible that while the relevant underlying security or index is increasing in value, the value of the Equity Linked Notes or Inflation Linked Notes may fall. Further, the Additional Terms and Conditions of the Equity Linked Notes or Inflation Linked Notes will allow the Calculation Agent to make adjustments or take any other appropriate action if circumstances occur where the Equity Linked or Inflation Linked Notes or any exchanges or price sources are affected by market disruption, adjustment events or circumstances affecting normal activities;

2. *Volatility.* The term "volatility" refers to the actual and anticipated frequency and magnitude of changes of the market price, level or value with respect to a relevant underlying security or index. Volatility is affected by a number of factors, such as macroeconomic factors (i.e. those economic factors which have broad economic effects), speculative trading and supply and demand in the options, futures and other derivatives markets. Volatility of a relevant underlying security or index will move up and down over time (sometimes more sharply than at other times) and different relevant underlying security or index will most likely have separate volatilities at any particular time;
3. *Dividend rates and other distributions.* The value of certain Equity Linked Notes could, in certain circumstances, be affected by fluctuations in the actual or anticipated rates of dividend (if any) or other distributions on a relevant underlying security;
4. *Interest rates.* Investments in the Equity Linked Notes or Inflation Linked Notes may involve interest rate risk. The interest rate level may fluctuate on a daily basis and cause the value of the Equity Linked Notes or Inflation Linked Notes to change on a daily basis. The interest rate risk is a result of the uncertainty with respect to future changes of the market interest rate level. In general, the effects of this risk increase as the market interest rates increase;
5. *Remaining term.* Generally, the effect of pricing factors over the term of Equity Linked Notes or Inflation Linked Notes will decrease as the maturity, date approaches. However, this reduction in the effect of pricing factors will not necessarily develop consistently up until the maturity date, but may undergo temporary acceleration and/or deceleration. Even if the price, level or value of the relevant underlying share or index rises or falls there may be a reduction or increase, as the case may be, in the value of Equity Linked Notes or Inflation Linked Notes due to the other value determining factors. Given that the term of Equity Linked Notes or Inflation Linked Notes is limited, investors cannot rely on the price, level or value of the relevant underlying share or index or the value of the Equity Linked Notes or Inflation Linked Notes recovering again prior to maturity;
6. *Creditworthiness.* Investors are relying upon the creditworthiness of the Issuer and the Guarantor and have no rights against any other person. If the Issuer or the Guarantor becomes insolvent, investors may suffer potential loss of their entire investment irrespective of any favourable development of the other value determining factors, such as a relevant underlying share or index; and
7. *Exchange Rates.* The value of Equity Linked Notes or Inflation Linked Notes could, in certain circumstances, be affected by such factors as fluctuations in the rates of exchange between any currency in which any payment in respect of the Equity Linked Notes or Inflation Linked Notes is to be made and any currency in which a relevant underlying share or index is traded, appreciation or depreciation of any such currencies and any existing or future or governmental or other restrictions on the exchangeability of such currencies. Rates of exchange between any relevant currencies which are current rates at the date of issue of the Equity Linked Notes or Inflation Linked Notes may not be representative of the relevant rates of exchange used in computing the value of the Equity Linked Notes or Inflation Linked Notes at any time thereafter.
8. *Timing of changes to the Inflation Index or the relevant component(s) of an Inflation Index.* The timing of changes in an Inflation Index or a relevant component(s) of an Inflation Index may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Inflation Index or the relevant component(s) of an Inflation Index, the greater the effect on yield.

## RISK FACTORS

Some or all of the above factors will influence the price that investors will receive if an investor sells its Equity Linked Notes or Inflation Linked Notes prior to maturity. Investors may have to sell certain Equity Linked Notes or Inflation Linked Notes at a substantial discount from the principal amount or investment amount if the market price, level or value of the applicable relevant underlying share or index is at, below, or not sufficiently above the initial market price, level or value or if market interest rates rise. The secondary market price of the Equity Linked Notes or Inflation Linked Notes may be lower than the market value of the issued Equity Linked Notes or Inflation Linked Notes as at the Issue Date to take into account, among other things, amounts paid to distributors and other intermediaries relating to the issue and sale of the Equity Linked Notes or Inflation Linked Notes and amounts relating to the hedging of the Issuer's obligations. As a result of all of these factors, any investor that sells the Equity Linked Notes or Inflation Linked Notes before the stated expiration or maturity date, may receive an amount in the secondary market which may be less than the then intrinsic market value of the Equity Linked Notes or Inflation Linked Notes and which may also be less than the amount and/or the value of the assets (if any) the investor would have received had the investor held the Equity Linked or Inflation Linked Notes through to maturity.

*Market Disruption Events and Disrupted Days may result in adjustments and/or early redemption of Notes*

The Calculation Agent may determine that a Market Disruption Event or a failure to open of an Exchange or Related Exchange has occurred or exists on a relevant date of valuation, and any consequential postponement of such date of valuation may have an adverse effect on the value of the Equity Linked or Inflation Linked Notes.

In addition, the Calculation Agent may make adjustments to Equity Linked or Inflation Linked Notes to account for relevant adjustments or events in relation to the relevant underlying share or index including, but not limited to, determining a successor to the relevant underlying share or index or its sponsor (in the case of an index). In addition, in certain circumstances, the Issuer may redeem the Equity Linked or Inflation Linked Notes prior to the Maturity Date following any such event. In this case, in relation to each Equity Linked or Inflation Linked Note, the Issuer will pay an amount, if any, determined as provided in the Terms and Conditions.

*There may be correlation risk in the use of Equity Linked or Inflation Linked Notes as hedging instruments*

Any person intending to use Equity Linked or Inflation Linked Notes as a hedging instrument should recognise the "correlation risk" of doing this. Correlation risk is the potential differences in exposure for a potential investor that may arise from the ownership of more than one financial instrument. Equity Linked or Inflation Linked Notes may not hedge exactly a relevant underlying security or index or portfolio of which a relevant security or index forms a part. In addition, it may not be possible to liquidate Equity Linked or Inflation Linked Notes at a price which directly reflects the price, level or value of the relevant underlying security or index or portfolio of which a share or index forms part. Potential investors should not rely on the ability to conclude transactions during the term of the Equity Linked or Inflation Linked Notes to offset or limit the relevant risks. This depends on the market situation and the specific relevant underlying security or index conditions. It is possible that such transactions will only be concluded at an unfavourable market price, resulting in a corresponding loss for the Noteholder.

*There are additional risks in relation to Equity Linked Notes or Inflation Linked Notes linked to a single emerging market security, a single emerging market index, or a basket of securities or a basket of indices composed, in part or in whole, of emerging market securities or indices*

Fluctuations in the trading prices of the underlying emerging market equity will affect the value of Equity Linked Notes or Inflation Linked Notes. Changes may result over time from the interaction of many factors directly or indirectly affecting economic and political conditions in the related countries or member nations, including economic and political developments in other countries. Of particular importance to potential risks are: (i) rates of inflation; (ii) interest rate levels; (iii) balance of payments; and (iv) the extent of governmental surpluses or deficits in the relevant country. All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the related countries, the governments of the related countries and member nations (if any), and other countries important to international trade and finance. Government intervention could materially and adversely affect the value of such Equity Linked or Inflation Linked Notes. Governments use a variety of techniques, such as intervention by their central bank or imposition of regulatory controls or taxes to affect the trading of the underlying equity. Thus, a special risk in purchasing such Equity Linked or Inflation Linked Notes is that their trading value and amount payable and/or the value of the assets (if any) deliverable at maturity could be affected by the actions of governments, fluctuations in response to other market forces and the movement of currencies across borders. Emerging markets stocks may be more volatile than the stocks in more developed markets.

## RISK FACTORS

*Liquidity may affect the pricing of the relevant underlying security or index on Equity Linked and Inflation Linked Note*

The Issuer's and its affiliates' hedging costs tend to be higher the less liquidity the relevant underlying security or index has or the greater the difference between the "buy" and "sell" prices for the relevant underlying security or index or derivatives contracts referenced to the relevant underlying security or index. When quoting prices for Equity Linked or Inflation Linked Notes, the Issuer will factor in such hedging costs and will pass them on to the Noteholders by incorporating them into the "buy" and "sell" prices. Thus, Noteholders selling their Equity Linked or Inflation Linked Notes on an exchange or on the over-the-counter market may be doing so at a price that is substantially lower than the actual value of the Equity Linked or Inflation Linked Notes at the time of sale.

*The Issuer and the Guarantor may deal with underlying companies but do not control them*

The Issuer or the Guarantor or their respective subsidiaries may presently or from time to time engage in business with any underlying company, including entering into loans with, or making equity investments in, the underlying company or its affiliates or subsidiaries or providing investment advisory services to the underlying company, including merger and acquisition advisory services. Moreover, neither the Issuer nor the Guarantor has the ability to control or predict the actions of the underlying company or index publisher, including any actions, or reconstitution of index components, of the type that would require the calculation agent to adjust the payout to the investor at maturity.

*Fluctuations in the value of components of underlying securities or indices may be offset by other fluctuations and there may be exchange rate risk*

Fluctuations in the value of any one component of the relevant underlying security or index may, where applicable, be offset or intensified by fluctuations in the value of other components. Where the value of the components of the relevant underlying security or index is determined in a different currency to the value of the relevant underlying security or index, investors may be exposed to exchange rate risk.

*Exchange rates and exchange controls may affect the value or return of the Equity Linked or Inflation Linked Notes*

Investors in an Equity Linked or Inflation Linked Note denominated in, or the return on which is linked to value for a relevant underlying security or index denominated in currencies other than an investor's home currency are exposed to the risk of significant changes in rates of exchange between its home currency and the other relevant currencies and the possibility of the imposition or modification of exchange controls by the relevant governmental authorities. These risks generally depend on economic and political events over which the Issuer has no control. Depreciation against the investor's home currency or the currency of the return on an Equity Linked or Inflation Linked Note would result in a decrease in the effective yield of the Equity Linked or Inflation Linked Note below its coupon rate and could result in an overall loss to an investor on the basis of the investor's home currency.

In addition, investors in UVR Inflation-Adjusted Notes, UDI Inflation-Adjusted Notes or UF Inflation-Adjusted Notes should understand that the payments in respect of such Notes are adjusted by reference to the UVR Index, UDI Index or UF Index, as applicable, in effect on the applicable payment date and so the return for investors is exposed to fluctuations in the relevant rate. In addition if certain changes are made in relation to such rate and other factors then the Calculation Agent is entitled to determine consequential adjustments to the Conditions or to determine that the Notes will be repayable at the Early Redemption Amount. In either case this means that investors will be exposed to the risk that such changes to the relevant rate occur and this may reduce the return on the Notes for investors.

### ***Risks relating to Foreign Exchange (FX) Rate Linked Notes***

*Investors may lose all or a substantial portion of their investment*

Potential investors in any such Notes should be aware that, depending on the terms of the Foreign Exchange (FX) Rate Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of assets may occur at a different time or in a different currency than expected and (iii) they may lose a substantial portion or all of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

## RISK FACTORS

*Movements in the foreign exchange rate(s) to which the Foreign Exchange (FX) Rate Linked Notes are linked may adversely affect the value of and return on the Foreign Exchange (FX) Rate Linked Notes*

The Issuer may issue Notes where the amount of principal and/or interest payable in respect of the Notes are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Notes are denominated ("**Foreign Exchange (FX) Rate Linked Notes**"). Accordingly an investment in Foreign Exchange (FX) Rate Linked Notes may bear similar market risks to a direct foreign exchange investment.

The foreign exchange rate(s) to which the Notes are linked will affect the nature and value of the investment return on the Notes. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency. Where the Notes are linked to the currency of an emerging market jurisdiction, such risks may be magnified – see "*Risks in relation to emerging market currencies*" below.

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

*The occurrence of disruption events may result in the restriction or variation of payments and other obligations under the Foreign Exchange (FX) Rate Linked Notes*

Payments of principal and interest or other obligations of the Issuer in respect of any Foreign Exchange (FX) Rate Linked Notes may be restricted or varied upon the occurrence of certain disruption events applicable to the Notes. A relevant disruption event for an exchange rate may relate to the inability to obtain a price for the exchange rate from the applicable price source(s), illiquidity, the split of any relevant currency into a dual exchange rate, inconvertibility, non-transferability, a material change in circumstances in the jurisdiction of the Subject Currency that makes it impossible to fulfil certain hedging arrangements, a nationalisation or variations in the prices quoted for the exchange on different sources being greater than a specified percentage threshold (or not quoted for by members of a survey used to determine such source) if specified for that rate in the terms and conditions of the Notes and/or the Applicable Transaction Terms.

Following a relevant disruption event, the applicable valuation date may be postponed so long as the relevant disruption event continues, the Calculation Agent may determine the applicable exchange rate, the Notes may be redeemed early (or on the originally designated date) by payment of the applicable early redemption amount rather than any amount that would have otherwise been calculated in respect of and due on the relevant date, the related date for payment or delivery may be deferred so long as the relevant disruption event continues or a fallback reference price source or sources may be used to calculate the rate instead of the originally designated price source. Consequently, investors are exposed to the risk of an adverse effect on (i) the value of, and/or amounts or assets due in respect of, the Notes due to the occurrence of any disruption event and application of the related disruption fallback(s); or (ii) an investor's investment schedule, timetable or plans if any due date for payment and/or delivery under the Notes is postponed as a consequence of a disruption event.

*Risks in relation to emerging market currencies*

Where the Notes are denominated in an emerging market currency or linked to one or more emerging market currency, amounts determined to be due or deliverable in respect of such Notes may be significantly more volatile and subject to less certainty as to future rates than if the Notes were linked to currencies of more developed markets. For example, emerging markets' currencies are highly exposed to the risk of a currency crisis occurring in the future.

In particular, policies or actions of any relevant governments of the jurisdictions of the Subject Currencies and Base Currencies (the "**Currency Jurisdictions**") could adversely affect the relevant exchange rate(s) (such as through market interventions of their central banks or equivalent bodies; governmental action which changes or

interferes with currency valuations or currency fluctuations that would otherwise occur in response to economic forces; and restrictions on foreign investment and currency convertibility or movement across borders). Non-governmental action may also directly or indirectly adversely affect the relevant exchange rates (such as through weak overall growth and performance of each applicable Currency Jurisdiction's economy and stock exchanges; political, economic and social uncertainty, including risks of nationalisation and expropriation of assets and natural disasters; or wars which affect any Currency Jurisdiction directly or indirectly).

Investors should note that the risk of occurrence and the severity of consequence of the matters described above may be greater with respect to any emerging market jurisdiction than they otherwise would be in relation to more developed countries. Economies in emerging markets are generally more heavily dependent upon international trade, and accordingly, may be affected adversely by trade barriers, foreign exchange controls (including taxes), managed adjustments in relative currency values and other protectionist measures imposed or negotiated with countries with which they trade.

The occurrence of any of the above circumstances may have an adverse effect on the value of the Notes and amounts due or assets deliverable, or the date for payment thereunder.

### ***General risks relating to Credit Linked Notes***

*There are specific risks relating to Credit Linked Notes*

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more entities (together "**Reference Entities**" and each, a "**Reference Entity**") and, if so, on the value of certain specified debt obligations of such Reference Entity(ies) or, where, if such events have occurred, the Issuer's obligation is to deliver certain specified assets upon redemption of the Notes.

Prospective investors in any such Notes should be aware that depending on the terms of the Credit Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of such Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the reference entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions, over which neither the Issuer nor Guarantor has control.

This Base Prospectus contains Additional Terms and Conditions for Credit Linked Notes with terms based on (but not identical to) the 2014 Credit Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. (the "**2014 ISDA Definitions**") which are set out in "*Annex 5 – Additional Terms and Conditions for Credit Linked Notes*". In this respect investors should have regard to the risk factor entitled "*ISDA Credit Derivatives Definitions*".

The Issuer's obligations in respect of Credit Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a reference entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

*If Credit Linked Redemption is applicable the occurrence of Credit Events may affect the redemption date of the Notes*

Credit Linked Notes in respect of which Credit Linked Redemption is applicable may be redeemed prior to their scheduled maturity, save where: (i) Maturity Credit Redemption applies; or (ii) the Notes are Tranching Linear Basket Credit Linked Notes or Tranching Index Credit Linked Notes or Basket Tranching Credit Linked Notes or Long/Short Credit Linked Notes; or (iii) the Notes are Non-Tranching Linear Basket Credit Linked Notes or Non-Tranching Index Credit Linked Notes where Credit Payment on Maturity applies. However, where the Credit Event Redemption Amount payable in respect of Notes described in (ii) or (iii) of the foregoing section is zero and Credit Linked Redemption is applicable, the Notes will be redeemed early. Where such Notes are redeemed early following a Credit Event, investors may lose some or all of the principal invested and will not receive the full amount of interest (if any) to the extent that interest on the Note is also Credit Linked.

Where Maturity Credit Redemption applies or where the Notes are Non-Tranching Linear Basket Credit Linked Notes or Non-Tranching Index Credit Linked Notes where Credit Payment on Maturity Applies (as specified in

## RISK FACTORS

the Applicable Transaction Terms) or where the Notes are Tranched Linear Basket Credit Linked Notes, Tranched Index Credit Linked Notes, Basket Tranched Index Credit Linked Notes or Long/Short Credit Linked Notes, in each case in respect of which Credit Linked Redemption is applicable, maturity of the Credit Linked Notes may be delayed until scheduled maturity of the Credit Linked Notes. Investors may therefore be forced to wait a significant time following the occurrence of the relevant Credit Event before they receive the redemption amount owed (if any).

*If Credit Linked Redemption is applicable, the occurrence of a Credit Event may affect the amount payable or deliverable on redemption of the Notes*

Where Credit Linked Redemption is applicable and cash settlement or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes in a reduced principal amount or at zero meaning that investors may lose some or all of the principal amount invested.

Where Credit Linked Redemption is applicable and physical settlement applies, the occurrence of a Credit Event may result in the redemption of the Notes by delivery of certain direct or indirect obligations of the affected Reference Entity, which obligations are likely to have a market value which is substantially less than their par amount. Where the Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which, for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans), are impossible or illegal to deliver on the specified settlement date, or (b) assets which the Issuer, the Guarantor and/or any affiliate has not received under the terms of any transaction entered into by the Issuer, the Guarantor and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption.

*Increased credit risk is associated with "First-to-Default" or "Nth-to-Default" Credit Linked Notes, Linear Basket Credit Linked Notes or Index Credit Linked Notes or Long/Short Credit Linked Notes*

Where the Notes are Single Reference Entity Credit Linked Notes, First-to-Default or Nth-to-Default Credit Linked Notes, and Credit-Linked Redemption is applicable, the Notes may be subject to redemption in full as described above as a consequence of the occurrence of a Credit Event in relation to a single Credit Event the first or the nth Reference Entity in respect of which a Credit Event occurs either shortly after such credit event or, where Maturity Credit Redemption is applicable, at the scheduled maturity date.

Where the Notes are Non-Tranched Linear Basket Credit Linked Notes or Non-Tranched Index Credit Linked Notes, and Credit-Linked Redemption is applicable, where Credit Payment As You Go applies, the Notes may be subject to redemption in part upon the occurrence of a Credit Event in relation to each Reference Entity in respect of which a Credit Event occurs unless Maturity Credit Redemption is applicable in which case such Notes shall only be redeemed at the scheduled maturity date.

Where the Notes are Tranched Linear Basket Credit Linked Notes, the redemption amount of the Notes will only be reduced as described above upon the occurrence of a Credit Event in relation to a number greater than the L (being the lower tranche level) number of Reference Entities specified in the Applicable Transaction Terms but will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to a number equal to or greater than the H (being the higher tranche level) number of Reference Entities specified in the Applicable Transaction Terms. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Notes are Tranched Index Credit Linked Notes or Basket Tranched Index Credit Linked Notes, the redemption amount of the Notes will only be reduced as described above upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage exceeding the Attachment Point specified in the Applicable Transaction Terms or the Aggregate Loss Percentage in respect of a Basket Tranched Index Component exceeding the Attachment Point for that Basket Tranched Index Component specified in the Applicable Transaction Terms, as the case may be, but will be subject to redemption in full as described above upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage, being equal to or greater than the Exhaustion Point specified in the Applicable Transaction Terms or the Aggregate Loss Percentage in respect of each Basket Tranched Index Component exceeding the Attachment Point for that Basket Tranched Index Component specified in the

## RISK FACTORS

Applicable Transaction Terms, as the case may be. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Notes are Long/Short Credit Linked Notes, the Notes will be redeemed at an amount that is equal to the sum of the Long Redemption Amount and the Short Redemption Amount. The occurrence of Credit Events may result in a reduction of the Long Redemption Amount but an increase in the Short Redemption Amount, depending on the Long Exposure or Short Exposure selected and the relevant Reference Entities. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

*If Credit Linked Interest is applicable, the occurrence of Credit Events may reduce the interest payable on the Notes*

In the case of Single Reference Entity Credit Linked Notes or First-to-Default Credit Linked Notes in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date no further interest will accrue on the Notes. In the case of Nth-to-Default Credit Linked Notes in respect of which Credit Linked Interest is applicable, following the occurrence of a Trigger no further interest will accrue on the Notes. In any such circumstances, interest may cease to accrue from the Credit Event Determination Date or from the Interest Payment Date immediately preceding the Credit Event Determination Date or Trigger, depending on the elections made in the Applicable Transaction Terms.

In the case of Tranche Linear Basket Credit Linked Notes in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date with respect to a number of Reference Entities that is greater than the L (being the lower tranche) number of Reference Entities specified in the Applicable Transaction Terms and each subsequent Credit Event Determination Date thereafter, interest that is subject to the Credit Linked provisions will accrue on a decreased principal amount of the Notes until a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or greater than the H (being the higher tranche) number of Reference Entities specified in the Applicable Transaction Terms and at which point no further interest shall be due in respect of the Notes.

In the case of Tranche Index Credit Linked Notes or Basket Tranche Index Credit Linked Notes, following the occurrence of a Credit Event Determination Date with respect to which the Aggregate Loss Percentage in respect of which a Credit Event Determination Date has occurred, exceeds the Attachment Point, (being the lower tranche specified in the Applicable Transaction Terms) or, in the case of Basket Tranche Index Credit Linked Notes, the Aggregate Loss Percentage in respect of a Basket Tranche Index Component exceeds the Exhaustion Point in respect of that Basket Tranche Index Component and each subsequent Credit Event Determination Date thereafter, if Credit Linked Interest is applicable interest will accrue on a decreased principal amount of the Notes until the Scheduled Maturity Date or until a Credit Event Determination Date has occurred with respect to a number of Reference Entities such that Aggregate Loss Percentage is equal to or greater than the Exhaustion Point (being the upper tranche specified in the Applicable Transaction Terms) or, in the case of Basket Tranche Index Credit Linked Notes, the Aggregate Loss Percentage in respect of each Basket Tranche Index Component is equal to or greater than the Exhaustion Point in respect of that Basket Tranche Index Component and at which point no further interest amounts shall be due in respect of the Notes.

In the case of Long/Short Credit Linked Notes in respect of which Credit Linked Interest is applicable, following the occurrence of a Credit Event Determination Date in respect of a Reference Entity referenced in the Long Exposure, interest may accrue on a decreased principal amount of the Notes and may cease to accrue entirely, depending on the nature of the Long Exposure specified in the Applicable Transaction Terms.

### *Reference Entity Credit Risk*

The holders of Credit Linked Notes will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the Applicable Transaction Terms, to the full extent of their investment in such Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Noteholders should also note that a Credit Event may

## RISK FACTORS

occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

Investors in the Notes are accordingly exposed, as to (if Credit Linked Redemption is applicable) principal and (if Credit Linked Interest is applicable) interest, to the credit risk of one or more Reference Entities. The maximum loss to an investor in the Notes is (if Credit Linked Redemption is applicable) 100 per cent. of their initial principal investment, together with (if Credit Linked Interest is applicable) any accrued interest amounts.

For Index Credit Linked Notes and Long/Short Credit Linked Notes that reference an Index, the Reference Entities and the Reference Obligations as of the Issue Date of the Credit Linked Notes will be those set out in the Index Annex, being the list for the relevant Markit iTraxx® Europe Index (in the case of iTraxx Non-Tranched Index Credit Linked Notes or iTraxx Tranched Index Credit Linked Notes) or Markit CDXTM Index (in the case of CDX Non-Tranched Index Credit Linked Notes or CDX Tranched Index Credit Linked Notes) with the Annex Date specified in the Applicable Transaction Terms, as published by the Index Publisher (being Markit Group Limited as of the date of this Base Prospectus). Any determinations by the Index Sponsor (being Markit Indices Limited in the case of iTraxx Non-Tranched Index Credit Linked Notes and iTraxx Tranched Index Credit Linked Notes and Markit North America, Inc. in the case of CDX Non-Tranched Index Credit Linked Notes and CDX Tranched Index Credit Linked Notes, in each case as of the date of this Base Prospectus) with respect to replacement Reference Obligations and/or Successors (subject, in relation to Successors, to the further determination provisions set out in the Credit Linked Conditions), will apply for the purposes of the Credit Linked Notes and any such determinations and resulting changes in Reference Obligations and/or Reference Entities may have an adverse effect on the value of such Notes.

Additionally, if ISDA publicly announces one or more replacement Reference Obligations and/or Successors prior to the Trade Date but following the "Roll Date" (in the case of iTraxx Non-Tranched Index Credit Linked Notes or iTraxx Tranched Index Credit Linked Notes) or the "Effective Date" (in the case of CDX Non-Tranched Index Credit Linked Notes or CDX Tranched Index Credit Linked Notes) specified in the Index Annex, such replacement Reference Obligations and/or Successors will apply for the purposes of the Credit Linked Notes, notwithstanding that such announcement occurred prior to the Trade Date, and any such announcements and resulting changes in Reference Obligations and/or Reference Entities may have an adverse effect on the value of such Notes.

*Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities, including for Zero/Set Recovery Notes, Tranched Linear Basket Credit Linked Notes, Tranched Index Credit Linked Notes, Basket Tranched Index Credit Linked Notes and Long/Short Credit Linked Notes*

Interest and principal repayments on the Notes may be calculated by reference to the outstanding principal amount of the Notes. As at the Issue Date the outstanding principal amount is an amount equal to the Aggregate Principal Amount. If a Credit Event occurs in respect of a Reference Entity, then the outstanding principal amount may be reduced for the purposes of the determination of interest (if Credit Linked Interest is applicable) and/or the amount payable on redemption (if Credit Linked Redemption is applicable) by an amount equal to a predefined portion of the Aggregate Principal Amount (which may be one hundred percent of such predefined portion resulting in such portion of the outstanding principal amount being reduced in full) irrespective of the actual market recovery in respect of such Reference Entity. Therefore investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire principal amount invested.

*There is a risk that the Notes could be affected by a Credit Event or succession that took place prior to the Trade Date*

In respect of a Credit Event relating to a Series of Credit Linked Notes, a Credit Event will not be determined by the Credit Derivatives Determinations Committee unless a request for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event or circumstances constitutes a Credit Event is submitted to the DC Secretary within 60 calendar days of the occurrence of such event or circumstances unless a Credit Event Determination Date has already occurred with respect to such event. For the purposes of the succession provisions the look-back period is 90 calendar days and functions similarly. These provisions mean that there is a time limit on the ability to act on a Credit Event or succession and that it is possible that the Notes could be affected by a Credit Event or succession that took place prior to the Trade Date if Auction Settlement is specified as the applicable Settlement Method for a Series of Notes in the relevant Applicable Transaction Terms.

### *Amendment of Credit Linked Conditions in accordance with market convention*

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions or hedging arrangements of the Issuer. Any such adjustment may amend the Notes in a way that is adverse to the Noteholders and may have a negative impact on the value of the Notes.

### *ISDA Credit Derivatives Definitions*

Whilst there are many similarities between the terms used in this Base Prospectus and the 2014 ISDA Definitions, there are also many substantial differences and a prospective investor should understand that the complete terms and conditions of the Notes are as set out in this Base Prospectus and the Applicable Transaction Terms only and that the 2014 ISDA Definitions are not incorporated by reference to either. Consequently, investing in Credit Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates either the 2003 ISDA Definitions or the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how either set of the ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Notes and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Noteholders.

### *Risks relating to Auction Settlement of Credit Linked Notes*

Where an Auction Final Price Determination Date occurs in respect of Credit Linked Notes, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at [www.isda.org](http://www.isda.org) (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Noteholders may have little or no influence in the outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their Affiliates) shall be under any obligation to consider the interests of any Noteholder and, as a result, may take action that is adverse to the interests of Noteholders.

### *Cheapest to deliver risk*

Where Physical Settlement is applicable, upon the occurrence of a Credit Event Determination Date, the Calculation Agent has the discretion to select Deliverable Obligations of the Reference Entity for delivery to the Noteholders. It is likely that the Deliverable Obligations selected by the Calculation Agent are obligations of the Reference Entity with the lowest market value that are permitted to be delivered in accordance with the terms of the Notes. In addition, the Deliverable Obligations may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Deliverable Obligation. The Calculation Agent has no liability to account to the Noteholders or any other person for any profit or other benefit to it or any of its affiliates which may result directly or indirectly from such selection.

### *Cheapest to value risk*

Where Cash Settlement is applicable, upon the occurrence of an Event Determination Date, the Calculation Agent has the discretion to select Valuation Obligations of the Reference Entity for valuation in order to determine the Final Price. It is likely that the Valuation Obligations selected by the Calculation Agent are obligations of the Reference Entity with the lowest market value that are permitted to be valued in accordance with the terms of the Notes. This could result in a lower recovery value and hence greater losses for Noteholders. In addition, the Valuation Obligations may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Valuation Obligation which in turn would result in a lower recovery value for Noteholders.

### *Failure to deliver an Asset Transfer Notice in respect of physically settled Credit Linked Notes may result in a Noteholder receiving its share of the Entitlement*

Where, in respect of any Credit Linked Notes, Physical Settlement is specified as the relevant Settlement Method or applies as the relevant Fallback Settlement Method, and a Noteholder does not deliver a valid Asset Transfer Notice as contemplated under the Credit Linked Conditions, the Issuer may, but is not required to, elect to deliver to the relevant clearance system(s) the aggregate Entitlement in respect of such Notes, to be divided between and delivered to the relevant Noteholders by the relevant clearance system(s) in accordance with the rules of the relevant clearance system(s).

### ***Risks relating to EUA Contract Linked Notes***

#### *The occurrence of a Market Disruption Event relating to EUA Contract Linked Notes may have an adverse impact on Noteholders*

If a Market Disruption Event (as defined in EUA Contract Linked Condition 2 (Market Disruption) of Annex 8) occurs or is continuing on a date for valuation in respect of EUA Contract Linked Notes, then the Issuer may take no action, require the Calculation Agent, in its sole and absolute discretion, to determine the adjustments (if any) to be made to the terms of the EUA Contract Linked Notes to reflect such event, or redeem the EUA Contract Linked Notes. Any such adjustment or early redemption of the Notes may have an adverse effect on the value and liquidity of such Notes and accordingly the amount Noteholders can expect to receive on their investment.

#### ***Risk Relating to Early Redemption***

If the Applicable Transaction Terms specified that "EUA Contract Early Redemption Amount" is applicable, investors should be aware that such Notes are subject to early redemption for taxation reasons, on an event of default and, at the discretion of the Issuer or Guarantor, on an occurrence of a Market Disruption Event. In such circumstances, the amount payable on an early redemption of such Notes will be determined by the Calculation Agent by reference, *inter alia*, to the EUA Value which may be a positive or negative value or zero depending on the relevant price of the EUA Contracts. The relevant prices of the EUA Contracts may fluctuate due to various factors and as such, affect the return on an investor's investment in such Notes.

#### *Additional risks associated with EUA Contract Linked Notes*

Trading in carbon emissions is a developing market and is highly speculative and volatile. The carbon emissions trading market has been and may again be subject to temporary distortions or other disruptions due to various factors, including the lack of liquidity in the market, the participation of speculators and government regulation and intervention. In addition, in respect of the emissions trading market in Europe, EU allowances have allegedly been stolen or "phished" from the national registries of several European countries and from the carbon trading accounts of market participants. This has caused severe market disruption in the European carbon trading market with delivery of EU allowances suspended for significant periods. Any such disruption in the future would have a detrimental impact on the value or settlement of EUA Contract Linked Notes referencing EUA Contracts.

#### *The Hedging Provider may hedge the Issuer's obligations under EUA Contract Linked Notes without regard to the interests of holders*

In hedging the Issuer's obligations under the EUA Contract Linked Notes, the Hedge Provider is not restricted to any particular hedging practice. Accordingly, the Hedge Provider may hedge its exposure using any method it, in its sole discretion, deems appropriate, including, but not limited to, investing in the EU emissions allowance contract(s) or trading in, and holding, any EU Allowance(s). The Hedge Provider may perform any number of different hedging practices with respect to EUA Contract Linked Notes and is not required to have regard to the

interests of holders of EUA Contract Linked Notes, notwithstanding that its actions may ultimately result in holders receiving a lower return on their investment.

#### 4. Legal and Regulatory Risks

##### *Risks in relation to regulatory treatment for Noteholders*

In Europe, the U.S. and elsewhere there is increased political and regulatory scrutiny of the derivatives and structured securities industries. This has resulted in a raft of measures for increased regulation which are currently at various stages of implementation and which may restrict investment in certain Notes, have an adverse impact on the regulatory position for certain investors and/or on the incentives for certain investors to hold Notes and may thereby also affect the liquidity of such Notes in the secondary market. Investors in the Notes are responsible for analysing their own regulatory position. Prospective investors should therefore make themselves aware of the changes and requirements applicable to them, in addition to any other applicable regulatory requirements with respect to their investment in the Notes.

##### *Transfers of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals will be null and void*

The sale, transfer or acquisition of Implicit Yield Notes (as defined in Condition 8 (*Taxation*) of the "Terms and Conditions of the Notes") other than Book-Entry Notes, including, but not limited to, Zero Coupon Notes, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as an owner of Implicit Yield Notes other than as an owner of Book-Entry Notes or (ii) list any Implicit Yield Notes other than Book-Entry Notes on AIAF, and Spanish Individuals who are Noteholders may lose all or a substantial part of their investment on such Notes.

##### *The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing any such "benchmarks"*

A number of interest rates and other published values, indices which are "benchmarks", (including the London interbank offered rate ("**LIBOR**") and the euro interbank offered rate ("**EURIBOR**") and other types of indices such as indices comprised of interest rates, equities, funds, foreign exchange rates and combinations thereof) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes referencing such a benchmark.

Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**") was published in the Official Journal of the EU on 29 June 2016 and mostly applied, subject to certain transitional provisions, from 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Among other things, it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities (such as the Guarantor) of benchmarks of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed), subject to certain transitional provisions. There are proposals to reform the EU Benchmarks Regulation (and significantly narrow the range of benchmarks to which it applies), but these changes are not in agreed form and are not expected to apply until 2026. Regulation (EU) 2016/1011 as it forms part of domestic law by virtue of the EUWA (the "**UK Benchmarks Regulation**") among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the FCA or registered on the FCA register (or, if non-UK based, subject to certain transitional provisions, not deemed equivalent or recognised or endorsed).

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to or referencing a benchmark in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark. More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks,

could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements.

In addition to so-called "critical benchmark" indices, such as EURIBOR, other interest rates, foreign exchange rates, and indices, including equity, commodity and "proprietary" indices or strategies, will in most cases be within scope of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including securities listed on an EU or UK regulated market, EU or UK multilateral trading facility, EU or UK organised trading facility or via a systematic internaliser).

Amongst other developments, relevant authorities are strongly encouraging the transition away from Interbank Offered Rates ("**IBORs**"), such as EURIBOR, and have identified "risk free rates" to take the place of such IBORs as primary benchmarks. This includes (i) for sterling LIBOR (now ceased), a reformed Sterling Overnight Index Average ("**SONIA**"), as the primary sterling interest rate benchmark, (ii) for EONIA (now ceased) and EURIBOR, a Euro Short-Term Rate ("**€STR**") as the primary euro risk free rate, and (iii) for USD LIBOR (now ceased other than 1, 3 and 6 month synthetic USD LIBOR, expected to continue until September 2024), the Secured Overnight Financing Rate ("**SOFR**") as the primary U.S. dollar interest rate benchmark. The risk free rates have a different methodology and other important differences from the IBORs they have or will eventually replace and have limited historical track record and may be subject to changes in their methodology. Any of these developments could result in reduced liquidity or increased volatility or could otherwise have a material adverse effect on the value of and return on Notes linked to any such rates. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

As a consequence, if these new rates do not prove to be widely used in securities like the Notes, the trading price of Notes that reference such rates may be lower than those of securities linked to rates that are more widely used. Investors may not be able to sell Notes that reference risk free rates at all or may not be able to sell such Notes at prices that will provide a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The Benchmarks Regulation was further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 which introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks (such as EONIA and CHF LIBOR) by conferring the power to designate a statutory replacement for said benchmarks on the Commission or the relevant national authority in certain circumstances, such replacement being limited to contracts and financial instruments (such as certain Notes) which contain no fall-back provision or no suitable fall-back provisions and where certain trigger events relating to non-representativeness or cessation or wind down of the benchmark are met. In general, parties can opt out of the statutory replacement where all parties, or the required majority of parties, to a contract or financial instrument have agreed to apply a different replacement for a benchmark before or after entry into force of the implementing act. A statutory replacement benchmark could have a negative impact on the value or liquidity of, and return on, certain Notes linked to or referencing such benchmark and may not operate as intended at the relevant time or may perform differently from the discontinued or otherwise unavailable benchmark.

In addition, Regulation (EU) 2023/2222 extended the transitional provisions applicable to third-country benchmarks until the end of 2025.

### *Constant Maturity Swap Rates (CMS Rates)*

In addition to referencing IBOR rates for purposes of the Notes, the Issuer may reference swap rates, such as constant maturity swaps or "CMS" rates. A number of swap rates that were previously based on swaps linked to an IBOR rate have now ceased and been replaced by swap rates based on swaps linked to a "risk free rate" (for example, GBP SONIA ICE Swap Rate and USD SOFR ICE Swap Rate). However, there is uncertainty as to how these new swap rates will perform (see "*IBOR-based swap rates*" below). Some swap rates are still linked to an IBOR rate (for example, the EUR ICE Swap Rate based on swaps linked to EURIBOR). Generally these are likely to become unavailable if the related IBOR rates were to become non-representative.

### *General Administration Benchmark Event*

In addition, under the terms of the Notes a General Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or cancelled, (2)(i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn or (3) it is not commercially reasonable to continue use of the benchmark due to licensing restrictions or increased licence costs or (4) a regulatory supervisor announces the benchmark is no longer, or as of a specified future date, will no longer be, representative of any relevant underlying market(s). The occurrence of a General Administrator/Benchmark Event may cause the Issuer to adjust the terms and conditions of the Notes or early redeem the Notes.

The Issuer has a wide discretion in making any adjustments following a General Administrator/Benchmark Event. Such adjustments may include selecting one or more successor benchmarks and making related adjustments to the Notes, including the application of an adjustment spread and, if applicable, adjustments to reflect increased costs. Such adjustments may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Notes if the original rate had continued to be published in its original form and used for the purposes of the Notes.

It is possible that a General Administrator/Benchmark Event or details of it are announced significantly in advance of action being appropriate in relation to the relevant Notes. The Issuer is only obliged to notify investors once it has determined the action to be taken as a result of the relevant event.

### *Reference Rate Event*

A Reference Rate Event may arise if, among other things, any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or cancelled or its use is prohibited, or (2)(i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, is rejected or refused or is withdrawn or suspended, (ii) the benchmark or the administrator or sponsor of the benchmark is not included in or is removed from an official register or does not fulfil any required legal or regulatory requirement, (iii) there is an official announcement that the administrator of the relevant benchmark has ceased or will cease to provide such Reference Rate and there is no successor administrator, (iv) the relevant benchmark is no longer representative or, as of a future specified date, will no longer be representative of any relevant underlying market and economic reality that it is intended to measure or (v) any event which otherwise constitutes an "index cessation event".

For any Notes that use a Reference Rate and where ISDA Determination and 2006 ISDA Definitions are specified in the Applicable Transaction Terms, the Priority Fallback following a Reference Rate Event may refer to actions that would be taken for a Floating Rate under an interest rate swap incorporating the 2006 ISDA Definitions. Supplement 70 to the 2006 ISDA Definitions (the "**ISDA IBOR Fallbacks Supplement**") includes fallbacks which will replace any Floating Rate that is a Relevant IBOR in circumstances broadly similar to a Reference Rate Event: in broad terms a permanent cessation of that Relevant IBOR. The ISDA IBOR Fallbacks Supplement also includes fallbacks in the event that a Relevant IBOR is temporarily unavailable. "**Relevant IBORs**" (some of which have already ceased, or are expected to cease in the near term), include EURIBOR, TIBOR, BBSW, CDOR, HIBOR, SOR, and THBFIX. Once the relevant trigger event takes effect, the Floating Rate will fall back to a term adjusted risk-free rate for the relevant currency plus a spread. It should be noted that the ISDA IBORs Fallbacks Supplement will not cover all possible Floating Rates and this risk factor should be read accordingly.

Where ISDA Determination and 2021 ISDA Definitions are specified in the Applicable Transaction Terms, fallbacks are specified for all Floating Rates that are included in the Floating Rate Matrix (each as defined in the 2021 ISDA Interest Rate Derivative Definitions (the "**2021 Definitions**")) to replace the relevant Floating Rate upon a permanent cessation of such Floating Rate and/or an announcement that such Floating Rate is no longer representative. Such fallbacks will result in either: (a) the relevant Floating Rate being replaced with a specified alternative rate set out in the 2021 Definitions; or (b) in circumstances where the 2021 Definitions would otherwise provide for the application of certain 'Generic Fallback Provisions' or 'Administrator/Benchmark Event Fallbacks', these events being subject to the consequences of a Reference Rate Event.

Where ISDA Determination and 2006 ISDA Definitions are specified in the Applicable Transaction Terms, potential investors in any Notes that reference a Reference Rate should be aware that if one of more Priority

## RISK FACTORS

Fallback(s) are specified in the definition of the relevant Floating Rate Option, then if a Reference Rate Cessation has occurred, where ISDA Determination applies the fallbacks in the ISDA IBOR Fallbacks Supplement shall apply, unless the Calculation Agent determines that (i) such application and/or any related adjustments would not achieve a commercially reasonable result for either the Issuer or the Noteholders, or (ii) it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, in which case the alternative fallback provisions set out in the Conditions shall apply.

In the event that one particular tenor of a Relevant IBOR is permanently discontinued, then for so long as there is a longer and a shorter tenor still available, no trigger event will occur. Instead, the Floating Rate will be determined by interpolating between the next shortest and next longest tenors. If there are no shorter or no longer tenors available, then the rate will fall back to a term-adjusted risk-free rate plus a spread.

Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made under the Notes if the previous rate had continued being published in its current form. Whilst IBORs are forward-looking term rates that embed bank credit risk, risk-free rates are overnight rates, in their term versions are normally compounded in arrears as backward-looking rates and are intended to be nearly risk-free. As such, investors should be aware that the fallback rates that will apply following a trigger event under the ISDA IBOR Fallbacks Supplement may behave materially differently as interest reference rates for the Notes.

The absence of bank credit risk in the risk-free-rates may have an adverse effect on the value of the Notes. Both the ISDA IBOR Fallbacks Supplement and the 2021 Definitions provide that the applicable risk-free-rates will be term-adjusted and there will be an adjustment spread applied which may be positive, negative or zero. This is intended to reduce any transfer of economic value due to the absence of a bank credit risk premium in the replacement risk-free-rate. However, if such adjustment spread is negative, it will mean a lower rate of interest is payable. Even where such adjustment spread is positive, there can be no assurance that the adjustment spread will fully mitigate the transfer of economic value between the Issuer and Noteholders and the adjustment spread is not intended, or able, to replicate the dynamic bank credit risk premium embedded in an IBOR.

Following the occurrence of a Reference Rate Event, where fallbacks based on the ISDA IBOR Fallbacks Supplement or the 2021 Definitions do not apply, the Calculation Agent will seek to determine (i) a replacement reference rate and (ii) the related adjustment spread required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Noteholders (or vice versa) that would otherwise arise as a result of the replacement of the Reference Rate with the replacement reference rate. If it determines the replacement reference rate and related adjustment spread, it may also determine such other amendments which it considers necessary or appropriate in order to replace the Reference Rate with the replacement reference rate and the terms and conditions shall be amended as of the cut-off date, being (A) the later of the date on which the Reference Rate ceases or becomes non-representative or 60 business days following the date of the relevant announcement or publication or (B) the later of the Issue Date and either (I) 60 business days following the date on which the Calculation Agent determines that the relevant event has occurred or (II) the date on which any material change or prohibition of use of the Reference Rate becomes effective or the date following any non-approval, rejection or suspension of any authorisation, registration or similar requirement on which the Issuer, the Calculation Agent or any other entity would not be permitted to perform its obligations in respect of the Notes, as applicable.

Any replacement reference rate shall be either a pre-nominated reference rate specified in the Applicable Transaction Terms or, if no such rate is specified, either (a) a replacement reference rate which is formally designated by a relevant central bank or other supervisory authority or the administrator of the Reference Rate or (b) a replacement reference rate that the Calculation Agent determines has been recognised or acknowledged as being the industry standard for derivative transactions which reference such Reference Rate, or (c) if the Calculation Agent determines that there is no such rate, any other replacement reference rate which it determines to be a commercially reasonable alternative. Any such replacement reference rate may be a "risk free rate". If the Calculation Agent determines that it is not possible or commercially reasonable to identify a replacement reference rate and/or adjustment spread and related amendments or to make required amendments following a Benchmark Modification or if it is or would be unlawful or contrary to any applicable licence for the Issuer or the Calculation Agent to perform the relevant actions or an adjustment spread would subject the Issuer or Calculation Agent to material additional regulatory obligations or any required adjustments would not achieve a commercially reasonable result for the Issuer or the Noteholders, in each case, prior to the cut-off date, the Issuer shall early redeem the Notes.

Following the occurrence of a Reference Rate Event but prior to the cut-off date, the Reference Rate may continue to be used for the purposes of the Notes if it is still available and representative of the underlying market and economic reality it is intended to measure and the Issuer, the Calculation Agent or any other entity is permitted to perform its obligations in respect of the Notes. Otherwise, the level of the Reference Rate will be determined by the Calculation Agent either by reference to a previously published level or by reference to an industry standard or other commercially reasonable rate, index or benchmark determined by the Calculation Agent.

The Calculation Agent has a wide discretion in making any amendments following the occurrence of a Reference Rate Event. As described above, such amendments may include selecting one or more replacement reference rates and making related amendments to the Notes, including the application of an adjustment spread and, if applicable, amendments to reflect, among other things, increased costs. Such amendments may result in payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Notes if the original rate had continued to be published in its original form and used for the purposes of the Notes.

It is possible that a Reference Rate Event or details of it are announced significantly in advance of action being appropriate in relation to the relevant Notes. The Issuer is only obliged to notify investors once it has determined the action to be taken as a result of the relevant event.

In addition, investors in Notes linked to Reference Rates should be aware that:

- the composition and characteristics of any pre-nominated replacement reference rate or otherwise the replacement reference rate will not be the same as those of the Reference Rate which it replaces, nor will it be the economic equivalent of such Reference Rate, and there can be no assurance that it will perform in the same way as such Reference Rate would have or that it will be a comparable substitute for such Reference Rate. Therefore, the replacement of the Reference Rate with a pre-nominated replacement reference rate or otherwise the replacement reference rate could adversely affect the value of the Notes, the return on the Notes and the price at which a Noteholder would be able to sell such Notes;
- the failure of any pre-nominated replacement reference rate or otherwise the replacement reference rate to gain market acceptance could adversely affect the Notes;
- any pre-nominated replacement reference rate or otherwise the replacement reference rate may have a very limited history and its future performance cannot be predicted based on historical performance;
- the secondary trading market for Notes linked to any pre-nominated replacement reference rate or otherwise the replacement reference rate may be limited; and
- the administrator of any pre-nominated replacement reference rate or otherwise the replacement reference rate may discontinue such rate or make changes that could change its value and the administrator has no obligation to consider any holder's interests in doing so.

Consequently, potential investors in any Notes that reference a Reference Rate should be aware that the Reference Rate may be replaced, or the Notes may be early redeemed, in each case, without the consent of Noteholders.

### *IBOR-based swap rates*

Following a Reference Rate Cessation in respect of a Reference Rate that is an IBOR swap rate, the Calculation Agent may be required to identify a Replacement Reference Rate that the Issuer determines has been recognised or acknowledged as being an industry standard for transactions which reference such IBOR swap rate (or if there is no industry standard that is appropriate in relation to the Notes, then the Calculation Agent shall select any other interest rate, index, benchmark or other price source it determines to be a commercially reasonable alternative). Potential investors should be aware that more than one possible replacement rate may exist and if so it is possible the Calculation Agent may select the least favourable replacement rate. It is impossible to predict the effect of any such replacements on the value of the Notes. Additionally, even where administrators have published new swap rates linked to risk free rates, such as the GBP SONIA ICE Swap Rate and the USD SOFR ICE Swap Rate, there can be no guarantee that such rates will be liquid or recognised or acknowledged as being the industry standard, and the method by which such new swap rates are calculated may change in the future. Consequently, the outcomes of determinations by the Calculation Agent may be unpredictable and the exercise of discretion by the Calculation Agent may adversely affect the market value of, and return (if any) on, the Notes. Further, there is no assurance that the characteristics of any replacement rate will be similar to the relevant IBOR swap rate, or that the replacement rate will produce the economic equivalent of the relevant IBOR swap rate.

*The market continues to develop in relation to SONIA, SOFR and €STR as reference rates*

Where the Applicable Transaction Terms identifies that the Reference Rate will be determined by reference to Compounded Daily SONIA, Compounded Daily SOFR or Compounded Daily €STR, the Reference Rate will be determined on the basis of a compounded daily rate unless Index Determination is specified as applicable. Prospective investors in any Notes referencing SONIA, SOFR or €STR should be aware that the market continues to develop in relation to SONIA, SOFR and €STR as reference rates in the capital markets and their adoption as an alternative to GBP-LIBOR, USD-LIBOR, and, EONIA and EURIBOR respectively.

The market or a significant part thereof may adopt an application of SONIA, SOFR or €STR that differs significantly from that set out in the Terms and Conditions and used in relation to Notes referencing SONIA, SOFR or €STR that are issued under the Programme. Furthermore, the Issuer may in future issue Notes referencing SONIA, SOFR or €STR that differ materially in terms of interest determination when compared with any previous SONIA-, SOFR- or €STR-referenced Notes issued under the Programme. The nascent development of compounded daily SONIA, SOFR and €STR as interest reference rates for the capital markets, as well as continued development of SONIA-, SOFR- and €STR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SONIA-, SOFR-, or €STR-referenced Notes issued under the Programme from time to time.

To the extent the SONIA, SOFR or €STR rate is not published, the applicable rate to be used to calculate the Interest Rate on Notes referencing SONIA, SOFR or €STR, as applicable, will be determined using the fallback provisions set out in the Terms and Conditions. Any of these fallback provisions may result in interest payments that are lower than, or do not otherwise correlate over time with, the payments that would have been made on the Notes if the SONIA, SOFR or €STR rate had been so published.

### ***U.S. Dividend Equivalent Withholding***

Section 871(m) of the U.S. Internal Revenue Code, as amended (the "**Code**") causes a 30 per cent. withholding tax on amounts attributable to U.S. source dividends that are paid or "deemed paid" under certain financial instruments if certain conditions are met (such instruments, "**Specified Securities**"). If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – U.S. Dividend Equivalent Withholding*".

For purposes of withholding under the U.S. Foreign Account Tax Compliance Act, commonly known as FATCA, Specified Securities are subject to a different grandfathering rule than other Notes. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – Foreign Account Tax Compliance Act*".

### ***Risks in relation to Irish Stamp Duty***

Investors should be aware that, unless subject to an applicable exemption, where any document or transfer order is effected, outside or through a securities settlement system operated by a central securities depository transferring an interest in the Notes, the transfer of such Notes will be subject to stamp duty at a rate of 1 per cent. of the consideration paid in respect of the transfer (or if greater, the market value thereof). Stamp duty must be paid in Euro by the transferee (assuming that the transfer is an arm's length transaction) within 30 days of the date on which the transfer of such Notes is executed.

A transfer of the Notes will be exempt from Irish stamp duty where the conditions of the loan capital exemption are satisfied. Those conditions are detailed in the Irish tax disclosure referenced below. If an investor is not able to benefit from the loan capital exemption it may be possible to rely on the Irish stamp duty exemption for a transfer of foreign loan securities issued by an Irish company. For such purpose, a "foreign loan security" is a security issued outside Ireland in respect of a loan which is expressed in a currency other than euro and is neither offered for subscription in Ireland nor offered for subscription with a view to an offer for sale in Ireland of securities in respect of the loan. Accordingly, investors should be aware that if they hold Notes that are denominated in Euro and that reference the performance of an equity index they may be required (in their capacity as transferee) to pay additional Irish stamp duty tax upon any transfer. Prospective investors should refer to the section "*Taxation and Disclosure of Information in connection with Payments – Taxation in Ireland– Stamp duty*".

The Conditions provide, at Condition 6(l) (*Additional Redemption Right*), for an additional redemption right with respect to the Notes, in which the Issuer and the Noteholders may agree that the Issuer redeem some or all of the

Notes at an agreed redemption amount on an agreed date. In such circumstances, the Notes will be redeemed earlier than their scheduled Maturity Date and an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of equivalent Notes and may only be able to do so at a significantly lower rate.

*The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Notes. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity*

The Bank Recovery and Resolution Directive (the "**BRRD I**"), as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending the BRRD as regards the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC ("**BRRD II**" and together with BRRD I, the "**BRRD**") was implemented in Spain through Law 11/2015, as amended by Royal Decree-Law 11/2017, of 23 June, on urgent measures in financial matters (*Real Decreto-ley 11/2017, de 23 de junio, de medidas urgentes en materia financiera*) ("**RDL 11/2017**") and by Royal Decree-Law 7/2021, of 27 April ("**RDL 7/2021**") which has partially implemented BRRD II in Spain.

BRRD, as implemented in Spain through Law 11/2015 (as amended), together with Royal Decree 1012/2015, of 6 November, implementing Law 11/2015 (the "**RD 1012/2015**") and Regulation (EU) No. 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (as amended, replaced or supplemented from time to time, including by Regulation (EU) 2019/877 of the European Parliament and the Council of 20 May 2019, the "**SRM Regulation**") and its developing regulations is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in any relevant unsound or failing credit institution, investment firm, financial institution or holding company (each a "**relevant entity**") so as to ensure the continuity of the relevant entity critical financial and economic functions, while minimising the impact of a relevant entity's failure on the economy and financial system.

As provided in the BRRD, Law 11/2015 and its developing regulations contain four resolution tools and powers including bail-in which gives resolution authorities the power to write down and/or to convert certain claims of unsecured creditors (including the Noteholders and the Issuer) of a failing relevant entity (such as the Guarantor) (which write-down may result in the reduction of such claims to zero) and to convert certain unsecured debt claims to equity or other instruments of ownership (the "**general bail-in tool**"), which equity or other instruments could also be subject to any future write-down. Any application of the general bail-in tool under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings.

Additionally, the impact of such application on holders of Notes (as beneficiaries of the Guarantee) or the Issuer will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors. The exercise of the general bail-in tool and the exercise of any such powers may result in such Noteholders losing some or all of their investment. Such application could also involve the suspension of payments for a certain period, to or the disapplication of provisions in, the Terms and Conditions of the Notes. Furthermore, the determination that all or part of the Guarantee of the principal amount of any Notes or any liability of the Bank towards the Issuer will be subject to loss absorption is likely to be inherently unpredictable and may depend on a number of factors which may also be outside of the institution's control. This determination will be made by the institution's regulators and there may be many factors, including factors not directly related to the institution, which could result in such a determination.

As a result, the exercise of any power under Law 11/2015 or any suggestion of such exercise could materially adversely affect the rights of Noteholders, the price or value of any Notes and/or the ability of the relevant Issuer and the Guarantor to satisfy their respective obligations under any Notes and the Guarantee.

To the extent any resulting treatment of holders of Notes pursuant to the exercise of the general bail-in tool is less favourable than would have been the case under such hierarchy in normal insolvency proceedings, a holder has a right to compensation under the BRRD based on an independent valuation of the relevant entity (which is referred to as the "no creditor worse off safeguard" under the BRRD). Any such compensation is unlikely to compensate that holder for the losses it has actually incurred and there is likely to be a considerable delay in the recovery of such compensation. Compensation payments (if any) are also likely to be made considerably later than when amounts may otherwise have been due under the Notes.

Further, the CMDI Proposal provides for the introduction of a general depositor preference in insolvency. If the CMDI Proposal is implemented in its current form, this would mean that the senior preferred claims (such as those arising from the Guarantee) would rank junior to the claims of all depositors, including deposits of large corporates and other deposits that currently are not privileged claims. Any such general depositor preference would also impact upon any application of the Spanish Bail-in Power (as defined in Condition 22 (*Contractual Recognition and Acknowledgment of Bail-in Powers*)), as such application is to be carried out in the order of the hierarchy of claims in normal insolvency proceedings. Accordingly, this would mean that following any such amendment of the insolvency laws in Spain to establish a general depositor preference, any resultant write-down or conversion of the senior preferred liabilities by the Relevant Resolution Authority would be carried out before any write-down or conversion of the claims of depositors, including those of large corporates, that currently would be written-down or converted alongside the senior preferred liabilities. One of the objectives of this proposed amendment is to reduce the likelihood of deposits generally being affected in any such write-down or conversion upon the application of the Spanish Bail-in Power. However, this change may increase the risk for investors in senior preferred liabilities bearing a greater proportion of losses in the event of insolvency and upon any application of the Spanish Bail-in Power, as a result of a smaller proportion of losses being absorbed by deposits. However, the CMDI Proposal is still subject to further discussion and, as a result, there is a high degree of uncertainty as regards potential adjustments and when it will finally be implemented. See the section entitled "*Investment Considerations*".

The uncertainty may adversely affect the value of Noteholders' investments in the Notes and the price and trading behaviour of the Notes may be affected by the threat of a possible exercise of any power under Law 11/2015 (including any early intervention measure before any resolution) or any suggestion of such exercise, even if the likelihood of such exercise is remote. Moreover, the Relevant Resolution Authority may exercise any such power without providing any advance notice to the Holders.

***Noteholders may not be able to exercise their rights on an event of default in the event of the adoption of any early intervention or resolution measure under Law 11/2015 and the SRM Regulation***

The Guarantor and, indirectly, the Issuer may be subject to a procedure of early intervention or resolution pursuant to the BRRD as implemented through Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation if the Guarantor or its group of consolidated credit entities is in breach (or due, among other things, to a rapidly deteriorating financial condition, it is likely in the near future to be in breach) of applicable regulatory requirements relating to solvency, liquidity, internal structure or internal controls or the conditions for resolution referred to in "*Investment Considerations – Additional information on the BRRD and SRM Regulation*" are met.

Pursuant to Law 11/2015, the adoption of any early intervention or resolution procedure shall not itself constitute an event of default or entitle any counterparty of the Issuer or Guarantor to exercise any rights it may otherwise have in respect thereof and any provision providing for such rights shall further be deemed not to apply. However, this does not limit the ability of a counterparty to declare any event of default and exercise its rights accordingly where an event of default arises either before or after the exercise of any such early intervention or resolution procedure and does not necessarily relate to the exercise of any relevant measure or power which has been applied pursuant to Law 11/2015.

Any enforcement by a Noteholder of its rights under the Notes upon the occurrence of an Event of Default following the adoption of any resolution procedure will be subject to the relevant provisions of the BRRD, as implemented through Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation in relation to the exercise of the relevant measures and powers pursuant to such procedure, including the resolution tools and powers referred to in "*Investment Considerations – Additional information on the BRRD and SRM Regulation*". Any claims on the occurrence of an Event of Default will consequently be limited by the application of any measures pursuant to the provisions of Law 11/2015, RDL 7/2021 and RD 1012/2015, and the SRM Regulation. The taking of any such action could adversely affect the rights of Noteholders and the price or value of their investment in the Notes as well as the ability of the Issuer and/or the Guarantor to satisfy its obligations under the Notes or the Guarantee. The enforcement by a holder of any rights it may otherwise have on the occurrence of any Event of Default may be limited in these circumstances.

Prospective investors should refer to the "*Investment Considerations*" section and in particular the section entitled "*Legal and Regulatory Considerations*" for more information on the BRRD and SRM Regulation.

***Risks Relating to the Spanish Insolvency Law affecting the Guarantor***

The Spanish Insolvency Law (as defined below) governs general insolvency and pre-insolvency proceedings in Spain.

The Spanish Insolvency Law establishes a single insolvency proceeding applicable to Spanish debtors (whether incorporated or not) and various pre-insolvency tools to try to restructure the debt. In this regard, the Kingdom of Spain has implemented the European Directive 2019/1023 of the European Parliament and of the Council of 20 June 2019 on preventive restructuring frameworks, on discharge of debt and disqualifications and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132, through Spanish Law 16/2022, of 5 September (the "**Insolvency Law Reform**").

The new pre-insolvency instruments established by the Insolvency Law Reform are set out in the Second Book of the Spanish Insolvency Law, which significantly includes the new restructuring plans. These pre-insolvency instruments replace the refinancing agreements and enable the amendment of the conditions or the structure of the debtor's assets and liabilities, or its equity (among other things). The restructuring plans may also involve the transfer of assets, transfer of business units or transfer of the whole company. However, such pre-insolvency instruments are not applicable to credit institutions such as Banco Santander.

Furthermore, the Spanish Insolvency Law provides, among other things, that: (i) any claim may become subordinated if it is not reported to the insolvency administrators (*administradores concursales*) within one month from the last official publication in the Official Gazette (*Boletín Oficial del Estado*) of the court order declaring the insolvency, (ii) provisions in a contract granting one party the right to terminate it by reason only of the other's insolvency may not be enforceable (despite this, the Insolvency Law Reform introduced the possibility for the restructuring plan to terminate agreements with bilateral/reciprocal obligations when such actions is deemed necessary for the good of the restructuring plan or to avoid the insolvency of the debtor), and (iii) interest (other than ordinary interest accruing under secured liabilities up to an amount equal to the value of the asset subject to the security and the maximum secured liabilities under the relevant security and provided that a contingent claim has been reported in due course to the insolvency administrator) shall cease to accrue as from the date of the declaration of insolvency and any amount of interest accrued up to such date (other than any interest accrued under secured liabilities up to an amount equal to the lower of the value of the asset subject to the security and the maximum secured liabilities under the relevant security) shall become subordinated.

In addition, as indicated in the risk factor entitled "*The taking of any action under Law 11/2015 and its developing regulations could materially affect the value of any Notes. The liabilities of the Guarantor including the Guarantee may also be subject to loss absorption through their permanent write-down and/or conversion into equity*" above, the CMDI Proposal provides for a general depositor preference in insolvency. Therefore, the implementation of the CMDI Proposal in its current form would mean that the senior preferred claims (such as those arising from the Guarantee) will rank junior to the claims of all depositors, including deposits of large corporates and other deposits that are currently excluded from the above privileged claims. Nevertheless, the exact impact of the CMDI Proposal is not known yet given it is still in the form of a legislative proposal and therefore subject to further amendments.

### **5. Risks Relating to Renminbi Notes**

Notes settled in Renminbi or which may be settled in Renminbi ("**Renminbi Notes**") may be issued under the Programme. Renminbi Notes contain particular risks for potential investors, including:

***Renminbi is not completely freely convertible; there are significant restrictions on remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of Renminbi Notes.***

Renminbi is not completely freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been significant reduction over the years by the PRC government of control, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

Currently, participating banks in Hong Kong and a number of other jurisdictions have been permitted to engage in the settlement of Renminbi current account trade transactions. However, remittance of Renminbi by foreign investors into and out of the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

## RISK FACTORS

Although starting from 1 October 2016, Renminbi has been added to the Special Drawing Rights (the international reserve assets created by the International Monetary Fund to supplement its member countries' official reserves) basket created by the International Monetary Fund and policies further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies were implemented by the People's Bank of China, the central bank of the PRC (the "PBOC") in 2018, there is no assurance that the PRC Government will continue to gradually liberalise control over cross border remittance of Renminbi in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in such rules. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under Renminbi Notes.

***There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Notes and the Issuer's ability to source Renminbi outside the PRC to service such Renminbi Notes.***

As a result of the restrictions imposed by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. While the PBOC has entered into agreements on the clearing of Renminbi business with financial institutions (each a "RMB Clearing Bank"), including, but not limited to, Hong Kong and are in the process of establishing Renminbi clearing and settlement mechanisms in a number of other jurisdictions (the "Settlement Arrangements"), the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBOC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Notes. To the extent the Issuer is required to source Renminbi outside the PRC to service the Renminbi Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all. If Renminbi is not available in certain circumstances as described in the Conditions applicable to Renminbi Notes, the Issuer can make payments in U.S. dollars or other specified currencies as set out in the Applicable Transaction Terms.

***Investment in Renminbi Notes is subject to exchange rate risks.***

The value of Renminbi against the U.S. dollar and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. In August 2015, the PBOC implemented changes to the way it calculates the Renminbi's daily midpoint against the U.S. dollar to take into account market maker quotes before announcing the daily midpoint. This change, among others that may be implemented, may increase the volatility in the value of the Renminbi against other currencies. All payments with respect to Renminbi Notes will be made in Renminbi unless otherwise specified. As a result, the value of these Renminbi payments in other foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against other foreign currencies, the value of investment in other applicable foreign currency terms will decline.

In the event that access to Renminbi becomes restricted to the extent that, by reason of Renminbi Inconvertibility, Renminbi Non Transferability or Renminbi Illiquidity (as defined in the Conditions), it is impossible, impractical, illegal or impracticable for the Issuer (or, if applicable, any party to a Hedge Position), to pay or deliver any amounts or assets due in Renminbi, the Conditions allow the Issuer or, as the case may be, the Guarantor, to delay such payment in Renminbi until ten Business Days after such time the relevant Renminbi Currency Event ceases to exist; to make payment in U.S. dollars or other specified foreign currency at the prevailing spot rate of exchange;

and/or to redeem the Notes by payment of the Early Redemption Amount in respect of each Calculation Amount, all as provided in more detail in the Conditions. As a result, the value of these Renminbi payments or deliveries may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other foreign currencies, the value of a holder's investment in U.S. dollar or other foreign currency terms will decline.

***Payments in respect of Renminbi Notes will only be made to investors in the manner specified in the terms and conditions of the relevant Notes.***

Investors may be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in the Renminbi Settlement Centre(s). All Renminbi payments to investors in respect of the Renminbi Notes will be made solely (i) for so long as the Renminbi Notes are represented by a Global Note or Global Note Certificate held in Euroclear and Clearstream, Luxembourg or any alternative clearing system, by transfer to a Renminbi bank account maintained in the Renminbi Settlement Centre(s) in accordance with prevailing Euroclear and/or Clearstream, Luxembourg rules and procedures, or (ii) for so long as Renminbi Notes are in definitive form, by transfer to a Renminbi bank account maintained in the Renminbi Settlement Centre(s) in accordance with prevailing rules and regulations. Other than as described in the Conditions, neither the Issuer nor the Guarantor can be required to make payment by any other means (including in any other currency or in bank notes or by transfer to a bank account in the PRC).

***An investment in Renminbi Notes is subject to risk of change in the regulatory regime governing the issuance of Renminbi Notes.***

Renminbi Notes issuance is subject to laws and regulations of the relevant Renminbi Settlement Centre(s). The PRC Government currently views Hong Kong as one of the key offshore RMB settled instrument centres and has established a cooperative relationship with Hong Kong's local government to develop the RMB settled instrument market. There can be no assurance that the PRC Government will continue to encourage issuance of RMB settled instruments outside of mainland China and any change in the Chinese government's policy or the regulatory regime governing the issuance of RMB settled instruments may adversely affect the Renminbi Notes.

***An investment in fixed rate Renminbi Notes is subject to interest rate risks***

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

If a Renminbi Note carries a fixed interest rate, then the trading price of such Renminbi Notes will vary with the fluctuations in Renminbi interest rates. If an investor in Renminbi Notes tries to sell such RMB Notes, then it may receive an offer that is less than the amount invested.

***There may be PRC tax consequences with respect to investment in the Renminbi Notes***

In considering whether to invest in the Renminbi Notes, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the Noteholder's investment in the Renminbi Notes may be materially and adversely affected if the Noteholder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those Renminbi Notes.

### **Risks Relating to the Issuer, the Guarantor and the Group**

#### **6. Risks Relating to the Issuer**

##### ***Risk that funds lent by the Issuer to Group companies are not repaid***

The Issuer is a finance vehicle established by the Guarantor for the purpose of issuing debt securities, preferred securities (*participaciones preferentes*) and other financial instruments and on-lending the proceeds to the Guarantor and its consolidated subsidiaries (the "**Group**" and references to "**we**", "**us**" or "**our**" should be construed as references to the Group). The Issuer is therefore dependent upon other members of the Group paying interest on and repaying their loans in a timely fashion. Should any Group member fail to pay interest on or repay any loan in a timely fashion this could have a material adverse effect on the ability of the Issuer to fulfil its

obligations under Notes issued under the Programme which could have an adverse impact on the rights of Noteholders and the return on their investment.

The Issuer was incorporated under the Irish Companies Acts 1963 to 2013 and is subject to the Irish Companies Act 2014 (the "**2014 Act**") and as such may be wound up pursuant to the 2014 Act and/or be subject to examination, a court procedure which is available under the 2014 Act to facilitate the survival of Irish companies in financial difficulties.

### *Certain Creditors of the Issuer will rank in priority above Noteholders*

Under Irish law, the claims of a limited category of preferential creditors will take priority over the claims of unsecured creditors and holders of floating security in the event of the appointment of a liquidator or a receiver to an Irish company such as the Issuer. These preferred claims include taxes, such as income tax and corporation tax payable before the date of appointment of the liquidator or receiver and arrear of value added tax, together with accrued interest thereon and claims of employees.

### *Risks in connection with examination*

*Examination is a court procedure available under the 2014 Act to facilitate the survival of Irish companies in financial difficulties.*

The Issuer, the directors of the Issuer, a contingent, prospective or actual creditor of the Issuer, or shareholders of the Issuer holding, at the date of presentation of the petition, not less than one-tenth of the voting share capital of the Issuer, are each entitled to petition the court for the appointment of an examiner.

The examiner, once appointed, has the power to set aside contracts and arrangements entered into by the company after his appointment and, in certain circumstances, can avoid a negative pledge given by the company prior to his appointment. Furthermore, he may sell assets which are the subject of a fixed charge. However, if such power is exercised he must account to the holders of the fixed charge for the amount realised and discharge the amount due to them out of the proceeds of sale.

During the period of protection, the examiner will compile proposals for a compromise or scheme of arrangement to assist the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the Irish Circuit Court or High Court (as appropriate) (each a "**Court**") when at least one class of creditors has voted in favour of the proposals and the relevant Court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement.

In considering proposals by the examiner, it is likely that secured and unsecured creditors would form separate classes of creditors. In the case of the Issuer, if the Agent represented the majority in number and value of claims within the secured creditor class (which would be likely given the restrictions agreed to by the Issuer in the Transaction Documents), the Agent would be in a position to vote against any proposal not in favour of the Noteholders. The Agent would also be entitled to argue at the relevant Court hearing at which the proposed scheme of arrangement is considered that the proposals are unfair and inequitable in relation to the Noteholders, especially if such proposals included a writing down to the value of amounts due by the Issuer to the Noteholders.

The primary risks to the Noteholders if any examiner were to be appointed with respect to the Issuer are as follows:

- (i) the potential for a scheme of arrangement being approved involving the writing down of the debt due by the Issuer to the Noteholders,
- (ii) the potential for the examiner to seek to set aside any negative pledge in the Notes or the Transaction Documents prohibiting the creation of security or the incurring of borrowings by the Issuer to enable the examiner to borrow to fund the Issuer during the protection period, and
- (iii) in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, the examiner's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant Court) will take priority over the amounts secured or unsecured owing to the Noteholders.

## 7. Macro-Economic and Political Risks

*The growth, asset quality and profitability of the Group, among others, may be adversely affected by a slowdown in one or more of the economies in which the Group operates, volatile macroeconomic and political conditions and persistent high inflation.*

A slowdown or recession of one or more of the economies in which the Group operates could lead major financial institutions, including some of the world's largest global commercial banks, investment banks, mortgage lenders, mortgage guarantors and insurance companies to experience significant difficulties, including runs on deposits, the need for government aid or assistance or the need to reduce or cease providing funding to borrowers (including to other financial institutions). Volatile conditions in the global financial markets could also have a material adverse effect on the Group, including on the ability of the Group to access capital and liquidity on financial terms acceptable to the Group, if at all. If capital markets financing ceases to become available, or becomes excessively expensive, the Group may be forced to raise the rates it pays on deposits to attract more customers and become unable to maintain certain liability maturities. Any such increase in capital markets funding availability or costs or in deposit rates could have a material adverse effect on its interest margins and liquidity.

In particular, the Group including the Guarantor faces, among others, the following risks related to the economic downturn and volatile conditions:

- Reduced demand for its products and services.
- Increased regulation of its industry.
- Compliance with such regulation would likely continue to increase the costs of the Group and may affect the pricing for its products and services, increase its conduct and regulatory risks related to non-compliance and limit its ability to pursue business opportunities.
- Inability of its borrowers to timely or fully comply with their existing obligations. Macroeconomic shocks may negatively impact the income of its customers, both retail and corporate, and may adversely affect the recoverability of its loans, resulting in increased loan losses.
- The process the Group uses to estimate losses inherent in its credit exposure requires complex judgements, including forecasts of economic conditions and how these economic conditions might impair the ability of its borrowers to repay their loans. The degree of uncertainty concerning economic conditions may adversely affect the accuracy of its estimates, which may, in turn, impact the reliability of the process and the sufficiency of its loan loss allowances.
- The value and liquidity of the portfolio of investment securities that the Group holds may be adversely affected.

The recoverability of the loan portfolios of the Group and its ability to increase the amount of loans outstanding and its results of operations and financial condition in general, are dependent to a significant extent on the level of economic activity in Europe (in particular, Spain and the UK), North America (in particular, Mexico and the United States) and South America (in particular, Brazil). The credit quality of the loan portfolio of the Group may deteriorate as a result of these risks and the Group's loan loss reserves could be insufficient to cover the Group's loan losses, which can have a material adverse effect on the Group. See risk factor entitled "*The credit quality of the loan portfolio of the Group may deteriorate and the Group's loan loss reserves could be insufficient to cover its loan losses, which could have a material adverse effect on the Group*".

In addition, the Group is exposed to sovereign debt in these regions. The Group's net exposure to sovereign debt at 31 December 2023 amounted to EUR 160,975 million (8.96 per cent of the Group's total assets at that date) of which the main exposures in the eurozone relate to Spain and Portugal with net exposure of EUR 39,627 million and EUR 6,859 million, respectively. In North America, the main exposures relate to Mexico and the United States (the "US") (EUR 20,825 million and EUR 21,304 million, respectively) and in South America to Brazil (EUR 27,733 million). Recessionary conditions in the economies of Europe, North America or some of the South American countries in which the Group operates, would likely have a significant adverse impact on its loan portfolio and sovereign debt holdings and, as a result, on its financial condition, cash flows and results of operations.

The Group's revenues are also subject to risk of deterioration from unfavourable political and diplomatic developments, social instability, international conflicts, and changes in governmental policies, including expropriation, nationalisation, international ownership legislation, sanctions, interest-rate caps, fiscal and monetary policies globally.

For the year ending 31 December 2023, 45 per cent. of the underlying profit attributable to the Bank areas (i.e. without considering the -EUR 988 million underlying losses account for in the Corporate Centre resulting from centralised management of the areas) came from Europe (of which 20 per cent. was from Spain and 13 per cent. from the United Kingdom), 25 per cent. from South America (16 per cent from Brazil), 20 per cent. from North America (8 per cent. from the United States and 13 per cent. from Mexico) and 10 per cent. from the Digital Consumer Bank segment (primarily Europe). As of 31 December 2023, the Group's total assets (i.e. without considering EUR 254,705 million total assets accounted for in the Corporate Centre and without intra-group eliminations) stood at 55 per cent. in Europe (28 per cent. in Spain and 19 per cent. in the United Kingdom), 19 per cent. in South America (13 per cent. in Brazil) and 17 per cent. in North America (11 per cent. in the United States and 6 per cent. in Mexico) and 9 per cent. in the Digital Consumer Bank segment (primarily Europe).

In particular, the main regions where the Group operates are subject to the following macroeconomic and political conditions, which could have a material adverse effect on its business, results of operations, financial condition and prospects:

- Governmental and regulatory authorities throughout the world, particularly in Europe and the United States, implemented fiscal and monetary policies and initiatives in response to the adverse effects of the covid-19 pandemic on the economy, individual businesses and households. These fiscal and monetary policy measures accelerated the economic recovery in 2021 but in turn significantly increased public debt and introduced risks of economic overheating in certain countries.
- In 2022, inflationary pressures intensified due to a number of factors, including the revitalisation of demand for consumer goods, labour shortages, supply chain issues, and the rise of the prices of energy, oil, gas and other commodities exacerbated by the war in Ukraine. In an effort to contain inflation, central banks increased interest rates during 2022 and 2023 contributing to a slowdown of the global economy. Most of the countries in which the Group operates experienced an environment of persistent high inflation, and even though inflation has fallen in most of the Group's markets during 2023, central banks are expected to sustain high interest rates to address persistent underlying inflation pressures through mid-2024. Prolonged periods of high inflation are likely to result in higher operating costs, a decrease in the purchasing power of families with the consequent increase in delinquencies in the Group's credit portfolios, and lower economic growth derived from the tightening of monetary and fiscal policies aimed at containing inflation, among other risks, any of which could have a material adverse effect on the Group's operations, financial condition and prospects.
- Among the risks that could negatively affect the economies and financial markets of the regions where the Group operates and lead to a further slowdown of the global economy, recession and/or stagflation are (i) the continuance or escalation of the war in Ukraine and the conflict in the Middle East, (ii) further increases in the prices of energy and other commodities that can lead to further inflationary pressures, (iii) the continued breakdown of global supply chains and (iv) the maintenance of tight monetary and fiscal policies or the tightening thereof, including by rising or maintaining high interest costs.
- Scenarios of political tensions and instability throughout the world stemming from a variety of factors, such as heightened polarisation and political fragmentation, may lead to shifting and unpredictable outcomes in political elections, legislative and policy-making efforts, social conditions and the global economy and could erode the rule of law in certain long-standing democracies. Furthermore, increasing public debt levels together with rising interest costs may not be sustainable, which could lead certain countries into sovereign debt crises. A deterioration of the global economic, political and financial environment, particularly in Europe and the Americas, could have a material adverse impact on the financial sector, affecting the Group's operating results, financial position and prospects.
- In particular, the risk of returning in Europe to a fragile and volatile environment and to heightened political tensions could be aggravated if, among others, (i) the policies implemented

to provide emergency assistance and support to Ukraine to alleviate the consequences of the war in the EU countries and to contain inflation do not succeed, (ii) the reforms aimed at improving productivity and competition fail, (iii) the banking union and other measures of European integration do not take hold, or (iv) anti-European groups become more widespread. The shift of the global economy's centre of gravity from the Atlantic to the Pacific and more particularly, China's ambition to reach higher levels of economic power through increasing their relevance as key trading partners and source of financing for Latin American economies, could negatively impact US and European banks, particularly those like the Group with limited presence in Asia, reducing the Group's global market share and customer base and affecting the Group's business, operating results, financial condition and prospects.

- Growing protectionism and trade tensions, such as the tensions between the United States and China in recent years, could have a negative impact on the economies of the countries where the Group operates, which would also impact its operating results, financial condition and prospects.
- Uncertain economic outlook for China could negatively affect the world economy which would also impact the Group's operating results, financial condition and prospects.
- The economies of some of the countries where the Group operates, particularly in Latin America face long-standing structural problems, including weaknesses in infrastructure, economic competitiveness and education, high levels of social inequality, rising inflation and increasing public debt, have experienced significant volatility in recent decades. This volatility resulted in fluctuations in the levels of deposits and in the relative economic strength of various segments of the economies to which the Group lends. In addition, some of the countries where the Group operates are particularly affected by commodities price fluctuations, which in turn may affect financial market conditions through exchange rate fluctuations, interest rate volatility and deposits volatility. In addition, the Group is exposed to variations in its net interest income or in the fair value of its assets and liabilities resulting from exchange rate fluctuations. Fiscal instability, political tensions and financial volatility, particularly in Brazil, Mexico and in Argentina, could have a negative impact on the economy of these countries and may have a material adverse effect on the Group.

***The continuance or escalation of the war in Ukraine and the conflict in the Middle East, could materially affect the Group's financial position and increase the Group's operational risk.***

On 24 February 2022, Russia launched a large-scale military action against Ukraine. The war in Ukraine has caused an ongoing humanitarian crisis in Europe as well as volatility in financial markets globally, heightened inflation, shortages and increases in the prices of energy, oil, gas and other commodities. The continuance or escalation of the war, including its extension to other countries in the region, could lead to further increases in energy, oil and gas prices (particularly if supplies to Europe are interrupted) and heightened inflationary pressures, which in turn could lead to further increases in interest rates and market volatility. In addition, the war has exacerbated supply chain problems, particularly to those businesses most sensitive to rising energy prices. The war and its effects could exacerbate the current slowdown in the global economy and could negatively affect the payment capacity of some of the Group's customers, especially those with more exposure to the Russian or Ukrainian markets.

In response to the Russian military action against Ukraine, several countries, including the US, European Union member states, the UK, and other United Nations ("UN") member states, have imposed severe sanctions on Russia and Belarus, including freezing/blocking assets, targeting major Russian banks, the Russian Central Bank, and certain Russian companies and individuals, imposing trade restrictions against Russia and Russian interests, as well as the disconnection of certain Russian banks from the SWIFT system (Society for Worldwide Interbank Financial Telecommunication). In addition, the sanctions imposed also include a ban on trading in sovereign debt and other securities. The scale of sanctions is unprecedented, complex and rapidly evolving, and poses continuously increasing operational risk to the Group. Its corporate framework and policies are designed to ensure compliance with applicable laws, regulations and economic sanctions in the countries in which the Group operates, including US, UK, EU and UN economic sanctions. The Group cannot predict whether any of the countries in which it operates will enact additional economic sanctions or trade restrictions in response to the Russian military action against Ukraine. While the Group does not knowingly engage in direct or indirect dealings with sanctioned parties according to applicable sanctions, or in direct dealings with the sanctioned countries/territories, it may on occasion have indirect dealings within the sanctioned countries/territories, but it aims to operate in line with applicable US, EU, UK and UN blocking and sectoral sanctions regulations.

Furthermore, the risk of cyberattacks on companies and institutions has increased and could increase even further. Although the Group is actively monitoring the situation, there can be no assurance that the Group's cyber security and data protection measures and defences will be effective at identifying or preventing, mitigating or remediating any such cyberattacks.

On 7 October 2023, Hamas launched an attack on Israel targeting Israeli civilians. In response, Israel declared war against Hamas, attacking Hamas targets in Gaza and the region. The war, the escalation of the conflict and any resulting conflicts in the region could lead to higher oil and gas prices, the imposition of sanctions, travel and import/export restrictions, increased inflationary pressures and market volatility, among other potential consequences. In response to the war in Gaza, since mid-November 2023, Houthi rebels in Yemen have targeted and carried out attacks on commercial shipping vessels travelling through the Red Sea, which may result in further disruptions in supply chains.

The Group does not have a physical presence in Russia and Ukraine and their direct presence in the Middle East is very limited. Further, the Group's direct exposure to Russian, Ukrainian or Middle Eastern markets is not material. However, the impact of the wars and sanctions on global markets, macroeconomic conditions globally, and other potential future geopolitical tensions and consequences remain uncertain and may exacerbate its operational risk. Episodes of economic and market volatility and pressure on supply chains and inflation may continue to occur and could worsen if the wars persist or increase in severity. As a result, the Group's businesses, results of operations and financial position could be adversely affected by any of these factors directly or indirectly arising from the war in Ukraine and the conflict in the Middle East.

***The global covid-19 pandemic has materially impacted the Group's business, and the continuance of this pandemic or any future outbreak of any other highly contagious diseases or other public health emergency, could materially and adversely impact its business, financial condition, liquidity and results of operations.***

Although the World Health Organization declared an end to covid-19 as a public health emergency, certain adverse consequences of the covid-19 pandemic continued to impact the macroeconomic environment in 2023 and may persist for some time.

If new covid-19 waves the emergence of variants or strains resistant to existing or new vaccines, or any other highly contagious diseases or other public health emergencies force countries to re-adopt measures that restrict economic activity, the macroeconomic environment could deteriorate and adversely impact the business and results of operations of the Group, which could include, but is not limited to (i) a continued decreased demand for its products and services, (ii) further material impairment of its loans and other assets including goodwill, (iii) decline in the value of collateral, (iv) constraints on its liquidity due to market conditions, exchange rates and customer withdrawal of deposits and continued draws on lines of credit, and (v) downgrades to its credit ratings. See risk factor entitled "*Credit, market and liquidity risk may have an adverse effect on the Group's credit ratings and the Group's cost of funds. Any downgrade in the Group's credit rating would likely increase the Group's cost of funding, require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts and adversely affect the Group's interest margins and results of operations*".

Moreover, the operations of the Group could still be impacted by risks from remote work or bans on non-essential activities. If, as a result of any future public health emergencies the Group becomes unable to successfully operate its business from remote locations including, for example, due to failures of its technology infrastructure, increased cybersecurity risks, or governmental restrictions that affect its operations, this could result in business disruptions that could have a material and adverse effect on the Group's business.

In light of the impact that the covid-19 pandemic had on the economic situation and forecasts in the markets where the Group is present, a review was carried out in 2020 to evaluate both goodwill and the recoverability of deferred tax assets. As a result of this review, in 2020 the Group adjusted the valuation of its goodwill and deferred tax assets, resulting in a non-recurring impairment of EUR 12,600 million. Furthermore, at the end of 2020 the Group recorded additional allowances for impairment of financial assets at amortised cost of EUR 3,105 million due to the effect of the covid-19 pandemic. In 2021, 2022 and 2023, the Group did not record additional provisions related to the covid-19 pandemic.

The resurgence of covid-19 variants or other variants or strains, or any future outbreak of any other highly contagious diseases, or other public health emergencies may have adverse effects on the Group's business, financial condition, liquidity and results of operations or cause other risks to it.

***The UK's withdrawal from the EU has had and could continue to have a material adverse effect on the UK-based operations, financial condition and prospects of the Group.***

On 31 January 2020, the UK ceased to be a member of the EU ("**Brexit**") and a limited trade deal was agreed between the UK and the EU with the relevant new regulations coming into force on 1 January 2021.

The trade deal, however, did not include agreements on certain areas, such as financial services and data adequacy. The European Commission (the "**Commission**") is expected to decide in 2024 whether to extend the data adequacy decisions for the UK for an additional period of up to a maximum of four years. If the Commission does not extend the decisions, then the decisions will expire on 27 June 2025. As a result, Santander UK plc ("**Santander UK**") has had, and will continue to have, a limited ability to provide cross-border services to EU customers and to trade with EU counterparties. See the risk factor entitled "*The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition*" for additional information.

Following a consultation on the optimal structure for UK financial services post-Brexit, the Financial Services and Markets Act 2023 ("**FSMA 2023**") received royal assent on 29 June 2023. FSMA 2023 establishes a framework for HM Treasury to revoke EU-derived financial services legislation and for it to be replaced by Financial Conduct Authority ("**FCA**") and Prudential Regulation Authority ("**PRA**") rules, with the intention of delivering a comprehensive model of regulation under which the regulators have extensive rule-making powers. This process of revoking and replacing retained EU law may result in material changes to the UK regulatory regime and the impact of these reforms on Santander UK is difficult to predict.

The wider and continuing impact of the UK's withdrawal from the EU on financial markets through market fragmentation, reduced access to finance and funding, and a lack of access to certain financial market infrastructure, may affect the operations, financial condition and prospects of the Group and those of its customers.

Residual risks remain around the impact of Brexit to the UK's economy. Brexit has contributed to global covid-19-pandemic-related supply and labour market constraints and reduced economic output and exports as businesses attempt to adapt the new cross-border procedures and rules applicable in the UK and in the EU to their activities, products, customers and suppliers.

The UK's withdrawal from the EU has been hampered by the overlay and development of economic risks from the covid-19 pandemic, the war in Ukraine and the conflict in the Middle East and the longer-term effects are difficult to assess. Further, there is ongoing political and economic uncertainty, such as increased friction with the EU and EU countries which could negatively affect Santander UK's customers and counterparties and have a material adverse effect on the operations, financial condition and prospects of the Group.

The Group considered these circumstances in its assessment of the recoverability of the cash-generating unit that supports Santander UK's goodwill, which was impaired during 2020 and 2019. In 2021, 2022 and 2023, there was no impairment of Santander UK's goodwill.

## **8. Risks Relating to the Group's Business**

### ***Legal, Regulatory and Compliance Risks to the business model of the Group.***

*The Group is exposed to risk of loss from legal and regulatory proceedings.*

The Group faces risk of loss from legal and regulatory proceedings, including tax proceedings, that could subject it to monetary judgements, regulatory enforcement actions, fines and penalties. The current regulatory and tax enforcement environment in the jurisdictions in which the Group operates reflects an increased supervisory focus on enforcement, combined with uncertainty about the evolution of the regulatory regime, and may lead to material operational and compliance costs.

The Group is from time to time subject to regulatory investigations and civil and tax claims, and party to certain legal proceedings incidental to the normal course of its business, including, among others, in connection with conflicts of interest, lending and derivatives activities, relationships with its employees and other commercial, data protection, or tax matters. In view of the inherent difficulty of predicting the outcome of legal matters, particularly where the claimants seek very large or indeterminate damages, or where the cases present novel legal theories, involve a large number of parties or are in the early stages of investigation or discovery, the Group cannot state with certainty what the eventual outcome of these pending matters will be or what the eventual loss, fines or penalties related to each pending matter may be.

## RISK FACTORS

The amount of the Group's reserves in respect of these matters, which considers the likelihood of future cash flow outflows associated with each of such claims, is substantially less than the total amount of the claims asserted against it, and, in light of the uncertainties involved in such claims and proceedings, there is no assurance that the ultimate resolution of these matters will not significantly exceed the reserves currently accrued by the Group. As a result, the outcome of a particular matter may be material to its operating results for a particular period. As of 31 December 2023, the Group had provisions for taxes, other legal contingencies and other provisions for €4,634 million.

For example, in Poland the Group is exposed to significant litigation in connection with CHF indexed and CHF denominated loans in which it is facing claims that those loans or clauses included in them are abusive. Whilst the Court of Justice of the European Union ("CJEU") and the Polish Supreme Court have issued several rulings on this matter (including the CJEU ruling of 15 June 2023), sufficient case law has not yet been developed. The case law of the Polish national courts implementing the CJEU rulings (including the ruling of 15 June 2023) and the possible position of the Polish Supreme Court will be crucial for the final assessment of the legal risks related to this matter.

As of the date of this Base Prospectus, it is not possible to predict the Polish Supreme Court's and CJEU's decisions on individual cases. As of 31 December 2023, Santander Bank Polska S.A. and Santander Consumer Bank S.A. maintained a portfolio of mortgages denominated in or indexed to CHF for an approximate gross amount of zł6,398.1 million (EUR 1,473.1 million) and the total value of the adjustments to gross carrying amount in accordance with IFRS9 as well as the provisions recorded under IAS37, amount to zł5,030.3million (EUR 1,158.2 million). The provisions and adjustments recorded are deemed sufficient to cover the risks associated with the legal claims against the Group. However, in the event that the Group is required to make higher payments than estimated, either with respect to existing or new claims, there could be a significant adverse effect on its results and financial situation.

*The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition.*

As a financial institution, the Group including the Guarantor is subject to extensive regulation, which materially affects its businesses.

In Spain and the other jurisdictions where the Group including the Guarantor operates, there is continuing political, competitive and regulatory scrutiny of the banking industry, including banking practices, products, services and pricing policies. Political involvement in the regulatory process, in the behaviour and governance of the banking sector and in the major financial institutions in which the local governments have a direct financial interest and in their products and services, and the prices and other terms they apply to them, is likely to continue. Accordingly, the statutes, regulations and policies to which the Group including the Guarantor is subject may be changed at any time. In addition, the interpretation and the application by regulators of the laws and regulations to which the Group is subject may also change from time to time. Extensive legislation and regulation affecting the financial services industry has been adopted in regions that directly or indirectly affect the Group's business, including Spain, the United States, the EU, the UK, Latin America and other jurisdictions, and further regulations are in the process of being implemented. The manner in which those laws and related regulations are applied to the operations of financial institutions is still evolving. Moreover, to the extent these regulations are implemented inconsistently in the various jurisdictions in which the Group operates, it may face higher compliance costs. Any legislative or regulatory actions and any required changes to its business operations resulting from such legislation and regulations, as well as any deficiencies in its compliance with such legislation and regulation, could result in significant loss of revenue, limit the ability of the Group to pursue business opportunities in which the Group might otherwise consider engaging, limit the Group's ability to provide certain products and services, affect the value of assets that it holds, require the Group to increase its prices and therefore reduce demand for its products, impose additional compliance and other costs on the Group or otherwise adversely affect its businesses.

In particular, legislative or regulatory actions resulting in enhanced prudential standards, in particular with respect to capital and liquidity, could impose a significant regulatory burden on the Guarantor or on its bank subsidiaries and could limit the bank subsidiaries' ability to distribute capital and liquidity to the Guarantor, thereby negatively impacting the Guarantor. Future liquidity standards could require the Guarantor to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, which would negatively affect its net interest margin. Moreover, the Guarantor's regulatory and supervisory authorities, periodically review the Guarantor's allowance for its loan losses.

## RISK FACTORS

Such regulators and supervisors may recommend the Guarantor to increase its allowance for loan losses or to recognise further losses. Any such additional provisions for loan losses, as recommended by these regulatory and supervisory agencies, whose views may differ from those of the Guarantor's management, could have an adverse effect on its earnings and financial condition. Accordingly, there can be no assurance that future changes in regulations or in their interpretation or application will not adversely affect the Group.

The wide range of regulations, actions and proposals which most significantly affect, or which could most significantly affect, the Group in the future, relate to capital requirements, funding and liquidity and development of a fiscal and banking union in the EU, which are discussed in further detail below. Moreover, there is uncertainty regarding the future of financial reforms in the United States and the impact that potential financial reform changes to the U.S. banking system may have on ongoing international regulatory proposals. In general, regulatory reforms adopted or proposed in the wake of the financial crisis have increased and may continue to materially increase the Group's operating costs and negatively impact the Group's business model. Furthermore, regulatory authorities have substantial discretion in how to regulate banks, and this discretion, and the means available to the regulators, have been increasing during recent years. Regulation may be imposed on an ad hoc basis by governments and regulators in response to a crisis, and these may especially affect financial institutions such as the Group that are deemed to be a global systemically important institution ("**G-SII**"). The main regulations and regulatory and governmental oversight that can adversely impact the Group include but are not limited to the items below.

*Increasingly stricter capital regulations and potential requirements could have an impact on the functioning of the Group and its businesses*

Increasingly onerous capital requirements constitute one of the Guarantor's main regulatory challenges. Increasing capital requirements may adversely affect the Guarantor's profitability and create regulatory risk associated with the possibility of failure to maintain required capital levels.

In 2011, the framework known as Basel III, which is a full set of reform measures to strengthen the regulation, supervision and risk management of the banking sector, was introduced (see "*Investment Considerations – Additional information on the BRRD and SRM Regulation–Capital requirements, liquidity, funding and structural reform*"). This aimed to boost the banking sector's ability to absorb impacts caused by financial and economic stress, improve risk management and corporate governance, and improve banking transparency and disclosures. Concerning capital, Basel III redefines available capital at financial institutions (including new deductions and raising the requirements for eligible equity instruments), tightens the minimum capital requirements, compels financial institutions to operate permanently with surplus capital (capital "buffers"), and includes new requirements for the risks considered.

The amendments to the solvency requirements of credit institutions and various transparency regulations, from the practical standpoint, grant priority to high-quality capital (Common Equity Tier 1 or "**CET1**"), introducing stricter eligibility criteria and more stringent ratios, in a bid to guarantee higher standards of capital adequacy in the financial sector.

The European Central Bank (the "**ECB**") is required under Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the "**SSM Regulation**") to carry out a supervisory review and evaluation process (the "**SREP**") at least on an annual basis.

The Guarantor announced on 11 December 2023 that it had received from the ECB its decision regarding the prudential minimum capital requirements effective as of 1 January 2024, following the results of SREP. The ECB's decision establishes a Pillar 2 requirement (P2R) of 1.74 per cent. at a consolidated level, of which at least 0.98 per cent. must be covered with CET1. Accordingly, the minimum CET1 and capital requirements as of 1 January 2024 are 9.60 per cent. and 13.86 per cent on a consolidated basis, respectively. As of 31 December 2023, on a consolidated basis, the Group's total capital ratio was 16.4 per cent. while its CET1 ratio was 12.3 per cent. If the Group did not apply the transitory IFRS 9 provisions, nor the subsequent amendments introduced by Regulation 2020/873 of the EU, the fully-loaded CET1 ratio would have been 12.3 per cent.

In addition, the Guarantor shall comply with the TLAC/MREL Requirements (as defined in section "*Investment Considerations – Additional information on the BRRD and SRM Regulation– MREL Requirements*"). The Bank announced on 18 May 2023 that it received, a formal notification from the Bank of Spain with its binding minimum MREL requirement, both total and subordinated, for the resolution group of Banco Santander (the "**Resolution Group**") at a sub-consolidated level, as determined by the Single Resolution Board ("**SRB**"). The total MREL requirement which became effective on 1 January 2024, has been set at 29.81 per cent. of the

## RISK FACTORS

resolution group's total risk weighted assets. The subordination requirement was set at 10.27 per cent. As of 31 December 2023 the structure of own funds and eligible liabilities of the Resolution Group met the requirement. Future requirements are subject to ongoing review by the resolution authority.

See "*Investment Considerations – Additional information on the BRRD and SRM Regulation– MREL Requirements*" for additional information.

In this regard, there can be no assurance that the application of the existing regulatory requirements, standards or recommendations will not require the Guarantor to issue additional securities that qualify as own funds or eligible liabilities, to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, to liquidate assets, to curtail business or to take any other actions, any of which may have a material adverse effect on the Group's business, results of operations and/or financial position.

Any failure by the Guarantor and/or the Group to maintain its Pillar 1 minimum regulatory capital ratios and any Pillar 2 additional capital requirements could result in administrative actions or sanctions (including restrictions on Discretionary Payments, as defined in section "*Investment Considerations –Additional information on the BRRD and SRM Regulation– Capital Requirements*"), which, in turn, may have a material adverse impact on the Group's results of operations.

Moreover, it should not be disregarded that new and more demanding additional regulatory requirements, standards or recommendations may be applied in the future, notably once the final Basel III reforms are implemented in the EU. In this regard, the European Commission published on 27 October 2021 a legislative proposal which aims to complete the post-crisis reforms and to faithfully implement the outstanding elements of the Basel III reform in the EU.

All the applicable regulations and the approval of any other regulatory requirements could have an adverse effect on the Group's activities and operations, and most particularly affect the ability of the Guarantor to distribute dividends. Therefore, these regulations could have a material adverse effect on the Group's business, results of operations and/or financial position.

*The Group is subject to potential action by any of its regulators or supervisors, particularly in response to customer complaints.*

As noted above, the business and operations of the Group are subject to increasingly significant rules and regulations that are required to conduct banking and financial services business. These apply to business operations, affect financial returns, include reserve and reporting requirements, and prudential and conduct of business regulations. These requirements are set by the relevant central banks and regulatory authorities that authorise, regulate and supervise the Group in the jurisdictions in which it operates.

In their supervisory roles, the regulators seek to maintain the safety and soundness of financial institutions with the aim of strengthening the protection of customers and the financial system. The supervisors' continuing supervision of financial institutions is conducted through a variety of regulatory tools, including the collection of information by way of prudential returns, reports obtained from skilled persons, visits to firms and regular meetings with management to discuss issues such as performance, risk management and strategy. In general, these regulators have a more outcome-focused regulatory approach that involves more proactive enforcement and more punitive penalties for infringement. As a result, the Group faces increased supervisory scrutiny (resulting in increasing internal compliance costs and supervision fees), and in the event of a breach of its regulatory obligations the Group is likely to face more stringent regulatory fines. Some of the regulators, are focusing intently on consumer protection and on conduct risk and will continue to do so. This has included a focus on the design and operation of products, the behaviour of customers and the operation of markets. Such a focus could result, for example, in pricing regulations that could restrict the ability of the Group to charge certain levels of interest in credit transactions or in regulation that would prevent the Group from bundling products that it offers to its customers. Some of the laws in the relevant jurisdictions in which the Group operates, give the regulators the power to make temporary product intervention rules either to improve a firm's systems and controls in relation to product design, product management and implementation, or to address problems identified with financial products. These problems may potentially cause significant detriment to consumers because of certain product features or governance flaws or distribution strategies. Such rules may prevent institutions from entering into product agreements with customers until such problems have been solved. Some of the regulatory regimes in the relevant jurisdictions in which the Group operates, requires the Group to be in compliance across all aspects of its business, including the training, authorisation and supervision of personnel, systems, processes and documentation. If it fails to comply with the relevant regulations, there would be a risk of an adverse impact on

## RISK FACTORS

its business from sanctions, fines or other actions imposed by the regulatory authorities. Customers of financial services institutions, including Group's customers, may seek redress if they consider that they have suffered loss as a result of the mis-selling of a particular product, or through incorrect application of the terms and conditions of a particular product. Given the inherent unpredictability of litigation and the evolution of judgements by the relevant authorities, it is possible that an adverse outcome in some matters could harm the reputation of the Group or have a material adverse effect on its operating results, financial condition and prospects arising from any penalties imposed or compensation awarded, together with the costs of defending such an action, thereby reducing its profitability.

*The Group is subject to review by tax authorities, and an incorrect interpretation of tax laws and regulations by the Group may have a material adverse effect on it.*

The preparation of the tax returns of the Group requires the use of estimates and interpretations of complex tax laws and regulations and is subject to review by tax authorities. The Group is subject to the income tax laws of Spain and the other jurisdictions in which it operates. These tax laws are complex and subject to different interpretations by the taxpayer and relevant governmental tax authorities, which are sometimes subject to prolonged evaluation periods until a final resolution is reached. In establishing a provision for income tax expense and filing returns, the Group must make judgements and interpretations about the application of these inherently complex tax laws. If the judgement, estimates and assumptions the Group uses in preparing its tax returns are subsequently found to be incorrect, there could be a material adverse effect on Group's results of operations. In some jurisdictions, the interpretations of the tax authorities are unpredictable and frequently involve litigation, which introduces further uncertainty and risk as to tax expense.

*The Group may not be able to detect or prevent money laundering and other financial crime activities fully or on a timely basis, which could expose it to additional liability and could have a material adverse effect on the Group.*

The Group is required to comply with applicable anti-money laundering and combating the financing of terrorism ("AML/CFT"), anti-bribery and corruption, sanctions and other laws and regulations (collectively, financial crime compliance ("FCC") regulations).

These laws and regulations require the Group, among other things, to conduct full customer due diligence (including sanctions and politically exposed person screening), keep its customer, account and transaction information up to date and have FCC policies and procedures in place detailing what is required from those responsible. The Group is also required to conduct FCC training for its employees and to report suspicious transactions and activity to appropriate law enforcement following full investigation by Group's local FCC team.

Financial crime continues to be the subject of enhanced regulatory scrutiny and supervision by regulators globally. FCC regulations are increasingly complex and detailed. Key standard-setting and regulatory bodies continue to provide guidelines to strengthen the interaction and cooperation between prudential and AML or combating the financing of terrorism ("CFT") supervisors. Compliance with these laws and regulations requires automated systems, sophisticated monitoring and skilled compliance personnel.

The Group maintains updated policies and procedures aimed at detecting and preventing the use of its banking network for money laundering and other financial crime related activities. However, emerging technologies, such as cryptocurrencies and innovative payment methods, could limit Group's ability to track the movement of funds. The ability of the Group to comply with the legal requirements depends on its ability to improve detection and reporting capabilities and reduce variation in control processes and oversight accountability. These require implementation and embedding within its business effective controls and monitoring, which in turn requires on-going changes to systems and operational activities.

Financial crime is continually evolving and, as noted, is subject to increasingly stringent regulatory oversight and focus. This requires proactive and adaptable responses from the Group so that the Group is able to deter threats and criminality effectively. As a global bank, the Group is particularly exposed to this risk. Even known threats can never be fully eliminated, and there will be instances where the Group may be used by other parties to engage in money laundering and other illegal or improper activities. In addition, the Group relies heavily on its employees to assist the Group by spotting such activities and reporting them, and its employees have varying degrees of experience in recognising criminal tactics and understanding the level of sophistication of criminal organisations. Where the Group outsources any of its customer due diligence, customer screening or anti financial crime operations, it remains responsible and accountable for full compliance and any breaches. If the Group is unable to apply the necessary scrutiny and oversight of third parties to whom it outsources certain tasks and processes, there remains a risk of regulatory breach.

## RISK FACTORS

If the Group is unable to fully comply with applicable laws, regulations and expectations, regulators and relevant law enforcement agencies have the ability and authority to impose significant fines and other penalties on the Group, including requiring a complete review of its business systems, day-to-day supervision by external consultants and ultimately the revocation of the Group's banking licence.

The Group has been, and may in the future be, subject to negative coverage in the media about it or its clients, including with respect to alleged conduct such as failure to detect and/or prevent any financial crime activities or comply with FCC regulations. Negative media coverage of this type about the Group, whether it has merit or not, could materially and adversely affect its reputation and perception among current and potential clients, investors, vendors, partners, regulators and other third parties, which in turn could have a material adverse effect on the Group's operating results, financial condition and prospects as well as damage its customers' and investors' confidence and the market price of its securities.

The reputational damage to the business of the Group and global brand could be severe if it were found to have breached FCC requirements. Its reputation could also suffer if the Group is unable to protect its customers' bank products and services from being used by criminals for illegal or improper purposes.

The Brazilian Public Federal Public Prosecutor's Office, or "MPF" has charged one of the Group's officers in connection with the alleged bribery of a Brazilian tax auditor to secure favourable decisions in tax cases resulting in a claimed benefit of R\$83 million (approximately US\$15 million) for the Group. On 23 October 2018, the officer was formally indicted and asked to present his defence. On 5 November 2018, the officer in question presented his defence. Proceedings had been ongoing until 25 October 2021, when a São Paulo federal judge requested additional documents from a Brasília federal judge in order to proceed with discovery. Proceedings have since been stayed. The Group is not a party to these proceedings. The Group has voluntarily provided information to the Brazilian authorities and have relinquished the benefit of certain tax credits to which the allegations relate in order to show good faith.

In addition, while the Group reviews its relevant counterparties' internal policies and procedures with respect to such matters, it expects its relevant counterparties to maintain and properly apply their own appropriate compliance procedures and internal policies. Such measures, procedures and internal policies may not be completely effective in preventing third parties from using its (and its relevant counterparties') services as a conduit for illicit purposes (including illegal cash transactions) without the Group's (and its relevant counterparties') knowledge. If the Group is associated with, or even accused of being associated with, breaches of FCC requirements the Group's reputation could suffer and/or it could become subject to fines, sanctions and/or legal enforcement (including being added to 'watch lists' that would prohibit certain parties from engaging in transactions with the Group), any one of which could have a material adverse effect on its operating results, financial condition and prospects.

Any such risks could have a material adverse effect on the Group's operating results, financial condition and prospects.

*See "The Group including the Guarantor is subject to extensive regulation and regulatory and governmental oversight which could adversely affect its business, operations and financial condition".*

*Changes in taxes and other assessments may adversely affect the Group.*

The legislatures and tax authorities in the tax jurisdictions in which the Group operates regularly enact reforms to the tax and other assessment regimes to which it and its customers are subject to. Such reforms include changes in tax rates and, occasionally, enactment of temporary taxes, the proceeds of which are earmarked for designated governmental purposes.

The effects of these changes and any other changes that result from enactment of additional tax reforms cannot be quantified and there can be no assurance that any such reforms would not have an adverse effect upon the business of the Group.

For example, Law 38/2022, of 27 December, established a temporary tax on financial credit institutions in Spain. The tax is calculated as 4.8 per cent. of the sum of interest income/charges and commission income/expenses derived from the business activities carried out in Spain. Royal Decree-Law 8/2023, of 27 December, foresees the revision of this temporary tax during 2024 for its inclusion into the tax system on a permanent basis.

### ***Credit Risks.***

*The credit quality of the loan portfolio of the Group may deteriorate and the Group's loan loss reserves could be insufficient to cover its loan losses, which could have a material adverse effect on the Group.*

Risks arising from changes in credit quality and the recoverability of loans and amounts due from counterparties are inherent to a wide range of the businesses of the Group. Non-performing or low credit quality loans have in the past negatively impacted the Group's results of operations and could do so in the future. In particular, the amount of the reported credit impaired loans of the Group may increase in the future as a result of growth in the Group's total loan portfolio, including as a result of loan portfolios that the Group may acquire in the future (the credit quality of which may turn out to be worse than it had anticipated), or factors beyond the Group's control, such as adverse changes in the credit quality of its borrowers and counterparties or a general deterioration in economic conditions in the regions where the Group operates or in global economic and political conditions, including as a result of the continuance or escalation of the war in Ukraine and the conflict in the Middle East. In certain markets, the combined pressure of economic downturn, high inflation and high interest rates may impact the ability of the Group's customers to repay their debt. If the Group was unable to control the level of its credit impaired or poor credit quality loans, this could have a material adverse effect on the Group.

The loan loss reserves of the Group are based on its current assessment of and expectations concerning various factors affecting the quality of its loan portfolio. These factors include, among other things, the financial condition of the borrowers of the Group, repayment abilities and repayment intentions, the realisable value of any collateral, the prospects for support from any guarantor, government macroeconomic policies, interest rates and the legal and regulatory environment. Because many of these factors are beyond the Group's control and there is no infallible method for predicting loan and credit losses, the Group cannot assure that its current or future loan loss reserves will be sufficient to cover actual losses. If the Group's assessment of and expectations concerning the above mentioned factors differ from actual developments, if the quality of its total loan portfolio deteriorates, for any reason, or if the future actual losses exceed the estimates of expected losses of the Group, it may be required to increase its loan loss reserves, which may adversely affect the Group. Additionally, in calculating the Group's loan loss reserves, the Group employs qualitative tools and statistical models which may not be reliable in all circumstances and which are dependent upon data that may not be complete. For further details regarding the Group's risk management policies, see *"Failure to successfully implement and continue to improve the risk management policies, procedures and methods of the Group, including its credit risk management systems, could materially and adversely affect the Group, and it may be exposed to unidentified or unanticipated risks."*

On 31 December 2023, the Group's net loans and advances to customers of the Group amounted to EUR 1,036,349 million (compared to EUR 1,036,004 million as of 31 December 2022).

The loan portfolio of the Group is mainly located in Europe (in particular, Spain and the UK), North America (in particular, the United States) and South America (in particular, Brazil). At 31 December 2023, Europe accounted for 55 per cent. of the Group's total loan portfolio (Spain accounted for 23 per cent. of its total loan portfolio and the UK, where the loan portfolio consists primarily of residential mortgages, accounted for 24 per cent.), North America accounted for 17 per cent. (of which the United States represents 12 per cent. of its total loan portfolio), South America accounted for 15 per cent. (of which Brazil represents 9 per cent. of its total loan portfolio) and the Digital Consumer Bank segment (primarily Europe) accounted for 13 per cent.

Mortgage loans are one of the Group's principal assets, comprising 43 per cent. of its net loans and advances as of 31 December 2023, mainly located in Spain and the UK. 81 per cent. of such mortgage loans are residential. If Spain or the UK experience situations of economic stagnation, persistent housing oversupply, decreased housing demand, rising unemployment levels, subdued earnings growth, greater pressure on disposable income, a decline in the availability of mortgage finance or continued global markets volatility, for instance, home prices could decline, while mortgage delinquencies, forbearances and the Group's NPL ratio could increase, which in turn could have a material adverse effect on the Group's business, financial condition and results of operations. At 31 December 2023, the NPL ratio of residential mortgage loans for the Group in Spain and the UK was 1.49 per cent. and 1.16 per cent., respectively.

At 31 December 2023 the total Group NPL ratio stood at 3.14 per cent. as compared to 3.08 per cent. at 31 December 2022. Coverage as of 31 December 2023 was 66 per cent. as compared to 68 per cent. a year earlier.

Impairment on financial assets not measured at fair value through profit or loss (net) of the Group in 2023 was EUR 12,956 million (mainly related to loans and advances to customers), a 19 per cent. increase as compared to EUR 10,863 million in 2022 mainly affected by the provisions resulting from the charges in Poland for CHF

mortgages, the increase in the US (due to normalisation) and higher provisions recorded in Brazil in line with credit portfolio growth.

At 31 December 2023, the gross amount of the Group's refinancing and restructuring operations was EUR 31,963 million (3 per cent. of total gross loans and credits), of which EUR 8,721 million have real estate collateral. At the same date, the net amount of non-current assets held for sale amounted EUR 3,014 million of which EUR 2,773 million were foreclosed assets.

*The value of the collateral securing the loans of the Group may not be sufficient, and the Group may be unable to realise the full value of the collateral securing its loan portfolio.*

The value of the collateral securing the Group's loan portfolio may fluctuate or decline due to factors beyond its control, including as a result of macroeconomic factors, especially those affecting Europe, North America and South America, or the continuance or escalation of the war in Ukraine and the conflict in the Middle East. The value of the collateral securing its loan portfolio may be adversely affected by force majeure events, such as natural disasters (including as a result of climate change), particularly in locations where a significant portion of its loan portfolio is composed of real estate loans.

The Group may also not have sufficiently recent information on the value of collateral, which may result in an inaccurate assessment for impairment losses of its loans secured by such collateral.

If any of the above were to occur, the Group may need to make additional provisions to cover actual impairment losses of its loans, which may materially and adversely affect its results of operations and financial condition.

In addition, auto industry technology changes, accelerated by environmental rules, could affect the auto consumer business of the Group in the EU and the United States, particularly residual values of leased vehicles. This transformation could affect the Group's auto finance business view of (i) a transition from fuel to electric engines, environmental aspects related to emissions and transition risks derived from political and regulatory decisions (e.g., traffic restrictions in city centers), (ii) growing customer preferences for car leasing, subscription, car sharing and other services instead of vehicle ownership, (iii) greater market concentration in certain manufacturers, distributors and other agents, and (iv) more online sales channels. In addition, the auto industry could also suffer from supply chain disruption and shortages of batteries, semi-conductors and others in the wake of the wars, geopolitical and macroeconomic tensions, conflicts and other events, affecting guarantees, residual used car value and loan delinquencies. Although the Group monitors the auto portfolios and dealers and it has launched specific plans to tackle particular issues, the auto industry changes and disruptions described above which could have a material adverse effect on its operating results, financial condition and prospects.

At 31 December 2022, 43 per cent. of the Group's loans and advances to customers have property collateral while 22 per cent. have other types of collateral (securities, pledges and others).

*The Group is subject to counterparty risk in its banking business.*

The Group is exposed to counterparty risk in addition to credit risks associated with lending activities. Counterparty risk may arise from, for example, investing in securities of third parties, entering into derivative contracts under which counterparties have obligations to make payments to the Group or executing securities, futures, currency or commodity trades from proprietary trading activities that fail to settle at the required time due to non-delivery by the counterparty or systems failure by clearing agents, clearing houses or other financial intermediaries.

The Group routinely transacts with counterparties in the financial services industry, including brokers and dealers, commercial banks, investment banks, mutual funds, hedge funds and other institutional clients. Defaults by, and even rumours or questions about the solvency of, certain financial institutions and the financial services industry generally have led to market-wide liquidity problems and could lead to losses or defaults by other institutions. Many of the routine transactions the Group enters into expose it to significant credit risk in the event of default by one of its significant counterparties.

### ***Operational and technology risks.***

*Any failure to improve or upgrade the information technology infrastructure and information management systems of the Group in an effective, timely and cost-effective manner including in response to new or modified cybersecurity and data privacy laws, rules and regulations, could have a material adverse effect on the Group.*

## RISK FACTORS

The ability of the Group to remain competitive depends in part on its ability to upgrade its information technology in an effective, timely and cost-effective manner. It must continually make significant investments in, and improvements to, the information technology infrastructure and information management systems of the Group in order to meet the needs of its customers. The Group cannot guarantee that in the future it will be able to maintain the level of capital expenditures necessary to support the continuous improvement and upgrading of its information technology infrastructure and information management systems and networks. To the extent that the Group is dependent on any particular technology or technological solution, it may be harmed if such technology or technological solution becomes non-compliant with existing industry standards or applicable laws, rules or regulations, fails to meet or exceed the capabilities of its competitors' equivalent technologies or technological solutions, becomes increasingly expensive to service, retain and update, becomes subject to third party claims of intellectual property infringement, misappropriation or other violation, or malfunctions or functions in a way the Group did not anticipate. Additionally, new technologies and technological solutions, such as artificial intelligence ("AI"), are continually being released. As such, it is difficult to predict the problems the Group may encounter in improving its technologies' functionality. There is no assurance that the Group will be able to successfully adopt new technology as critical systems and applications become obsolete and better ones become available. Any failure to effectively improve or upgrade the information technology infrastructure and information management systems and networks in an effective, timely and cost-efficient manner could have a material adverse effect on the Group.

*Any failure or disruption of the Group's operational processes or systems, or data breaches and other security incidents with respect to the Group or its third-party vendors' systems could adversely affect the Group's business or reputation, and create significant legal, regulatory or financial exposure.*

Like other financial institutions, in conducting the Group's banking operations, the Group receives, manages, holds, transmits and otherwise processes certain proprietary and sensitive or confidential information, including personal information of customers and employees as well as a large number of assets. Accordingly, the business of the Group relies on its ability to process a large number of transactions efficiently and accurately, and on its ability to rely on its digital technologies, computer and email services, software and networks, as well as on the secure storage, transmission and otherwise processing of proprietary confidential, sensitive and personal data and other information using the computer systems and networks of the Group or those of its third party vendors. The Group's operations must also comply with complex and evolving laws and regulations in the countries in which the Group operates. The proper and secure functioning of its financial controls, accounting and other data collection and processing systems is critical to its business and to its ability to compete effectively. Data breaches, data losses and other security incidents, including fraudulent withdrawal of money, can result from, among other things, inadequate personnel, inadequate or failed internal control processes and systems, or external events or actors that interrupt normal business operations and may include cyberattacks, disruptions, failures, unauthorised access or misuse, software bugs, server malfunctions, software and hardware failure, malware and ransomware, social engineering and phishing attacks, denial-of-service attacks, misconduct, fraud, and other events that could have a serious impact on the Group. The Group also faces the risk that the design of its or its third-party vendors' cybersecurity controls and procedures prove to be inadequate or are circumvented such that its data or client records are incomplete, not recoverable or not securely stored. Moreover, it is not always possible to deter or prevent employee errors or misconduct, and the precautions the Group takes to detect and prevent this activity may not always be effective. Any material disruption or slowdown of the systems of the Group could cause information, including data related to customer requests, to be lost or to be delivered to its clients with delays or errors, which could reduce demand for its services and products, produce customer claims and materially and adversely affect the Group.

The Group prioritises early identification, monitoring and mitigation of risks (including those resulting from its interactions with third parties) in its goal to provide a resilient and secure operational environment. In this regard, although (i) the Group has policies, procedures, and controls in place designed to safeguard proprietary sensitive and confidential information, including personal information, (ii) the Group takes protective technical measures and monitor and develop the Group's systems and networks to protect the Group's technology, infrastructure, data and information from misappropriation or corruption, and (iii) the Group works with its clients, vendors, service providers, counterparties and other third parties to develop secure data and information processing, collection, authentication, management, usage, storage and transmission capabilities and to ensure the eventual destruction of proprietary, sensitive and confidential information, including personal information, the Group, its third-party vendors or other third parties with which the Group does business have been and may continue to be subject to cyberattacks and other cybersecurity incidents. The implementation of the Group's cybersecurity, policies, procedures, controls and technical measures is designed to reduce the risk of such cybersecurity incidents but does not guarantee full protection against potential threats or cyberattacks or a risk-free environment. This is especially applicable in the current global environment, with the war in Ukraine and the conflict in the Middle East resulting

## RISK FACTORS

in an increased risk of cyberattacks, and other disruptions in response to, or retaliation for, the sanctions and costs imposed on Russia and certain other countries directly or indirectly involved in the wars. Additionally, the shift to remote work policies for a significant portion of the Group's workforce, as they access the Group's secure systems and networks remotely and its customers' increased reliance on digital banking products and other digital services, including mobile payment products, has also increased the risk of cyberattacks (see *"The global covid-19 pandemic has materially impacted the Group's business, and the continuance of this pandemic or any future outbreak of any other highly contagious diseases or other public health emergency, could materially and adversely impact its business, financial condition, liquidity and results of operations"*).

While the Group generally performs cybersecurity due diligence on its key vendors, because it does not control its vendors and its ability to monitor their cybersecurity is limited, the Group cannot ensure the cybersecurity measures they take will be sufficient to protect any information it shares with them. Due to applicable laws and regulations or contractual obligations, the Group may be held responsible for security breaches, cyberattacks or other similar incidents attributed to its vendors as they relate to the information the Group share with them.

In addition, the Group may also be impacted by cyberattacks against national critical infrastructures of the countries where it operates, such as telecommunications networks. The Group's information technology systems are dependent on such critical infrastructure and any cyberattack against such critical infrastructure could negatively affect its ability to service its customers. As the Group does not operate such critical infrastructure, it has limited ability to protect its information technology systems from the adverse effects of a cyberattack.

The Group has seen in recent years the information technology systems and networks of companies and organisations being increasingly targeted, and the techniques used to obtain unauthorised, improper or illegal access to such information technology systems and networks have become increasingly complex and sophisticated, including through the use of AI. Furthermore, such techniques change frequently and are often not recognised or detected until after they have been launched and can originate from a wide variety of sources, including not only organised crime, hackers, activists, terrorists, nation-states, nation-state supported actors and others, any of which may see their effectiveness enhanced by the use of AI. As attempted attacks continue to evolve in scope and sophistication, the Group may incur significant costs in order to modify or enhance its protective measures against such attacks, or to investigate or remediate any vulnerability or resulting breach, or in communicating cyberattacks or other security incidents to its customers, affected individuals or regulators, as applicable.

If the Group cannot maintain effective and secure proprietary, confidential, sensitive and personal data, or if the Group or its third-party vendors fall victim to successful cyberattacks, penetrations, compromises, breaches or circumventions of the Group's information technology systems or networks or experience other security incidents in the future, the Group may incur substantial costs and suffer other negative consequences, such as disruption to its operations, misappropriation of personal, proprietary, confidential or sensitive information, remediation costs (including liabilities for stolen assets or information, repairs of system damage, among others), increased cybersecurity protection costs, lost revenues arising from the unauthorised use of personal, proprietary, confidential or sensitive information or the failure to retain or attract its customers following an operational or security incident, litigation and legal risks (including claims from customers, employees or other third parties, regulatory action, reporting obligations, investigation, fines and penalties), increased insurance premiums, reputational damage affecting its customers' and the investors' confidence, as well as damages to the Group's competitiveness, stock price and long-term shareholder value. In addition, the Group's remediation efforts may not be successful, and it may not have adequate insurance to cover these losses. While the Group maintains insurance coverage, it cannot assure that such coverage will be adequate or otherwise protect the Group from liabilities or damages with respect to claims alleging compromises of proprietary, confidential, sensitive or personal data or otherwise relating to data privacy and cybersecurity matters. In addition, the Group cannot be sure that its existing insurance coverage will continue to be available on acceptable terms or at all, or that its insurers will not deny coverage to any future claim. Moreover, even when a failure of or interruption in the Group's or its third-party vendors' systems or facilities is resolved in a timely manner or an attempted cyberattack, data breach or security incident is successfully avoided or thwarted, substantial resources and management attention are expended in doing so, and to successfully avoid or resolve any such incidents, the Group may be required to take actions that could adversely affect customer satisfaction or retention, as well as harm its reputation.

Any of the cyberattacks, data breaches, data losses and other security incidents described above could have a material adverse effect on the Group's business, financial condition and results of operations.

*The Group relies on third parties and affiliates for important products and services.*

Third party vendors and certain affiliated companies provide key components to the business infrastructure of the Group such as loan and deposit servicing systems, back office and business process support and software, information technology production and support, internet connections and network access, including cloud-based services, as well as those of the Group's service providers. Relying on these third parties and affiliated companies can be a source of operational and regulatory risk to the Group, including with respect to security breaches affecting such parties. The Group is also subject to risk with respect to security breaches affecting the vendors and other parties that interact with these service providers. As the interconnectivity of the Group with these third parties and affiliated companies increases, the Group increasingly faces the risk of operational failure with respect to their systems. The Group may be required to take steps to protect the integrity of its operational systems, thereby increasing its operational costs and potentially decreasing customer satisfaction.

In addition, any problems caused by these third parties or affiliated companies, including as a result of them not providing the Group their services for any reason, or performing their services poorly, could adversely affect its ability to deliver products and services to customers and otherwise conduct its business, which could lead to reputational damage and regulatory investigations and intervention. While the Group has diversified providers for the main services and keeps strict and close monitoring on them, in some instances, replacing these third-party vendors could also entail significant delays and expense. Further, the operational and regulatory risk that the Group faces as a result of these arrangements may be increased to the extent that it restructures such arrangements. Any restructuring could involve significant expense to the Group and entail significant delivery and execution risk which could have a material adverse effect on its business, operations and financial condition.

*The Group utilises AI, which could expose the Group to liability or adversely affect its business.*

The Group utilises and is continuing to explore further uses of AI in connection with its business, products and services. However, there are significant risks involved in utilising AI and no assurance can be provided that the Group's use will enhance its products or services or produce the intended results. For example, AI algorithms may be flawed, insufficient, of poor quality, reflect unwanted forms of bias or contain other errors or inadequacies, any of which may not be easily detectable; AI has been known to produce false inferences or outputs; AI may subject the Group to new or heightened legal, regulatory, ethical or other challenges; AI may involve inappropriate or controversial data practices by developers and end-users, or other factors adversely affecting public opinion of AI, any of which could impair the acceptance of AI solutions, including those incorporated into the Group's products and services. If the AI solutions that the Group creates or uses are deficient, inaccurate or controversial, it could incur operational inefficiencies, competitive harm, legal liability, brand or reputational harm, or other adverse impacts on its business and financial results. Additionally, if any of the Group's employees, contractors, vendors or service providers use any third-party AI-powered solutions in connection with the Group's business, it may lead to the inadvertent disclosure or incorporation of the Group's proprietary, confidential, sensitive or personal information into publicly available or third-party training sets which may impact its ability to realise the benefit of the Group's intellectual property or proprietary, confidential, sensitive or personal information, harming its competitive position and business. If the Group does not have sufficient rights to use the data or other material or content on which its AI solutions or other AI tools it uses rely, the Group also may incur liability through the violation of applicable laws and regulations, third-party intellectual property, privacy or other rights, or contracts to which the Group is a party.

### ***Liquidity and Funding Risks***

*Liquidity and funding risks are inherent in the Group's business and could have a material adverse effect on it.*

Liquidity risk is the risk that the Group either does not have sufficient financial resources available to meet its obligations as they are due, or can only secure them at excessive cost. This risk is inherent in any banking business and can be heightened by a number of enterprise-specific factors, including over-reliance on a particular source of funding, changes in credit ratings or market-wide phenomena such as market dislocation, including as a result of the continuance or escalation of the war in Ukraine and of the conflict in the Middle East. While the Group has in place liquidity management processes to mitigate and control these risks, as well as an organisational model based on autonomous subsidiaries in terms of capital and liquidity which limits the possibility of contagion between the units of the Group, systemic market factors make it difficult to eliminate these risks completely. Constraints in the supply of liquidity, including in inter-bank lending, could materially and adversely affect the cost of funding of the Group's business, and extreme liquidity constraints may affect its current operations and its ability to fulfil regulatory liquidity requirements, as well as limit growth possibilities.

## RISK FACTORS

The cost of the Group to obtain funding is directly related to prevailing interest rates and to its credit spreads. Increases in interest rates, such as those announced throughout 2022 and 2023 by the ECB, the Bank of England and the Federal Reserve, and/or in its credit spreads can significantly increase the cost of its funding. Credit spreads variations are market-driven and may be influenced by market perceptions of creditworthiness of the Group. Changes to interest rates and in the credit spreads of the Group may occur frequently and could be unpredictable and highly volatile.

The Group relies, and will continue to rely, primarily on retail deposits to fund lending activities. The ongoing availability of this type of funding is sensitive to a variety of factors beyond the Group's control, such as general economic conditions and the confidence of retail depositors in the economy and in the financial services industry, and the availability and extent of deposit guarantees, as well as competition for deposits between banks or with other products, such as mutual funds. Any of these factors could increase the amount of retail deposit withdrawals in a short period of time, thereby reducing the ability of the Group to access retail deposit funding on appropriate terms, or at all, in the future. If these circumstances were to arise, this could have a material adverse effect on the operating results of the Group, financial condition and prospects.

In the first half of 2023, the liquidity issues faced by Silicon Valley Bank and other banks in the United States and the issues faced by the Swiss bank, Credit Suisse, caused withdrawals of deposits from these banks and volatility in international markets. Central banks took measures designed to guarantee the liquidity of the banking system. Although the Group does not have material exposure to the affected banks, the spread or potential spread of these or other issues to the broader financial sector could have a material adverse effect on the Group's operating results, financial condition and prospects.

Central banks took extraordinary measures to increase liquidity in the financial markets as a response to the financial crisis and the covid-19 pandemic. In Europe, the ECB's pandemic emergency purchase programme ("PEPP") was finalised by the end of March 2022, although maturing principal payments are expected to be repurchased until at least at the end of 2024. If these facilities, which are progressively being reduced, were to be rapidly removed, this could have an adverse effect on the ability of the Group to access liquidity and on the Group's funding costs.

Additionally, the activities of the Group could be adversely impacted by liquidity tensions arising from generalised drawdowns of committed credit lines to the customers of the Group.

The Group cannot assure that in the event of a sudden or unexpected shortage of funds in the banking system, the Group will be able to maintain levels of funding without incurring high funding costs, a reduction in the term of funding instruments or the liquidation of certain assets. If this were to happen, the Group could be materially adversely affected.

Finally, the implementation of internationally accepted liquidity ratios might require changes in business practices that affect the profitability of the Group. The liquidity coverage ratio ("LCR") is a liquidity standard that measures if banks have sufficient high-quality liquid assets to cover expected net cash outflows over a 30-day liquidity stress period. At 31 December 2023, the LCR ratio of the Group was 166 per cent., above the 100 per cent. minimum requirement. The net stable funding ration ("NSFR") provides a sustainable maturity structure of assets and liabilities such that banks maintain a stable funding profile in relation to their activities. At the end of 2023, the NSFR ratio of the Group stood at 123 per cent. for the Group and over 100 per cent for all of the Group's main subsidiaries.

***Credit, market and liquidity risk may have an adverse effect on the Group's credit ratings and the Group's cost of funds. Any downgrade in the Group's credit rating would likely increase the Group's cost of funding, require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts and adversely affect the Group's interest margins and results of operations.***

Credit ratings affect the cost and other terms upon which the Group is able to obtain funding. Rating agencies regularly evaluate the Group, and their ratings of the Group's debt are based on a number of factors, including the Group's financial strength and conditions affecting the financial services industry. In addition, due to the methodology of the main rating agencies, the Group's credit rating is affected by the rating of Spanish sovereign debt. If Spain's sovereign debt is downgraded the Group's credit rating would also likely be downgraded.

Any downgrade in the Group's debt credit ratings would likely increase the Group's borrowing costs and require the Group to post additional collateral or take other actions under some of the Group's derivative and other contracts, and could limit the Group's access to capital markets and adversely affect the Group's commercial

## RISK FACTORS

business. For example, a ratings downgrade could adversely affect the Group's ability to sell or market some of the Group's products, engage in certain longer-term and derivatives transactions and retain the Group's customers, particularly customers who need a minimum rating threshold in order to invest. In addition, under the terms of certain of the Group's derivative contracts and other financial commitments, the Group may be required to maintain a minimum credit rating or terminate such contracts or require the posting of collateral. Any of these results of a ratings downgrade could reduce the Group's liquidity and have an adverse effect on the Group, including the Group's operating results and financial condition.

The Group has the following ratings by the major rating agencies as of the report dates indicated below:

The Group conducts substantially all of the Group's material derivative activities through Banco Santander and Santander UK. The Group estimates that as of 31 December 2023, if all the rating agencies were to downgrade Banco Santander's long-term senior debt ratings by one notch, the Group would be required to post up to EUR 210 million in additional collateral pursuant to derivative and other financial contracts. A hypothetical two-notch downgrade would result in a further requirement to post up to EUR 178 million in additional collateral. The Group estimates that as of 31 December 2023, if all the rating agencies were to downgrade Santander UK's long-term credit ratings by one notch, and thereby trigger a short-term credit rating downgrade, this could result in contractual outflows from Santander UK's total liquid assets of GBP 1.2 billion (equivalent to EUR 1.4 billion) of cash and additional collateral that Santander UK would be required to post under the terms of secured funding and derivatives contracts. A hypothetical two-notch downgrade would result in a further outflow of GBP 0.8 billion (equivalent to EUR 0.9 billion) of cash and collateral under secured funding and derivatives contracts.

While certain potential impacts of these downgrades are contractual and quantifiable, the full consequences of a credit rating downgrade are inherently uncertain, as they depend on numerous dynamic, complex and inter-related factors and assumptions, including market conditions at the time of any downgrade, whether any downgrade of the Group's long-term credit rating precipitates downgrades to the Group's short-term credit rating, and assumptions about the potential behaviours of various customers, investors and counterparties. Actual outflows could be higher or lower than the preceding hypothetical examples, depending upon certain factors including which credit rating agency downgrades the credit rating of the Group, any management or restructuring actions

that could be taken to reduce cash outflows and the potential liquidity impact from loss of unsecured funding (such as from money market funds) or loss of secured funding capacity. Although unsecured and secured funding stresses are included in the Group's stress testing scenarios and a portion of the Group's total liquid assets is held against these risks, a credit rating downgrade could still have a material adverse effect on the Group.

In addition, if the Group were required to cancel the Group's derivatives contracts with certain counterparties and were unable to replace such contracts, the Group's market risk profile could be altered.

There can be no assurance that the rating agencies will maintain the current ratings or outlooks. In general, the future evolution of the Group's ratings is linked, to a large extent, to the general macroeconomic outlook which includes the impact of the continuance or escalation of the war in Ukraine and of the conflict in the Middle East on the Group's asset quality, profitability and capital. Failure to maintain favourable ratings and outlooks could increase the Group's cost of funding and adversely affect interest margins, which could have a material adverse effect on the Group.

### **Market Risks**

*The Group's financial results are constantly exposed to market risk. The Group is subject to fluctuations in interest rates and other market risks, which may materially and adversely affect the Group and its profitability.*

The Group's financial results are constantly exposed to market risk. In 2022 and 2023, inflationary pressures, increases in the prices of energy, oil, gas and other commodities and the continuance or escalation of the war in Ukraine and of the conflict in the Middle East caused and could continue to cause high market volatility, which could materially and adversely affect the Group and its trading and banking book.

Economic activities exposed to market risk include (i) transactions where risk is assumed as a consequence of potential changes in interest rates, inflation rates, exchange rates, stock prices, credit spreads, commodity prices, volatility and other market factors; (ii) the liquidity risk from the products and markets of the Group; and (iii) the balance sheet liquidity risk.

As described below, market risk affects (i) the Group's interest income / (charges); (ii) the market value of its assets and liabilities, in particular of the Group's securities holdings, loans and deposits and derivatives transactions; and (iii) other areas of the Group's business such as the volume of loans originated or credit spreads.

The performance of financial markets may cause changes in the value of the Group's investment and trading portfolios. The volatility of world equity markets due to the continued economic uncertainty and sovereign debt crisis has had a particularly strong impact on the financial sector. Continued volatility may affect the value of the Group's investments in equity securities and, depending on their fair value and future recovery expectations, could become a permanent impairment which would be subject to write-offs against the Group's results.

Market risk could include unexpected or unpredictable risks related to periods in which the market does not calculate prices efficiently (for example, during market interruptions or shocks).

### *Variations in the Group's interest income / (charges)*

Interest rates are sensitive to many factors beyond the Group's control, including increased regulation of the financial sector, monetary policies and domestic and international economic and political conditions. Variations in interest rates could affect the interest earned on the assets and the interest paid on the borrowings of the Group, thereby affecting its interest income/ (charges), which comprises the majority of its revenue, reducing the growth rate of the Group and potentially resulting in losses. In addition, costs in which the Group incurs as it implements strategies to reduce interest rate exposure could increase in the future (which, in turn, will impact the results of the Group).

Due to the historically low interest rate environment in the eurozone, in the UK and in the US in recent years, the rates on many of the Group's interest-bearing deposit products were priced at or near zero or negative, limiting its ability to further reduce rates and thus negatively impacting its margins and the Group's results of operations.

Throughout 2022 and 2023, central banks, including the ECB, the Bank of England and the Federal Reserve, increased interest rates to contain inflation.

Increases in interest rates may reduce the volume of loans that the Group originates. Sustained high interest rates have historically discouraged customers from borrowing and have resulted in increased delinquencies in

## RISK FACTORS

outstanding loans and deterioration in the quality of assets. Increases in interest rates may reduce the value of the Group's financial assets and may reduce gains or require the Group to record losses on sales of its loans or securities. Additionally, a shrinking yield premium between short-term and long-term market interest rates coupled with inflation, could adversely affect the Group's business and results of operations.

At 31 December 2023, the risk on net interest income over a one year period, measured as the sensitivity to parallel changes in the worst-case scenario of  $\pm 100$  basis points, (i) was positive in Europe (i.e., a decrease in interest rates would potentially produce a decrease in net interest income) and mainly in the euro, at EUR 886 million, the British pound at EUR 246 million, the Polish zloty, at EUR 24 million, and the US dollar, at EUR 49 million; (ii) was positive in North America (i.e., a decrease in interest rates would potentially produce a decrease in net interest income) and the risk was mainly located in the US (EUR 117 million); and (iii) was negative in South America (i.e., an increase in interest rates would potentially produce a decrease in net interest income) and was mainly found in Chile (EUR 36 million) and Brazil (EUR 141 million).

### *Variations in the market value of the assets and liabilities of the Group*

The market risk in relation to the change in the market value of the assets and liabilities of the Group refers to the loss of value of assets or increase in the value of liabilities due to fluctuations in their prices in the markets where those assets or liabilities are traded, or even if not traded, in the value that a third party outside the Group would be willing to offer in a hypothetical transaction.

The standard methodology that the Group applies for risk management is Value at Risk ("VaR"), which measures the maximum expected loss within a certain confidence level and time frame.

In relation to structural balance sheet risks:

- At 31 December 2023, the maximum expected loss in the value of assets and liabilities due to variations in interest rate was EUR 380.2 million (EUR 304.5 million and EUR 287.5 million at 31 December 2022 and 2021, respectively), measured with a VaR confidence level of 99 per cent. and a temporary horizon of one day.
- At 31 December 2023, the maximum expected loss in the value of assets and liabilities due to variations in exchange rate was EUR 642.9 million (EUR 461 million and EUR 655.2 million at 31 December 2022 and 2021, respectively), measured with a VaR confidence level of 99 per cent. and a temporary horizon of one day.
- At 31 December 2023, the maximum expected loss in the value of assets and liabilities due to variations in equity portfolio was EUR 171.1 million (EUR 195.4 million and EUR 309.1 million at 31 December 2022 and 2021, respectively), measured with a VaR confidence level of 99 per cent. and a temporary horizon of one day.

In relation to the trading portfolio, the Santander Corporate & Investment Banking segment VaR closed December 2023 with EUR 13.5 million.

The Group is also exposed to foreign exchange rate risk as a result of mismatches between assets and liabilities denominated in different currencies. Fluctuations in the exchange rate between currencies may negatively affect the earnings and value of the assets and securities of the Group.

If any of these risks were to materialise, net interest income or the market value of the Group's assets and liabilities could suffer a material adverse impact.

*The Group is subject to market, operational and other related risks associated with its derivative transactions that could have a material adverse effect on the Group.*

The Group enters into derivative transactions for trading purposes as well as for hedging purposes. The Group is subject to market, credit and operational risks associated with these transactions, including basis risk (the risk of loss associated with variations in the spread between the asset yield and the funding and/or hedge cost) and credit or default risk (the risk of insolvency or other inability of the counterparty to a particular transaction to perform its obligations thereunder, including providing sufficient collateral).

Market practices and documentation for derivative transactions differ by country. In addition, the execution and performance of these transactions depend on the Group's ability to maintain adequate control and administration

systems. Moreover, the Group's ability to adequately monitor, analyse and report derivative transactions continues to depend, largely, on its information technology systems. These factors further increase the risks associated with these transactions and could have a material adverse effect on the Group.

At 31 December 2023, the notional value of the trading derivatives in the books of the Group amounted to EUR 7,837,818 million (with a fair value of EUR 56,328 million of debit balance and EUR 50,589 million of credit balance).

At 31 December 2023, the nominal value of the hedging derivatives in the books of the Group within its financial risk management strategy and with the aim of reducing asymmetries in the accounting treatment of its operations amounted to EUR 418,294 million (with fair value of EUR 5,297 million in assets and EUR 7,656 million in liabilities).

*Market conditions have resulted and could result in material changes to the estimated fair values of the Group's financial assets. Negative fair value adjustments could have a material adverse effect on its operating results, financial condition and prospects.*

In the past, financial markets have been subject to significant stress resulting in steep falls in perceived or actual financial asset values, particularly due to volatility in global financial markets and the resulting widening of credit spreads, including as a result of the war in Ukraine and the covid-19 pandemic. The Group has material exposures to securities, loans and other investments that are recorded at fair value and are therefore exposed to potential negative fair value adjustments. Asset valuations in future periods, reflecting then-prevailing market conditions, may result in negative changes in the fair values of the financial assets of the Group and these may also translate into increased impairments. In addition, the value ultimately realised by the Group on disposal may be lower than the current fair value. Any of these factors could require the Group to record negative fair value adjustments, which may have a material adverse effect on its operating results, financial condition or prospects.

In addition, to the extent that fair values are determined using financial valuation models, such values may be inaccurate or subject to change, as the data used by such models may not be available or may become unavailable due to changes in market conditions, particularly for illiquid assets, and particularly in times of economic instability. In such circumstances, its valuation methodologies require the Group to make assumptions, judgements and estimates in order to establish fair value, and reliable assumptions are difficult to make and are inherently uncertain and valuation models are complex, making them inherently imperfect predictors of actual results. Any consequential impairments or write-downs could have a material adverse effect on the operating results, financial condition and prospects of the Group.

### ***Risks related to the industry of the Group***

*Goodwill impairments may be required in relation to acquired businesses.*

The Group has made business acquisitions in recent years and may make further acquisitions in the future. It is possible that the goodwill which has been attributed, or may be attributed, to these businesses may have to be written-down if Group's valuation assumptions are required to be reassessed as a result of any deterioration in their underlying profitability, asset quality and other relevant matters. Impairment testing in respect of goodwill is performed annually, or more frequently if there are impairment indicators present, and comprises a comparison of the carrying amount of the cash-generating unit with its recoverable amount. Goodwill impairment does not, however, affect the regulatory capital of the Group. In 2021 the Group recognised an impairment of goodwill of EUR 6 million while no impairment was recognised in 2022 and an impairment of EUR 20 million was recognised in 2023. There can be no assurances that the Group will not have to write down the value attributed to goodwill in the future, which would adversely affect its results and net assets.

*Changes in the pension liabilities and obligations of the Group could have a material adverse effect on it.*

The Group provides retirement benefits for many of its former and current employees through a number of defined benefit pension plans. The Group calculates the amount of its defined benefit obligations using actuarial techniques and assumptions, including mortality rates, the rate of increase of salaries, discount rates, inflation, the expected rate of return on plan assets, and others. The accounting and disclosures are based on IFRS-IASB and on those other requirements defined by the local supervisors. Given the nature of these obligations, changes in the assumptions that support valuations, including market conditions, can result in actuarial losses which would in turn impact the financial condition of the Group's pension funds. Because pension obligations are generally long term obligations, fluctuations in interest rates have a material impact on the projected costs of its defined benefit obligations and therefore on the amount of pension expense that it accrues.

## RISK FACTORS

Any increase in the current size of the funding deficit in the Group's defined benefit pension plans could result in the Group having to make increased contributions to reduce or satisfy the deficits, which would divert resources from use in other areas of its business. Any such increase may be due to certain factors over which the Group has no or limited control. Increases in its pension liabilities and obligations could have a material adverse effect on its business, financial condition and results of operations.

At 31 December 2023, the provision for pensions and other obligations of the Group amounted to EUR 3,105 million.

*The Group depends in part on dividends and other funds from subsidiaries.*

Some of the Group's operations are conducted through its financial services subsidiaries. As a result, its ability to pay dividends, to the extent the Group decides to do so, depends in part on the ability of its subsidiaries to generate earnings and to pay dividends. Payment of dividends, distributions and advances by the Group's subsidiaries will be contingent upon their earnings and business considerations and is or may be limited by legal, regulatory and contractual restrictions. For instance, the repatriation of dividends from its Argentine subsidiaries have been subject to certain restrictions. Additionally, the Group's right to receive any assets of any of its subsidiaries as an equity holder of such subsidiaries upon their liquidation or reorganisation will be effectively subordinated to the claims of its subsidiaries' creditors, including trade creditors. The Group also has to comply with increased capital requirements, which could result in the imposition of restrictions or prohibitions on "discretionary payments" including the payment of dividends and other distributions to the Group by its subsidiaries.

In 2020, given the uncertainty about the economic impact of the covid-19 pandemic, the ECB, the Prudential Regulation Authority of the UK and the Federal Reserve of the United States, imposed limitations on the distribution of dividends which were in force until the third quarter of 2021. Since then, supervisors assess the capital and dividend distribution plans for each entity as part of their regular supervisory process and make individualised recommendations.

To the extent that these recommendations, or other similar measures that may be taken by supervisory authorities from other regions, are applied by some of the subsidiaries of the Group, it could have a material adverse effect on its business, financial condition and results of operations.

At 31 December 2023, dividend income for the Guarantor represented 52 per cent. of its total income.

*Increased competition, including from non-traditional providers of banking services such as financial technology providers, and industry consolidation may adversely affect the Group's results of operations.*

The Group faces substantial competition in all parts of its business, including in payments, in originating loans and in attracting deposits. The competition in originating loans comes principally from other domestic and foreign banks, mortgage banking companies, consumer finance companies, insurance companies and other lenders and purchasers of loans.

In addition, there has been a trend towards consolidation in the banking industry, which has created larger banks with which the Group must now compete. There can be no assurance that this increased competition will not adversely affect its growth prospects, and therefore its operations. The Group also faces competition from non-bank competitors, such as brokerage companies, department stores (for some credit products), leasing and factoring companies, mutual fund and pension fund management companies and insurance companies.

Non-traditional providers of banking services, such as internet based e-commerce providers, mobile telephone companies and internet search engines may offer and/or increase their offerings of financial products and services directly to customers. These non-traditional providers of banking services currently have an advantage over traditional providers because they are not subject to banking regulation. Several of these competitors may have long operating histories, large customer bases, strong brand recognition and significant financial, marketing and other resources. They may adopt more aggressive pricing and rates and devote more resources to technology, infrastructure and marketing.

New competitors may enter the market or existing competitors may adjust their services with unique product or service offerings or approaches to providing banking services. If the Group is unable to successfully compete with current and new competitors, or if it is unable to anticipate and adapt its offerings to changing banking industry trends, including technological changes, its business may be adversely affected. In addition, the Group's failure to effectively anticipate or adapt to emerging technologies or changes in customer behaviour, including among younger customers, could delay or prevent its access to new digital-based markets, which would in turn have an

## RISK FACTORS

adverse effect on its competitive position and business. Furthermore, the widespread adoption of new technologies, including distributed ledger, AI and/or biometrics, to provide services such as digital currencies, cryptocurrencies and payments, could require substantial expenditures to modify or adapt the existing products and services of the Group as it continues to grow its internet and mobile banking capabilities and could entail new direct risks (including financial and non-financial risks) and indirect risks related to loss of business opportunities. Its customers may choose to conduct business or offer products in areas that may be considered speculative or risky. Further growth of such new technologies and mobile banking platforms could negatively impact the value of the investments of the Group in bank premises, equipment and personnel for its branch network. The persistence or acceleration of this shift in demand towards internet and mobile banking may further necessitate changes to its retail distribution strategy, which may include closing, restructuring and/or selling certain branches of the Group (as the Group has been doing in recent years). These actions could lead to losses on these assets and may lead to increased expenditures to renovate, reconfigure or close a number of its remaining branches or to otherwise reform its retail distribution channel. Furthermore, if the Group fails to swiftly and effectively implement such changes to its distribution strategy could have an adverse effect its competitive position. As part of these restructuring processes, in 2021 the Group faced costs for a net impact of EUR 530 million, mainly in the United Kingdom and Portugal, while no restructuring costs were accounted for in 2022 and 2023.

In particular, the Group faces the challenge to compete in an ecosystem where the relationship with the consumer is based on access to digital data and interactions. This access is increasingly dominated by digital platforms who are already eroding its results in very relevant markets such as payments. This privileged access to data can be used as a leverage to compete with the Group in other adjacent markets and may reduce its operations and margins in core businesses such as lending or wealth management. The alliances that its competitors are starting to build with large technology firms can make it more difficult for the Group to successfully compete with them and could adversely affect it.

Increasing competition could also require that the Group increases its rates offered on deposits or lower the rates it charges on loans, which could also have a material adverse effect on the Group, including its profitability. It may also negatively affect its business results and prospects by, among other things, limiting its ability to increase its customer base and expand its operations and increasing competition for investment opportunities.

If the Group's customer service levels were perceived by the market to be materially below those of its competitor financial institutions, the Group could lose existing and potential business. If the Group is not successful in retaining and strengthening customer relationships, it may lose market share, incur losses on some or all of its activities or fail to attract new deposits or retain existing deposits, which could have a material adverse effect on the Group's operating results, financial condition and prospects.

*If the Group is unable to manage the growth of its operations, to integrate successfully its inorganic growth, or to execute successfully any of its strategic actions this could have an adverse impact on its profitability.*

The Group allocates management and planning resources to develop strategic plans for organic growth, and to identify possible acquisitions and disposals and areas for restructuring its businesses. From time to time, the Group evaluates acquisition and partnership opportunities that it believes offer additional value to its shareholders and are consistent with its business strategy. However, the Group may not be able to identify suitable acquisition or partnership candidates, and its ability to benefit from any such acquisitions and partnerships will depend in part on its successful integration of those businesses. Any such integration entails significant risks such as unforeseen difficulties in integrating operations and systems, unexpected liabilities or contingencies relating to the acquired businesses, including legal claims and delivery and execution risks. The Group can give no assurances that its expectations with regards to integration and synergies will materialise. It also cannot provide assurance that the Group will, in all cases, be able to manage its growth effectively or deliver its strategic growth objectives. Challenges that may result from its strategic growth decisions include the ability of the Group to:

- manage efficiently the operations and employees of expanding businesses;
- maintain or grow its existing customer base;
- assess the value, strengths and weaknesses of investment or acquisition candidates, including local regulation that can reduce or eliminate expected synergies;
- finance strategic investments or acquisitions;
- align its current information technology systems adequately with those of an enlarged group;

- apply its risk management policy effectively to an enlarged group; and
- manage a growing number of entities without over-committing management or losing key personnel.

Any failure to manage growth effectively or to execute successfully any of the Group's strategic actions could have a material adverse effect on its operating results, financial condition and prospects.

In addition, any acquisition or venture could result in the loss of key employees and inconsistencies in standards, controls, procedures and policies.

Moreover, the success of the acquisition or venture will at least in part be subject to a number of political, economic and other factors that are beyond the control of the Group. Any of these factors, individually or collectively, could have a material adverse effect on the Group.

Furthermore there is no assurance that the changes to the Group's operating model that became effective on 1 January 2024, which included the reorganization of its primary and secondary segments, will yield all of the expected benefits in the timeframes that the Group expects, if at all.

### ***Risk Management***

*Failure to successfully implement and continue to improve the risk management policies, procedures and methods of the Group, including its credit risk management systems, could materially and adversely affect the Group, and it may be exposed to unidentified or unanticipated risks.*

Risk management is a central part of the activities of the Group. The Group seeks to manage and control its risk exposure through a forward-looking management model, based on robust governance and advanced risk management tools, supported by a risk culture that permeates the organisation. While the Group's management model uses a broad and diversified set of risk monitoring, control and mitigation techniques, such management model may not be fully effective at mitigating its risk exposure in all economic market environments or against all types of risk, including risks that it may fail to identify or anticipate.

Some of the tools and metrics of the Group for managing risk are based on its use of observed historical market behaviour. The Group applies statistical and other tools to these observations to arrive at quantifications of its risk exposures. These tools and metrics may fail to predict future risk exposures. These risk exposures could, for example, arise from factors the Group did not anticipate or correctly evaluate in its statistical models. This would limit its ability to manage its risks. Thus, the losses of the Group thus could be significantly higher than the historical measures indicate. In addition, its statistical models may not take all risks into account or measure emerging risks correctly.

The Group's approach to managing risks could prove insufficient, exposing it to material unanticipated losses. The Group could face adverse consequences as a result of decisions, which may lead to actions by management, based on models that are poorly developed, implemented or used, or as a result of the modelled outcome being misunderstood or the use of such information for purposes for which it was not designed. If existing or potential customers or counterparties believe the risk management of the Group is inadequate, they could take their business elsewhere or seek to limit their transactions with it. Any of these factors could have a material adverse effect on the reputation, operating results, financial condition and prospects of the Group.

As a retail bank, one of the main types of risks inherent to the business of the Group is credit risk. For example, an important feature of its credit risk management system is to employ an internal credit rating system to assess the particular risk profile of individual customers and SMEs. As this process involves detailed analyses of the customer, taking into account both quantitative and qualitative factors, it is subject to human or information technology systems errors. In exercising their judgement on the customers' current or future credit risk behaviour of the Group, its management models may not always be able to assign an accurate credit rating, which may result in a higher exposure to credit risks than indicated by the Group's risk rating system.

Some of the models and other analytical and judgement-based estimations the Group uses in managing risks are subject to review by, and require the approval of, regulators. If models do not comply with all their expectations, regulators may require the Group to make changes to such models, may approve them with additional capital requirements or it may be precluded from using them. Any of these possible situations could limit the ability of the Group to expand its businesses or have a material impact on its financial results

## RISK FACTORS

The Group sets concentration limits according to risk appetite, develops risk policies and reviews to manage credit risk concentration and is subject to regulatory limits on large exposures. However, if the Group fails to anticipate deteriorating sectors or regions, it fails to comply with internal or regulatory concentration limits, or if one or more of the Group's largest borrowers fail to service their loans, the Group's operating results financial condition and prospects could be adversely affected.

Failure to effectively implement, consistently monitor or continuously improve the credit risk management system of the Group may result in an increase in the level of non-performing loans and a higher risk exposure for the Group, which could have a material adverse effect on it.

In addition, failure to successfully execute any of the Group's decisions and actions affecting or changing its practices, operations, priorities, strategies, policies, procedures or frameworks, could have a material adverse effect on the Group.

The board of directors of the Group is responsible for the approval of the Group's general policies and strategies, and in particular for the corporate risk framework. In addition to the executive committee, which maintains a special focus on risk, the board has a specific risk supervision, regulation and compliance committee.

### **Model risk**

*The Group relies on models for many of its decisions. Their inaccurate or incorrect use could have a material adverse effect on the Group.*

The Group uses models for admission (scoring and rating), and behavioural credit processes, for the calculation of capital, provisions, market and structural risk, operational, compliance and liquidity risk. A model is a system, approach or quantitative method that applies statistical, economic, financial or mathematical theories, techniques or hypotheses to transform input data into quantitative estimates and forecasts. It involves simplified representations of real world relationships between characteristics, values and observed assumptions that allows the Group to focus on specific aspects.

Model risk is the negative consequence of decisions based on inaccurate, improper or incorrect use of models. Sources of model risk include (i) incorrect or incomplete data in the model itself or the modelling method used in systems; and (ii) incorrect use or implementation of the model.

Model risk can cause financial loss, erroneous commercial and strategic decision-making or damage to the Group's transactions any of which could have a material adverse effect on the Group's operating results, financial condition and prospects. In addition, the Group's models and the underlying methodologies are subject to scrutiny from the Group's supervisors, who could identify potential weaknesses or deficiencies that may result in enforcement actions, including sanctions, fines and/or the imposition of stricter capital requirements, as well as mandates and recommendations with respect to the methodologies underlying the Group's models, which could also lead the Group to more onerous or inefficient capital consumptions.

Unprecedented movement in economic and market drivers related to external events such as the war in Ukraine, the conflict in the Middle East and the covid-19 pandemic required monitoring and adjustment of financial models (including credit loss models, capital models, traded risk models and models used in the asset/liability management process) to comply with the guidance and recommendations of standard setters, regulators and supervisors, particularly for credit loss models. It also resulted in the use of mitigants for model limitations, such as adjustments to model outputs to reflect consideration of management judgment. The performance and usage of models was and may continue to be impacted by the consequences of external events. In addition, data obtained during these external events may not be representative and may distort the calibration of the models in the future, which could have a material adverse effect on the Group.

In addition, the fair value of the Group's financial assets, determined using financial valuation models, may be inaccurate or subject to change and, as a consequence, the Group may have to register impairments or write-downs that could have a material adverse effect on the Group's operating results, financial condition and prospects. See the risk factor entitled "*Market conditions have resulted and could result in material changes to the estimated fair values of the Group's financial assets. Negative fair value adjustments could have a material adverse effect on its operating results, financial condition and prospects.*".

### *General risks*

#### *Risks related to the industry of the Group*

*Climate change can create transition risks, physical risks, and other risks that could adversely affect the Group.*

There is an increasing focus over the risks of climate change and related environmental sustainability matters. Climate change may imply two primary drivers of financial risk that could adversely affect the Group:

- Transition risks associated with the move to a low-carbon economy, both at idiosyncratic and systemic levels, such as through policy, regulatory and technological changes and business and consumer preferences, which could increase the Group's expenses and impact its strategies.
- Physical risks related to discrete events, such as flooding and wildfires, and extreme weather impacts and longer-term shifts in climate patterns, such as extreme heat, sea level rise and more frequent and prolonged drought, which could result in financial losses that could impair asset values and the creditworthiness of the Group's customers. Such events could disrupt the Group's operations or those of its customers or third parties on which the Group relies and does business with, including through direct damage to assets and indirect impacts from supply chain disruption and market volatility.

These primary drivers could materialise, among others, in the following financial risks:

- Credit risks: Physical climate change could lower corporate revenues, increase operating costs and lead to increased credit exposure. Severe weather could also affect collateral value. Additionally, companies with business models not aligned with the transition to a low-carbon economy may face a higher risk of reduced corporate earnings and business disruption due to new regulations or market shifts.
- Market risks: Market changes in the most carbon-intensive sectors could affect energy and commodity prices, corporate bonds, equities and certain derivatives contracts. Increasing frequency of severe weather events could affect macroeconomic conditions, weakening fundamental factors such as economic growth, employment and inflation and lead to higher volatility.
- Liquidity risks: Companies could face liquidity risks derived from cash outflows to improve their reputation in the market or solve climate-related problems. Extreme weather events could also affect the value of the Group's high-quality liquid assets or cause sovereign debt to rise limiting the Group's access to capital markets.
- Operational risks: Severe weather events could directly damage assets and impact business continuity, both of the customers and the Group's. Climate-related financial risks could also cause operational risk losses from litigation if, for example, the Group is perceived to misrepresent sustainability-related practices, achievement, metrics goals or targets.
- Regulatory compliance risks: Increased regulatory compliance risk may result from the increasing focus, pace, breadth and depth of regulatory expectations requiring implementation in short timeframes across multiple jurisdictions and from changes in public policy, laws and regulations in connection with climate change and related environmental sustainability matters.
- Reputational risk: The Group's reputation and client relationships may be damaged as a result of its practices, disclosures and decisions related to climate change and the environment, or to the practices or involvement of its clients, vendors or suppliers in certain industries or projects being associated with causing or exacerbating climate change. Furthermore, parties who may suffer losses from the effects of climate change may seek compensation from those they hold responsible such as state entities, regulators, investors and lenders. The Group could face conduct risks derived from misrepresentations in its sustainability-related disclosures, including its practices, achievements, metrics, goals and targets or the sustainability characteristics of the Group's products or of its customers, investors or other stakeholders (greenwashing).

## RISK FACTORS

- Strategic risks: The Group's strategy could be affected if it fails to achieve its net-zero or other targets, including those related to the activities that the Group finances and those concerning its own operations.

As climate risk is interconnected with all key risk types, the Group has developed and continues to enhance processes to embed climate risk considerations into its core processes and risk management cycle; however, because the timing and severity of climate change may not be predictable, and is rapidly evolving, the Group's risk management strategies may not be effective in mitigating climate risk exposure. Additionally, the Group may become subject to new or heightened regulatory requirements relating to climate change, which may result in increased regulatory, compliance or other costs. As the risks, perspective and focus of regulators, shareholders, employees, and other stakeholders regarding climate change are evolving rapidly, it can be difficult to assess the ultimate impact on the Group of climate change-related risks, compliance risks, and uncertainties.

The Group periodically discloses information such as emissions and other climate-related performance data, statistics, metrics and/or targets. If the Group lacks robust and high-quality climate-related procedures, controls and data, the Group may not be able to disclose reliable climate-related information. In addition, because the climate-related information is based on current expectations and future estimates about the Bank's and third-parties' operations and businesses and addresses matters that are uncertain to varying degrees, the Group may not be able to meet its estimates, targets or commitments or it may not be able to achieve them within the timelines it announces. Actual or perceived shortcomings with respect to these emissions and other climate-related initiatives and reporting could result in litigation or regulatory enforcement and impact its ability to hire and retain employees, increase its customer base, and attract and retain certain types of investors.

Any of the conditions described above, or the Group's failure to identify other climate-related risks could have a material adverse effect on the business, financial condition and results of operations of the Group.

*The financial problems faced by its customers could adversely affect the Group.*

Potential market turmoil and economic recession could materially and adversely affect the liquidity, credit ratings, businesses and/or financial conditions of the customers of the Group, which could in turn increase its non-performing loan ratios, impair its loan and other financial assets and result in decreased demand for borrowings and deposits in general. In addition, the customers of the Group may further significantly decrease their risk tolerance to non-deposit investments such as stocks, bonds and mutual funds, which would adversely affect its fee and commission income. Any of the conditions described above could have a material adverse effect on the business, financial condition and results of operations of the Group.

*The ability of the Group to maintain its competitive position depends, in part, on the success of new products and services the Group offers to its customers and on its ability to offer products and services that meet the customers' needs during the whole life cycle of the products or services. The Group's failure to manage various risks it faces as it expands its range of products and services that could have a material adverse effect on the Group.*

The success of the operations and profitability of the Group depend, in part, on the success of new products and services it offers to its customers and on its ability to offer products and services that meet their needs during their entire life cycle. However, customers' needs or desires may change over time, and such changes may render the products and services of the Group obsolete, outdated or unattractive and it may not be able to develop new products that meet its customers' changing needs. The success of the Group is also dependent on its ability to anticipate and leverage new and existing technologies that may have an impact on products and services in the banking industry. Technological changes may further intensify and complicate the competitive landscape and influence customer behaviour. If the Group cannot respond in a timely fashion to the changing needs of its customers, it may lose existing or potential customers, which could in turn materially and adversely affect the Group. In addition, the cost of developing products is likely to affect its results of operations.

As the Group expands the range of its products and services, some of which may be at an early stage of development in the markets of certain regions where the Group operates, it will be exposed to new and potentially increasingly complex risks, such as the conduct risk in the relationship with customers, and development expenses. The employees and risk management systems of the Group, as well as its experience and that of its partners may not be sufficient to enable the Group to properly manage such risks. Any or all of these factors, individually or collectively, could have a material adverse effect on the Group.

While the Group has successfully increased its customer service levels in recent years, should these levels ever be perceived by the market to be materially below those of its competitor financial institutions, the Group could lose

## RISK FACTORS

existing and potential new business. If the Group is not successful in retaining and strengthening customer relationships, it may lose market share, incur losses on some or all of its activities or fail to attract new deposits or retain existing deposits, which could have a material adverse effect on its operating results, financial condition and prospects.

*The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel.*

The continued success of the Group depends in part on the continued service of key members of its senior executive team and other key employees. The ability to continue to attract, train, motivate and retain highly qualified and talented professionals is a key element of the strategy of the Group. The successful implementation of this strategy and culture depends on the availability of skilled and appropriate management, both at the Group's head office and in each of its business units. If the Group or one of its business units or other functions fails to staff its operations appropriately, or loses one or more of its key senior executives or other key employees and fails to replace them in a satisfactory and timely manner, its business, financial condition and results of operations, including control and operational risks, may be adversely affected.

*The ability of the Group to attract and retain qualified employees is affected by perceptions of its culture, social and corporate governance policies and management, its profile in the markets in which the Group operates and the professional opportunities the Group offers.*

In addition, the financial industry has and may continue to experience more stringent regulation of employee compensation, which could have an adverse effect on the ability of the Group to hire or retain the most qualified employees. If the Group fails or is unable to attract and appropriately train, motivate and retain qualified professionals, its business may also be adversely affected.

*Damage to the reputation of the Group could cause harm to its business prospects.*

Maintaining a robust risk management framework based on robust ethical principles and corporate values is critical to protect the Group's reputation and the Group's brand, attract and retain customers, investors and employees and conduct business transactions with counterparties. Damage to the reputation of the Group could materially and adversely affect its perception among current and potential clients, investors, vendors, partners, regulators and other third parties, which in turn could have a material adverse effect on the Group's operating results, financial condition, and prospects as well as damage its customers' and investors' confidence and the market price of its securities. Harm to such reputation can arise from numerous sources, including, among others, employee misconduct, including the possibility of fraud perpetrated by the employees of the Group, litigation or regulatory enforcement, failure to deliver minimum standards of service and quality, negative perceptions regarding the Group's ability to maintain the security of its technology systems and protect customer data (including as a result of a cybersecurity incident), dealing with sectors that are not well perceived by the public (weapons industries or embargoed countries, for example), dealing with customers in sanctions lists, rating downgrades, significant variations in the share price of the Group throughout the year, compliance failures, unethical behaviour, actual or alleged conduct in any number of activities, including lending practice, sales and marketing, corporate governance and corporate culture, and the activities of customers and counterparties, including activities that negatively affect the environment. The Group's reputation could also suffer if it is the subject of negative coverage in the media, whether it has merit or not.

Actions by the financial services industry generally or by certain members of, or individuals in, the industry can also affect the reputation of the Group. For example, the role played by financial services firms in the financial crisis and the seeming shift toward increasing regulatory supervision and enforcement has caused public perception of the Group and others in the financial services industry to decline.

Additionally, the Group could suffer significant reputational harm that could affect its business, results of operations and prospects from any negative perceptions regarding topics related to environmental, social and corporate governance policies. There has been increased focus by customers, shareholders, investor advocacy groups, employees, regulators and other stakeholders on these topics, and the Group's policies, practices and disclosures in these areas could come under scrutiny. Governments may implement new or additional regulations and standards or investors, customers and other stakeholders may impose new expectations or focus investments in ways that cause significant shifts in disclosure, consumption and behaviours that may have negative impacts on the Group's business. If regulators or stakeholders consider the Group's efforts to be ineffective, inadequate or unsatisfactory, whether real or perceived, it could harm its reputation, business and prospects and the Group could be subject to enforcement, other supervisory actions or other harm.

## RISK FACTORS

The Group could also suffer significant reputational harm if it fails to identify and manage potential conflicts of interest properly. The failure, or perceived failure, to adequately address conflicts of interest could affect the willingness of clients to deal with the Group or could give rise to litigation or enforcement actions against the Group, which could have an adverse effect on its operating results, financial condition and prospects.

The Group may be the subject of misinformation and misrepresentations deliberately propagated in media or social media to harm its reputation or for other deceitful purposes, or by profiteering short sellers seeking to gain an illegal market advantage by spreading false information about the Group. There can be no assurance that it will effectively neutralise and contain a false information that may be propagated regarding the Group, which could have an adverse effect on its operating results, financial condition and prospects.

*The Group engages in transactions with its subsidiaries or affiliates that others may not consider to be on an arm's-length basis.*

The Group and its affiliates have entered into a number of services agreements pursuant to which it renders services, such as administrative, accounting, finance, treasury, legal services and others.

Spanish and US law provide for several procedures designed to ensure that the transactions entered into with or among the financial subsidiaries and/or affiliates of the Group do not deviate from prevailing market conditions for those types of transactions.

The Bank is likely to continue to engage in transactions with its affiliates. Future conflicts of interests may arise between the Group and any of its affiliates, or among its affiliates, which may not be resolved in its favour.

### **Reporting and control risks.**

*Changes in accounting standards could impact reported earnings.*

The accounting standard setters and other regulatory bodies periodically change the financial accounting and reporting standards that govern the preparation of the consolidated financial statements of the Group. These changes can materially impact how the Group records and reports its financial condition and results of operations, as well as affect the calculation of its capital ratios. In some cases, the Group could be required to apply a new or revised standard retroactively, resulting in the restatement of prior period financial statements.

*The financial statements of the Group are based in part on assumptions and estimates which, if inaccurate, could cause material misstatement of the results of its operations and financial position.*

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. Estimates, judgements and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The accounting policies deemed critical to the results and financial position of the Group, based upon materiality and significant judgements and estimates, include impairment of loans and advances, goodwill impairment, valuation of financial instruments, deferred tax assets provision and pension obligation for liabilities.

If the judgement, estimates and assumptions the Group uses in preparing its consolidated financial statements are subsequently found to be incorrect, there could be a material effect on its results of operations and a corresponding effect on its funding requirements and capital ratios.

*Disclosure controls and procedures over financial and non-financial reporting may not prevent or detect all errors or acts of fraud.*

Disclosure controls and procedures, including internal controls over financial and non-financial reporting (including climate-related reporting), are designed to provide reasonable assurance that information required to be disclosed by the company in reports filed or submitted under the US Securities Exchange Act of 1934 (the "**Exchange Act**") is accumulated and communicated to management, and recorded, processed, summarised and reported within the time periods specified in the US Securities and Exchange Commission's rules and forms.

These disclosure controls and procedures have inherent limitations which include the possibility that judgements in decision-making can be faulty and that breakdowns occur because of errors or mistakes. Additionally, controls

## **RISK FACTORS**

can be circumvented by any unauthorised override of the controls. Consequently, the businesses of the Group are exposed to risk from potential non-compliance with policies, employee misconduct or negligence and fraud, which could result in regulatory sanctions, civil claims and serious reputational or financial harm. In recent years, a number of multinational financial institutions have suffered material losses due to the actions of 'rogue traders' or other employees. It is not always possible to deter employee misconduct and the precautions the Group takes to prevent and detect this activity may not always be effective. Accordingly, because of the inherent limitations in the control system, misstatements due to error or fraud may occur and not be detected.

## INVESTMENT CONSIDERATIONS

### INVESTMENT CONSIDERATIONS

*This Investment Considerations section sets out important information and considerations in relation to the Notes which prospective investors should take into account prior to making an investment decision.*

#### **Considerations Relating to the Notes Generally**

##### *Considerations in relation to the Specific Buy-Back Provisions*

Investors should be aware that the Specific Buy-Back Provisions will not affect the right of the investors to receive timely payments of principal and interest on the Notes. In consideration of the Issuer being able to maintain the notional Underlying Transactions in relation to the Notes, the Issuer will pay an Extra-Yield on the Notes (as such term is defined in Condition 6(k)(ii) (*Extra-Yield*)).

In addition, the Specific Buy-Back Provisions may apply only to Notes where Banco Santander, S.A. acts as the sole Dealer and the Calculation Agent and where the Specified Denomination in respect of each Note is equal to at least EUR 100,000 (or its equivalent amount in the Specified Currency).

Investors should refer to the Risk Factor entitled "*Any change in the Underlying Transactions or their market value may materially adversely affect the Buy-Back Price payable in respect of Notes in relation to which the Specific Buy-Back Provisions apply*" for further information on the risks relating to the Specific Buy-Back Provisions.

##### *Considerations in relation to Global Notes or Global Note Certificates held by or on behalf of Euroclear and Clearstream, Luxembourg or DTC*

Unless otherwise specified in the relevant Applicable Transaction Terms, Notes issued under the Programme may be represented by one or more Global Notes or Global Note Certificates. Such Global Notes or Global Note Certificates, unless otherwise specified in the relevant Applicable Transaction Terms, will be (in the case of Bearer Notes) deposited with a common depository or, as the case may be, common safekeeper for Euroclear and/or Clearstream, Luxembourg, or (in the case of Registered Notes) registered in the name of a common depository or, as the case may be, common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg or registered in the name of a nominee for DTC. Except in the limited circumstances described in the relevant Global Note or Global Note Certificate, investors will not be entitled to receive Notes in definitive form.

Each of Euroclear, Clearstream, Luxembourg and DTC, and their respective direct and indirect participants, will maintain records of the beneficial interests in the Global Notes or International Global Note Certificates, as applicable. While the Notes are represented by one or more Global Notes or Global Note Certificates, investors will be able to trade their beneficial interests only through the relevant clearing system and their respective participants Notes are held.

While the Notes are represented by one or more Global Notes or Global Note Certificates, the Issuer and the Guarantor will discharge their payment obligations under the Notes by making payments through the relevant clearing system. A holder of a beneficial interest in a Global Note or Global Note Certificate must rely on the procedures of the relevant clearing system and its participants to receive payments under the relevant Notes. The Issuer and the Guarantor have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes or Global Note Certificates.

Holders of beneficial interests in the Global Notes or Global Note Certificates will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes or Global Note Certificates will not have a direct right under the Global Notes or Global Note Certificates to take enforcement action against the Issuer or the Guarantor in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant.

##### *Considerations in relation to Definitive Registered Notes*

Where the Notes are issued in definitive registered form, a Noteholder's title to the Notes depends on entry of such Noteholder's name in a register kept by the Registrar on behalf of the Issuer, rather than possession of the Definitive Registered Note. The Definitive Registered Note that a Noteholder receives is not a document of title, but evidence that such Noteholder's name has been entered in the register. Investors should be aware that a

## INVESTMENT CONSIDERATIONS

Definitive Registered Note is transferable by execution of a written transfer instrument and it is not considered a negotiable instrument under English law.

*Considerations in relation to Book-Entry Notes and Monte Titoli Book-Entry Notes as dematerialised securities and reliance on clearing system procedures for transfer, payment and communication with the Issuer*

Book-Entry Notes issued under the Programme will not be evidenced by any physical note. They will only be represented by book entries in the Spanish Central Securities Depository (Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., Unipersonal ("**Iberclear**")) or the Iberclear participants. Holders will be entitled to request as evidence certificates made or issued by Iberclear or Iberclear participants, as the case may be. Ownership of Book-Entry Notes will be recorded and transfer effected only through the book entry system and register maintained by Iberclear.

In the case of Monte Titoli Book-Entry Notes, the Notes will not be represented by paper certificates and the transfer and exchange of Notes will take place exclusively through an electronic book-entry system managed by Monte Titoli S.p.A.. Accordingly, the Notes will be held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli, for the account of the relevant Monte Titoli Account Holders. If the Notes have been accepted for clearance by Monte Titoli they will at all times be held in book-entry form and title to the Notes will be evidenced by book entries pursuant to the relevant provisions of the Financial Services Act, as amended and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Notes. However, the Noteholders may ask the relevant intermediaries for certification pursuant to Article 83-quinquies of the Financial Services Act. The person for the time being shown in the records of Monte Titoli or Monte Titoli Account Holder as applicable as the holder of a particular amount of Notes (in which regard any certificate or other document issued by Monte Titoli as to the amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of a manifest error) shall be treated by the Issuer and the Agent as the holder of such amount of such Notes for all purposes.

*Considerations in relation to Notes that are issued as Green Bonds, Social Bonds or Sustainable Bonds*

Prospective investors should have regard to the information set out in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Notes together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuer or the Guarantor that the use of such proceeds for any project will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that there is currently no widely-accepted clear definition of, nor market consensus as to what constitutes, a "green", "social" or "sustainable" or an equivalently-labelled project. In addition, the requirements of any such label may evolve from time to time. Accordingly, no assurance is or can be given to investors that any project or use(s) the subject of, or related to, any project will meet any or all investor expectations regarding such "green", "social" or "sustainable" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Guarantor) which may be made available in connection with the issue of any Green Bonds, Social Bonds or Sustainable Bonds and in particular with any project, to fulfil any environmental, social and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer or the Guarantor or any other person to buy, sell or hold any such Notes.

In the event that any Green Bonds, Social Bonds or Sustainable Bonds are listed or admitted to trading on any dedicated "green", "environmental", "social" or "sustainable" or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer or the Guarantor or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or the Guarantor or any other person that any such listing or admission to trading will be obtained in respect of any such Green Bonds, Social Bonds or Sustainable Bonds or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

## INVESTMENT CONSIDERATIONS

While it is the intention of the Guarantor that the proceeds of any Green Bonds, Social Bonds or Sustainable Bonds so specified for the relevant project are applied, in, or substantially in, the manner described in the Green, Social & Sustainability Funding Global Framework and the Applicable Transaction Terms, there can be no assurance that the relevant project or use(s) the subject of, or related to, any project, will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such project. Nor can there be any assurance that such project will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by the Guarantor. Any such event or failure by the Guarantor will not constitute an Event of Default under the relevant Notes, or give rise to any other claim of a holder of such Green Bond, Social Bond or Sustainable Bond, as the case may be.

### *Additional information on the development of SONIA and €STR as reference rates*

In connection with the development of the market in relation to SONIA as a reference rate in the capital markets and its adoption as an alternative to Sterling LIBOR, market participants and relevant working groups are exploring alternative reference rates based on SONIA, including term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term). The nascent development of Compounded Daily SONIA as an interest reference rate for the Eurobond markets, as well as continued development of SONIA-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Securities.

Separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk free rate. On 13 September 2018, the working group on euro risk-free rates recommended €STR as the new risk free rate. In addition, on 21 January 2019, the euro risk free-rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts without incorporating robust fallback provisions may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

### *Additional considerations associated with Securities that pay a floating rate of interest referencing SOFR*

SOFR is a relatively new rate. The New York Federal Reserve began to publish SOFR in April 2018. Although the New York Federal Reserve has published historical indicative SOFR information going back to 2014, such republication historical data inherently involves assumptions, estimates and approximations. Investors should not rely on any historical changes or trends in SOFR as an indicator of the future performance of SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in other benchmark or market rates. As a result, the return on and value of Notes that pay a floating rate of interest by reference to SOFR may fluctuate more than floating rate debt securities that are linked to less volatile rates.

Because SOFR is a relatively new market index, Notes that reference SOFR will likely have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to SOFR, such as the spread over the base rate reflected in the interest rate provisions, may evolve over time, and trading prices of Notes that reference SOFR may be lower than those of later-issued SOFR-linked debt securities as a result. Similarly, if SOFR does not prove to be widely used in securities like the Notes, the trading price of Notes that reference SOFR may be lower than those of securities linked to rates that are more widely used. Investors may not be able to sell Notes that reference SOFR at all or may not be able to sell such Notes at prices that will provide a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The manner of adoption or application of reference rates based on SOFR in the bond market may differ materially compared with the application and adoption of SOFR in other markets, such as the derivatives and loan markets. Investors should carefully consider how any potential inconsistencies between the adoption of reference rates based on SOFR across these markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes that reference SOFR.

The New York Federal Reserve notes on its publication page for SOFR that use of SOFR is subject to important limitations, including that the New York Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests

## INVESTMENT CONSIDERATIONS

of investors in the Notes. If the manner in which SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may result in a reduction or elimination of the amount of interest payable on such Notes that reference SOFR and a reduction in the trading prices of such Notes.

### **Considerations Relating to Reference Item Linked Notes**

#### *Considerations in relation to regulatory consequences for a holder of Reference Item Linked Notes*

There may be regulatory and other consequences associated with the ownership by certain investors of certain Reference Item Linked Notes. Each purchaser of Notes must conduct its own investigation into its regulatory position with respect to the potential purchase of Notes, and none of the Issuer, the Guarantor, the Dealer or the Arranger assumes any obligation or liability whatsoever to such purchaser in such regard.

#### *Considerations in relation to taxation of Reference Item Linked Notes*

Potential purchasers of Reference Item Linked Notes should be aware that stamp duty and other taxes and/or charges may be levied in accordance with the laws and practices in countries where the Reference Item Linked Notes are transferred and/or where any potential reference items are delivered, or elsewhere.

The considerations set out under this "*Considerations in relation to taxation of Reference Item Linked Notes*" section do not consider the tax treatment of payments in respect of Reference Item Linked Notes. Potential purchasers of Reference Item Linked Notes should note that the tax treatment of payments in respect of Reference Item Linked Notes may be different (and in some cases significantly different) from these considerations.

Potential purchasers of Reference Item Linked Notes who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax laws and regulations and their application and interpretation by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

### **Considerations Relating to Equity Linked and Inflation Linked Notes**

#### *Considerations relating to whether an investment in Equity Linked and Inflation Linked Notes is suitable for a particular investor*

Each potential investor should determine whether an investment in the Notes is appropriate in its particular circumstances. An investment in Equity Linked or Inflation Linked Notes requires a thorough understanding of the nature of the relevant transaction. Potential investors should be experienced with respect to an investment in the Equity Linked or Inflation Linked Notes and be aware of the related risks.

An investment in Equity Linked or Inflation Linked Notes is only suitable for potential investors who:

- (a) have the requisite knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the Equity Linked or Inflation Linked Notes and the information contained or incorporated by reference into this document;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of the potential investor's particular financial situation and to evaluate the impact the Notes will have on their overall investment portfolio;
- (c) understand thoroughly the terms of the Equity Linked or Inflation Linked Notes and are familiar with the behaviour of the relevant underlying security or index and financial markets;
- (d) are capable of bearing the economic risk of an investment in the Equity Linked or Inflation Linked Notes until the maturity date of the Equity Linked or Inflation Linked Notes;
- (e) recognise that it may not be possible to dispose of the Equity Linked or Inflation Linked Notes for a substantial period of time, if at all, before the maturity date; and
- (f) are able to evaluate (either alone or with the help of a financial and legal adviser) possible scenarios for economic, interest rate and other factors that may affect the investment in the Equity Linked or Inflation Linked Notes and the investor's risks.

## INVESTMENT CONSIDERATIONS

Equity Linked or Inflation Linked Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Equity Linked Notes or Inflation Linked Notes unless such potential investor has the expertise (either alone or with a financial and legal adviser) to evaluate how the Equity Linked or Inflation Linked Notes will perform under changing conditions, the resulting effects on the value of the Equity Linked or Inflation Linked Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Investors should refer to the Risk Factor entitled "*Risks Common to Equity Linked and Inflation Linked Notes*" for information on the risks relating to these types of investment.

### *Considerations relating to exchange rates and exchange controls*

Investors should consult their financial and legal advisers as to any specific risks entailed by an investment in Equity Linked or Inflation Linked Notes that are denominated or payable in, or the return on which is linked to values for a relevant underlying security or index denominated in a currency other than the currency of the country in which such investor resides or in which such investor conducts its business, which is referred to as their home currency. Such Equity Linked or Inflation Linked Notes are not appropriate investments for investors who are not sophisticated in foreign currency transactions.

Investors should refer to the Risk Factor entitled "*Exchange rates and exchange controls may affect the value or return of the Equity Linked or Inflation Linked Notes*" for information on the risks relating to such an investment.

### **Considerations Relating to EUA Contract Linked Notes**

#### *Additional investment considerations in respect of EUA Contract Linked Notes*

In respect of EUA Contract Linked Notes, Noteholders will receive an amount (if any) on redemption determined by reference to the value of the underlying EUA Contract and/or EUA Contract Linked Notes will pay interest calculated by reference to the value of the underlying EUA Contract.

A Market Disruption Event will occur if there is a disruption in respect of an EUA Contract as a result of (a) price source disruption, (b) ability to trade, (c) the disappearance of an EUA Contract Reference Price, (d) a limit price event, (e) a change in composition, methodology or taxation, (f) the ability to deliver or accept EU Allowances, the discontinuation of the scheme for transferring EU Allowances, a suspension by the relevant registries of operations relating to recording the issue, holding, transfer, acquisition, surrender, cancellation and/or replacement of EU Allowances, (g) issues in relation to the establishment and functioning of the relevant registries or transaction logs maintained in respect of EU allowance transactions or (h) the enactment of any EU or EU member state law or regulation which directly or indirectly imposes a restriction on the number of EUAs that the hedge provider is permitted to hold.

If a Market Disruption Event occurs:

- (a) the Issuer or, as the case may be, the Guarantor may take no action;
- (b) the Calculation Agent, acting on the instructions of the Issuer (or the Guarantor, as the case may be), may make any adjustment(s) to the terms of the EUA Contract Linked Notes as it considers appropriate; or
- (c) the Issuer or, as the case may be, the Guarantor may redeem the EUA Contract Linked Notes by payment of the Early Redemption Amount or the EUA Contract Early Redemption Amount, as applicable.

In addition, if the reference price of an EUA Contract is subsequently corrected, the corrected reference price will be used if corrected within 30 calendar days of the original publication, provided that, if the corrected level is published less than three EUA Contract Business Days prior to a due date for payment it will be disregarded.

If the Applicable Transaction Terms specifies that the EUA Contract Linked Notes are linked to the performance of a futures contract, the considerations described above will apply to such futures contract by reference to the underlying EUA Contract. If the Applicable Transaction Terms specify that the EUA Contract Linked Notes are "Rolling Futures Contract Notes", the reference price of the EUA Contract will be valued by reference to futures contracts with delivery months that do not match the Redemption Date of the EUA Contract Linked Notes. The

## INVESTMENT CONSIDERATIONS

Calculation Agent will select a new futures contract on each Futures Rollover Date specified in the Applicable Transaction Terms. If it is impossible or materially impracticable to select a new futures contract and/or hedge the Issuer's obligations in respect of the EUA Contract Linked Notes, the consequences of a Market Disruption Event described above will apply.

### *Additional investment considerations in respect of EU Allowances*

The market for carbon emission allowances or credits has emerged as a consequence of the Kyoto Protocol and covers both industrial and developing countries. Industrial countries are allocated emissions allowances under the Kyoto Protocol. The EU introduced its own emission trading scheme in 2005 pursuant to Directive 2003/87/EC, as amended from time to time, which extends beyond the 2012 termination of the Kyoto Protocol.

One EU Allowance corresponds to the emission by the Noteholder of one tonne of carbon dioxide (CO<sub>2</sub>) equivalent during a specified period which is valid for meeting certain emissions related obligations. The EU's member states issue new EU Allowances annually to each company subject to the EU's emission trading scheme. These awards are made in accordance with an allocation plan approved by the European Commission which is based on the EU's application of the Kyoto Protocol's obligations to the industries covered by the EU's emission trading scheme. By 30 April in each year, companies are obliged to "surrender" a number of EU Allowances corresponding to their actual emissions in the preceding year. EU Allowances can also be rolled over from one year to the next if a company emits less carbon dioxide or carbon-equivalent greenhouse gas than the EU allowances it holds. EU Allowances have a limited or no value outside the EU's emissions trading scheme.

## **Legal and Regulatory Considerations**

### *Risks in Relation to Spanish Taxation*

Royal Decree Law 8/2014, of 4 July, introduced a 0.03 per cent. tax on bank deposits in Spain. This tax is payable annually by Spanish banks. There can be no assurance that additional national or transnational bank levies or financial transaction taxes will not be adopted by the authorities of the jurisdictions where the Bank operates.

### *Risks related to the Spanish withholding tax regime*

Under Spanish Law 10/2014 and Royal Decree 1065/2007, as amended, income payments in respect of the Notes, other than income payments in respect of Book-Entry Notes to Personal Income Tax taxpayers, will be made without withholding tax in Spain. The Issuer is required pursuant to Spanish law to provide certain information regarding the Notes to the Spanish tax authorities. The Issuer, Guarantor and the Principal Paying Agent or the Iberclear Paying Agent, as applicable, have arranged certain procedures to facilitate the collection of information concerning the Notes. The Issuer or the Guarantor (as the case may be) will withhold Spanish withholding tax from any payment in respect of any income due under the above-mentioned Notes (as applicable) as to which the required information has not been provided and will not gross up payments in respect of any such withholding tax. In addition, the Issuer or the Guarantor (as the case may be) will withhold Spanish withholding tax from any payment in respect of Book-Entry Notes to Personal Income Tax taxpayers.

The Agency Agreement provides that the Principal Paying Agent or the Iberclear Paying Agent, as applicable, will, to the extent applicable, comply with the relevant procedures to facilitate the collection of information concerning the Notes. The procedures may be modified, amended or supplemented, to, among other reasons, reflect a change in applicable Spanish law, regulation, ruling or interpretation thereof or to reflect a change in applicable clearing system rules or procedures or to add procedures for one or more new clearing systems. See "*Taxation and Disclosure of Information in connection with Payments – Taxation in Spain*". None of the Issuer, the Guarantor, the Dealers, the Principal Paying Agent or the Iberclear Paying Agent assume any responsibility therefore.

Notwithstanding the above, and if despite this selling restriction, the Notes are held by Spanish resident individuals and deposited with a Spanish resident entity acting as depositary or custodian, payments in respect of such Notes (and, under certain circumstances, to Spanish entities subject to Corporate Income Tax) may be subject to withholding by such depositary or custodian at the current rate of 19 per cent. The Issuer or the Guarantor (as case may be) will not gross up payments in respect of any such withholding tax.

In addition, in the case of Implicit Yield Notes including those with a duration of more than 12 months, in order for the Issuer to reimburse them, the holders are required to provide the Issuer with the legally required certificate issued by a Spanish financial institution or established in Spain which accredits the prior acquisition of such Implicit Yield Notes and the corresponding acquisition price. In accordance with the legislation currently in force,

in the case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof. The Issuer or the Guarantor (as case may be) will not gross up payments in respect of any withholding tax arising from said Implicit Yield Notes.

### **Additional information on the BRRD and SRM Regulation**

#### *Capital requirements, liquidity, funding and structural reform*

The Guarantor, as a Spanish financial institution, is subject to the Capital Requirements Regulation (Regulation (EU) No 575/2013) ("**CRR**") and the Capital Requirements Directive (Directive 2013/36/EU ("**CRD IV**"), through which the EU began implementing the Basel III capital reforms from 1 January 2014. While the CRD IV required national transposition, the CRR was directly applicable in all the EU member states. This regulation is complemented by several binding technical standards and guidelines issued by the European Banking Authority ("**EBA**"), directly applicable in all EU member states, without the need for national implementation measures. The implementation of the CRD IV into Spanish law has taken place through Royal Decree Law 14/2013 and Law 10/2014, Royal Decree 84/2015, Bank of Spain Circular 2/2014 and Bank of Spain Circular 2/2016.

On 27 June 2019, a comprehensive package of reforms amending CRR, CRD IV as well as the European Bank Recovery and Resolution Directive (Directive 2014/59/EU ("**BRRD**") and Regulation (EU) No 1093/2010 ("**SRM Regulation**") came into force: (i) Directive (EU) 2019/878 of the European Parliament and of the Council of 20 May 2019 amending CRD IV with respect to exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures ("**CRD V**"); (ii) Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 amending BRRD with respect to the loss-absorbing and recapitalisation capacity of credit institutions and investment firms and Directive 98/26/EC ("**BRRD II**"); (iii) Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending CRR with respect to the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) 648/2012 ("**CRR II**"); and (iv) Regulation (EU) 2019/877 of the European Parliament and of the Council of 20 May 2019 amending the SRM Regulation with respect to the loss-absorbing and recapitalisation capacity of credit institutions and investment firms ("**SRMR II**", and together with CRD V, BRRD II and CRR II, the "**EU Banking Reforms**").

The EU Banking Reforms cover multiple areas, including the Pillar 2 framework, the leverage ratio, mandatory restrictions on distributions, permission for reducing own funds and eligible liabilities, macroprudential tools, a new category of "non-preferred" senior debt that should only be bailed-in after junior ranking instruments but before other senior liabilities, changes to the definitions of Tier 2 Instruments and Additional Tier 1 Instruments (as defined in the Terms and Conditions of the Notes), the MREL framework and the integration of the TLAC standard into EU legislation as mentioned above.

On 14 December 2023, the European Banking Authority published the final version of the CRR ("**CRR III**"). The recently finalised text of CRR III, CRD VI and BRRD II, commonly known as the Basel IV, will come into effect in January 2025. The UK-EU Memorandum of Understanding on Financial Services Cooperation was signed in Brussels on 27 June 2023. This memorandum will facilitate a forum for cooperation between the EU and the UK. Specific to regulatory developments, the forum's activities will include the sharing of information and consultation around planned regulatory and supervisory developments. This is expected to ensure the timely identification of cross-border implementation issues to support an on-going shared understanding of the relevant regulatory framework.

With respect to the European Commission's proposal to create a new asset class of "non-preferred" senior debt, on 27 December 2017, Directive 2017/2399 amending Directive 2014/59/EU as regards the ranking of unsecured debt instruments in insolvency hierarchy was published in the Official Journal of the European Union and sets forth a harmonised national insolvency ranking of unsecured debt instruments to facilitate the issuance by credit institutions of senior "non-preferred" instruments. Before that, Royal Decree-Law 11/2017, of 23 June, approving urgent measures on financial matters created in Spain the new asset class of senior "non-preferred" debt.

CRD V Directive and BRRD II were partially implemented into Spanish law through Royal Decree-Law 7/2021, of 27 April, (RDL 7/2021) which has amended, amongst others, Law 10/2014 and Law 11/2015, of 18 June, on the Recovery and Resolution of Credit Institutions and Investment Firms (Law 11/2015). Furthermore, Royal Decree 970/2021, of 8 November, amended Royal Decree 84/2015, and Circulars 5/2021 and 3/2022 of the Bank of Spain, which amended Circular 2/2016, completed the implementation into Spanish law of CRD V. In addition,

## INVESTMENT CONSIDERATIONS

Royal Decree 1041/2021, of 23 November, amended Royal Decree 1012/2015, of 6 November, which implemented Law 11/2015 (Royal Decree 1012/2015) and completed the implementation of CRD V and BRRD II. Of note, however, is the uncertainty regarding how the EU Banking Reforms will be applied by the relevant authorities.

On 27 October 2021, the European Commission published legislative proposals to amend CRR and the CRD IV, as well as a separate legislative proposal to amend CRR and BRRD in the area of resolution. In particular, the main objectives of the European Commission's legislative proposals are to strengthen the risk-based capital framework, enhance the focus on environmental, social and governance ("ESG") risks in the prudential framework, further harmonise supervisory powers and tools and reduce institutions' administrative costs related to public disclosures and to improve access to institutions' prudential data. Moreover, these legislative proposals include the following: (i) a Directive of the European Parliament and of the Council amending CRD IV with respect to supervisory powers, sanctions, third-country branches, and environmental, social and governance risks; (ii) a Regulation of the European Parliament and of the Council and its annex amending CRR with respect to requirements for credit risk, credit valuation adjustment risk, operational risk, market risk and the output floor; and (iii) a Regulation of the European Parliament and of the Council amending CRR and BRRD with respect to the prudential treatment of global systemically important institutions with a multiple point of entry resolution strategy and a methodology for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities (the so-called "daisy chain" proposal). With regards to the proposal referred to in limb (iii) above, the European Parliament and the Council adopted on 19 October 2022 Regulation (EU) 2022/2036 amending CRR and BRRD in respect of the prudential treatment of global systemically-important institutions with a multiple-point-of-entry resolution strategy and methods for the indirect subscription of instruments eligible for meeting the minimum requirement for own funds and eligible liabilities, which partially started to apply on 14 November 2022. As to the legislative proposals in limbs (i) and (ii) above, on 24 April 2024, the European Parliament plenary approved CRR III and the Directive amending CRD V (the "CRD VI"). On 30 May 2024, the EU Council adopted CRR III and CRD VI, the last step of the adoption procedures. CRR III and CRD VI will now be published in the Official Journal of the EU and enter into force twenty days later. CRR III will apply from 1 January 2025 and Member States will have eighteen months to transpose CRD VI into national law.

On 18 April 2023, the European Commission adopted a legislative package proposal to adjust and strengthen the EU's existing bank crisis management and deposit insurance framework (the "CMDI Proposal"), which had been under development for some time and was accelerated in light of recent bank failures. The package contains further amendments to the BRRD, the SRM Regulation and the Deposits Guarantee Schemes Directive, which aim at further preserving financial stability, protecting taxpayers and depositors, and supporting the real economy and its competitiveness. The proposals enable authorities to organise the orderly market exit for a failing bank of any size and business model and consists of three pillars: (i) preserving financial stability and protecting taxpayers' money through facilitating the use of deposit guarantee schemes in crisis situations; (ii) shielding the real economy from the impact of bank failure by allowing authorities to fully use resolution as a key component of the crisis management toolbox; and (iii) better protecting depositors. The CMDI Proposal also includes a targeted amendment of the "daisy chains" proposal as a separate legal instrument to address specific issues on the treatment of internal MREL. In particular, the CMDI Proposal (i) harmonises depositor protection across the European Union, including the protection of temporary high balances on bank accounts in excess of EUR 100,000 linked to specific life events (such as inheritance or insurance indemnities), (ii) extends depositor protection to public entities, and (iii) introduces a new single-tiered preferential ranking for all deposits, with the result that all deposits (including certain deposits of large corporates and deposits by other banks) would rank above unsubordinated and unsecured obligations (*créditos ordinarios*), and *pari passu* with each other. Covered deposits would continue to be excluded from bail-in but would have no "super-preference" on insolvency compared to other deposits. At the same time, non-covered deposits would rank in priority to unsubordinated and unsecured creditors and would therefore be bailed in after any such unsubordinated and unsecured creditors (which is aimed at reducing contagion risk). On 6 December 2023 the European Parliament and the Council reached provisional political agreement on the "daisy chains" proposal, which was finally adopted on 27 March 2024 and published in the Official Journal of the EU on 22 April 2024. Additionally, on 20 March 2024, the Economic and Monetary Affairs Committee of the European Parliament voted in favour of a compromise on amendments to the CMDI Proposal. On 24 April 2024, the European Parliament voted in plenary to adopt three legislative texts on CMDI Proposal framework as its position for upcoming legislative negotiations with the European Council, the European Council having yet to adopt its own position. Therefore, as of the date of this Base Prospectus, there is uncertainty with regard to the CMDI Proposal and when it will be finally implemented in the European Union.

### *Capital Requirements*

Credit institutions, such as the Bank, are required, on a standalone and consolidated basis, to hold a minimum amount of regulatory capital of 8 per cent. of risk weighted assets (of which at least 4.5 *per cent.* must be Common Equity Tier 1 ("CET1") capital and at least 6 per cent. must be Tier 1 capital). In addition to the minimum regulatory capital requirements, the CRD IV also introduced five capital buffer requirements that must be met with CET1 capital: (1) the capital conservation buffer for unexpected losses, requiring additional CET1 of up to 2.5 per cent. of total risk weighted assets; (2) the institution-specific counter-cyclical capital buffer (consisting of the weighted average of the counter-cyclical capital buffer rates that apply in the jurisdictions where the relevant credit exposures are located), which may require as much as additional CET1 capital of 2.5 per cent. of total risk weighted assets or higher pursuant to the requirements set by the competent authority; (3) the G-SIIs buffer requiring additional CET1 which shall be not less than 1 per cent. of risk weighted assets; (4) the other systemically important institutions buffer, which may be as much as 2 per cent. of risk weighted assets; and (5) the CET1 systemic risk buffer to prevent systemic or macroprudential risks of at least 1 per cent. of risk weighted assets (to be set by the competent authority). Entities are required to comply with the 'combined buffer requirement' (broadly, the combination of the capital conservation buffer, the institution-specific counter-cyclical buffer and the higher of (depending on the institution) the systemic risk buffer, the G-SIIs buffer and the other systemically important institutions ("O-SII") buffer, in each case as applicable to the institution). Under the CRD V, where an institution is subject to a systemic risk buffer, that buffer will be cumulative with the applicable G-SIIs buffer or the other systemically important institution buffer.

While the capital conservation buffer and the G-SII buffer are mandatory, the Bank of Spain has greater discretion in relation to the counter-cyclical capital buffer, the O-SII buffer and the systemic risks buffer. The ECB also has the ability to provide certain recommendations in this respect.

As of the date of this Base Prospectus, the Bank is required to maintain a conservation buffer of additional CET1 capital of 2.5 per cent. of risk weighted assets, a G-SII buffer of additional CET1 capital of 1.25 *per cent.* of risk weighted assets and a counter-cyclical capital buffer of additional CET1 capital of 0.3693 *per cent.* of risk weighted assets. Bank of Spain agreed on 21 March 2024 to maintain the countercyclical buffer applicable to credit exposures in Spain at 0 *per cent.* for the second quarter of 2024.

Moreover, article 104 of the CRD IV, as implemented by Article 68 of Law 10/2014, and similarly Article 16 of Council Regulation (EU) No 1024/2013 of 15 October 2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the "**SSM Regulation**"), also contemplate that in addition to the minimum Pillar 1 capital requirements and any applicable capital buffer, supervisory authorities may impose further Pillar 2 capital requirements to cover other risks, including those risks incurred by the individual institutions due to their activities not considered to be fully captured by the minimum capital requirements under the CRD IV and CRR, which should be set according to the specific situation of an institution excluding macroprudential or systemic risks, but including the risks incurred by individual institutions due to their activities (including those reflecting the impact of certain economic and market developments on the risk profile of an individual institution). This may result in the imposition of additional capital requirements on the Bank and/or the Group pursuant to this Pillar 2 framework.

In accordance with Articles 104a and b of the CRD V, as implemented in Spain by Article 69 and 69bis of Law 10/2014, that the institutions specific Pillar 2 capital shall consist of two parts: Pillar 2 requirements and Pillar 2 guidance. Pillar 2 requirements are binding, and breaches can have direct legal consequences for banks, while Pillar 2 guidance is not directly binding and a failure to meet Pillar 2 guidance does not automatically trigger legal action, even though the ECB expects banks to meet Pillar 2 guidance. Failure to comply with the Pillar 2 guidance is not relevant for the purposes of triggering the automatic restriction of the distribution and calculation of the 'Maximum Distributable Amount' (as defined below) but, in addition to certain other measures, competent authorities are entitled to impose further Pillar 2 capital requirements where an institution repeatedly fails to follow the Pillar 2 capital guidance previously imposed.

Although CRR and CRD V do not require disclosure of the Pillar 2 guidance, the Market Abuse Regulation (MAR) ESMA Guidelines on delay in the disclosure of inside information and interaction with prudential supervision, as amended on 5 January 2022, provide that Pillar 2 guidance may be inside information if, for example, the difference between the Pillar 2 guidance and the institution's level of capital is not minor and is likely to involve a major reaction by the institution, such as a capital increase; or if the institution's Pillar 2 guidance is not in line with market expectations. To the extent that Pillar 2 guidance constitutes inside information, it will need to be disclosed pursuant to the obligations applicable to the Bank contained in Regulation (EU) No 596/2014 of April 16, 2014, on market abuse.

## INVESTMENT CONSIDERATIONS

In addition to the above, the EBA published on 19 December 2014 its final guidelines for common procedures and methodologies in respect of its supervisory review and evaluation process ("**SREP**"), as revised on 18 March 2022 with the aim of implementing the amendments to the CRD V Directive and CRR II and promoting convergence towards best supervisory practices (the "**EBA SREP Guidelines**"). Included in this were the EBA's proposed guidelines for a common approach to determining the amount and composition of additional Pillar 2 capital requirements implemented on 1 January 2016. Under these guidelines, national supervisors must set a composition requirement for the Pillar 2 additional capital requirements to cover certain specified risks of at least 56 per cent. CET1 capital and at least 75 per cent. Tier 1 capital. Under Article 104(a) of CRD V (implemented into Spanish law by Article 94.6 of Royal Decree 84/2015), EU banks are now allowed to meet Pillar 2 requirements with these minimum proportions of CET1 capital and tier 1 capital.

The EBA SREP Guidelines also contemplate that national supervisors should not set additional capital requirements in respect of risks which are already covered by capital buffer requirements and/or additional macroprudential requirements; and, accordingly, the above 'combined buffer requirement' is in addition to the Pillar 1 and Pillar 2 capital requirements. Therefore capital buffers would be the first layer of capital to be eroded pursuant to the applicable stacking order, as set out in the 'Opinion of the EBA on the interaction of Pillar 1, Pillar 2 and combined buffer requirements and restrictions on distributions' published on 16 December 2015. In this regard, under Article 141 of the CRD IV, Member States of the EU must require that an institution that fails to meet the 'combined buffer requirement', be prohibited from paying any 'Discretionary Payments' (which are defined broadly by the CRD IV as payments relating to CET1, variable remuneration and discretionary pension benefits and distributions relating to Additional Tier 1 Instruments (as defined in the Terms and Conditions of the Notes)), until it calculates its applicable restrictions and communicates them to the regulator. Thereafter, any such Discretionary Payments shall be subject to such restrictions. The restrictions shall be scaled according to the extent of the breach of the 'combined buffer requirement' and calculated as a percentage of the profits of the institution since the last distribution of profits or 'Discretionary Payment'. Such calculation shall result in a Maximum Distributable Amount in each relevant period. As an example, the scaling is such that in the bottom quartile of the 'combined buffer requirement', no 'discretionary distributions' will be permitted to be paid. Articles 43 to 49 of Law 10/2014 and Chapter II of Title II of Royal Decree 84/2015 implement the above provisions in Spain. In particular, Article 48 of Law 10/2014 and Articles 73 and 74 of Royal Decree 84/2014 deal with restrictions on distributions. Furthermore, pursuant to article 16bis of Law 11/2015 and article 48ter of Law 10/2014, the calculation of the Maximum Distributable Amount, as well as consequences of, and pending, such calculation could also take place as a result of the breach of MREL and a breach of the leverage ratio buffer requirement.

CRD V further clarifies that Pillar 2 requirements should be positioned in the relevant stacking order of own funds requirements above the Pillar 1 capital requirements and below the "combined buffer requirement" or the leverage ratio buffer requirement, as applicable. In addition, CRD V also clarifies that Pillar 2 requirements should be set in relation to the specific situation of an institution excluding macroprudential or systemic risks, but including the risks incurred by individual institutions due to their activities (including those reflecting the impact of certain economic and market developments on the risk profile of an individual institution). Under Article 104(a) of CRD V (implemented into Spanish law by Article 94.6 of Royal Decree 84/2015), EU banks are now allowed to meet Pillar 2 requirements with these minimum proportions of CET1 capital and Tier 1 Capital.

The Guarantor announced on 11 December 2023 that it had received from the ECB its decision regarding the prudential minimum capital requirements effective as of 1 January 2024, following the results of SREP. The ECB decision establishes a Pillar 2 requirement of 1.74 per cent. at a consolidated level of which at least 0.98 per cent. must be covered with CET1. Accordingly, the minimum CET1 and capital requirements as of 1 January 2024 are 9.60 per cent. and 13.86 per cent. on a consolidated basis, respectively. As of 31 December 2023, on a consolidated basis, the Group's total capital ratio was 16.4 per cent. while its CET1 ratio was 12.3 per cent. If the Group did not apply the transitory IFRS 9 provisions, nor the subsequent amendments introduced by Regulation 2020/873 of the EU, the fully-loaded CET 1 ratio would have been 12.3 per cent.

As described above, Santander maintains a surplus of capital over these requirements, both at a consolidated and an individual level. Therefore, these capital requirements do not imply any limitation on Discretionary Payments, including to holders of Santander's Additional Tier 1 Instruments (as defined in the Terms and Conditions of the Notes). In addition to the above, the CRR also contains a binding 3 per cent. Tier 1 leverage ratio ("**LR**") requirement, and which institutions must meet in addition and separately to their risk-based requirements.

Moreover, Article 92.1a of CRR includes a leverage ratio buffer for G-SIIs to be met with Tier 1 Capital and set at 50 per cent. of the applicable risk weighted G-SIIs buffer and that is in force since 1 January 2023. Pursuant to Article 141b of the CRD IV and Article 48ter of Law 10/2014, G-SIIs are also obliged to determine their

Maximum Distributable Amount and restrict Discretionary Payments where they do not meet the leverage ratio buffer requirement under Article 92.1a of CRR.

### *MREL Requirements*

Under Article 92a of CRR, institutions such as the Bank that are identified as resolution entities and are G-SII shall satisfy the following requirements for own funds and eligible liabilities: (a) 18 per cent of risk weighted assets, and (b) 6.75 per cent. of its leverage ratio exposure (the Pillar 1 TLAC/MREL Requirements for G-SIIs). On top of that, Article 45 of the BRRD provides that Member States shall ensure that institutions meet, at all times, a minimum MREL requirement (the "**TLAC/MREL Requirements**").

The EU Banking Reforms integrate the total loss absorbing capacity ("**TLAC**") standard into the existing MREL rules and to ensure that both requirements are met with the largely similar instruments, with the exception of the subordination requirement, which will be partially institution-specific and determined by the resolution authority. Therefore, institutions such as the Bank could be subject to an institution-specific TLAC/MREL requirement, which may be higher than the Pillar 1 TLAC/MREL Requirements for G-SIIs.

Although the specific MREL requirements may vary depending on the specific characteristics of the credit entity (its application falls on resolution institution or resolution group, being entities subject to resolution following a Single Point of Entry or Multiple Point of Entry resolution strategy) and the resolution process, BRRD II together with CRR II introduce a relevant change for complying with MREL which now includes two different ratios (i) a risk ratio (percentage of total risk weighted assets of the resolution entity) and (ii) a non-risk ratio (percentage of the resolution entity's total exposure), as well as empower the Relevant Resolution Authority to authorise or require (a) complying with additional CET1, Additional Tier 1 or Tier 2 capital ratios (which was not foreseen in the previous MREL rules) and (b) that certain level of senior liabilities issued by the resolution entity can be subject to Bail-in.

MREL application is also subject to a different regime depending on the nature of the entity based on its resource volume and systemic profile. Thus, the MREL requirements are different for G-SIIs, "top tier" entities (which are not G-SIIs with aggregated asset volume of over EUR 100 billion), O-SIIs (which are institutions that, due to their systemic importance, are more likely to create risks to financial stability) and the rest of the resolution institutions. In particular, G-SIIs, "top tier" banks and O-SIIs are subject to Pillar 1 requirements: 18 per cent. (including the combined buffer requirements under CRD IV), and 13 per cent. of risk weighted assets and 6.75 per cent. and 5 per cent. of leverage exposure, respectively for G-SIIs and "top tier" banks and O-SIIs. These requirements are complemented by further Pillar 2 requirements, which would be determined on a case-by-case basis for the rest of the resolution institutions.

The EU Banking Reforms have introduced limited adjustments to the existing MREL Rules ensuring technical consistency with the structure of any requirements for G-SIIs. Since 1 January 2022, the TLAC/MREL Requirements are fully applicable (a 18 per cent. minimum TLAC requirement).

According to Article 16.a) of the BRRD, any failure by an institution to meet the 'combined buffer requirement' when considered in addition to the applicable minimum TLAC/MREL Requirements is intended to be treated in a similar manner as a failure to meet the 'combined buffer requirement' on top of its minimum regulatory capital requirements (i.e. a resolution authority will have the power to impose restrictions or prohibitions on Discretionary Payments by the Bank). The referred Article 16.a) of the BRRD includes a potential nine month grace period, whereby the resolution authority will assess on a monthly basis whether to exercise its powers, after such nine-month period the resolution authority is compelled to exercise its power to restrict Discretionary Payments (subject to certain limited exceptions). These restrictions have been implemented in Spain by means of Article 16bis of Law 11/2015.

The Bank announced on 18 May 2023 that it had received formal notification from the Bank of Spain of its binding minimum MREL requirement, both total and subordinated, for the Resolution Group at a sub-consolidated level, as determined by the SRB. The requirement became effective on 1 January 2024 and replaced the previously applicable one. The total MREL requirement, which became effective on 1 January 2024, was set at 29.81% of the Resolution Group's total risk weighted assets. The subordination requirement was set at 10.27%. As of 31 December 2023 the structure of own funds and eligible liabilities of the Resolution Group met the intermediate. Future requirements are subject to ongoing review by the resolution authority.

## INVESTMENT CONSIDERATIONS

Additionally, the Basel Committee is currently in the process of reviewing and issuing recommendations in relation to risk asset weightings which may lead to increased regulatory scrutiny of risk asset weightings in the jurisdictions that are members of the Basel Committee.

In addition to the above, the Group shall also comply with the liquidity coverage ratio ("**LCR**") and the net stable funding ratio ("**NSFR**") requirements provided in CRR. As of 31 December 2023, the Group's LCR was 166 per cent., above the 100 per cent. minimum requirement. In relation to the NSFR, the institutions shall maintain from 28 June 2021 an NSFR (calculated in accordance with Title IV of the CRR) of at least 100 per cent.. As of 31 December 2023, the Group's NSFR was 123 per cent., above the 100 per cent. minimum requirement.

### *EU fiscal and banking union*

The project of achieving a European banking union was launched in the summer of 2012. Its main goal is to resume progress towards the European single market for financial services by restoring confidence in the European banking sector and ensuring the proper functioning of monetary policy in the eurozone.

The banking union is expected to be achieved through new harmonized banking rules (the "**single rulebook**") and a new institutional framework with stronger systems for both banking supervision and resolution that will be managed at the European level. Its two main pillars are the SSM and the Single Resolution Mechanism ("**SRM**").

The SSM (comprised by both the ECB and the national competent authorities) is designed to assist in making the banking sector more transparent, unified and safer. In accordance with the SSM Regulation, the ECB fully assumed its new supervisory responsibilities within the SSM, in particular direct supervision of the largest European banks (including us), on 4 November 2014.

The SSM represented a significant change in the approach to bank supervision at a European and global level, and resulted in the direct supervision by the ECB of the largest financial institutions, including us, and indirect supervision of around 3,500 financial institutions and is now one of the largest in the world in terms of assets under supervision. In the coming years, the SSM is expected to continue working on the establishment of a new supervisory culture importing best practices from the 19 national competent authorities that are part of the SSM and promoting a level playing field across participating Member States. Several steps have already been taken in this regard such as the publication of the Supervisory Guidelines; the approval of the Regulation (EU) No 468/2014 of the ECB of 16 April 2014, establishing the framework for cooperation within the SSM between the ECB and national competent authorities and with national designated authorities (the "**SSM Framework Regulation**"); the approval of a Regulation (Regulation (EU) 2016/445 of the European Central Bank of 14 March 2016 on the exercise of options and discretions available in Union law) and a set of guidelines on the application of CRR's national options and discretions, etc. In addition, the SSM represents an extra cost for the financial institutions that funds it through payment of supervisory fees.

The other main pillar of the EU banking union is the SRM, the main purpose of which is to ensure a prompt and coherent resolution of failing banks in Europe at minimum cost for the taxpayers and the real economy. The SRM Regulation establishes uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of the SRM and a Single Resolution Fund ("**SRF**"). Under the intergovernmental agreement ("**IGA**") signed by 26 EU member states on 21 May 2014, contributions by banks raised at national level were transferred to the SRF. The new Single Resolution Board ("**SRB**"), which is the central decision-making body of the SRM, started operating on 1 January 2015 and has fully assumed its resolution powers on 1 January 2016. The SRB is responsible for managing the SRF and its mission is to ensure that credit institutions and other entities under its oversight, which face serious difficulties, are resolved effectively with minimal costs to taxpayers and the real economy. From that date onwards, the SRF is also in place, funded by contributions from European banks in accordance with the methodology approved by the Council of the EU. The SRF is expected to reach a total amount of EUR 80 billion by 2024 and to be used as a separate backstop only after an 8 per cent. bail-in of a bank's liabilities has been applied to cover capital shortfalls (in line with the BRRD).

In order to complete such banking union, a single deposit guarantee scheme is still needed, which may require a change to the existing European treaties. This is the subject of continued negotiation by European leaders to ensure further progress is made in European fiscal, economic and political integration.

### *Global Minimum Tax*

On 22 December 2022, the European Commission approved Directive 2022/2523 ensuring a minimum effective tax rate for the global activities of large multinational groups. The Directive follows closely the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting and should have been transposed by the Member States

into domestic law throughout 2023, and should enter into force for fiscal years starting on 1 January 2024. On 19 December 2023, the Spanish Council of Ministers approved in an initial phase the Draft Law to transpose the European Directive that establishes a global minimum taxation level of 15% for multinational corporations and large national groups. In other relevant countries where the Group is present the regulation is enacted or substantially enacted (UK and most EU countries). The OECD has supplemented these rules with administrative guidance and a safe harbour document to facilitate their application during the first three years.

**ISSUE OF NOTES**

Notes will be issued on a continuous basis in series (each a "**Series**") having one or more issue dates and on terms otherwise identical (or identical other than in respect of the first payment of interest), the Notes of each Series being intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each a "**Tranche**") on different issue dates. The specific terms of each Tranche (which will be, save in respect of the issue date, issue price, first payment of interest and principal amount of the Tranche, identical to the terms of other Tranches of the same Series) will be set forth in Applicable Transaction Terms to this Base Prospectus (the form of which is set out in "*Pro Forma Final Terms*" or "*Pro Forma Pricing Supplement*" below) or, as the case may be, in a Drawdown Prospectus (as applicable).

## **APPLICABLE TRANSACTION TERMS AND DRAWDOWN PROSPECTUSES**

### **APPLICABLE TRANSACTION TERMS AND DRAWDOWN PROSPECTUSES**

In this section the expression "necessary information" means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and the Guarantor and of the rights attaching to the Notes. In relation to the different types of Notes which may be issued under the Programme, the Issuer and the Guarantor have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes which are not Exempt Notes will be contained either in the applicable Final Terms or in a Drawdown Prospectus. Such information will be contained in the applicable Final Terms unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes, may be contained in a Drawdown Prospectus.

For a Tranche of Notes which are not Exempt Notes and are the subject of Final Terms, those Final Terms will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions as completed by the applicable Final Terms.

For a Tranche of Notes which are Exempt Notes, any information which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to such Tranche of Notes will be contained in the applicable Pricing Supplement. Such Pricing Supplement will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which are Exempt Notes and are subject to a Pricing Supplement are the Conditions, as supplemented, amended or replaced by the applicable Pricing Supplement.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Applicable Transaction Terms (or Final Terms or Pricing Supplement, as the case may be) shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted by a single document containing the necessary information relating to the Issuer and the Guarantor and the relevant Notes.

## TERMS AND CONDITIONS OF THE NOTES

### TERMS AND CONDITIONS OF THE NOTES

*The following is the text of the terms and conditions which will include the additional terms and conditions contained in Annex 1 in the case of Equity Linked Notes, Annex 2 in the case of Inflation Linked Notes, Annex 3 in the case of ETF Linked Notes, Annex 4 in the case of Fund Linked Notes, Annex 5 in the case of Credit Linked Notes, Annex 6 in the case of Foreign Exchange (FX) Rate Linked Notes, Annex 7 in relation to Payouts and Annex 8, in the case of EUA Contract Linked Notes, and which, subject to completion by the applicable Final Terms (in the case of Notes other than Exempt Notes (as defined below)) or the applicable Pricing Supplement (in the case of Exempt Notes), will be applicable to the Notes in dematerialised book-entry form or in dematerialised book-entry form with Monte Titoli or in definitive form (if any) issued in exchange for the Global Note(s) or Global Note Certificate(s) or in definitive registered form on issue representing each Series and, subject further to simplification by deletion of non-applicable provisions, will be endorsed on such definitive Bearer Notes or on the Certificates relating to such definitive Registered Notes, details of the relevant Series being shown on the relevant definitive Notes or Certificates and in the applicable Final Terms or Pricing Supplement as the case may be. References in the Conditions to "Notes" are to the Notes of one Series only, not to all Notes which may be issued under the Programme.*

The Notes are issued pursuant to an amended and restated agency agreement dated on or around 2 July 2024 (the "**Agency Agreement**") between Santander International Products plc as issuer (the "**Issuer**"), Banco Santander, S.A. as guarantor (the "**Guarantor**") and as Iberclear paying agent in respect of Book-Entry Notes (the "**Iberclear Paying Agent**"), The Bank of New York Mellon, acting through its London Branch as principal paying agent (the "**Principal Paying Agent**"), paying agent (together with the Principal Paying Agent, the Iberclear Paying Agent and any additional or other paying agents in respect of the Notes from time to time appointed, the "**Paying Agents**"), transfer agent (together with any additional or other transfer agents in respect of the Notes from time to time appointed, the "**Transfer Agents**") and transparency directive agent, The Bank of New York Mellon as the U.S. paying and transfer agent, The Bank of New York Mellon SA/NV, Luxembourg Branch as registrar (the "**Registrar**"), and with the benefit of a deed of covenant dated on or around 2 July 2024 (the "**Deed of Covenant**") executed by the Issuer in relation to the Notes. The Guarantor has, for the benefit of the Noteholders from time to time, executed and delivered a deed of guarantee dated on or around 2 July 2024 (the "**Deed of Guarantee**") under which it has guaranteed the due and punctual payment and/or delivery of all amounts due and/or assets deliverable by the Issuer under the Notes and the Deed of Covenant as and when the same shall become due and payable and/or deliverable. The initial Calculation Agent(s) (if any) is specified on the Notes. The holders of the Notes (the "**Noteholders**" or "**Holders**"), the holders of the interest coupons (the "**Coupons**") appertaining to interest bearing Notes in bearer form and, where applicable in the case of such Notes, talons for further Coupons (the "**Talons**") (the "**Couponholders**") and the holders of the instalment receipts (the "**Receipts**") appertaining to the payment of principal by instalments are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

Copies of the Agency Agreement, the Deed of Covenant and the Deed of Guarantee are available for inspection at the specified offices of each of the Paying Agents.

Notes issued under the Programme are issued in series (each a "**Series**") and each Series may comprise one or more tranches (each a "**Tranche**") of Notes. Each Tranche is the subject of a set of Applicable Transaction Terms (the "**Applicable Transaction Terms**") which completes or, in the case of Exempt Notes (as defined below), modifies or supplements these terms and conditions (the "**Conditions**"). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Applicable Transaction Terms. In the event of any inconsistency between these Conditions and the relevant Applicable Transaction Terms, the relevant Applicable Transaction Terms shall prevail. The Applicable Transaction Terms will comprise either (a) the final terms for this Note (or the relevant provisions thereof) as set out in Part A of the Final Terms (the "**Final Terms**") attached to or endorsed on this Note, or (b) if this Note is neither admitted to trading on a regulated market in the European Economic Area or in the United Kingdom nor offered in the European Economic Area or in the United Kingdom in circumstances where a prospectus is required to be published under the Prospectus Regulation or the Financial Services and Markets Act 2000 (the "**FSMA**"), as the case may be, (an "**Exempt Note**"), the final terms for this Note (or the relevant provisions thereof) as set out in Part A of the Pricing Supplement (the "**Pricing Supplement**") attached to or endorsed on this Note and may specify other terms and conditions which shall, to the extent inconsistent with the Conditions, supplement amend or replace the Conditions for the purposes of this Note. Any reference in these Conditions to "Applicable Transaction Terms" and/or "relevant Applicable Transaction Terms" will be deemed to be a reference to "Final Terms" and/or "applicable Final Terms"; and/or "Pricing Supplement" and/or "applicable Pricing Supplement", as appropriate in respect of each Series of Notes. Where this Note is issued under a standalone prospectus (a "**Drawdown Prospectus**"), references to the Applicable Transaction Terms, Final Terms or Pricing Supplement, as the case may be, shall be

## TERMS AND CONDITIONS OF THE NOTES

In addition, where applicable and unless the context suggests otherwise, references to "redemption" and "redeem" shall be construed to be to "termination" and "terminate", "principal" and "principal amount", respectively, shall be construed to be to "invested amount", "settlement" and "settle" and "settled" shall be construed to be to, respectively, "termination" and "terminate" and "terminated", references to "interest", "Interest Payment Date", "Interest Period" and "Interest Rate" shall be construed to be to "premium", "Premium Payment Date", "Premium Period", "Premium Rate" and "Premium Underlying", and references to "maturity date" shall be construed to be to "final termination date", and all related expressions shall be construed accordingly.

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

**"Additional Business Centre(s)"** means the city, cities or T2 specified as such in the relevant Applicable Transaction Terms;

**"Adjustment Spread"** means, in respect of any Replacement Reference Rate, the adjustment, if any, to such Replacement Reference Rate that the Calculation Agent determines, acting in good faith and in a commercially reasonable manner, where relevant having regard to any Industry Standard Adjustment, which is required in order to reduce or eliminate, to the extent reasonably practicable, any transfer of economic value from the Issuer to the Noteholders (or vice versa) that would otherwise arise as a result of the replacement of the relevant Reference Rate with the relevant Replacement Reference Rate. Any such adjustment may take account of, without limitation, any transfer of economic value (which may be a value anticipated or estimated by the Calculation Agent) as a result of any difference in the term structure or tenor of the Replacement Reference Rate by comparison to the relevant Reference Rate. The Adjustment Spread may be positive, negative or zero, or determined pursuant to a formula or methodology. If a spread or methodology for calculating a spread has been formally designated, nominated or recommended by any Relevant Nominating Body in relation to the replacement of the relevant Reference Rate with a relevant Alternative Post-nominated Reference Rate, then, where the Replacement Reference Rate is the Alternative Post-nominated Reference Rate, the Adjustment Spread shall be determined on the basis of such recommendation (adjusted as necessary to reflect the fact that the spread or methodology is used in the context of the Notes);

**"Administrator/Benchmark Event"** means, in respect of a Reference Rate, the occurrence of a Benchmark Modification or Cessation Event, a Non-Approval Event, a Rejection Event or a Suspension/Withdrawal Event, all as determined by the Calculation Agent;

- (b) in respect of a Non-Approval Event, the date on which the relevant authorisation, registration, recognition, endorsement, equivalence decision, approval, inclusion in any official register or regulatory or legal requirement is required under any applicable law or regulation in order for any of the Issuer, the Calculation Agent and any other entity to perform its obligations in respect of the Notes;

## TERMS AND CONDITIONS OF THE NOTES

- (c) in respect of a Rejection Event, the date on which, following the rejection or refusal of the relevant application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register, the Issuer, the Calculation Agent or any other entity is not permitted under any applicable law or regulation to perform its obligations in respect of the Notes; and
- (d) in respect of a Suspension/Withdrawal Event, the date on which following (A) the suspension or withdrawal by the relevant competent authority or other relevant official body of the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval, or (B) the date on which such Reference Rate or the administrator or sponsor of such Reference Rate is removed from the official register, as applicable, the Issuer, the Calculation Agent or any other entity is not permitted under any applicable law or regulation to perform its obligations in respect of the Notes;

"**Affiliate**" means, in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly, the First Entity or any entity directly or indirectly under common control with the First Entity. "**Alternative Post-nominated Reference Rate**" means, in respect of a Reference Rate, any interest rate, index, benchmark or other price source which is formally designated, nominated or recommended by:

- (a) any Relevant Nominating Body; or
- (b) the administrator or sponsor of such Reference Rate,

in each case, to replace such Reference Rate. If a replacement interest rate, index, benchmark or other price source is designated, nominated or recommended under both paragraphs (a) and (b) above, then the replacement interest rate, index, benchmark or other price source designated, nominated or recommended under paragraph (a) above shall be the Alternative Post-nominated Reference Rate;

Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation (in the case of Notes other than Book-Entry Notes), payment of the Redemption Amount or the payment and/or delivery of the Entitlement (if applicable) due is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5(a) (as well after as before judgment) until whichever is the earlier of (A) the day on which all sums due and/or assets comprised in the Entitlement in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (B) the day which is seven days after the Principal Paying Agent, the Iberclear Paying Agent or the Registrar (as the case may be) or any agent appointed by the Issuer to deliver such assets to Noteholders has notified the Noteholders that it has received all sums due and/or assets comprised in the Entitlement in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment and/or delivery).
- (iii) *Fixed Coupon Amount or Broken Amount:* If a Fixed Coupon Amount is specified in the Applicable Transaction Terms, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination. If a Broken Amount is specified in the Applicable Transaction Terms, the amount of interest payable in respect of the specified Interest Payment Date shall be the relevant Broken Amount and, if the Notes are in more than one Specified Denomination, shall be the relevant Broken Amount in respect of the relevant Specified Denomination.
- (iv) *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount or Broken Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount (or, in the case of Partly Paid Notes, to the Outstanding Principal Amount in respect of the Calculation Amount as of the first day of the relevant Interest Period), multiplying the product by the relevant Day Count Fraction. The resultant figure shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. ## TERMS AND CONDITIONS OF THE NOTES

- (b) ***Floating Rate Notes, ETF Linked Notes, Fund Linked Notes, CMS Linked Notes, Reference Item Linked Notes and Other Reference Item Linked Interest Notes***
- (i) ***Application:*** This Condition 5(b) is applicable to the Notes only if the Floating Rate Note Provisions, CMS Linked Note provisions, Equity Linked Note Provisions, Inflation Linked Note Provisions, ETF Linked Note Provisions, Fund Linked Note Provisions or Foreign Exchange (FX) Rate Linked Note Provisions or EUA Contract Linked Note Provisions are specified in the relevant Applicable Transaction Terms as being applicable in relation to the determination of interest or if the Other Reference Item Linked Interest Note Provisions are specified in the relevant Applicable Transaction Terms or Drawdown Prospectus (as the case may be) as being applicable.
- (ii) ***Accrual of interest:*** The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrears on each Interest Payment Date, subject as provided in Condition 7 (*Payments, Talons and Physical Delivery*) and Condition 5(b)(vii) (*Reference Item Linked Interest Notes*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation (in the case of Notes other than Book-Entry Notes), payment of the Redemption Amount or the payment and/or delivery of the Entitlement (if applicable) due is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (as well after as before judgment) until whichever is the earlier of (A) the day on which all sums due and/or assets comprised in the Entitlement in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (B) the day which is seven days after the Principal Paying Agent, the Iberclear Paying Agent or the Registrar (as the case may be) or any agent appointed by the Issuer to deliver such assets to Noteholders has notified the Noteholders that it has received all sums due and/or assets comprised in the Entitlement in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment and/or delivery).
- (iii) ***Screen Rate Determination:*** If Screen Rate Determination is specified in the relevant Applicable Transaction Terms as the manner in which the Rate(s) of Interest or Rate is/are to be determined, then, subject to the provisions of Condition 5(h) (*Reference Rate Event*), such Rate of Interest or the relevant Rate in respect of an Interest Period will be determined by the Calculation Agent on the following basis and the Rate of Interest or Rate shall be determined in accordance with Condition 5(b)(v) (in the case of Floating Rate Notes) or Condition 5(b)(vii) (*Reference Item Linked Interest Notes*) (in the case of Reference Item Linked Interest Notes):
- (A) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (B) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (C) if a Reference Rate Event has not occurred and, in the case of paragraph (A) above, such rate does not appear on that page or, in the case of paragraph (B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Rate of Interest or Rate will be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to the nearest comparable benchmarks or other reference source(s) then available.
- (iv) ***ISDA Determination:*** If ISDA Determination is specified in the relevant Applicable Transaction Terms as the manner in which the Rate(s) of Interest or Rate is/are to be determined, the Rate applicable to the Notes for each Interest Period will be the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be

determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (A) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Applicable Transaction Terms;
- (B) the Designated Maturity (as defined in the ISDA Definitions), if applicable, is a period specified in the relevant Applicable Transaction Terms;
- (C) the relevant Reset Date (as defined in the ISDA Definitions) is either (X) if the relevant Floating Rate Option is based on the Hong Kong interbank offered rate (HIBOR) or on the CNH Hong Kong interbank offered rate (CNH HIBOR), the first day of that Interest Period or (Y) in any other case, as specified in the relevant Applicable Transaction Terms; and
- (D) the relevant Payment Date (as defined in the ISDA Definitions) is the relevant Interest Payment Date.

References in the ISDA Definitions to:

- (i) numbers, financial centres, elections or other items specified in the relevant Confirmation shall be deemed to be references to the numbers, financial centres, elections or other items specified for such purpose in the Applicable Transaction Terms; and
- (ii) in the case of the 2021 Definitions:
  - the Trade Date shall be deemed to be to the Trade Date of the Notes;
  - the Effective Date shall be deemed to be to the date specified as such in the Applicable Transaction Terms;
  - the Termination Date shall be deemed to be to the date specified as such in the Applicable Transaction Terms; and
  - the Day Count Fraction and Floating Rate Day Count Fraction shall be deemed to be to that specified as the ISDA Day Count Fraction in the Applicable Transaction Terms.

For this purpose, the relevant Interest Determination Date will be deemed to be the day on which the relevant Rate of Interest is determined on the above basis.

Notwithstanding anything to the contrary in the ISDA Definitions:

- (i) the provisions of this Condition 5(b) shall apply in relation to determinations made by the Calculation Agent pursuant to this sub-paragraph and any such provision in the relevant ISDA Definitions shall be disregarded. In addition, all calculations and determinations made in respect of the Notes by the Calculation Agent under the Conditions shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Guarantor and the Noteholders;
- (ii) for the avoidance of doubt, but notwithstanding anything to the contrary in the Conditions, any requirement under the ISDA Definitions for the Calculation Agent (as defined therein): (a) to give notice of a determination made by it to any other party will be deemed to be a requirement for the Calculation Agent (as defined in these Conditions) to provide an equivalent notice to the Issuer; and (b) to consult with the other party or the parties will be deemed to be a requirement to consult with the Issuer. Any such notice or consultation may be given or carried out orally or in writing (including by

In addition the right of any party under the ISDA Definitions to require the Calculation Agent thereunder to take any action or fulfil any responsibility will be deemed to be solely the right of the Issuer to require this of the Calculation Agent in its discretion and no Noteholder will have any right to require the Issuer to do this;

- (iii) any terms under the ISDA Definitions allowing for agreement between the parties to the relevant transaction will be deemed not to apply and where any terms of the ISDA Definitions provide for the parties to seek agreement between themselves, the parties will be deemed to have been unable to reach agreement and in each case the ISDA Definitions will be construed accordingly;
- (iv) in the event that the Calculation Agent determines that any Fixing Day or other day (each a "**Fixing Date**") on which an ISDA Rate is determined under the ISDA Definitions is less than two Business Days prior to the relevant date originally scheduled for payment, the Calculation Agent may determine that such date for payment be delayed to a date falling not more than two Business Days after the relevant Fixing Date and Noteholders shall not be entitled to further interest or any other payment in respect of such delay; and
- (v) in respect of the 2021 Definitions only, in the event that the Correction Time Period applicable to an ISDA Rate ends later than two Business Days prior to the relevant date for payment, any corrections published after the second Business Day prior to the relevant date for payment shall be disregarded for the purposes of determining the relevant ISDA Rate.

If the Calculation Agent determines that a Reference Rate Event has not occurred but such ISDA Rate cannot be determined in accordance with the ISDA Definitions read with the above provisions and prior to the application of (i) where the 2006 Definitions are specified in the Applicable Transaction Terms, fallbacks in the 2006 Definitions (including, where applicable, any Reference Dealer (as defined in the 2006 Definitions) quotations or fallbacks set out in Supplement number 70 to the 2006 Definitions (Amendments to the 2006 Definitions to include new IBOR fallbacks)), or (ii) where the 2021 Definitions are specified in the Applicable Transaction Terms, any provision relating to permanent cessation or an Administrator/Benchmark Event in the 2021 Definitions (including, for the avoidance of doubt, any Discontinued Maturities provisions) then the ISDA Rate for the Relevant Determination Date shall be such rate as is determined by the Calculation Agent in good faith and in a commercially reasonable manner having regard to the nearest comparable benchmarks or other reference source(s) then available.

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, unless otherwise stated in the Applicable Transaction Terms, the Minimum Rate of Interest shall be deemed to be zero.

- (v) *Rate of Interest*: the Rate of Interest in relation to the Notes (other than Reference Item Linked Interest Notes) shall be determined as follows:
  - (A) If "Margin Plus Rate" is specified as applicable in the relevant Applicable Transaction Terms, the Rate of Interest will be equal to the Margin plus the Rate;
  - (B) If "Specified Percentage Multiplied by Rate" is specified in the relevant Applicable Transaction Terms, the Rate of Interest will be equal to the Specified Percentage multiplied by the Rate; or
  - (C) If "Difference in Rates" is specified in the relevant Applicable Transaction Terms, the Rate of Interest will be equal to the Specified Percentage multiplied by (Rate – Rate 2), each of Rate and Rate 2 to be determined in

The Permanent Cessation Fallback in respect of the Floating Rate Option for a Reference Rate in the Floating Rate Matrix will only be followed as provided for in this paragraph, if applicable, and subject as provided below.

- (2) If:
- (i) ISDA Determination does not apply pursuant to Condition 5(b)(iv) (*ISDA Determination*);
  - (ii) ISDA Determination and 2006 Definitions are specified in the Applicable Transaction Terms and (x) the specified Priority Fallback(s) fail to provide any appropriate means of determining the rate of interest, or (y) the Calculation Agent determines that the application of the Priority Fallback(s) and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Noteholders or that it would be impracticable to apply the Priority Fallback(s) and/or to make any adjustments to the Conditions, or (z) no Priority Fallback(s) are specified in the definition of such Floating Rate Option in the 2006 Definitions; or
  - (iii) ISDA Determination and 2021 Definitions are specified in the Applicable Transaction Terms and (x) the specified Permanent Cessation Fallback fails to provide any appropriate means of determining the rate of interest, or (y) the Calculation Agent determines that the application of the Permanent Cessation Fallback and/or any such adjustments would not achieve a commercially reasonable result for either the Issuer or the Noteholders or that it would be impracticable to apply the Permanent Cessation Fallback and/or to make any adjustments to the Conditions, or (z) any of sub-paragraphs (1)II to IV above apply in respect of such Floating Rate Option,

then the Calculation Agent shall, subject as provided below, seek to identify a Replacement Reference Rate in respect of such Reference Rate. If the Calculation Agent identifies a Replacement Reference Rate in respect of such Reference Rate prior to the Cut-off Date it shall:

- (x) seek to determine the related Adjustment Spread; and
- (y) determine the amendments (if any) to the Conditions of the Notes which it considers are necessary and/or appropriate in order to replace such Reference Rate with the relevant Replacement Reference Rate (as adjusted by the Adjustment Spread) (the "**Replacement Reference Rate Amendments**").

Following the determination by the Calculation Agent of the Replacement Reference Rate and the related adjustments, the Calculation Agent shall notify the Issuer of such determination and the Conditions of the Notes shall be amended as of the Cut-off Date. Prior to the Cut-off Date, the Issuer shall notify the Noteholders in accordance with

## TERMS AND CONDITIONS OF THE NOTES

Condition 14 (*Notices*) of the occurrence of the relevant Reference Rate Event and the action to be taken in relation thereto.

- (B) If the relevant Reference Rate Event is a Benchmark Modification, as an alternative to Condition 5(h)(i)(A) above, the Calculation Agent may instead prior to the Cut-off Date:
  - (1) determine that no Replacement Reference Rate or other amendments to the Conditions of the Notes are required as a result of such Benchmark Modification; or
  - (2) determine the adjustment(s) to the Conditions of the Notes as are necessary or appropriate to account for the effect of such material change and the effective date of any such adjustment(s).

Following any such determination, the Calculation Agent shall notify the Issuer of the action, if any, to be taken in relation thereto and, where adjustment(s) are required to be made to the Conditions of the Notes pursuant to Condition 5(h)(i)(B)(2) above, the Conditions shall be amended as of the relevant effective date and the Issuer shall notify the Noteholders in accordance with Condition 14 (*Notices*) of the occurrence of the relevant Benchmark Modification and the action to be taken in relation thereto. No notice to Noteholders is required where Condition 5(h)(i)(B)(1) above applies.

### (ii) Early Redemption

If:

with respect to any Reference Rate Event, the Calculation Agent determines that it is not possible or commercially reasonable to identify a Replacement Reference Rate and/or determine any Adjustment Spread or the related Replacement Reference Rate Amendments prior to the Cut-off Date in accordance with Condition 5(h)(i)(A); or

- (A) with respect to a Benchmark Modification, the Calculation Agent determines that Condition 5(h)(i)(B) above applies, but that it is not possible or commercially reasonable to make any amendments to the Conditions of the Notes which it determines are required following the occurrence of the Benchmark Modification prior to the Cut-off Date in accordance with such Condition 5(h)(i)(B) above;
- (B) it (i) is or would be unlawful at any time under any applicable law or regulation or (ii) would contravene any applicable licensing requirements, for the Issuer or the Calculation Agent to perform the actions prescribed in these Conditions (or it would be unlawful or would contravene those licensing requirements were a determination to be made at such time);
- (C) the Calculation Agent determines that an Adjustment Spread is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Issuer or the Calculation Agent to material additional regulatory obligations (such as the obligations for administrators under BMR); or
- (D) the Calculation Agent determines that having identified a Replacement Reference Rate and determined an Adjustment Spread on or before the Cut-off Date in accordance with these Conditions, the adjustments provided for would not achieve a commercially reasonable result for either the Issuer or the Noteholders,

the Issuer shall give notice to the Noteholders in accordance with Condition 14 (*Notices*) as soon as reasonably practicable after the relevant determination and the Issuer shall redeem all, but not some only, of the Notes on a day selected by the Issuer, each Note being redeemed at the Early Redemption Amount, together with, if so specified in the Applicable Transaction Terms, accrued interest.

## TERMS AND CONDITIONS OF THE NOTES

### (iii) Interim Adjustments

If, following a Reference Rate Event but prior to the Cut-off Date, the relevant Reference Rate is required for any determination in respect of the Notes:

- (A) if (1) in relation to a Reference Rate Cessation Event, the Reference Rate Cessation Event Date has not yet occurred, or (2) in relation to an Administrator/Benchmark Event, the Administrator/Benchmark Event Date has not yet occurred, the level of such Reference Rate shall be determined pursuant to the terms that would apply to the determination of such Reference Rate as if no Reference Rate Event had occurred; or
- (B) otherwise, the level of such Reference Rate shall be determined by the Calculation Agent in its discretion by reference to either (i) the rate published in respect of such Reference Rate at the time such Reference Rate is ordinarily determined on the day immediately prior to (1) the Reference Rate Cessation Event Date or (2) the Administrator/Benchmark Event Date, as applicable or, if no rate is published at the time or that rate cannot be used in accordance with applicable law or regulation, by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with applicable law or regulation, as applicable or (ii) such other rate that is, in the determination of the Calculation Agent, recognised or acknowledged as being an industry standard (or otherwise customarily widely adopted) replacement rate or, if the Calculation Agent determines there is no such replacement rate, such other interest rate, index, benchmark or other price source that the Calculation Agent determines to be a commercially reasonable alternative for such Reference Rate and the Issuer shall give notice to the Noteholders in accordance with Condition 14 (*Notices*) as soon as reasonably practicable of the action to be taken in relation thereto.

### (iv) Determinations

Any adjustment to the Conditions of the Notes (including the determination of any adjustment spread or factor, however defined) which the Calculation Agent determines is necessary or appropriate pursuant to the above provisions of this Condition 5(h):

- (A) shall be made to the extent reasonably practicable, taking into account prevailing industry standards in any related market (including, without limitation, the derivatives market) and Relevant Market Data;
- (B) may include, where applicable and without limitation, (1) technical, administrative or operational changes (including without limitation, changes to determination dates, timing and frequency of determining rates and making payments, rounding of amounts or tenors, the introduction of any time delay or lag between the calculation or observation period of a rate and the related payment dates and other administrative matters) that the Calculation Agent determines are appropriate, (2) the application of any adjustment factor or adjustment spread (whether or not expressly referenced in the relevant provision and which may be positive or negative) and (3) adjustments to reflect any increased costs to the Issuer of providing exposure to the replacement or successor rate(s) and/or benchmark(s); and
- (C) may be applied on more than one occasion, may be made as of one or more effective dates and may (but does not have to) involve the selection of a successor or replacement rate which is determined on a backwards-looking compounding basis by reference to a "risk-free rate".

For the avoidance of doubt, (I) the Calculation Agent is not obliged to make any determination in relation to any Reference Rate Event if the relevant Cut-off Date would fall after the earlier of (x) the date the relevant Reference Rate is no longer used to determine any amount payable under the Notes and (y) the Maturity Date of the

## TERMS AND CONDITIONS OF THE NOTES

Notes and (II) the Issuer and/or the Calculation Agent may make all determinations and/or adjustments and take all actions in respect of the Notes as are provided for in connection with a Reference Rate Event, notwithstanding that such Reference Rate Event may have occurred before the Issue Date of the Notes.

In relation to the Notes listed on the MOT, the Calculation Agent and/or the Issuer as the case may be in exercising its discretion under the relevant Conditions, shall act in good faith and in a commercially reasonable manner, and use generally accepted methodologies in making adjustments in the event of disruption to the underlying assets. Notwithstanding any other provision of the Conditions, the Calculation Agent and/or the Issuer as the case may be may make any adjustment that it determines appropriate to any terms of such Notes, in accordance with the relevant Conditions, to preserve the economic equivalent of the obligations of the Issuer under the Notes, save as otherwise specified in the applicable Issue Terms.

### 6. Redemption, Purchase and Options

#### (a) *Final Redemption*

Unless previously redeemed, purchased and cancelled as provided below, each Note will be redeemed (i) at its Final Redemption Amount on the Maturity Date, or (ii) if Physical Settlement is specified as applicable in the Applicable Transaction Terms (each such Note a "**Physical Delivery Note**"), by delivery of the Entitlement (as provided in Condition 7 (*Payments, Talons and Physical Delivery*)) on the Delivery Date, or (iii) if it is a Credit Linked Note and is to be settled pursuant to Credit Linked Condition 4 (*Physical Settlement*), by delivery of the Entitlement, subject to the terms of the Credit Linked Conditions.

Where the Notes are to be offered in Italy and/or listed and/or admitted to trading on Borsa Italiana's trading venues then, notwithstanding any other provision of the Conditions, such Notes shall be deemed to be automatically exercised on the Expiry Date (Data di Scadenza) specified in the applicable Final Terms (the "**Expiry Date**"). The minimum number of Notes that may be exercised in respect of a noteholder is one (1) Note or multiples in excess thereof.

#### (b) *Redemption for taxation reasons*

The Notes may be redeemed at the option of the Issuer in whole, but not in part, on any Interest Payment Date or, if so specified thereon, at any time, on giving not less than 30 nor more than 60 days' notice to the Noteholders (which notice shall be irrevocable), at their Early Redemption Amount (Tax), (subject as provided below, together with interest accrued to the date fixed for redemption), if (i) the Issuer (or, if the Guarantee were called, the Guarantor) has or will become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of Ireland or Spain or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date, and (ii) such obligations cannot be avoided by the Issuer (or the Guarantor, as the case may be) taking reasonable measures available to it, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer (or the Guarantor, as the case may be) would be obliged to pay such additional amounts if a payment in respect of the Notes (or either Guarantee, as the case may be) were then due. Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Principal Paying Agent or (in the case of Book-Entry Notes) the Iberclear Paying Agent, a certificate signed by a director of the Issuer (or the Guarantor, as the case may be) stating that the Issuer (or the Guarantor, as the case may be) is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer (or the Guarantor, as the case may be) so to redeem have occurred, and an opinion of independent legal advisers of recognised standing to the effect that the Issuer (or the Guarantor, as the case may be) has or will become obliged to pay such additional amounts as a result of such change or amendment.

#### (c) *Redemption or adjustment for a General Administrator/Benchmark Event*

## TERMS AND CONDITIONS OF THE NOTES

In the event that a General Administrator/Benchmark Event occurs, the Issuer may (at its option):

- (i) instruct the Calculation Agent to make such adjustments to the Conditions of the Notes as it may determine appropriate to account for the relevant event or circumstance and, without limitation, such adjustments may (a) consist of one or more amendments and/or be made on one or more dates (b) be determined by reference to any adjustment(s) in respect of the relevant event or circumstance made in relation to any hedging arrangements in respect of the Notes and (c) include selecting a successor benchmark(s) and making related adjustments to the Conditions of the Notes including, where applicable, adding an adjustment spread (which may be positive or negative) or any adjustment to reflect any increased costs of the Issuer providing exposure to the replacement or successor benchmark(s) and, in the case of more than one successor benchmark, making provision for allocation of exposure as between the successor benchmarks; or
- (ii) redeem all, but not some only, of the Notes, each Note being redeemed at its Early Redemption Amount.

Prior to the effective date of any adjustment or any date of early redemption, the Issuer shall give notice to the Noteholders in accordance with Condition 14 (*Notices*) of the occurrence of the relevant General Administrator/Benchmark Event and the action to be taken in relation thereto.

For the avoidance of doubt, other than as provided in Condition 5(h) (*Reference Rate Event*), the above is additional, and without prejudice, to any other terms of the Notes. In the event that under any such terms any other consequences could apply in relation to an event or occurrence the subject of a General Administrator/Benchmark Event, the Issuer shall determine which terms shall apply in its sole and absolute discretion.

(d) ***Purchases***

The Issuer, the Guarantor and any of the Guarantor's Subsidiaries may at any time purchase Notes (**provided that** all unmatured Receipts and Coupons and unexchanged Talons appertaining thereto are attached or surrendered therewith) in the open market or otherwise at any price.

- (ii) All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

Any such notice shall be irrevocable and may not be withdrawn.

(g) ***Redemption by Instalments***

Unless previously redeemed, purchased and cancelled as provided in this Condition 6, each Note which provides for Instalment Dates and Instalment Amounts will be partially redeemed on each Instalment Date at the Instalment Amount specified on it, whereupon the outstanding principal amount of such Note shall be reduced by the Instalment Amount for all purposes.

(h) ***Partly Paid Notes***

Where the Applicable Transaction Terms specify that the Notes are Partly Paid Notes, the issue price in respect thereof will be payable in instalments (each a "**Part Payment Amount**") on the dates specified in the Applicable Transaction Terms (each a "**Part Payment Date**").

The Issuer will notify the Noteholders in accordance with Condition 14 (*Notices*) not less than the number of days specified in the Applicable Transaction Terms prior to the relevant Part Payment Date of their obligation to pay the relevant Part Payment Amount in respect of each Note equal to the Calculation Amount and shall specify the account of the Issuer to which the relevant Part Payment Amount shall be made. The relevant Part Payment Amount shall be paid by the Noteholders in immediately available funds to the account specified by the Issuer in the notice, for value on the Part Payment Date. Upon payment of the relevant Part Payment Amount in respect of all the Notes, the Outstanding Principal Amount in respect of each Calculation Amount shall increase as of the relevant Part Payment Date, as specified in the Applicable Transaction Terms.

In the event that a Part Payment Amount is not paid by any Noteholder on the relevant Part Payment Date (the "**Part Payment Default Date**"), the Issuer shall as soon as practicable thereafter notify the Principal Paying Agent, the Iberclear Paying Agent or the Registrar, as applicable, of such non-payment and the Issuer shall, having given not less than 5 Business Days' (or such other notice period as specified in the Applicable Transaction Terms) notice to the Noteholders in accordance with Condition 14 (*Notices*), redeem all the Notes by payment of the Early Redemption Amount on the Part Payment Early Redemption Date specified in the Applicable Transaction Terms. For the avoidance of doubt, if the Notes become redeemable on the Part Payment Early Redemption Date, no interest will be payable by the Issuer in respect of the period from (and including) the Part Payment Default Date to (and including) the Part Payment Early Redemption Date and the Issuer's obligations in respect of the Notes shall be discharged upon payment of the relevant Early Redemption Amount.

Repayment by the Issuer of Part Payment Amounts:

- (i) If the Part Payment Amount in respect of any Note is not paid on the relevant Part Payment Date; and/or
- (ii) if any Part Payment Amount is paid after the relevant Part Payment Date in respect of any Notes,

the Part Payment Amounts for the relevant Part Payment Date in respect of all the Notes shall be deemed not to have been paid and, for the avoidance of doubt, the Outstanding Principal Amount shall not include such amounts, the Issuer shall not accept the Part Payment Amount(s) paid in respect of any of the other Notes outstanding and shall repay any such amounts paid or paid late to the relevant Noteholders as soon as practicable to the account used by the relevant Noteholder to pay the relevant Part Payment Amount. In such case, no interest will be payable

(i) ***Cancellation***

All Notes purchased by or on behalf of the Issuer, the Guarantor or any of the Guarantor's subsidiaries may be surrendered for cancellation, (i) in the case of Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to the Principal Paying Agent, (ii) in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar, (iii) in the case of Book-Entry Notes, by virtue of debiting, in the account of the relevant registry where the Book-Entry Notes are registered, each such Book-Entry Note against the credit of all relevant payments in relation to the relevant Note, and (iv) in the case of Monte Titoli Book-Entry Notes, making appropriate entries in the records of the Monte Titoli Account Holders to reflect such exchanges, and, in each case, if so surrendered or debited, will, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation or so debited may not be reissued or resold and the obligations of the Issuer and the Guarantor in respect of any such Notes shall be discharged.

(j) ***Late Payment on Zero Coupon Notes***

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 6(a) (*Final Redemption*), 6(b) (*Redemption for taxation reasons*), 6(e) (*Redemption at the Option of the Issuer and Exercise of Issuer's Options*) or 6(f) (*Redemption at the Option of Noteholders and holders' Exercise of Noteholder's Options*) or upon it becoming due and repayable as provided in Condition 10 (*Events of Default*), is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the Amortised Face Amount calculated as provided in Condition 1 above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

The Issuer has the right, at its sole option, to reject the buy-back request and, in particular, if the Issuer does not reply to the notice, the Issuer shall be deemed to have rejected the buy-back request. The Issuer also has the sole option as to whether to maintain any Underlying Transactions from time to time and no assurance is given that it will maintain any Underlying Transactions during the life of the Notes. If no Underlying Transactions are maintained

The Issuer may, however, at its sole option purchase Notes at any time pursuant to Condition 6(d) (*Purchases*) above and in this case the purchase price may be significantly different from what the Buy-Back Price would have been.

The value of such Notes prior to the Maturity Date shall reflect and shall be calculated on the basis of but will not necessarily be the same as the Market Value of the Underlying Transactions if any at the relevant time and, in the event that a Holder requests that the Issuer buy-back any such Notes held by it prior to the Maturity Date, and the Issuer accepts such request, the Buy-Back Price will be determined taking into consideration the Market Value of such Underlying Transactions.

Notwithstanding any other provision of this Condition 6(k), where the Issuer maintains Underlying Transactions at any relevant time such Underlying Transactions will be notional reference transactions and the Issuer will be under no obligation to maintain actual transactions corresponding to the Underlying Transactions. All references to the Issuer maintaining Underlying Transactions will be interpreted accordingly.

(ii) Extra-Yield

The Issuer shall pay higher amounts of interest than otherwise (the "**Extra-Yield**") in respect of such Notes. More information on the calculation of the interest basis in respect of the Notes (unbundling) shall be published by the Issuer from time to time together with information relating to the Underlying Transactions as described below.

In order to notify the Issuer, the relevant Holder must give such notice in writing by hand, mail or e-mail in accordance with the relevant contact details specified in the relevant Applicable Transaction Terms, or in relation to Exempt Notes, in such other manner as is specified in the applicable Pricing Supplement. Each Holder must also provide evidence satisfactory to the Issuer of its holding of the relevant Notes which may be in the form of certification from a relevant clearing system or such requirement may be satisfied by delivery of the Note(s) held by such Holder together with the relevant notice, or such other appropriate manner determined by the Issuer.

Any such notice shall be effective when received by the Issuer and, if received after close of business in the place of receipt or on a day that is not a Business Day, such notice shall be deemed to be effective on the next following Business Day.

Information relating to the Underlying Transactions, if any, shall be published from time to time by the Issuer in the manner specified in the Applicable Transaction Terms and where the Notes are listed on any stock exchange or market, in accordance with the rules of the applicable stock exchange or market from time to time. Examples of General Funded Arbitrage would include, but not be limited to:

(h) ***Unmatured Coupons and Receipts and unexchanged Talons***

(i) Unless the Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Bearer Notes should be presented for payment together with all unexpired Coupons (if any) appertaining thereto, failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon which the sum of principal so paid bears to the total principal due) will be deducted from the Redemption Amount due for payment. (k) ***Physical Delivery***

(i) Physical Delivery

This Condition 7(k) does not apply to Credit Linked Notes.

(A) Asset Transfer Notices

In order to obtain delivery of the Entitlement in respect of any Physical Delivery Note, the relevant Noteholder must:

- (1) If such Note is a Note other than a Book-Entry Note, deliver (I) if such Note is a Bearer Note or Monte Titoli Book-Entry Note, to any Paying Agent or to the Issuer, as the case may be, (through the relevant Monte Titoli Account Holder, in the case of Monte Titoli Book-Entry Notes) or (II) if such Note is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Principal Paying Agent and, in the case of (I) or (II) above, with a copy to any entity appointed by the Issuer to deliver the Entitlement on its behalf (the "**Delivery Agent**") no later than the close of business in each place of reception on the Cut-Off Date, a duly completed asset transfer notice

## TERMS AND CONDITIONS OF THE NOTES

substantially in the form described in the Agency Agreement, if applicable (the "**Asset Transfer Notice**"), or

- (2) If such Note is a Book-Entry Note:
- I. where the Entitlement is also a security (or securities) included in Iberclear's book-entry register, then the Iberclear Paying Agent must receive instructions from each Iberclear Member holding Book-Entry Notes on the Cut-off Date. Such instructions shall include complete settlement instructions, incorporating relevant information in respect of the Noteholders holding Book-Entry Notes through each Iberclear Member and an undertaking to pay all Expenses and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership. Each Iberclear Member holding Book-Entry Notes must block such Book-Entry Notes in the relevant account from and including the Cut-off Date; and
  - II. where the Entitlement comprises an instrument (or instruments) not included in Iberclear's book-entry register, each Iberclear Member holding Book-Entry Notes on the Cut-off Date must send timely and full settlement instructions to the Iberclear Paying Agent with a copy to any Delivery Agent acting on the Issuer's behalf sufficient to allow the Issuer, or, where applicable, the Delivery Agent, to make delivery of the Entitlement in the relevant clearing system (where relevant) or otherwise on the Delivery Date in accordance with the provisions of this Condition 7(k) and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership.

For the avoidance of doubt, where the settlement instructions contemplated by this sub-paragraph (2) apply, this replaces the requirement to deliver an Asset Transfer Notice in accordance with the provisions below. All instructions for settlement to be delivered in accordance with this subparagraph (2) will be referred to as the "**Iberclear Settlement Instruction**".

For the purposes hereof, "**Cut-off Date**" means (a) other than where "Automatic Early Redemption" is specified as applicable in the Applicable Transaction Terms, the date specified as such in the Applicable Transaction Terms or if not so specified, the fifth Business Day immediately preceding the Delivery Date and (b) if "Automatic Early Redemption" is specified as applicable in the Applicable Transaction Terms, the fifth Business Day immediately preceding the relevant Automatic Early Redemption Date in respect of which an Automatic Early Redemption Event has occurred.

A form of Asset Transfer Notice may be obtained during normal business hours from the specified office of the Registrar or any Paying Agent or the Issuer, as applicable.

An Asset Transfer Notice may only be delivered if such Note is in definitive form, in writing.

If a Note is in definitive form, it must be delivered together with the duly completed Asset Transfer Notice.

The Asset Transfer Notice shall:

## TERMS AND CONDITIONS OF THE NOTES

- (1) specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer or Delivery Agent may obtain details for the delivery of the Entitlement;
- (2) specify the series number of the Notes and the number of Notes which are the subject of such notice;
- (3) include an undertaking to pay all Expenses (as defined below);
- (4) include such details as are required for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and number of the Noteholder's account to be credited with any cash payable by the Issuer or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event or a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Disruption Cash Redemption Amount or Failure to Deliver Redemption Amount, as applicable, or as a result of the Issuer electing to pay the Alternate Cash Redemption Amount (each as defined below);
- (5) certify that the beneficial owner of each Note is not a U.S. person (as defined in the Asset Transfer Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof; and
- (6) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Agency Agreement, if applicable.

Copies of such Asset Transfer Notices may be obtained from the Registrar or any Paying Agent or the Issuer, as applicable.

### (B) Determinations and Delivery

Any determination as to whether an Asset Transfer Notice or the Iberclear Settlement Instruction, as the case may be, is duly completed and in proper form shall be made by the relevant Paying Agent, the Issuer or the Registrar, as the case may be, in each case, in consultation with the Principal Paying Agent (in the case of Notes other than Book-Entry Notes), and shall be conclusive and binding on the Issuer, the Guarantor (if applicable), the Paying Agent(s), any Delivery Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice or Iberclear Settlement Instruction, as the case may be, so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent or the Issuer, as applicable (in the case of Notes other than Book-Entry Notes) and/or any Delivery Agent (as applicable) immediately after being delivered or sent as provided in paragraph (A) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the relevant Paying Agent, the Issuer or the Registrar, as the case may be, in each case, in consultation with the Principal Paying Agent (as applicable), it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

## TERMS AND CONDITIONS OF THE NOTES

If such Iberclear Settlement Instruction is subsequently corrected to the satisfaction of the Iberclear Paying Agent it shall be deemed to be a new Iberclear Settlement Instruction submitted at the time such correction was delivered as provided above.

The relevant Delivery Agent, Registrar or Paying Agent or the Issuer, as applicable, shall use its reasonable efforts as soon as reasonably practicable to notify the Noteholder submitting an Asset Transfer Notice or, in respect of Book-Entry Notes, the Iberclear Member submitting the Iberclear Settlement Instruction, if, in consultation with the Principal Paying Agent (in the case of Notes other than Book-Entry Notes), it has determined that such Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Guarantor, the Delivery Agent, the Paying Agents or the Registrar shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder.

No Asset Transfer Notice or Iberclear Settlement Instruction may be withdrawn after receipt thereof by the Delivery Agent, the Registrar or a Paying Agent or the Issuer, as the case may be, as provided above. After delivery of an Asset Transfer Notice or Iberclear Settlement Instruction, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

The Entitlement will be delivered on the date fixed for redemption (such date, subject to adjustment in accordance with this Condition 7(k), the "**Delivery Date**"), at the risk of the relevant Noteholder in the manner provided below and provided that the Asset Transfer Notice or (in the case of Book-Entry Notes) the Iberclear Settlement Instruction, is duly delivered as provided above not later than the close of business in each place of reception on the Cut-Off Date.

If a Noteholder fails to give an Asset Transfer Notice or (in the case of Book-Entry Notes) an Iberclear Settlement Instruction, as provided herein with a copy to each relevant party prior to the close of business in each place of reception on the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Delivery Date at the risk of such Noteholder in the manner set out below, provided that, if in respect of a Note, an Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) is not delivered to each relevant party, prior to the close of business in each place of reception on the 90th calendar day following the Cut-off Date then (a) if "Assessed Value Payment Amount" is specified as applicable in the Applicable Transaction Terms, the Issuer shall as soon as reasonably practicable following such date determine the Assessed Value Payment Amount (as defined below) and in respect of such Note shall pay the Assessed Value Payment Amount to the relevant Noteholder in lieu of delivery of the Entitlement as soon as reasonably practicable following determination of the Assessed Value Payment Amount, or (b) if "Assessed Value Payment Amount" is not specified as applicable in the Applicable Transaction Terms, the Issuer's obligations in respect of such Note and the Guarantor's obligations pursuant to the Guarantee in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer or the Guarantor, as applicable. Upon payment of the Assessed Value Payment Amount, if applicable, the Issuer's and the Guarantor's obligations in respect of such Note shall be discharged. For the avoidance of doubt, in the circumstances described above, such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of a failure to give an Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) in relation to a Delivery Date and no liability in respect thereof shall attach to the Issuer or the Guarantor as applicable.

## TERMS AND CONDITIONS OF THE NOTES

The Issuer (or any Delivery Agent on its behalf) shall, at the risk of the relevant Noteholder, deliver (or procure the delivery) of the Entitlement for each Note, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or Iberclear Settlement Instruction (as applicable) or in such manner as is specified in the Applicable Transaction Terms. All costs, taxes, duties and/or expenses including stamp duty, stamp duty reserve tax and/or other costs, duties or taxes ("**Expenses**") arising from the delivery of the Entitlement, in respect of such Notes shall be for the account of the relevant Noteholder and no delivery of the Entitlement shall be made until all Expenses have been paid by the relevant Noteholder to the satisfaction of the Issuer.

### (C) General

Notes held by the same Noteholder will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Notes, provided that, the aggregate Entitlements in respect of the same Noteholder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

Following the Delivery Date in respect of a share forming part of the Entitlement, all dividends on the relevant shares to be delivered will be payable to the relevant party according to market practice assuming a sale of the shares has been executed on the Delivery Date. Any such dividends to be paid to a Noteholder will be paid to the account specified by the Noteholder in the relevant Asset Transfer Notice as referred to in Condition 7(k)(i)(A) (*Asset Transfer Notices*).

For such period of time after delivery of the Entitlement until the Delivery Date (the "**Intervening Period**"), none of the Issuer, the Guarantor (if applicable), the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

### (D) Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the Applicable Transaction Terms or such commercially reasonable manner as the Calculation Agent has determined is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on the Delivery Date, then the Delivery Date shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the

## TERMS AND CONDITIONS OF THE NOTES

avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Delivery Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Delivery Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Disruption Cash Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 14 (*Notices*). Payment of the Disruption Cash Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 14 (*Notices*) that a Settlement Disruption Event has occurred. No Noteholder shall be entitled to any payment in respect of the relevant Note in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

**"Disruption Cash Redemption Amount"** means, in respect of any relevant Note, the fair market value of such Note (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets) less the cost to the Issuer and/or its affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion;

**"Settlement Business Day"** has the meaning specified in the Applicable Transaction Terms; and

**"Settlement Disruption Event"** means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer or the Guarantor, as the case may be, as a result of which the Issuer or the Guarantor, as the case may be, cannot make delivery of the Relevant Asset(s) using the method specified in the Conditions and/or the Applicable Transaction Terms.

(E) Failure to Deliver due to Illiquidity

If "Failure to Deliver due to Illiquidity" is specified as applying in the Applicable Transaction Terms and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the "**Affected Relevant Assets**") comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver due to Illiquidity**"), then:

- (1) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated date of redemption in accordance with this Condition 7(k); and
- (2) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Noteholder of the Failure to Deliver Redemption Amount (as defined below) on the fifth Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 14

## TERMS AND CONDITIONS OF THE NOTES

(*Notices*). Payment of the Failure to Deliver Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with Condition 14 (*Notices*) that the provisions of this Condition 7(k)(i)(E) apply.

For the purposes hereof, "**Failure to Deliver Redemption Amount**" means, in respect of any relevant Note, the fair market value of such Note (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion.

(ii) Variation of Settlement

If the Applicable Transaction Terms indicates that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Noteholders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Noteholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Final Redemption Amount on the Maturity Date to the relevant Noteholders, as the case may be. Notification of such election will be given to Noteholders in accordance with Condition 14 (*Notices*).

(iii) Issuer's Option to Substitute Assets or to pay the Alternate Cash Redemption Amount

Notwithstanding any provision of these Conditions to the contrary, the Issuer may, in its sole and absolute discretion in respect of Notes to which this Condition 7(k) applies, if the Calculation Agent determines (in its sole and absolute discretion) that the Relevant Asset or Relevant Assets, as the case may be, comprises assets which are not freely tradable, elect either (i) to substitute for the Relevant Asset or the Relevant Assets, as the case may be, an equivalent value (as determined by the Calculation Agent in its sole and absolute discretion) of such other assets which the Calculation Agent determines, in its sole and absolute discretion, are freely tradable (the "**Substitute Asset**" or the "**Substitute Assets**", as the case may be) or (ii) not to deliver or procure the delivery of the Entitlement or the Substitute Asset or Substitute Assets, to the relevant Noteholders, but in lieu thereof to make payment to the relevant Noteholder on the Delivery Date of an amount equal to the fair market value of the Entitlement on or about the time of so electing as determined by the Calculation Agent in its sole and absolute discretion by reference to such sources as it considers appropriate (the "**Alternate Cash Redemption Amount**"). Notification of any such election will be given to Noteholders in accordance with Condition 14 (*Notices*) and in the event that the Issuer elects to pay the Alternate Cash Redemption Amount, such notice shall give details of the manner in which such amount shall be paid.

For purposes hereof, a "**freely tradable**" security shall mean (i) with respect to the United States, a security which is registered under the Securities Act or not restricted under the Securities Act and which is not purchased from the issuer of such security and not purchased from an affiliate of the issuer of such security or which otherwise meets the requirements of a freely tradable security for purposes of the Securities Act, in each case, as determined by the Calculation Agent in its sole and absolute discretion or (ii) with respect to any other jurisdiction, a security not subject to any legal restrictions on transfer in such jurisdiction.

(iv) Rights of Noteholders and Calculations

None of the Issuer, the Guarantor (if applicable), the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of the Notes.

## TERMS AND CONDITIONS OF THE NOTES

The purchase of Notes does not confer on any holder of such Notes any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

- (v) For the purposes of the Conditions:

**"Assessed Value Payment Amount"** means, in respect of a Note, an amount determined by the Calculation Agent to be the fair market value of the assets comprised in the Entitlement in respect of such Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying relating hedging arrangements, all as determined by the Issuer.

(l) ***Payment Disruption Event***

If "Payment Disruption Event" is specified as applicable in the Applicable Transaction Terms, where the Calculation Agent determines that a Payment Disruption Event has occurred or is likely to occur:

- (i) the next date for payment of any amount due in respect of the Notes will be postponed to the earliest to occur of (A) the date falling 2 Business Days after the date on which the Calculation Agent determines that the Payment Disruption Event is no longer occurring or in existence or (B) the date falling 60 calendar days following the scheduled due date for payment of the relevant amount (the **"Postponed Payment Date"**), which, for the avoidance of doubt, may be later than the scheduled Maturity Date. No interest shall accrue and no Event of Default will result on account of such postponement; and
- (ii) (i) in the case of (i)(A) above, the Issuer will pay the relevant amount due in respect of the Notes in the Specified Currency on the Postponed Payment Date, or (ii) in the case of (i)(B) above, the Issuer shall give notice to the Noteholders as soon as practicable in accordance with Condition 14 (*Notices*), and (x) convert the relevant amount due in respect of the Notes into U.S. Dollars using the rate of exchange between the Specified Currency and the U.S. Dollar that the Calculation Agent determines 5 Business Days prior to the Postponed Payment Date and taking into consideration all information that it deems relevant. The Issuer will pay such amount in U.S. Dollars less the cost to the Issuer and/or any of its Affiliates (if any) of unwinding any underlying related hedging arrangements in connection with such Payment Disruption Event and/or the related payment, and the Issuer shall have no further obligations whatsoever for the relevant payment under the Notes or (y) if the Calculation Agent determines that it is not possible to determine the rate of exchange, the Issuer may early redeem all the Notes at an amount in U.S. Dollars determined to be the fair market value of such Notes less Associated Costs.

For the purposes of the above, **"Payment Disruption Event"** means an event or circumstance which (a) prevents, restricts or delays the Issuer from converting or delivering relevant currencies, (b) imposes capital or exchange controls, (c) implements changes to laws relating to foreign investments or, (d) otherwise prohibits or prevents the Issuer from making a payment or performing an obligation required of it as a result of war, catastrophe, governmental action or other event beyond its control, including the relevant currency's exclusion as a full settlement currency in the clearing systems.

### 8. **Taxation**

All payments of principal and interest in respect of the Notes, the Receipts and the Coupons by the Issuer or (as the case may be) the Guarantor under the Deed of Guarantee will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of Ireland, Spain or any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or governmental charges is required by law. In that event, the Issuer or, as the case may be, the Guarantor will pay such additional amounts as may be necessary in order that the net amounts received by the holders and the Couponholders after such withholding or deduction shall equal the respective amounts of principal and interest which would have been received in respect of the Notes, Receipts or (as the case

## TERMS AND CONDITIONS OF THE NOTES

may be) Coupons, in the absence of such withholding or deduction; except that no additional amounts shall be payable with respect to any payment in respect of any Note, Receipt or Coupon or (as the case may be) under the Deed of Guarantee:

- (a) to, or to a third party on behalf of, a holder or to the beneficial owner of the Notes who is liable for such taxes in respect of such Note by reason of his having some connection with Spain other than the mere holding of such Notes; or
- (b) to, or to a third party on behalf of, individuals resident for tax purposes in Spain if payments made to such individuals are not exempt from withholding tax; or
- (c) more than 30 days after the Relevant Date except to the extent that the holder thereof would have been entitled to such additional amount on presenting the same for payment on such 30th day; or
- (d) to, or to a third party on behalf of, a holder or to the beneficial owner in respect of whose Notes the Issuer does not receive in a timely manner a duly executed and completed certificate from the Principal Paying Agent or Iberclear Paying Agent, as applicable, pursuant to Law 10/2014 and Royal Decree 1065/2007, and any implementing legislation or regulation; or
- (e) to, or to a third party on behalf of, Spanish resident corporate entities subject to Spanish Corporate Income Tax, if the Spanish Tax Authorities determine that the Notes do not comply with applicable exemption requirements, including those specified in the Reply to the Consultation of the Directorate General for Taxation (*Dirección General de Tributos*) dated 27 July 2004 and require a withholding to be made; or
- (f) to, or to a third party on behalf of, a Spanish resident holder of any Implicit Yield Notes with a duration of more than 12 months; or
- (g) to, or to a third party on behalf of, a holder in respect of whom the Issuer does not receive such information concerning such holder's identity and tax residence as may be required in order to comply with the procedures to avoid any withholding tax upon the payment of interest; or
- (h) to, or to a third party on behalf of, a holder in respect of whom the Issuer does not receive such information concerning such holder's identity and tax residence as may be required in order to comply with the procedures that may be implemented to comply with the interpretation of Royal Decree 1065/2007 eventually made by the Spanish Tax Authorities.

In addition, additional amounts will not be payable with respect to any taxes that are imposed in respect of any combination of the items set forth above.

Neither the Issuer nor any other person will be required to pay any additional amounts in respect of FATCA Withholding or 871(m) Withholding.

The sale, transfer, or acquisition of Implicit Yield Notes other than Book-Entry Notes, including, but not limited to, Zero Coupon Notes, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor (i) will recognise any Spanish Individual as an owner of Implicit Yield Notes other than as an owner of Book-Entry Notes or (ii) list any Implicit Yield Notes other than Book-Entry Notes on AIAF.

For the purposes of these Terms & Conditions:

"**Implicit Yield Notes**" means Notes in respect of which the income derives from (i) the difference between the redemption amount and the issue price of the Notes, or (ii), subject to the paragraph below, a combination of (A) an explicit coupon and (B) the difference between the redemption amount and the issue price of the Notes.

For the purposes of these Conditions and in accordance with Spanish tax regulations, Notes with the characteristics set out in (ii) above will only be deemed Implicit Yield Notes if the interest payable in each year (explicit coupon) is lower than the Interest Rate of Reference applicable as of the Issue Date.

## TERMS AND CONDITIONS OF THE NOTES

The "**Interest Rate of Reference**" shall be the interest rate applicable to each calendar quarter determined by reference to 80 per cent. of the weighted average rate fixed in the preceding calendar quarter for (i) three-year Spanish Government Bond issues, if the Notes have a term of four years or less, (ii) five year Spanish Government Bond issues, if the Notes have a term of more than four years but equal or less than seven years, or (iii) ten, 15 or 30-year Spanish Government Bond issues, if the Notes have a term of more than seven years, all as determined by the Calculation Agent in a commercially reasonable manner.

Notwithstanding any other provision of these Conditions, in no event will the Issuer or the Guarantor be required to pay any additional amounts in respect of the Notes, Receipts and Coupons for, or on account of, any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, or any official interpretations thereof, or any law implementing an intergovernmental approach thereto.

### 9. **Prescription**

Claims against the Issuer and the Guarantor for payment in respect of the Notes, Receipts and Coupons (which, for this purpose shall not include Talons) shall be prescribed and become void unless made within ten years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect thereof.

### 10. **Events of Default**

If any of the following events (each an "**Event of Default**") occurs and is continuing, the holder of a Note of any Series may give written notice to the Principal Paying Agent or (in the case of Book-Entry Notes) the Iberclear Paying Agent, at its specified office that such Note is immediately repayable, whereupon the Redemption Amount of such Note, subject as provided below, together with, other than in the case of Call Option Rate Notes and Put Option Rate Notes, accrued interest to the date of payment shall become immediately due and payable;

- (a) if default is made in the payment of any interest or principal due in respect of the Notes or any of them and such default continues for a period of seven days; or
- (b) if the Issuer or the Guarantor fails to perform or observe any of its other obligations under or in respect of the Notes, the Deed of Guarantee or the Agency Agreement and (except in the case where such failure is incapable of remedy when no such continuation or notice as is hereinafter mentioned will be required) the failure continues for the period of 30 days next following the service by a holder of a Note on the Issuer of notice requiring the same to be remedied; or
- (c) if any Indebtedness for Borrowed Money (as defined below) of the Issuer or the Guarantor becomes due and repayable prematurely by reason of an event of default (however described) or the Issuer or the Guarantor fails to make any payment in respect of any Indebtedness for Borrowed Money on the due date for such payment or within any originally applicable grace period or any security given by the Issuer or the Guarantor for any Indebtedness for Borrowed Money becomes enforceable and steps are taken to enforce the same or if default is made by the Issuer or the Guarantor in making any payment when due (or within any applicable grace period in respect thereof) under any guarantee and/or indemnity given by it in relation to any Indebtedness for Borrowed Money of any other person, **provided that** no such event as aforesaid shall constitute an Event of Default unless the Indebtedness for Borrowed Money or other liability relative thereto either alone or when aggregated with other Indebtedness for Borrowed Money and/or other liabilities relative to all (if any) other such events which shall have occurred shall amount to at least U.S.\$50 million (or its equivalent in any other currency); or
- (d) if any order is made by any competent court or resolution passed for the winding-up, examination or dissolution of the Issuer or the Guarantor unless it is done in connection with a merger, amalgamation or reconstruction or other form of business combination with another company (in the case of the Guarantor, such company to be part of a financial group) and that company assumes all the obligations of the Issuer or the Guarantor, as the case may be, in connection with the Notes, whether by express assumption or by application of law; or

## TERMS AND CONDITIONS OF THE NOTES

- (e) if the Issuer or the Guarantor ceases or threatens to cease to carry on the whole or a substantial part of its business, except for the purposes of a reconstruction, merger or amalgamation or other form of business combination with another company (in the case of the Guarantor, such company to be part of a financial group) and that company assumes all the obligations of the Issuer or the Guarantor, as the case may be, in connection with the Notes, whether by express assumption or by application of law, or the Issuer or the Guarantor stops, suspends or threatens to stop or suspend payment of, or is unable to, or admits inability to, pay all or a material part of its debts (or any class thereof) as they fall due, or proposes or makes a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any part of (or any class of) the debts of the Issuer or the Guarantor, or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is (or could be deemed by law or a court to be) adjudicated or found bankrupt or insolvent; or
- (f) if (i) proceedings are initiated against the Issuer or the Guarantor under any applicable liquidation, insolvency, examination, composition, reorganisation or other similar laws, or an application is made for the appointment of an administrative or other receiver, examiner, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the Issuer or the Guarantor or in relation to the whole or a part of the undertaking or assets of either of them, or an encumbrancer takes possession of the whole or a part of the undertaking or assets of either of them, or a distress, execution, attachment, sequestration or other process is levied, enforced upon, sued out or put in force against the whole or a part of the undertaking or assets of any of them and (ii) in any case is not discharged within 14 days; or
- (g) if the Issuer or the Guarantor initiates or consents to judicial proceedings relating to itself under any applicable liquidation, examination, insolvency, composition, reorganisation or other similar laws or makes a conveyance or assignment for the benefit of, or enters into any composition or other arrangement with, its creditors generally (or any class of its creditors); or
- (h) the Issuer ceases to be wholly owned and controlled by the Guarantor; or

### 21. Additional Definitions

In these Conditions, unless the context otherwise requires, the following defined terms shall have the meanings set out below:

**"Averaging Date"** means, in the case of Index Linked Notes relating to one or more Share Index, Share Linked Notes relating to one or more Share, Fund Linked Notes relating to one or more ETF or EUA Contract Linked Notes relating to one or more EUA Contracts or Notes relating to a Cross Asset Basket, each date specified as an Averaging Date in the Applicable Transaction Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day unless, in the opinion of the Calculation Agent any such day is a Disrupted Day. If any such day is a Disrupted Day, then:

- (a) where "Scheduled Trading Day (Per Share Basis)" or "Scheduled Trading Day (Per Share Index Basis)" is specified in the Applicable Transaction Terms:
  - (i) if **"Omission"** is specified as applying in the Applicable Transaction Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level, price or amount provided that, if through the operation of this provision

## TERMS AND CONDITIONS OF THE NOTES

no Averaging Dates would occur, then the Averaging Date will not be omitted and the provisions of the definition of "**Valuation Date**" will apply for purposes of determining the relevant level, price or amount on the final Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day; or

- (ii) if "**Postponement**" is specified as applying in the Applicable Transaction Terms, then the provisions of the definition of Valuation Date will apply for the purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (iii) if "**Modified Postponement**" is specified as applying in the Applicable Transaction Terms then:
  - (1) where the Notes are Index Linked Notes or Equity Linked Notes relating to a Single Share Index or a Single Share, respectively, or Fund Linked Notes relating to a single Fund, the Averaging Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of Valuation Date below;
  - (2) where the Notes are Index Linked Notes or Equity Linked Notes relating to a Share Index Basket or a Share Basket, respectively, the Averaging Date for each Share or Share Index, as applicable, shall be the first succeeding Valid Date in relation to every Share and/or Share Index, as applicable, forming part of the Share Basket and/or the Share Index Basket, as applicable. If the first succeeding Valid Date in relation to every Share or Share Index forming part of the Share Basket or the Share Index Basket, as applicable, has not occurred for a number of consecutive Scheduled Trading days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date) in respect of every Share or Share Index, as applicable, forming part of the Share Basket or the Share Index Basket, as applicable, and (B) the Calculation Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of Valuation Date below;
  - (3) where the Notes are Fund Linked Notes relating to a Fund Basket, the Averaging Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**") and the Averaging Date for each Fund Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date (as defined below) in relation to such Fund Share. If the first succeeding Valid Date in relation to such Fund Share has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original

date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (A) that Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether that last such consecutive Scheduled Trading Day is already an Averaging Date) in respect of such Fund Share, and (B) the Calculation Agent shall determine the relevant level, price or amount for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of Valuation Date below; or

(b) where "Scheduled Trading Day (All Shares Basis)", "Scheduled Trading Day (All Share Indices Basis)" or "Scheduled Trading Day (Cross Asset Basis)" is specified in the Applicable Transaction Terms:

(i) if "**Omission**" is specified as applying in the Applicable Transaction Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant level, price or amount provided that, if through the operation of this provision no Averaging Dates would occur, then:

(1) the sole Averaging Date for each Share and/or Share Index, as applicable, which the Calculation Agent determines is not affected by the occurrence of a Disrupted Day shall be the originally designated final Averaging Date (the "**Scheduled Final Averaging Date**"); and

(2) the sole Averaging Date for each Share and/or Share Index, as applicable, which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an "**Affected Item**") shall be the first Scheduled Trading Day following the Scheduled Final Averaging Date that is not a Disrupted Day relating to the Affected Item unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the Scheduled Final Averaging Date is a Disrupted Day relating to the Affected Item. In that case, (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date for the Affected Item, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall (x) where an Affected Item is a Share Index, determine the Settlement Level using the level of that Share Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Share Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in that Share Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day) or (y) where an Affected Item is a Share, determine the Settlement Price using its good faith estimate of the value for the Affected Item as of the Valuation Time on the last such consecutive Scheduled Trading Day, and otherwise in accordance with the Valuation Date provisions;

(ii) if "**Postponement**" is specified as applying in the Applicable Transaction Terms, then the Averaging Date for each Share and/or Share Index, as applicable, shall be the first succeeding Scheduled Trading Day following the originally designated Averaging Date (the "**Scheduled Averaging Date**") that is not a Disrupted Day in relation to any Share and/or Share Index (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date) unless the Calculation Agent determines that each of the consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption is a Disrupted Day for any Share

and/or Share Index (each an "**Affected Item**"). In that case: (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date for the Affected Item (irrespective of whether, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date), and (ii) the Calculation Agent shall (x) where an Affected Item is a Share Index, determine the Settlement Level using the level of that Share Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Share Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in that Share Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day) or (y) where an Affected Item is a Share, determine the Settlement Price using its good faith estimate of the value for the Affected Item as of the Valuation Time on the last such consecutive Scheduled Trading Day, and otherwise in accordance with the Valuation Date provisions; or

- (iii) if "**Modified Postponement**" is specified as applying in the Applicable Transaction Terms then (i) the Averaging Date for each Share and/or Share Index, as applicable, which the Calculation Agent determines is not affected by the occurrence of a Disrupted Date shall be the originally designated Averaging Date (the "**Scheduled Averaging Date**"), and (ii) the Averaging Date for each Share and/or Share Index, as applicable, which the Calculation Agent determines is affected by the occurrence of a Disrupted Day (each an "**Affected Item**") shall be the first succeeding Valid Date (as defined below) in relation to each Affected Item. If the first succeeding Valid Date in respect of an Affected Item has not occurred for a number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the relevant Averaging Date, then (x) that last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date (irrespective of whether such Scheduled Trading Day is already an Averaging Date), and (y) the Calculation Agent shall (A) where an Affected Item is a Share Index, determine the Settlement Level using the level of that Share Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating that Share Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in that Share Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day) or (B) where an Affected Item is a Share, determine the Settlement Price using its good faith estimate of the value for the Affected Item as of the Valuation Time on the last such consecutive Scheduled Trading Day, and otherwise in accordance with the Valuation Date provisions.

In that case, (i) the last such consecutive Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and (ii) the Calculation Agent shall determine the Settlement Level by determining the level of the Share Index as of the Valuation Time on the last such consecutive Scheduled Trading Day in accordance with the formula for and method of calculating the Share Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted level as of the Valuation Time on the last such consecutive Scheduled Trading Day of each security comprised in the Share Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the last such consecutive Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on the last such consecutive Scheduled Trading Day);

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

### 2. MARKET DISRUPTION EVENTS

#### 2.1 "Market Disruption Event" means either:

- (i) (a) the occurrence or existence, in respect of any Component Security, of:
  - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
  - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
  - (3) an Early Closure in respect of such Component Security; and
- (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists and comprises 20 per cent. or more of the level of the Share Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Share Index, of: (a) a Trading Disruption Event; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Share Index shall be based on a comparison of (x) the portion of the level of the Share Index attributable to that Component Security to (y) the overall level of the Share Index, in each case using the official opening weightings as published by the Sponsor as part of the market "opening data".

2.2 "**Trading Disruption**" means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to the Share on the Exchange, or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.

2.3 "**Exchange Disruption**" means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security or (ii) futures or options contracts relating to the Share Index on the Related Exchange.

2.4 "**Early Closure**" means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Automatic Early Redemption Valuation Date, an Averaging Date, a Knock-in Determination Day or a Knock-out Determination Day, an Observation Date or a Valuation Date, as the

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

case may be. Without limiting the obligation of the Calculation Agent to notify the Issuer as set forth in the preceding sentence, failure by the Calculation Agent to notify the Issuer of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day on the Notes.

Where Exchange Business Day (Cross Asset Basis) and Scheduled Trading Day (Cross Asset Basis) are specified as applicable in the Applicable Transaction Terms for (i) Index Linked Notes, (ii) Equity Linked Notes and/or (iii) ETF Linked Notes, a "Disrupted Day" shall also mean any Scheduled Trading Day on which a Disrupted Day occurs under and as defined in the Equity Linked Conditions and/or ETF Linked Conditions.

- 3.2 If (i) on or prior to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date, the Share Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Share Index or in any other way materially modifies that Share Index (other than a modification prescribed in that formula or method to maintain that Share Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Share Index Modification**") or permanently cancels the Share Index and no Successor Share Index exists (an "**Share Index Cancellation**") or (ii) on any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date in respect of this Note, the Share Index Sponsor fails to calculate and announce a relevant Share Index (an "**Share Index Disruption**" and together with a Share Index Modification and a Share Index Cancellation, each an "**Share Index Adjustment Event**"), then the Calculation Agent shall determine if such Share Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Strike Price(s), Initial Price(s), Valuation Price(s), Final Price(s) and Barrier(s) and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Notes as the Calculation Agent determines appropriate to account for that Share Index Adjustment Event, using, in lieu of a published level for that Share Index, the level for that Share Index as at that Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Share Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised that Share Index immediately prior to that Share Index Adjustment Event.

### 3.3 Correction of Share Index

In the event that any price or level published on the Exchange or by the Share Index Sponsor and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange or the Share Index Sponsor within one Settlement Cycle after the original publication, the Issuer may notify the Noteholder of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction.

"**Clearance System Business Day**" means, in respect of a clearance system, any day on which such clearance system is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

"**Settlement Cycle**" means, in respect of the Share Index, the number of Clearance System Business Days following a trade in such shares on the Exchange in which settlement will customarily occur according to the rules of the Exchange (if there are multiple Exchanges in respect of the Share Index, the longest such period).

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

**"Relevant Level"** means, subject as referred to in relation to Averaging Date, Observation Date, Valuation Date, Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, in the case of a Share Index, an amount equal to the official closing level of such Share Index or in the case of a Share Dividend Index, the level for the Share Dividend Index for the relevant day, as published by the relevant Share Index Sponsor, as determined by the Calculation Agent or, if so specified in the Applicable Transaction Terms, the level of the Share Index determined by the Calculation Agent as set out in the Applicable Transaction Terms at the Valuation Time on (i) if Averaging is not specified in the Applicable Transaction Terms, the relevant Settlement Level Date, or (ii) if Averaging is specified in the Applicable Transaction Terms, each Averaging Date.

**"Scheduled Trading Day (Per Share Index Basis)"** means, in respect of each Share Index, any Scheduled Trading Day on which (i) the relevant Share Index Sponsor is scheduled to publish the level of the Share Index; and (ii) the relevant Related Exchange is scheduled to be open for trading during their respective regular trading session(s).

**"Settlement Level"** means, subject as referred to in relation to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, Observation Date or Valuation Date, as the case may be, (i) if Averaging is not specified in the Applicable Transaction Terms, the Relevant Level for the relevant Settlement Level Date, or (ii) if Averaging is specified in the Applicable Transaction Terms, the arithmetic mean of the Relevant Levels of each Index in the Share Index Basket on each Averaging Date or (iii) if Averaging (Per Index) is specified in the Applicable Transaction Terms, the arithmetic mean of the Relevant Levels for the relevant Index on each Averaging Date, all as determined by or on behalf of the Calculation Agent in a commercially reasonable manner.

**"Specified Maximum Days of Disruption"** means the number of days specified in the Applicable Transaction Terms, or if not so specified, five Scheduled Trading Days.

**"Valuation Time"** means (i) for the purposes of determining whether a Market Disruption Event has occurred: (a) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (b) in respect of any options contracts or future contracts on the Share Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the Coupon Valuation Time or the Redemption Valuation Time, as the case may be, specified in the Applicable Transaction Terms or, if no such time is specified, the time at which the official closing level of the Share Index is calculated and published by the Share Index Sponsor.

### 2. MARKET DISRUPTION EVENTS

#### 2.1 "Market Disruption Event" means either:

- (i) (a) the occurrence or existence, in respect of any Component Security, of:
  - (1) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
  - (2) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

- (3) an Early Closure in respect of such Component Security; and
- (b) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists and comprises 20 per cent. or more of the level of the Share Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Share Index, of: (a) a Trading Disruption Event; (b) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (c) an Early Closure, in each case in respect of such futures or options contracts.

For the purposes of determining whether a Market Disruption Event exists in respect of a Component Security at any time, if a Market Disruption Event occurs in respect of such Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Share Index shall be based on a comparison of (x) the portion of the level of the Share Index attributable to that Component Security to (y) the overall level of the Share Index, in each case using the official opening weightings as published by the Sponsor as part of the market "opening data".

- 2.2 **"Trading Disruption"** means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to the Share on the Exchange; or (ii) in futures or options contracts relating to the Share on any relevant Related Exchange.
- 2.3 **"Exchange Disruption"** means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security; or (ii) futures or options contracts relating to the Share Index on the Related Exchange.
- 2.4 **"Early Closure"** means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.
- 2.5 **"Disrupted Day"** means any Scheduled Trading Day on which: (i) the Share Index Sponsor fails to publish the level of the Share Index; (ii) the Related Exchange fails to open for trading during its regular trading session; or (iii) other than in the case of a Share Dividend Index, a Market Disruption Event has occurred. The Calculation Agent shall as soon as reasonably practicable under the circumstances notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been an Automatic Early Redemption Valuation Date, an Averaging Date, a Knock-in Determination Day or a Knock-out Determination Day, an Observation Date or a Valuation Date, as the case may be. Without limiting the obligation of the Calculation Agent to notify the Issuer as set forth in the preceding sentence, failure by the Calculation Agent to notify the Issuer of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day on the Notes.

Where Exchange Business Day (Cross Asset Basis) and Scheduled Trading Day (Cross Asset Basis) are specified as applicable in the Applicable Transaction Terms for (i) Index Linked Notes, (ii) Equity Linked Notes and/or (iii) ETF Linked Notes, a "Disrupted Day" shall also mean any Scheduled Trading Day on which a Disrupted Day occurs under and as defined in the Equity Linked Conditions and/or ETF Linked Conditions.

- 2.6 **"Scheduled Valuation Date"** means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date.

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

### 3. ADJUSTMENTS

3.1 If any of the Share Indices is (i) not calculated and announced by the Share Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor sponsor acceptable to the Calculation Agent, or (iii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Share Index, then in each case that index (the "**Successor Share Index**") will be deemed to be the Share Index.

3.2 If (i) on or prior to any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date, the Share Index Sponsor of any of the Share Indices announces that it will make a material change in the formula for or the method of calculating that Share Index or in any other way materially modifies that Share Index (other than a modification prescribed in that formula or method to maintain that Share Index in the event of changes in constituent stock and capitalisation and other routine events) (a "**Share Index Modification**") or permanently cancels the Share Index and no Successor Share Index exists (a "**Share Index Cancellation**") or (ii) on any Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date in respect of this Note, the Share Index Sponsor of any of the Indices fails to calculate and announce a relevant Share Index (a "**Share Index Disruption**" and together with a Share Index Modification and a Share Index Cancellation, each a "**Share Index Adjustment Event**"), then the Calculation Agent shall determine if such Share Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant Strike Price(s), Initial Price(s), Valuation Price(s), Final Price, Barrier, and any other variable relevant to the redemption and the payment of the coupon amount or other terms of the Notes as the Calculation Agent determines appropriate to account for that Share Index Adjustment Event, using, in lieu of a published level for that Share Index, the level for that Share Index as at that Automatic Early Redemption Valuation Date, Averaging Date, Knock-in Determination Day, Knock-out Determination Day, Observation Date or Valuation Date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Share Index last effect prior to the change, failure or cancellation, but using only those securities that comprised that Share Index immediately prior to that Share Index Adjustment Event;

### 3.3 Correction of Share Index

In the event that any price or level published on the Exchange or by the Share Index Sponsor of any of the Indices and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange or the Share Index Sponsor within one Settlement Cycle after the original publication, the Issuer may notify the Noteholder of that correction and the Calculation Agent will determine the amount that is payable or deliverable as a result of that correction.

"**Settlement Cycle**" means, in respect of any the Indices, the period of Clearance System Business Days following a trade in such shares on the Exchange in which settlement will customarily occur according to the rules of the Exchange (if there are multiple Exchanges in respect of the Share Index, the longest such period).

"**Clearance System Business Day**" means, in respect of a clearance system, any day on which such clearance system is (but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

"**Settlement Disruption Event**" means, in respect of a Component Security, an event beyond the control of the Hedging Party(ies) as a result of which the relevant clearance system cannot clear the transfer of such Component Security.

## 4. ADDITIONAL DISRUPTION EVENTS

### 4.1 Definitions:

"**Additional Disruption Event**" means any of the following events:

"**Change in Law**" means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation

## ANNEX 1 – ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED NOTES

of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Hedging Party(ies) determine(s) in good faith that (X) it has become illegal to hold, acquire or dispose of Shares relating to the Hedging Transaction(s), or (Y) it will incur a materially increased cost in performing its obligations (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**"Hedging Disruption"** means that the Hedging Party(ies) is/are unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), being both transaction(s) and asset(s) to the Hedging Transaction(s).

**"Hedging Party(ies)"** means the Issuer and, if any, the entity with which the Issuer agrees the Hedging Transaction(s).

**"Insolvency Filing"** means that the Share Issuer institutes or has instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to proceedings seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or it consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the Share Issuer shall not be deemed an Insolvency Filing.

**Consequences:** upon becoming aware of the occurrence of an Additional Disruption Event, the Issuer may early redeem the Notes and therefore pay to the Noteholders the Early Redemption Amount calculated by the Calculation Agent for each of the outstanding Notes.

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

### ANNEX 2 ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

The terms and conditions applicable to Inflation Linked Notes shall comprise the Terms and Conditions of the Notes (the "**Conditions**") and the additional terms and conditions for Inflation Linked Notes linked to one or more Inflation Indices set out below (the "**Inflation Linked Conditions**"), in each case subject to completion in the Applicable Transaction Terms. The definitions set out in Annex 1 (*Additional Terms and Conditions for Equity Linked Notes*) will also apply in relation to a Series of Inflation Linked Notes unless the context otherwise requires, or such term is defined otherwise herein, and for the purposes of such definitions, the definition of Share Index shall be deemed to be a reference to Inflation Index.

In the event of any inconsistency between the Conditions and the Inflation Linked Conditions, the Inflation Linked Conditions shall prevail. In the event of any inconsistency between the Inflation Linked Conditions and the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or the Inflation Linked Conditions and (ii) the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), shall prevail.

#### Section 1

##### Inflation Index Description

###### 1. Delay of Publication

If any level of an Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Notes and/or any other determination in respect of the Notes (a "**Relevant Level**") has not been published or announced by the day that is five Business Days prior to the next Determination Date, the Calculation Agent shall determine a Substitute Inflation Index Level (in place of such Relevant Level) as follows:

- 1.1 if Related Bond is specified as applicable in the relevant Applicable Transaction Terms, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or
- 1.2 if (i) Related Bond is specified as not applicable in the relevant Applicable Transaction Terms, or (ii) the Calculation Agent is not able to determine a Substitute Inflation Index Level under paragraph 1.1 above, the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$[Substitute\ Inflation\ Index\ Level = Base\ Level \times (Latest\ Level/Reference\ Level)]$ ; or

- 1.3 otherwise in accordance with any formula specified in the relevant Applicable Transaction Terms,

where:

**"Base Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

**"Latest Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

**"Reference Level"** means the level of the relevant Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next Determination Date, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this paragraph 1 (*Delay of Publication*), will be the definitive level for that Reference Month.

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

### 2. Cessation of Publication

If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Calculation Agent shall determine a Successor Inflation Index (in lieu of any previously applicable Inflation Index) for the purposes of the Notes by using the following methodology:

- (a) If at any time a Successor Inflation Index has been designated by the Calculation Agent pursuant to the terms and conditions of the Related Bond, such Successor Inflation Index shall be designated a "Successor Inflation Index" for the purposes of all subsequent Determination Dates, notwithstanding that any other Successor Inflation Index may previously have been determined under Paragraph 2(b), 2(c) or 2(d) below; or
- (b) If a Successor Inflation Index has not been determined under Paragraph 2(a) above and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect; or
- (c) If a Successor Inflation Index has not been determined under Paragraph 2(a) or 2(b) above, the Calculation Agent shall ask five leading independent dealers to state what the replacement Inflation Index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same Inflation Index, this Inflation Index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to Paragraph 2(d) below; or
- (d) If no Successor Inflation Index has been deemed under Paragraph 2(a), 2(b) or 2(c) above by the fifth Business Day prior to the next Determination Date the Calculation Agent will determine an appropriate alternative index for such Determination Date, and such index will be deemed a "Successor Inflation Index", the Calculation Agent shall determine the method of determining the Relevant Level if no such alternative Inflation Index is available.

### 3. Rebasing of the Inflation Index

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Inflation Index**") will be used for purposes of determining the level of such Inflation Index from the date of such rebasing; **provided, however, that** the Calculation Agent shall make such adjustments as are made by the Calculation Agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

### 4. Material Modification Prior to Determination Date

If, on or prior to the day that is five Business Days before a Determination Date, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index then the Calculation Agent shall make any such adjustments to the Inflation Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Inflation Index to continue as the Inflation Index.

### 5. Manifest Error in Publication

If, within 30 days of publication and prior to the redemption of the Notes or payments in respect of any relevant Determination Date in relation to the Notes, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

publication, the Calculation Agent will notify the holders of the Notes in accordance with Condition 14 (*Notices*) of (i) that correction, (ii) the adjusted amount that is then payable under the Notes as a result of that correction and (iii) take such other action as it may deem necessary to give effect to such correction, **provided that** any amount payable pursuant to sub-paragraph (ii) above shall be paid (with no interest accruing thereon) (a) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Determination Date has occurred, within five Business Days after notice of such amount payable by the Calculation Agent, (b) in connection with an Inflation Index Sponsor's correction to remedy a manifest error in the level of an Inflation Index for a Reference Month for which the Determination Date has not occurred, as an adjustment to the payment obligation on the next Determination Date, or (c) if there is no further Determination Date, within five Business Days after notice of such amount, payable by the Calculation Agent.

### 6. **Inflation Index Level Adjustment Correction**

In relation to any inflation index, unless otherwise specified in the definition of the relevant Inflation Index set out in Section 3 (*Inflation Indices*) of this Annex 2 (*Additional Terms and Conditions for Inflation Linked Notes*), as specified in the Applicable Transaction Terms, either: (i) the first publication or announcement of the level of the Inflation Index (disregarding estimates) by the relevant Inflation Index Sponsor for any Reference Month shall be final and conclusive and, subject to this Condition 6, later revisions to the level of the Inflation Index for such Reference Month will not be used in any calculations; or (ii) the first publication or announcement of a level of the Inflation Index (disregarding estimates) published by the relevant Inflation Index Sponsor or, if revised, any subsequent revision of such level for a Reference Month shall be final and conclusive for such Reference Month, provided that such revisions are published or announced up to and including the day that is two Business Days prior to any relevant Determination Date.

### 7. **Additional Disruption Events:**

- (a) Following the occurrence of an Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue or be redeemed early.
- (b) If the Issuer determines that the relevant Notes shall continue, the Calculation Agent may make such adjustment as the Calculation Agent, in its sole and absolute discretion, considers appropriate, if any, to any variable relevant to the redemption or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date as the Calculation Agent shall determine.
- (c) If the Issuer determines that the relevant Notes shall be redeemed early, then the Issuer shall give not less than five Business Days' notice to redeem the Notes and the Issuer's obligations under the Notes shall be satisfied in full upon payment in respect of each Note of an amount equal to the fair market value of such Note, on such day as is selected by the Calculation Agent in its sole and absolute discretion (**provided that** such day is not more than 15 days before the date fixed for redemption of the Note), less the proportion attributable to that Note of the reasonable cost to the Issuer and/or any Affiliate of, or the loss realised by the Issuer and/or any Affiliate on, unwinding any related hedging arrangements, all as calculated by the Calculation Agent in its sole and absolute discretion.
- (d) The Issuer shall as soon as reasonably practicable under the circumstances notify the Calculation Agent of the occurrence of an Additional Disruption Event.

## Section 2

### Definitions

#### 1. **Definitions Applicable to Inflation Linked Notes**

In relation to Inflation Linked Notes, the following expressions have the meanings set out below:

**"Additional Disruption Event"** means, with respect to any Series of Notes, a Change in Law or Hedging Disruption;

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

**"Change in Law"** means that, on or after the Issue Date (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines that (x) it has become illegal to hold, acquire or dispose of Hedge Positions or (y) it will incur a materially increased cost in performing its obligations with respect to the Notes (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

**"Determination Date"** means an Interest Payment Date, Maturity Date or other relevant payment date as may be specified in the Applicable Transaction Terms in relation to the Notes;

**"Fallback Bond"** means a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to the Inflation Index, with a maturity date which falls on (a) the same day as the Maturity Date, (b) the next longest maturity after the Maturity Date if there is no such bond maturing on the Maturity Date, or (c) the next shortest maturity before the Maturity Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged);

**"Hedge Positions"** means any purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, commodities, options, futures, derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) by a party in order to hedge, individually or on a portfolio basis, the Notes;

**"Hedging Disruption"** means that the Issuer is unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations under the Notes, or (B) realise, recover or remit the proceeds of any such transactions or asset(s);

**"Inflation Index"** means any index specified as such in the relevant Applicable Transaction Terms which may be specified using the Inflation Indices described in Section 3 (*Inflation Indices*) of this Annex 2 (*Additional Terms and Conditions for Inflation Linked Notes*);

**"Inflation Index Sponsor"** means, in respect of an Inflation Index, the entity specified as such in the relevant Applicable Transaction Terms or, if no entity is specified, the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index;

**"Reference Month"** means the calendar month for which the level of the relevant Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month will be the period for which the Inflation Index level was reported;

**"Related Bond"** means the bond specified in the relevant Applicable Transaction Terms, or if no bond is so specified, the Fallback Bond. If the Related Bond is the "Fallback Bond", then for any Related Bond determination under these Conditions, the Calculation Agent shall use the Fallback Bond (as that is defined in this Section 2 (*Definitions*) hereof). If no bond is specified in the relevant Applicable Transaction Terms as the Related Bond and "Fallback Bond: Not applicable" is specified in the relevant Applicable Transaction Terms there will be no Related Bond. If a bond is selected as the Related Bond in the relevant Applicable Transaction Terms, and that bond redeems or matures before the relevant Maturity Date, unless "Fallback Bond: Not applicable" is specified in the relevant Applicable Transaction Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination;

## ANNEX 2 – ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED NOTES

"**Substitute Inflation Index Level**" means an Inflation Index level, determined by the Calculation Agent pursuant to the provisions of Paragraph 1 (*Delay of Publication*) of Section 1 (*Inflation Index Description*) of this Annex 2 (*Additional Terms and Conditions for Inflation Linked Notes*), in respect of a Determination Date; and

If options on the ETF Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in the case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the Conditions, these ETF Linked Conditions and/or the Applicable Transaction Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary ETF Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded.

(ii) Substitution

If the Issuer determines that the action to be taken in respect of the Extraordinary ETF Event is to be Substitution, the Calculation shall on or after the occurrence of any Extraordinary ETF Event, substitute each ETF Share (each an "**Affected ETF Share**") of each ETF (each, an "**Affected ETF**") which is affected by such Extraordinary ETF Event with an ETF Share selected by it in accordance with the criteria for ETF Share selection set out below (each a "**Substitute ETF Share**") and the Substitute ETF Share will be deemed to be an "**ETF Share**" and the relevant issuer of such Substitute ETF Share, an "**ETF**" for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to any one or more of any Relevant Asset and/or the Entitlement (in the case where the Notes are Physical Delivery Notes) and/or the Weighting and/or any of the other terms of the Conditions, these ETF Linked Conditions and/or the Applicable Transaction Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Notes was to be determined by reference to an initial price (the **Initial Price**) of the Affected ETF Share, the relevant Initial Price of each Substitute ETF Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"**A**" is the official closing price of the relevant Substitute ETF Share on the relevant Exchange on the Substitution Date;

"**B**" is the Initial Price of the relevant Affected ETF Share; and

"**C**" is the fair market value of the relevant Affected ETF Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and the relevant adjustment to the ETF Basket will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant Extraordinary ETF Event Effective Date.

The Weighting of each Substitute ETF Share will be equal to the Weighting of the relevant Affected ETF Share.

In order to be selected as a Substitute ETF Share, the relevant share/unit/interest must satisfy the following criteria, as determined by the Calculation Agent in its sole and absolute discretion:

### ANNEX 3 – ADDITIONAL TERMS AND CONDITIONS FOR ETF LINKED NOTES

- (C) if no alternative traded instrument can be determined pursuant to the preceding sub-paragraph (B) above, use reasonable endeavours to substitute the relevant ETF with an index (or a fund tracking an index) selected by the Calculation Agent in its sole and absolute discretion; and

- (iv) Upon the occurrence of an Extraordinary ETF Event, if the Issuer determines that an adjustment in accordance with the above provisions is necessary it shall give notice as soon as practicable (an "**Extraordinary Event Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) stating the occurrence of such Extraordinary ETF Event (the date on which an Extraordinary Event Notice is given, an "**Extraordinary ETF Event Notification Date**"), giving details thereof and the action to be taken in relation thereto, including, in the case of a Substitution, the identity of the Substitute ETF Shares and the Substitution Date and, in the case of a Termination,

### 4. **Consequences of an Extraordinary Fund Event**

If on the date falling two Business Days prior to the originally designated Maturity Date, Automatic Early Redemption Date or Termination Date, as the case may be, the Hedge Provider has not, after having placed one or more redemption orders in respect of its holding of Fund Shares in accordance with the terms of the relevant Fund Documents, received redemption proceeds in full in respect of such Fund Shares (the "**Redemption Proceeds**"), the Calculation Agent may postpone the Maturity Date, Automatic Early Redemption Date or Termination Date, as the case may be, and notify the Holders thereof in accordance with Condition 14 (*Notices*).

As soon as practicable following receipt by the Hedge Provider of the Redemption Proceeds, the Calculation Agent shall give notice to Holders in accordance with Condition 14 (*Notices*) (such notice the "**Delayed Payment Notice**") and each Fund Linked Note shall be redeemed on the date specified in the Delayed Payment Notice (such date, the "**Postponed Settlement Date**") at its Redemption Amount.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

### ANNEX 5 ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

*If specified as applicable in the Applicable Transaction Terms, the terms and conditions applicable to Credit Linked Notes shall comprise the Terms and Conditions of the Notes (the "**Conditions**") and the additional terms and conditions for Credit Linked Notes set out below (the "**Credit Linked Conditions**"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Applicable Transaction Terms and subject to completion in the Applicable Transaction Terms. In the event of any inconsistency between the Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail.*

*Defined terms used in these Credit Linked Conditions or the related section of the Applicable Transaction Terms where the same term may be used in another Annex to the Conditions (e.g. Valuation Date) shall have the meanings given in these Credit Linked Conditions or in the section of the Applicable Transaction Terms relating to Credit Linked Notes.*

Unless otherwise stated in these Credit Linked Conditions or in the Applicable Transaction Terms, in the event that any day specified in the section "Credit Linked Note Provisions " in the Applicable Transaction Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Notes for which more than one Reference Entity or Index is specified in the Applicable Transaction Terms, all references to "the Reference Entity" or to "the Index" herein shall be construed to refer to the Reference Entity or the Index in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Credit Linked Notes will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity or Index does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Credit Linked Notes may take the form of Single Reference Entity Credit Linked Notes, First-to-Default Credit Linked Notes, Nth-to-Default Credit Linked Notes, Linear Basket Credit Linked Notes, Index Credit Linked Notes or Long/Short Credit Linked Notes. In the case of Linear Basket Credit Linked Notes and Index Credit Linked Notes, the Notes may be either Non-Tranched ("**Non-Tranched Linear Basket Credit Linked Notes**") or "**Non-Tranched Index Credit Linked Notes**", as the case may be) to which either Credit Payment on Maturity or Credit Payment As You Go will apply or Tranched ("**Tranched Linear Basket Credit Linked Notes**" or "**Tranched Index Credit Linked Notes**") (as the case may be). In addition, Index Credit Linked Notes may be Basket Tranched Index Credit Linked Notes ("**Basket Tranched Index Credit Linked Notes**"). Notwithstanding the use of the term "Index", Index Credit Linked Notes are not Index Linked Notes. A Credit Linked Note may also be a Zero Coupon Note.

Credit Linked Notes may be issued in respect of which:

- (a) "Credit Linked Interest" is applicable but "Credit Linked Redemption" is not applicable;
- (b) "Credit Linked Interest" is not applicable but "Credit Linked Redemption" is applicable; and
- (c) "Credit Linked Interest" and "Credit Linked Redemption" are both applicable.

If "Credit Linked Interest" is applicable, Credit Linked Condition 5 (*Accrual of Interest*) shall apply in respect of the Notes. If "Credit Linked Interest" is not applicable, Credit Linked Condition 5 (*Accrual of Interest*) shall not apply in respect of the Notes.

If "Credit Linked Redemption" is applicable, Credit Linked Condition 1 (*Redemption of Credit Linked Notes*) and other Credit Linked Conditions relevant in respect of redemption following the occurrence of a Credit Event Determination Date shall apply in respect of the Notes. If "Credit Linked Redemption" is not applicable, Credit Linked Condition 1 (*Redemption of Credit Linked Notes*) and other Credit Linked Conditions relevant in respect

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

of redemption following the occurrence of a Credit Event Determination Date shall not apply in respect of the Notes.

The Applicable Transaction Terms shall specify, inter alia:

- (a) the type of Credit Linked Notes;
- (b) whether the "Credit Linked Interest" and/or "Credit Linked Redemption" is applicable;
- (c) the Settlement Method (if applicable) and, where Auction Settlement applies, the applicable Fallback Settlement Method;
- (d) the Reference Entity or Reference Entities in respect of which a Credit Event may occur or, in the case of Index Credit Linked Notes, the relevant Index Annex;
- (e) the Reference Obligation(s) (if any) in respect of each Reference Entity or, in the case of Index Credit Linked Notes, the relevant Index Annex;
- (f) the Trade Date, the Scheduled Maturity Date and if different from the Scheduled Maturity Date, the Credit Observation End Date;
- (g) the Reference Entity Notional Amount (if applicable) in respect of each Reference Entity;
- (h) the Long Nominal Exposure Percentage and the Short Nominal Exposure Percentage (if applicable) in respect of the Long/Short Credit Linked Notes;
- (i) "H" and "L" in the case of Tranche Linear Basket Credit Linked Notes;
- (j) the Attachment Point(s) and the Exhaustion Point(s) in the case of Tranche Index Credit Linked Notes or Basket Tranche Index Credit Linked Notes;
- (k) the Credit Multiplier, the Credit Event Reduction Factor and LLM and/or SLM (in each case to the extent applicable); and
- (l) the Transaction Type applicable to each Reference Entity if Standard Terms is specified as being applicable in the Applicable Transaction Terms.

Certain elections in respect of Credit Linked Notes and one or more Reference Entities may be made by specifying that the Standard Terms is applicable in the Applicable Transaction Terms.

In the case of Index Credit Linked Notes, certain information relating to the Credit Index will be as specified in the Index Annex named in the Credit Applicable Transaction Terms.

The application of any of Credit Linked Conditions 6 (*Repudiation/Moratorium Extension*), 7 (*Grace Period Extension*), 8 (*Credit Derivatives Determinations Committee Extension*), 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*) or 11 (*Settlement Suspension*) shall, for the avoidance of doubt, not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such provisions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such provisions, the Calculation Agent may elect in its discretion which provision shall apply and under which provision or provisions it shall exercise its discretion.

### 1. Redemption of Credit Linked Notes

- (a) Unless previously redeemed or purchased and cancelled and provided that a Credit Event Determination Date has not occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Note on the Maturity Date by payment of the Final Redemption Amount. If a Credit Event Determination Date has occurred in respect of any Reference Entity and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, the Issuer shall redeem each Credit Linked Note as described below. References in these Credit Linked Conditions to a Credit Linked Note or a Note are, unless the context otherwise requires, to a principal amount of Credit Linked Notes equal to the Calculation Amount. Any payment of a "pro rata" amount in respect of a Note will be determined by reference to its principal amount relative to the then Aggregate Principal Amount of the Notes.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (b) Where the Notes are Single Reference Entity Credit Linked Notes and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Notes will be settled in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*) or Credit Linked Condition 4 (*Physical Settlement*), as applicable or, if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (h) below will apply.
- (c) Where the Notes are First-to-Default Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to any of the specified Reference Entities and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, then the Notes will be settled in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*), Credit Linked Condition 4 (*Physical Settlement*) or the provisions of paragraph (h) below, as applicable, in relation only to the First Reference Entity (as defined in the definition of Credit Event Determination Date) or, if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (h) below will apply.
- (d) Where the Notes are Nth-to-Default Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to one or more of the specified Reference Entities and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, notwithstanding any provision to the contrary in these Credit Linked Conditions, no settlement in accordance with Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*), Credit Linked Condition 4 (*Physical Settlement*), or the provisions of paragraph (h) below, as applicable, will occur until such time as a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities (a "**Trigger**"). The Reference Entity in respect of which a Credit Event Determination Date has occurred which causes the Trigger to occur is referred to as the "**Triggering Reference Entity**" and the Relevant Number is the number specified as such in the Applicable Transaction Terms. As of the day on which the Calculation Agent determines that a Credit Event Determination Date has occurred in respect of the Relevant Number of Reference Entities then (i) Credit Linked Condition 2 (*Auction Settlement*), Credit Linked Condition 3 (*Cash Settlement*) or Credit Linked Condition 4 (*Physical Settlement*), as applicable, shall apply in relation only to the Triggering Reference Entity or (ii) if the Notes are Zero/Set Recovery Notes, the provisions of paragraph (h) below will apply.
- (e) Where the Notes are Non-Tranched Linear Basket Credit Linked Notes or Non-Tranched Index Credit Linked Notes to which Credit Payment on Maturity applies, Tranched Linear Basket Credit Linked Notes, Tranched Index Credit Linked Notes, Basket Tranched Index Credit Linked Notes or Long/Short Credit Linked Notes, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, then, in respect of each Credit Linked Note, each Note shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, subject as provided in paragraph (i) below.

For the avoidance of doubt, this paragraph (e) will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

In respect of Tranched Linear Basket Credit Linked Notes and for the avoidance of doubt, where a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or less than L (as defined below), then the Credit Event Redemption Amount will be par.

In respect of Tranched Index Credit Linked Notes and for the avoidance of doubt, where the Attachment Point is not exceeded by the Aggregate Loss Percentage following the occurrence of any Credit Event Determination Date, then the Credit Event Redemption Amount will be par.

In respect of Basket Tranched Index Credit Linked Notes and for the avoidance of doubt, where the relevant Attachment Point is not exceeded by the relevant Aggregate Loss Percentage following the occurrence of any Credit Event Determination Date in respect of each of the Basket Tranched Index Components, then the Credit Event Redemption Amount will be par.

Prior to each date on which a payment is due on the Credit Linked Notes, the Issuer shall procure that Noteholders are notified in accordance with Condition 14 (*Notices*) of each Credit Event that has occurred since the previous payment date, provided that any delay or failure in the delivery of a such notice shall not affect the validity of any Credit Event Determination Date.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (f) Where the Notes are Non-Tranched Linear Basket Credit Linked Notes or Non-Tranched Index Credit Linked Notes to which Credit Payment As You Go applies and "Credit Linked Redemption" is applicable in the Applicable Transaction Terms, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) and (ii) in respect of each Credit Linked Note:
- (i) the Issuer shall pay as an Instalment Amount for the purposes of Condition 6(g) (*Redemption by Instalments*) an amount equal to the relevant Credit Event Amount, if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date; and
  - (ii) each Note shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if on or prior to the Credit Event Redemption Date and save where any Protected Amount is payable, a Credit Event Determination Date has occurred in respect of all the specified Reference Entities each Credit Linked Note will be redeemed (together with accrued interest, if any) at the final Credit Event Amount on the final Credit Event Payment Date, subject as provided in paragraph (i) below

For the avoidance of doubt part (i) of this provision will apply and part (ii) of this provision will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (g) Where only a part of an issuance of Notes is credit linked (which will be the case where the Credit Multiplier is less than 1), references in these Credit Linked Conditions to the "Scheduled Maturity Date" shall be references to the Scheduled Maturity Date of the credit linked part of the Notes only and notwithstanding any other provision of the Conditions, the Maturity Date of the Notes shall be the later of the Maturity Date determined in accordance with these Credit Linked Conditions, and the final Instalment Date specified in the Applicable Transaction Terms.
- (h) Where the Notes are Zero/Set Recovery Notes then if a Credit Event Determination Date has occurred in respect of any Reference Entity (in the case of Single Reference Entity Credit Linked Notes, Linear Basket Credit Linked Notes, Index Credit Linked Notes, First-to-Default Credit Linked Notes or Long/Short Credit Linked Notes) or in respect of the Triggering Reference Entity (in the case of Nth-to-Default Credit Linked Notes) then following a Credit Event Determination Date in respect of any such Reference Entity the provisions of Credit Linked Conditions 2 (*Auction Settlement*), 3 (*Cash Settlement*) or 4 (*Physical Settlement*) will not apply but (i) each Single Reference Entity Credit Linked Note, First-to-Default Credit Linked Note and Nth-to-Default Credit Linked Note will be redeemed by payment of the Credit Event Redemption Amount, if any, on the Credit Event Redemption Date together with accrued interest, if any, and (ii) each Linear Basket Credit Linked Note, Index Credit Linked Note or Long/Short Credit Linked Note may be redeemed (or otherwise) as provided in paragraph (e) or (f) above, as applicable and/or paragraph (i) below, if applicable.
- (i) Where any Credit Event Redemption Amount is zero (whether the Notes are Zero/Set Recovery Notes or otherwise) then, other than for the payment of any accrued interest or any other due but unpaid amounts or any interest amount not subject to the Credit Linked Conditions, the Notes will be cancelled as of the Credit Event Redemption Date or, if other, the day on which it is determined that the Credit Event Redemption Amount is or would be, were it to be so calculated in respect of such day, zero with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit Linked Notes.
- (j) For the avoidance of doubt, the aggregate outstanding principal amount in respect of Zero Coupon Notes is equal to 100 per cent. of their face amount.
- (k) For the avoidance of doubt the provisions of Credit Linked Conditions 6 (*Repudiation/Moratorium Extension*), 7 (*Grace Period Extension*), 8 (*Credit Derivatives Determinations Committee Extension*), 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*) and 11 (*Settlement Suspension*) may each apply to First-to-Default Credit Linked Notes and Nth-to-Default Credit Linked

Notes meaning that subject to paragraph 1(g) above, the Maturity Date may be delayed beyond the Scheduled Maturity Date in certain circumstances.

- (l) If any purchase and cancellation of Notes occurs under Condition 6(d) (*Purchases*) or any further issue under Condition 13 (*Definitions applicable to Credit Linked Notes*), the Calculation Agent will make such adjustments to the Applicable Transaction Terms and/or these Credit Linked Conditions as it determines appropriate (including Reference Entity Notional Amounts) to ensure the Notes continue to reflect economic intentions.

### 2. Auction Settlement

- (a) Where Auction Settlement is specified as the applicable Settlement Method in the Applicable Transaction Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an "Auction Settlement Notice") to the Noteholders in accordance with Condition 14 (*Notices*), and, subject to these Credit Linked Conditions where "Credit Linked Redemption" is specified as applicable in the Applicable Transaction Terms only, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Credit Linked Specified Currency on the Credit Event Redemption Date.

- (b) Unless settlement has occurred in accordance with paragraph (a) above, if:

- (i) an Auction Cancellation Date occurs;
- (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (iii) a DC Credit Event Question Dismissal occurs; or
- (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred in respect of the relevant Credit Event on or prior to the date falling three Business Days after such Credit Event Determination Date, unless settlement has occurred in accordance with the paragraph above, if:

then:

- (x) if Fallback Settlement Method – Cash Settlement is specified as applicable in the Applicable Transaction Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 3 (*Cash Settlement*); or
- (y) if Fallback Settlement Method – Physical Delivery is specified as applicable in the Applicable Transaction Terms, the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 4 (*Physical Settlement*).

***If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Notes in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Notes.***

### 3. Cash Settlement

If a Credit Event Determination Date has occurred, then where Cash Settlement is specified as the applicable Settlement Method in the Applicable Transaction Terms or if Credit Linked Condition 2(b)(iv)(x) (*Auction Settlement*) above applies, the Issuer shall give notice (such notice a "Cash Settlement Notice") to the Noteholders in accordance with Condition 14 (*Notices*), and, where

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

"Credit Linked Redemption" is specified as applicable, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1 (*Redemption of Credit Linked Notes*), redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount in the relevant Credit Linked Specified Currency on the Credit Event Redemption Date.

If Cash Settlement applies and "Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then, unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be included in the Valuation Obligations Portfolio only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If Cash Settlement applies and "Mod Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be included in the Valuation Obligations Portfolio only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

*If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the principal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Notes in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Notes.*

#### 4. Physical Settlement

If a Credit Event Determination Date has occurred, then where Physical Delivery is specified as the applicable Settlement Method in the Applicable Transaction Terms or if Credit Linked Condition 2(b)(iv)(y) (*Auction Settlement*) above applies, then, subject to any prior redemption, the Issuer shall, following the receipt of a Calculation Agent Physical Settlement Notice, give notice (such notice a "Notice of Physical Settlement") to the Noteholders in accordance with Condition 14 (*Notices*), and where "Credit Linked Redemption" is specified as applicable subject to these Credit Linked Conditions, in particular Credit Linked Condition 1 (*Redemption of Credit Linked Notes*), redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer by the Delivery of the Deliverable Obligations comprising the Entitlement on the Credit Settlement Date, subject to and in accordance with the Terms and Conditions of the Notes and these Credit Linked Conditions. Where Asset Package Delivery applies, the provisions of the second paragraph of the definition of "Deliver" shall apply and the Calculation Agent may make any adjustment in relation to provisions for physical delivery and determination of the Entitlement to take account of the relevant Asset Package.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value. The Notice of Physical Settlement shall include (i) details of the relevant Reference Entity, (ii) the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation. The aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer intends to Deliver shall be the relevant "**Aggregate Outstanding Amount**".

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with Condition 14 (*Notices*), (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders in accordance with Condition 14 (*Notices*), prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the PSN Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders (in accordance with Condition 14 (*Notices*)) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice of correction shall not constitute a Physical Settlement Amendment Notice.

If Physical Settlement applies and "Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then, unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date in each case as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements.

If Physical Settlement applies and "Mod Mod R" is specified as applicable in the Applicable Transaction Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

*If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the principal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer or the Guarantor. For the avoidance of doubt, following redemption of a portion of the Notes in accordance with the foregoing, the Issuer may still have payment obligations in respect of any outstanding portion of the Notes.*

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

### 5. Accrual of Interest

- (a) Where "Credit Linked Interest" is specified in the Applicable Transaction Terms to not apply or the Credit Linked Conditions are specified in the Applicable Transaction Terms not to apply to any interest provisions of the Notes then, notwithstanding the occurrence of a Credit Event Determination Date, for such purposes, each Note will continue to bear interest in accordance with Condition 5(a)(ii) (*Accrual of Interest*) up to but excluding the Scheduled Maturity Date (with such date being deemed to be the final Interest Payment Date).
- (b) If "Credit Linked Interest" is applicable but "Credit Linked Redemption" is not applicable, then notwithstanding "Credit Linked Redemption" is not applicable, any notice that the Issuer would be obliged under the Credit Linked Conditions to provide to Noteholders if "Credit Linked Redemption" were applicable, shall nevertheless be provided to Noteholders unless the Calculation Agent determines that such notice is not relevant given "Credit Linked Redemption" is not applicable.
- (c) Where the Notes are Single Reference Entity Credit Linked Notes, First-to-Default Credit Linked Notes, or Nth-to-Default Credit Linked Notes, and "Credit Linked Interest" is applicable in the Applicable Transaction Terms, then, subject as provided in paragraph (d) below in respect of Nth-to-Default Credit Linked Notes, if and to the extent that:

- (i) "Accrual of Interest up to Credit Event" is specified in the Applicable Transaction Terms as not applicable to any interest provisions of the Notes then, notwithstanding Condition 5(a)(ii) (*Accrual of Interest*), each Note to which the Credit Linked Conditions apply shall, to the extent to which "Credit Linked Interest" is expressed to apply to such Notes, cease to bear interest from the Interest Payment Date immediately preceding the Credit Event Determination Date, or if the Credit Event Determination Date is an Interest Payment Date such Interest Payment Date, or, if the Credit Event Determination Date falls prior to the first Interest Payment Date, no interest shall accrue on the Notes; or
- (ii) "Accrual of Interest up to Credit Event" is specified in the Applicable Transaction Terms as applicable to any interest provisions of the Notes then, notwithstanding Condition 5(a)(ii) (*Accrual of Interest*), each Note to which the Credit Linked Conditions apply shall, to the extent to which "Credit Linked Interest" is expressed to apply to such Notes, cease to bear interest from the Credit Event Determination Date with such accrued interest being determined for this purpose as though the Credit Event Determination Date was an Interest Payment Date but accrued interest will only be payable on the Credit Event Redemption Date; and

provided that, in the case of paragraph (i) or (ii) above if:

- (x) Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), Credit Linked Condition 7 (*Grace Period Extension*) or Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*) applies in respect of the Notes and, in the case of Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 7 (*Grace Period Extension*), a Failure to Pay has not occurred on or prior to the Grace Period Extension Date or, in the case of Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*), a Credit Event has not occurred on or prior to the DC Cut-off Determination Date, as the case may be; and/or
- (y) Credit Linked Condition 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*) applies in respect of the Notes and a Credit Event Determination Date or the Repudiation/Moratorium Extension Condition, as applicable, has not occurred or are not satisfied on or prior to the Postponed Maturity Date,

then to the extent that "Credit Linked Interest" is expressed to apply to the Notes, interest will accrue as provided in Credit Linked Condition 6 (*Repudiation/Moratorium Extension*), Credit Linked Condition 7 (*Grace Period Extension*), Credit Linked Condition 8 (*Credit Derivatives Determinations Committee Extension*) or Credit Linked Condition 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*), as the case may be.

- (d) Where the Notes are Nth-to-Default Credit Linked Notes and "Credit Linked Interest" is applicable, no interest adjustment in accordance with this Credit Linked Condition 5 will occur until such time as a

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Trigger has occurred. As of the day on which the Calculation Agent determines that a Trigger has occurred, then the Credit Event Determination Date will be deemed to have occurred only on such day.

- (e) Where the Notes are Non-Tranched Linear Basket Credit Linked Notes or Non-Tranched Index Credit Linked Notes to which Credit Payment on Maturity applies, Tranched Linear Basket Credit Linked Notes, Tranched Index Credit Linked Notes, Basket Tranched Index Credit Linked Notes or Long/Short Credit Linked Notes, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity and "Credit Linked Interest" is specified as applicable then, in respect of each Credit Linked Note unless the Credit Linked Note is a Zero Coupon Note, the interest calculation basis described in paragraph (g) below will apply.

For the avoidance of doubt paragraph (e) above will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

- (f) Where the Notes are Non-Tranched Linear Basket Credit Linked Notes or Non-Tranched Index Credit Linked Notes to which Credit Payment As You Go applies and "Credit Linked Interest" is specified as applicable then, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) and (ii) in respect of each Credit Linked Note unless the Credit Linked Note is a Zero Coupon Note, the interest calculation basis described in paragraph (g) below will apply.

For the avoidance of doubt paragraph (f) above will apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (ii) in the case of Tranched Linear Basket Credit Linked Notes, an amount determined by the Calculation Agent by reference to the following formula:

$$\left[ \text{aggregate outstanding nominal amount} * CM * \left( 1 - \left( \frac{1}{H-L} \right) * \text{Min}[H-L; \text{Max}[N-L; 0]] \right) \right]$$

### 6. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the Applicable Transaction Terms, the provisions of this Credit Linked Condition 6 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Credit Observation End Date or any Interest Payment Date (determined by reference to the Relevant Time) but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Credit Observation End Date or any Interest Payment Date or, if Credit Linked Condition 9(a)(y) (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*) applies, the Postponed Maturity Date or Postponed Interest Payment Date (as defined in Credit Linked Condition 9 (*Maturity Date/Interest Payment Date Extension in the case of Credit Linked Notes*)) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation/Moratorium may, in the sole determination of the Calculation Agent, fall after the Scheduled Maturity Date or relevant Interest Payment Date, then the Calculation Agent shall notify the Noteholders in accordance with Condition 14 (*Notices*) that a Potential Repudiation/Moratorium has occurred and the maturity of the Notes and/or relevant interest payment will be delayed and:

- (a) in relation to such event as of the Scheduled Maturity Date, where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date:
  - (i) each principal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Maturity Date; and
  - (ii) in the case of interest bearing Credit Linked Notes and to the extent that the "Credit Linked Interest" is stated to be applicable to such Notes, the Issuer shall be obliged to pay interest (if any) calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day

the Calculation Agent may at its option notify the Noteholders in accordance with Condition 14 (*Notices*) that the Maturity Date, the relevant Interest Payment Date, the Repudiation/Moratorium Evaluation Date, the Grace Period Extension Date, the last day of the Notice Delivery Period or the DC Determination Cut-off Date, as the case may be, has been postponed to a date (such date the "**Postponed Maturity Date**" or, in the case of an Interest Payment Date, the "**Postponed Interest Payment Date**") specified in such notice (a) falling fifteen (15) Business Days after the Credit Observation End Date, the relevant Interest Payment Date, the relevant Repudiation/Moratorium Evaluation Date or Grace Period Extension Date, or the last day of the Notice Delivery Period or the DC Determination Cut-off Date, as the case may be, or if such day is not a Business Day the immediately succeeding Business Day or (b) if later, the second Business Day following the determination of the Final Price or the Auction Final Price (or, if later, the related Auction Settlement Date) in respect of each Reference Entity for which a Credit Event Determination Date has occurred, and:

where:

- (i) in the case of Credit Linked Condition 9(a)(x), a Credit Event Determination Date has not occurred on or prior to the Postponed Maturity Date or relevant Postponed Interest Payment Date or, in the case of Credit Linked Condition 9(a)(y), the Repudiation/Moratorium Extension Condition is not satisfied on or prior to the Postponed Maturity Date or relevant Postponed Interest Payment Date:

### 10. Partial Cash Settlement

If all or a portion of the Obligations comprising the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a "**Partial Cash Settlement Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

Unless otherwise specified in the Applicable Transaction Terms, for the purposes of this Credit Linked Condition 10 only the following terms shall be defined as follows and such definitions will apply notwithstanding other definitions of such terms in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Notes*):

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

**"Indicative Quotation"** means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

**"Market Value"** means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the Applicable Transaction Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

**"Partial Cash Settlement Amount"** is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (B) the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, determined as provided in this Credit Linked Condition less if applicable (C) a *pro rata* share of Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (ii) zero provided that where (i) the relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and the Calculation Agent determines in its sole discretion that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation or Hedge Disruption Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent in its sole discretion equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs.

**"Partial Cash Settlement Date"** is deemed to be the date falling three Business Days after the calculation of the Final Price.

**"Quotation"** means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the Applicable Transaction Terms, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation or Hedge Disruption Obligation with respect to a Valuation Date in the manner that follows:

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the Applicable Transaction Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the Applicable Transaction Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this determination.

**"Quotation Amount"** is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to at least the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

**"Quotation Method"** is deemed to be Bid.

**"Reference Obligation"** means the Standard Reference Obligation, if any, unless:

- (a) "Standard Reference Obligation" is specified as not applicable in the Applicable Transaction Terms, in which case the Reference Obligation will be the Non-Standard Reference Obligation, if any; or
- (b) (i) "Standard Reference Obligation" is specified as applicable in the Applicable Transaction Terms (or no election is specified in the Applicable Transaction Terms), (ii) there is no Standard Reference Obligation and either (iii) "Initially none" is specified in the Applicable Transaction Terms in respect of the Reference Obligation, or (iv) a Non-Standard Reference Obligation is specified in the Applicable Transaction Terms, in which case the Reference Obligation will be (A) the Non-Standard Reference Obligation to but excluding the first date of publication of the Standard Reference Obligation and (B) the Standard Reference Obligation from such date onwards, provided that the Standard Reference Obligation that is published would have been eligible to be selected as a Substitute Reference Obligation.

If "Standard Reference Obligation" is specified as applicable in the Applicable Transaction Terms (or no election is specified in the Applicable Transaction Terms), the Reference Obligation is the Standard Reference Obligation and the Standard Reference Obligation is removed from the SRO List, such obligation shall cease to be the Reference Obligation and the Calculation Agent will select as a substitute Reference Obligation any Deliverable Obligation with the same level of seniority as the relevant Seniority Level, provided that, if there is no

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Deliverable Obligation with the same level of seniority as the relevant Seniority Level, the Calculation Agent may select any Deliverable Obligation as a substitute Reference Obligation.

In addition:

- (i) the Calculation Agent may at any time (x) replace the Reference Obligation with any Deliverable Obligation with the same level of seniority as the relevant Seniority Level from time to time, provided that, if there is no Deliverable Obligation with the same level of seniority as the relevant Seniority Level, the Calculation Agent may select any Deliverable Obligation as the replacement Reference Obligation or (y) where there is no Reference Obligation, including for the avoidance of doubt where "Initially none" is specified in the Applicable Transaction Terms in respect of the Reference Obligation, select any Deliverable Obligation as the Reference Obligation; and
- (ii) if "Standard Reference Obligation" is specified as applicable in the Applicable Transaction Terms (or no election is specified in the Applicable Transaction Terms) and a new obligation is placed on the SRO List in respect of the relevant Reference Entity, then the Calculation Agent may, but is not obliged to, select the new Standard Reference Obligation in respect of the Reference Entity as the Reference Obligation. The provisions of this definition may be applied by the Calculation Agent on more than one occasion and are without prejudice to the right of the Calculation Agent to determine a Substitute Reference Obligation.

Without prejudice to the paragraphs above:

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Noteholders at the specified office of the Principal Paying Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraphs (a)(iii), (a)(iv) or (a)(vi) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the Applicable Transaction Terms as it shall determine to be appropriate to reflect that the Reference Entity has been succeeded by more than one Successor (which amendments may, for the avoidance of doubt, include in the case of Tranching Linear Basket Credit Linked Notes, such adjustments as the Calculation Agent determines appropriate to the numbers of Reference Entities specified as "H" and "L", having regard to any adjustments made to the notional portfolio to which the Notes relate) and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the Applicable Transaction Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Notes under the provisions of the 2014 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Holders in accordance with Condition 14 (*Notices*) stating the adjustment to these Terms and Conditions and/or the Applicable Transaction Terms and giving brief details of the relevant Successor event.

In respect of Credit Linked Notes which are Index Credit Linked Notes, if at any time there is a discrepancy between the Successor determined pursuant to the above and a Successor announced by the Index Sponsor, the Calculation Agent may make such amendments to the Credit Linked Notes as it determines in a commercially reasonable manner is necessary or desirable to remedy or account for such discrepancy. Any amendment made pursuant to this paragraph shall be notified to Holders in accordance with Condition 14 (*Notices*).

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the **Exchange Bonds** or **Loans**) that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Notwithstanding the provisions above and sub-paragraph (b) of the definition of Reference Entity, where one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor to another Reference Entity pursuant to the above provisions and at least one other entity which is not a Reference Entity or the Issuer is also identified as a Successor for the purposes of any succession, each Affected Reference Entity and/or the Issuer, as applicable, shall

If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Notes in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent in its sole and absolute discretion; and (iv) the Calculation Agent may make such adjustments to the Conditions and/or the Applicable Transaction Terms to account for the Successor Associated Costs, which may include, without limitation, reducing the Final Redemption Amount, Credit Event Redemption Amount or the Entitlement (as the case may be) by an amount equal to the Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the relevant Succession Date.

### 17. Calculation Agent Notices

Any notice to be delivered by the Calculation Agent to the Issuer or the Guarantor, as applicable, pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.

For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

### 18. Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 15 September 2014)

- (a) If this Credit Linked Condition 18 is specified as applicable in the Applicable Transaction Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply: provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Obligation" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Notes*), and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Deliverable Obligation" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Notes*) and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed by reference to the Prior Reference Obligation;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:
  - (i) "**Reference Obligation**" means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the Applicable Transaction Terms or set forth on the relevant LPN Reference Obligations List (each a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, any Additional LPN and each Additional Obligation; and

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (ii) the following additional definitions shall apply:

"**Additional LPN**" means any bond issued in the form of a loan participation note (a "LPN") by an entity (the "LPN Issuer") for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the "Underlying Loan") or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the "Underlying Finance Instrument"), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

"**Additional Obligation**" means each of the obligations listed as an Additional Obligation of the Reference Entity in the Applicable Transaction Terms or set forth on the relevant LPN Reference Obligations List (each a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, as of the Trade Date.

"**First Ranking Interest**" means a charge, security interest (or other type of interest having similar effect) (an "**Interest**"), which is expressed as being "**first ranking**", "**first priority**", or similar ("**First Ranking**") in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

"**LPN Reference Obligation**" means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

### 19. Amendment of Credit Linked Conditions

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions (i) to incorporate and/or reflect (x) further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or (b) the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect or account for a Hedge Disruption Event. Any amendment made in accordance with this Credit Linked Condition 19 shall be notified to the Noteholders in accordance with Condition 14 (*Notices*).

### 20. Early redemption of Reference Obligation Only Notes following a Substitution Event

If the Notes are Reference Obligation Only Notes relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) interest (if any) shall cease to accrue on the Credit Linked Notes from and including the Interest Payment Date immediately preceding the relevant Substitution Event Date or, if no Interest Payment Date has occurred, no interest will accrue on the Credit Linked Notes; and
- (b) each principal amount of Credit Linked Notes equal to the Calculation Amount set out in the Applicable Transaction Terms will be redeemed by the Issuer at its relevant Reference

Obligation Only Termination Amount specified in, or determined in the manner specified in, the Applicable Transaction Terms in the Credit Linked Specified Currency on the Maturity Date, which for the purposes of this Credit Linked Condition 20 shall be the day falling five (5) Business Days following the relevant Substitution Event Date.

### 21. DC Resolution Adjustment Events

If following the publication of a DC Resolution (the "**Prior DC Resolution**"), a further DC Resolution (the relevant "**Further DC Resolution**") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may, in its sole and absolute discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the Conditions or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements.

### 22. Physical Delivery

(a) Terms used in this Credit Linked Condition 22 but not defined in the Conditions shall be as defined in the relevant global Note. If any Credit Linked Note, other than a Credit Linked Note represented by a U.S. Global Note Certificate, is to be redeemed by Delivery of the Entitlement, in order to obtain Delivery of the Entitlement in respect of such Credit Linked Note:

(X) if such Note is represented by a Global Note, the relevant Noteholder must deliver to Euroclear or Clearstream, Luxembourg (as applicable) in a form acceptable thereto, with a copy to the Principal Paying Agent and the Calculation Agent no later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice in the form described below;

(Y) if such Note is in definitive form, the relevant Noteholder must deliver (i) if such Note is a Bearer Note, to any Paying Agent or (ii) if such Note is a Registered Note in the Registrar or any Paying Agent, with a copy to the Principal Paying Agent no later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice, a copy of which may be obtained from the specified office of the Registrar or any Paying Agent; and

(Z) in the case of:

#### *Book-Entry Notes*

Such instructions shall include complete settlement instructions, incorporating relevant information in respect of the Noteholders holding Book-Entry Notes through each Iberclear Member and an undertaking to pay all Delivery Expenses and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership. Each Iberclear Member holding Book-Entry Notes must block such Book-Entry Notes in the relevant account from and including the Cut-off Date; and

ii. where the Entitlement comprises an instrument (or instruments) not included in Iberclear's book-entry register, each Iberclear Member holding Book-Entry Notes on the Cut-off Date must send timely and full settlement instructions to the Iberclear Paying Agent sufficient to allow the Issuer to make delivery of the Entitlement in the relevant clearing system (where relevant) or otherwise on the Credit Settlement Date in accordance with the provisions of this Credit Linked Condition 22 and such instructions shall include (or be accompanied by) certification as to non U.S. beneficial ownership.

#### *Monte Titoli Book-Entry Notes*

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

In order to receive the Entitlement in respect of a Physical Delivery Note, the holder of such Monte Titoli Book-Entry Note must (i) duly deliver to the Paying Agent or the Issuer, as applicable, through the relevant Monte Titoli Account Holder, as specified in the Applicable Transaction Terms, a duly completed Asset Transfer Notice on or prior to the relevant time on the Cut-Off Date and (ii) pay the relevant Expenses.

For the avoidance of doubt, where the settlement instructions contemplated by this sub-paragraph (Z) apply, this replaces the requirement to deliver an Asset Transfer Notice in accordance with the provisions below. All instructions for settlement to be delivered in accordance with this sub-paragraph (Z) will be referred to as the "**Iberclear Settlement Instruction**".

An Asset Transfer Notice may only be delivered (i) if such Note is represented by a Global Note or an International Global Note Certificate, in such manner as is acceptable to Euroclear or Clearstream, Luxembourg, as the case may be, or (ii) if such Note is represented by a U.S. Global Note Certificate, in such manner as is acceptable to DTC, or (iii) if such Note is in definitive form, in writing.

If this Note is in definitive form, this Note must be delivered together with the duly completed Asset Transfer Notice.

- (vi) certify that the beneficial owner of each Note is not a U.S. person (as defined in the Asset Transfer Notice), the Note is not being redeemed within the United States or on behalf of a U.S. person and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof; and
- (vii) authorise the production of such certification in any applicable administrative or legal proceedings.

The form of Asset Transfer Notice will be made available by the Issuer to Noteholders in accordance with such procedures as will be confirmed by the Issuer in accordance with Condition 14 (*Notices*) following any determination by the Issuer that the Notes are to be redeemed by Delivery of the Entitlement.

### (b) *Notification of Deliverable Obligations*

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

The Issuer shall give notice to Noteholders prior to the relevant Credit Settlement Date of the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver. For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

(c) ***Verification of the Noteholder***

In the case of Notes (i) represented by a Global Note and by a Monte Titoli Book-Entry Note, upon receipt of an Asset Transfer Notice, Euroclear or Clearstream, Luxembourg or the relevant Monte Titoli Account Holder, as the case may be, or (ii) that are Book-Entry Notes, upon receipt of an Iberclear Settlement Instruction, Iberclear, shall verify that the person delivering the Asset Transfer Notice or Iberclear Settlement Instruction, as the case may be, is the holder of the principal amount of the Notes described therein according to its records. Subject thereto, Euroclear, Clearstream, Luxembourg, or the relevant Monte Titoli Account Holder, as the case may be, will confirm to the Principal Paying Agent or to the Issuer, as applicable, the series number and number of Notes the subject of such notice, the relevant account details and the details for the Delivery of the Entitlement of each Note. Upon receipt of such confirmation, the Principal Paying Agent will inform the Issuer thereof. Euroclear, Clearstream, Luxembourg, or the relevant Monte Titoli Account Holder, as the case may be, will on or before the Credit Settlement Date, debit the securities account of the relevant Noteholder with the Notes that are the subject of such Asset Transfer Notice or Iberclear Settlement Instruction, as the case may be.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of, in the case of Notes represented by a Global Note, Euroclear or Clearstream, Luxembourg, as the case may be, or, in the case of Note in definitive form, by the relevant Paying Agent or the Registrar, or, in the case of Monte Titoli Book-Entry Notes, by the Issuer or the Paying Agent, as the case may be, in each case in consultation with the Principal Paying Agent (as applicable), it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

If such Iberclear Settlement Instruction, is subsequently corrected to the satisfaction of the Iberclear Paying Agent it shall be deemed to be a new Iberclear Settlement Instruction submitted at the time such correction was delivered as provided above

No Asset Transfer Notice or Iberclear Settlement Instruction may be withdrawn after receipt thereof by the relevant Clearance System, the Registrar or a Paying Agent, or the Issuer, as the case may be, as provided above. After delivery of an Asset Transfer Notice or Iberclear Settlement Instruction, the relevant Noteholder may not transfer the Notes which are the subject of such notice.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

### (e) *Delivery*

- (i) Subject to:
  - (A) an Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, having been duly delivered as provided above on or prior to the Cut-Off Date; and
  - (B) all Delivery Expenses having been paid or otherwise accounted for to the satisfaction of the Issuer by the relevant Noteholder,

the Issuer shall, at the risk of the relevant Noteholder, Deliver or procure the Delivery of the Entitlement of each Note, pursuant to the details specified in the Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, or in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, on the Credit Settlement Date. Where the Asset Transfer Notice or Iberclear Settlement Instruction, as applicable, stipulates that the Entitlement should be Delivered to a specified clearing system, the Issuer's or the Guarantor's obligation to Deliver such Entitlement will be discharged by Delivery to, or to the order of, the relevant clearing system and each of the persons shown in the records of the relevant clearing system as the account holder must look solely to the relevant clearing system for his share of any Entitlement so Delivered.

- (ii) If a Noteholder fails to give an Asset Transfer Notice or (in the case of Book-Entry Notes) an Iberclear Settlement Instruction as provided herein with a copy to the Principal Paying Agent or the Issuer, as applicable, on or prior to the Cut-Off Date, then:
  - (A) the Issuer may elect, in its sole discretion to Deliver or procure the Delivery of the aggregate Entitlements for all such affected Notes, at the risk of the relevant Noteholder, to, or to the order of, any relevant Clearance System(s) in which the Notes are held and its obligation to Deliver any such Entitlement so Delivered shall be discharged thereby. Each of the persons shown in the records of the relevant Clearance System as the holder of a particular amount of the Notes must look solely to the relevant Clearance System for his share of each such Entitlement so Delivered to, or to the order of, such Clearance System. For the purposes of paragraph (iv) below, each Clearance System will be deemed to be a single Noteholder and each Clearance System will be requested to divide and deliver such Entitlements in accordance with its rules; or
  - (B) the Entitlement(s) will be Delivered as soon as practicable after the Scheduled Credit Settlement Date (in which case, such date of Delivery shall be deemed to be the Credit Settlement Date) at the risk of such Noteholder in the manner provided below, provided that if, in respect of a Note, an Asset Transfer Notice or an Iberclear Settlement Instruction (as applicable) is not delivered to each relevant party prior to the close of business in each place of reception on the day falling 180 calendar days after the Cut-Off Date, the obligations of the Issuer and the Guarantor in respect of such Note shall be discharged and neither the Issuer nor the Guarantor shall have any liability in respect thereof. For the avoidance of doubt, in such circumstances such Noteholder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Credit Settlement Date falling after the date fixed for redemption and no liability in respect thereof shall attach to the Issuer.
- (iii) To the extent that the Issuer is not satisfied that the Delivery Expenses have been or will be paid in full by the relevant Noteholder on or prior to the relevant Credit Settlement Date, the Issuer may, in its sole discretion, elect to reduce the Entitlement(s) to be Delivered to that Noteholder by an amount(s) which by market value (determined at the time of reduction by reference to such valuation sources as the Issuer determines appropriate) in aggregate is at least equal to the aggregate Delivery Expenses that it determines, in its sole discretion, have not been paid or otherwise accounted for (the Entitlement as so reduced, the "**Reduced Entitlement**"). Where the Issuer elects to make such a reduction, in accordance with this Credit Linked Condition 22(e)(iii) the Issuer's obligation to Deliver the Entitlement(s) shall be discharged in full by Delivery of the Reduced Entitlement(s) in accordance with the provisions of this Credit Linked

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

Condition 22(e). The provisions of these Credit Linked Conditions shall apply *mutatis mutandis* to any such Delivery of the Reduced Entitlement.

- (iv) For the purpose of determining the Entitlements in respect of the Notes, Notes held by the same Noteholder will be aggregated. The aggregate Entitlement(s) to be delivered in respect of each such aggregated holding will be rounded down to the nearest whole unit of the relevant Deliverable Obligation (or, where there is more than one type of Deliverable Obligation, each of the Deliverable Obligations), as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Deliverable Obligation or of each of the Deliverable Obligations, as the case may be, will not be delivered but in lieu thereof the Issuer shall pay to the Noteholders in respect of their respective holding an additional amount in the Specified Currency equal to the fair market value of such fraction(s) in such manner as shall be determined by the Calculation Agent in good faith and in a commercially reasonable manner and notified to Noteholders in accordance with Condition 14 (*Notices*).
- (v) Delivery of the Entitlement in respect of the Notes is subject to all applicable laws, regulations and practices in force on the Credit Settlement Date and none of the Issuer, the Guarantor or any of their Affiliates or agents and the Paying Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer, the Guarantor or any of their Affiliates or agents and the Paying Agents shall under any circumstances be liable for any acts or defaults of Euroclear or Clearstream, Luxembourg or DTC in relation to the performance of their duties in relation to the Notes.

(f) **General**

After Delivery of an Entitlement in respect of a Note and for the Intervening Period, none of the Issuer, the Guarantor, the Calculation Agent and any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder or any subsequent beneficial owner of such Note any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of the securities, obligations or Deliverable Obligations included in such Entitlement, (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities, obligations or Deliverable Obligations included in such Entitlement or (iii) be under any liability to a Noteholder or any subsequent beneficial owner of such Note in respect of any loss or damage which such Noteholder, or subsequent beneficial owner, may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities, obligations or Deliverable Obligations included in such Entitlement.

(g) **Undeliverable Obligations and Hedge Disruption Obligations**

In relation to each Deliverable Obligation constituting the Entitlement, the Issuer will Deliver or procure the Delivery of the relevant Deliverable Obligation in accordance with this Credit Linked Condition 22 on the Credit Settlement Date, provided that if all or some of the Deliverable Obligations included in the Entitlement in respect of a Note are Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver or, if applicable, shall attempt to Deliver where possible all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, up to and including (i) the 30th Business Day following the Credit Settlement Date or (ii) such earlier date as the Calculation Agent may select and notify to the Noteholders in accordance with Condition 14 (*Notices*) taking into account the terms of any Hedging Arrangements (the "**Final Delivery Date**"), provided further that if all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, are not Delivered by the Final Delivery Date the provisions of Credit Linked Condition 10 (*Partial Cash Settlement*) shall apply.

(h) **Notes represented by a U.S. Global Note Certificate**

If any Note represented by a U.S. Global Note Certificate is to be redeemed by Delivery of an Entitlement, the relevant provisions relating to such Delivery shall be set out in the applicable Pricing Supplement.

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

### 23. Standard Terms

If Standard Terms are specified as applicable in the Applicable Transaction Terms, the provisions set out in SCHEDULE 1 to these Credit Linked Conditions in respect of the Standard Terms specified in the Applicable Transaction Terms shall apply.

### 24. 2019 Narrowly Tailored Credit Event Provisions

If this Credit Linked Condition 24 is specified as applicable in the Applicable Transaction Terms (whether by application of the Standard Terms or otherwise), the following provisions will apply:

- (a) The definition of "Failure to Pay" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Notes*) shall be deleted and replaced with the following:

**"Failure to Pay"** means after the expiration of any applicable Grace Period (after the satisfaction of any conditions precedent to the commencement of such Grace Period) the failure by the Reference Entity to make, when and where due, any payments in an aggregate amount of not less than the Payment Requirement under one or more Obligations, in accordance with the terms of such Obligations at the time of such failure provided that, if an occurrence that would constitute a Failure to Pay (a) is a result of a redenomination that occurs as a result of action taken by a Governmental Authority which is of general application in the jurisdiction of such Governmental Authority and (b) a freely available market rate of conversion existed at the time of the redenomination, then such occurrence will be deemed not to constitute a Failure to Pay unless the redenomination itself constituted a reduction in the rate or amount of interest, principal or premium payable (as determined by reference to such freely available market rate of conversion) at the time of such redenomination. If "Credit Deterioration Requirement" is specified as applicable in the Applicable Transaction Terms, then, notwithstanding the foregoing, it shall not constitute a Failure to Pay if such failure does not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the Reference Entity. In the event that the Calculation Agent makes any such determination, it may take into account the guidance note set out in paragraph 3 (*Interpretive Guidance*) of the ISDA 2019 Narrowly Tailored Credit Event Supplement to the 2014 ISDA Credit Derivatives Definitions (published on July 15, 2019)."

- (b) The definition of "Outstanding Principal Balance" in Credit Linked Condition 13 (*Definitions applicable to Credit Linked Notes*) shall be deleted and replaced with the following:

**"Outstanding Principal Balance"** means the outstanding principal balance of an obligation which will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where applicable in accordance with the definition of Accrued Interest above, the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (i) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (ii) the amount of the Fixed Cap, if any);
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (i) is subject to any Prohibited Action, or (ii) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (A) payment or (B) a Permitted Contingency) (the amount determined in accordance with paragraph (a) above less any amounts subtracted in accordance with this paragraph (b), the **"Non-Contingent Amount"**); and
- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

## ANNEX 5 – ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED NOTES

- (i) unless otherwise specified, in accordance with the terms of the obligation in effect on either (A) the relevant PSN Effective Date (or, if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (B) the relevant Valuation Date; and
- (ii) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

For the purposes of paragraph (ii) above, "**applicable laws**" shall include any bankruptcy or insolvency law or other law affecting creditors' rights to which the relevant obligation is, or may become, subject.

If "Fallback Discounting" is specified as applicable in the Applicable Transaction Terms (whether by application of the Standard Terms or otherwise), then, notwithstanding the above, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under paragraph (ii) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee."

**ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX)  
RATE LINKED NOTES**

**ANNEX 6  
ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED  
NOTES**

The terms and conditions applicable to Foreign Exchange (FX) Rate Linked Notes shall comprise the Terms and Conditions of the Notes (the "**Conditions**") and the additional terms and conditions for Foreign Exchange (FX) Rate Linked Notes set out below (the "**Foreign Exchange (FX) Rate Linked Note Conditions**"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Applicable Transaction Terms and in each case subject to completion in the Applicable Transaction Terms. In the event of any inconsistency between the Conditions and the Foreign Exchange (FX) Rate Linked Note Conditions, the Foreign Exchange (FX) Rate Linked Note Conditions shall prevail. In the event of any inconsistency between the Foreign Exchange (FX) Rate Linked Note Conditions and the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the Conditions and/or the Foreign Exchange (FX) Rate Linked Note Conditions and (ii) the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be), the Applicable Transaction Terms or the Drawdown Prospectus (as the case may be) shall prevail.

**1. Non-EM Valuation and Disruption Provisions**

The provisions of this Foreign Exchange (FX) Rate Linked Note Condition 1 apply unless EM Foreign Exchange (FX) Rate Provisions are specified as applicable in respect of a Subject Currency in the Applicable Transaction Terms.

**(a) Disruption Events**

The occurrence of any of the following events, in respect of any Base Currency, Subject Currency and/or Subject Currencies, shall be a "**Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation; or
- (viii) Renminbi Currency Event, where this is specified as applicable in the Applicable Transaction Terms; and/or

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (viii) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Noteholders in accordance with Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of the Disrupted Day, would have been an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be. Where a relevant event or circumstance would constitute both a Renminbi Currency Event and one or more of the other Disruption Events above then the Renminbi Currency Event will be deemed not to have occurred.

**(b) Consequences of a Disruption Event**

Upon a Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply the applicable Disruption Fallback in determining the consequences of the Disruption Event.

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED NOTES

**"Disruption Fallback"** means a source or method that may give rise to an alternative basis for determining the Settlement Price when a Disruption Event occurs or exists on a day that is an Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published or announced by the Price Source). The Calculation Agent shall take the relevant actions specified in either paragraph (i), (ii) or (iii) below:

- (i) if an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day, the Calculation Agent will determine that the relevant Averaging Date or Settlement Price Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day (in the case of the Strike Date or Valuation Date) or Valid Date (in the case of an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day), unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the originally scheduled Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, is a Disrupted Day in which case the Calculation Agent may determine that the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be (irrespective, in the case of an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day, of whether that last consecutive Scheduled Trading Day is already an Averaging Date, Observation Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be) and may determine the Settlement Price by using commercially reasonable efforts to determine a Settlement Price as of the Valuation Time on the last such consecutive Scheduled Trading Day taking into consideration all available information that in good faith it deems relevant; or
  - (ii) if an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being not applicable in the Applicable Transaction Terms, on giving notice to Noteholders in accordance with Condition 14 (*Notices*), the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Noteholders in accordance with Condition 14 (*Notices*); or
  - (iii) if an Averaging Date, any Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being applicable in the Applicable Transaction Terms, the Calculation Agent shall calculate the fair market value of each Note less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Foreign Exchange (FX) Disruption Amount**") as soon as practicable following the occurrence of the Disruption Event (the "**Calculated Foreign Exchange (FX) Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to (x) the Calculated Foreign Exchange (FX) Disruption Amount plus interest accrued on the Calculated Foreign Exchange (FX) Disruption Amount on a daily basis from and including the Calculated Foreign Exchange (FX) Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its principal amount.
- (c) **Postponement of payment or settlement days**

Where any Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is postponed as a consequence of the provisions of this Foreign Exchange (FX) Rate Linked Note Condition 1, then the corresponding date for payment or delivery of any asset shall fall on the later of (a) the date for such payment or delivery otherwise determined in accordance with the Applicable Transaction Terms and (b) the day falling on the Number of Postponement Settlement Days specified in the Applicable Transaction Terms (or, if none are so specified, two Business Days) after the

**ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX)  
RATE LINKED NOTES**

last occurring Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock out Determination Day, as the case may be.

**2. EM Currency Valuation and Disruption Provisions**

The provisions of this Foreign Exchange (FX) Rate Linked Note Condition 2 apply where EM Foreign Exchange (FX) Rate Provisions are specified as applicable in respect of a Subject Currency in the Applicable Transaction Terms.

**(a) EM Disruption Events**

If so specified in the Applicable Transaction Terms, the occurrence of any of the following events, in respect of any Base Currency, Subject Currency and/or Subject Currencies, shall be an "**EM Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation;
- (viii) Price Materiality;
- (ix) Renminbi Currency Event, where this is specified as applicable in the Applicable Transaction Terms; and/or

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (ix) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Noteholders in accordance with Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any day that, but for the occurrence of the Disrupted Day, would have been an Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be. Where a relevant event or circumstance would constitute both a Renminbi Currency Event and one or more of the other EM Disruption Events above then the Renminbi Currency Event will be deemed not to have occurred.

**(b) Consequences of an EM Disruption Event**

Upon an EM Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant EM FX Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the EM Disruption Event: (a) EM Calculation Agent Determination where the applicable EM Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable EM Disruption Fallback where the applicable EM Disruption Event is a Price Source Disruption or Price Materiality.

**(c) Unscheduled Holiday**

If the Calculation Agent determines that a date that would otherwise have been a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is an Unscheduled Holiday in respect of a Subject Currency, then such date shall be the immediately succeeding Scheduled Trading Day after the occurrence of the Unscheduled Holiday, subject as provided above, and provided that if such Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, has not occurred on or before the EM Maximum Days of

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED NOTES

Postponement following the originally designated Averaging Date, Settlement Price Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, then the next Scheduled Trading Day after such period that would have been a Scheduled Trading Day but for the Unscheduled Holiday shall be deemed to be the relevant date for valuation and the Settlement Price shall be determined by the Calculation Agent on such day in its sole discretion acting in good faith having taken into account relevant market practice and by reference to such additional source(s) as it deems appropriate.

### (d) **Cumulative Events**

If "Cumulative Events" is specified as applicable in the Applicable Transaction Terms in respect of a Settlement Currency then, in no event shall the total number of consecutive calendar days during which a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is deferred due to either (i) an Unscheduled Holiday or (ii) an EM Valuation Postponement (or a combination of both (i) and (ii)) exceed the EM Maximum Cumulative Days of Postponement in the aggregate. If a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, is postponed by the number of calendar days equal to the EM Maximum Cumulative Days of Postponement and at the end of such period (i) an Unscheduled Holiday shall have occurred or be continuing on the day immediately following such period (the "**Final Day**"), then such Final Day shall be deemed to be the Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, and (ii) if a Price Source Disruption shall have occurred or be continuing on the Final Day, then Valuation Postponement shall not apply and the Settlement Price shall be determined in accordance with the next applicable EM Disruption Fallback.

### (e) **Postponement of payment or settlement days**

Where any Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is postponed as a consequence of the provisions of this Foreign Exchange (FX) Rate Linked Note Condition 2, then the corresponding date for payment or delivery of any asset shall fall on the later of (a) the date for such payment or delivery otherwise determined in accordance with the Applicable Transaction Terms and (b) the day falling on the EM Number of Postponement Settlement Days specified in the Applicable Transaction Terms (or, if none are so specified, two Business Days) after the last occurring Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be.

## 3. **Knock-in Event and Knock-out Event**

(a) This Foreign Exchange (FX) Rate Linked Note Condition 3 is applicable only:

(i) if "Knock-in Event" is specified as applicable in the Applicable Transaction Terms, in which case any payment under the Notes which is expressed in the Conditions to be subject to a Knock-in Event shall be conditional upon the occurrence of such Knock-in Event; or

(ii) if "Knock-out Event" is specified as applicable in the Applicable Transaction Terms, in which case any payment under the Notes which is expressed in the Conditions to be subject to a Knock-out Event shall be conditional upon the occurrence of such Knock-out Event.

(b) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the Applicable Transaction Terms is the Valuation Time or, as the case may be, EM Valuation Time and if a Disruption Event or an EM Disruption Event would otherwise have occurred on any Knock-in Determination Day or Knock-out Determination Day, then, unless otherwise specified in the Applicable Transaction Terms, such Knock-in Determination Day or Knock-out Determination Day will be deemed not to be a Knock-in Determination Day or Knock-out Determination Day for the purposes of determining the occurrence of a Knock-in Event or a Knock-out Event.

(c) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the Applicable Transaction Terms is any time or period of time other than the Valuation Time or, as the case may be, EM Valuation Time during the regular trading hours for the Base Currency, Subject Currency and/or Subject Currencies and if on any Knock-in Determination Day or Knock-out Determination Day and at any time during the one-hour period that begins or ends at the time at which a Knock-in Event or Knock-out Event would otherwise have occurred, a Disruption Event or an EM Disruption Event occurs or exists, then, unless

## ANNEX 6 – ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED NOTES

otherwise specified in the Applicable Transaction Terms, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred.

### 4. Automatic Early Redemption Event

If "**AER Value Automatic Early Redemption Event**" is specified as applicable in the Applicable Transaction Terms, then:

- (a) unless Condition 20(c) (*Automatic Early Redemption Event*) applies, unless previously redeemed or purchased and cancelled, if (i) on any Automatic Early Redemption Valuation Date or (ii) in respect of an Automatic Early Redemption Valuation Period, as specified in the Applicable Transaction Terms, an Automatic Early Redemption Event occurs, all but not some only of the Notes will be automatically redeemed on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or the last day of the relevant Automatic Early Redemption Period, as applicable, and the Issuer shall redeem each Note at an amount equal to the relevant Automatic Early Redemption Amount; or
- (b) if the Notes are Physical Delivery Notes and "Automatic Early Redemption" is specified as applicable in the Applicable Transaction Terms, unless previously redeemed or purchased and cancelled, if (i) on any Automatic Early Redemption Valuation Date or (ii) in respect of an Automatic Early Redemption Valuation Period, as specified in the applicable Transaction Terms, an Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or the last day of the relevant Automatic Early Redemption Valuation Period, as applicable, and the Issuer shall redeem the Notes by delivery of the AER Entitlement, subject as provided in Condition 7(k) (*Physical Delivery*). If the date for delivery of any Entitlement in respect of the Notes is not a Settlement Business Day, the Holder thereof shall not be entitled to delivery of the AER Entitlement until the next following Settlement Business Day.

### 5. Consequences of an Additional Disruption Event

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Condition 14 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note, taking into account the Additional Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Noteholders in accordance with Condition 14 (*Notices*).

#### 1. Reference Item Linked Notes

##### (a) Use of Payout Conditions

These Payout Conditions set out the methodology for determining various payouts and product features in respect of the Notes. The applicable text shown in Payout Conditions 2 (*Interest Rates Payout Formula(e) and Final Payouts for Reference Item Linked Notes*), 3 (*Automatic Early Redemption Amounts*), 4 (*Entitlement Amounts for Physical Delivery*) and 5 (*Definitions*) will be extracted, included and completed at the paragraph indicated in the Applicable Transaction Terms on the basis that (i) applicable text (including, where appropriate, section headings and terms defined in Payout Condition 5 (*Definitions*) which are required to be completed) from the relevant Payout Condition will be set out at the paragraph indicated in the Applicable Transaction Terms and (ii) inapplicable text (and any terms defined in Payout Condition 5 (*Definitions*) which are not required to be completed) need not be included. For the avoidance of doubt, a Rate of Interest or a Final Payout may equal the sum of two or more payouts. In addition, where Payout Condition 8 (*UVR Inflation-Adjusted Notes*), Payout Condition 9 (*UDI Inflation-Adjusted Notes*) or Payout Condition 10 (*UF Inflation-Adjusted Notes*) applies, the words "adjusted by the relevant Inflation Adjusted Rate" may be added where appropriate together with the appropriate text shown in Payout Conditions 2 (*Interest Rates Payout Formula(e) and Final Payouts for Reference Item Linked Notes*), 3 (*Automatic Early Redemption Amounts*), 4 (*Entitlement Amounts for Physical Delivery*) and 5 (*Definitions*).

If a Variable Data has a value of either zero or one, or is not applicable in respect of the relevant formula(e), then the related formula(e) may be simplified, for the purpose of improving the reading and intelligibility in the formula(e) in Applicable Transaction Terms, by deleting such Variable Data.

### 6. Settlement Exchange Rate Provisions

If Settlement Exchange Rate Provisions and Settlement Currency Payment are both specified as applicable in the Applicable Transaction Terms, then notwithstanding the Notes are denominated in, and calculations made in respect of, the Specified Currency (the "**SER Subject Currency**"), all payments shall be made in the Settlement Currency (the "**Settlement Currency**" or the "**SER Base Currency**").

The Calculation Agent will determine the amount to be paid in the SER Base Currency by applying the Settlement Exchange Rate to the amount that would have been payable in the SER Subject Currency were it not for the provisions of this Payout Condition 6.

Any such payment shall be made on the date such payment would have otherwise been due provided that, if limb (b) of the definition of "Settlement Exchange Rate" below applies, such payment may be deferred in accordance with Payout Condition 6.1(e) (*Postponement of payment or settlement days*) if the SER Valuation Date is postponed as set out herein. No additional interest or other amount shall be payable in respect of any such delay.

If Settlement Exchange Rate Provisions are specified as applicable in the Applicable Transaction Terms but Settlement Currency Payment is specified as not applicable then instead of the above procedures the Calculation Agent will determine the Settlement Exchange Rate to be used in the determination of the Final Payout. The Maturity Date or Optional Redemption Date may also be deferred in accordance with Payout Condition 6.1(e) (*Postponement of payment or settlement days*) if the SER Valuation Date is postponed as set out herein. No additional interest or other amount will be payable in respect of any such delay.

#### 6.1 SER Valuation and Disruption Provisions

The provisions of this Payout Condition 6.1 apply where Settlement Exchange Rate Provisions are specified as applicable in the Applicable Transaction Terms and limb (b) of the definition of "Settlement Exchange Rate" below applies.

##### (a) SER Disruption Events

If so specified in the Applicable Transaction Terms, the occurrence of any of the following events, in respect of any SER Base Currency and/or SER Subject Currency, shall be a "**SER Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation;
- (viii) Price Materiality; and/or

## ANNEX 7 – ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

any other event that, in the opinion of the Calculation Agent, is analogous to any of paragraphs (i) to (viii) above (inclusive).

The Calculation Agent shall give notice as soon as practicable to Noteholders in accordance with Condition 14 (*Notices*) of the occurrence of a SER Disrupted Day on any day that, but for the occurrence of the SER Disrupted Day, would have been a SER Valuation Date.

### **(b) Consequences of a SER Disruption Event**

Upon a SER Disruption Event occurring or continuing on any SER Valuation Date (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant SER Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the SER Disruption Event: (a) Calculation Agent Determination where the applicable SER Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable SER Disruption Fallback where the applicable SER Disruption Event is a Price Source Disruption or Price Materiality.

### **(c) SER Unscheduled Holiday**

If the Calculation Agent determines that a date that would otherwise have been a SER Valuation Date is a SER Unscheduled Holiday in respect of the SER Subject Currency, then such date shall be the immediately succeeding SER Scheduled Trading Day after the occurrence of the SER Unscheduled Holiday, subject as provided above, and provided that if such SER Valuation Date has not occurred on or before the SER Maximum Days of Postponement then the next SER Scheduled Trading Day after such period that would have been a SER Scheduled Trading Day but for the SER Unscheduled Holiday shall be deemed to be the relevant date for valuation and the Settlement Exchange Rate shall be determined by the Calculation Agent on such day in its sole discretion acting in good faith having taken into account relevant market practice and by reference to such additional source(s) as it deems appropriate.

### **(d) SER Cumulative Events**

If "SER Cumulative Events" is specified as applicable in the Applicable Transaction Terms in respect of a SER Subject Currency then, in no event shall the total number of consecutive calendar days during which a SER Valuation Date is deferred due to either (i) a SER Unscheduled Holiday or (ii) a SER Valuation Postponement (or a combination of both (i) and (ii)) exceed the SER Maximum Cumulative Days of Postponement in the aggregate. If a SER Valuation Date is postponed by the number of calendar days equal to the SER Maximum Cumulative Days of Postponement and at the end of such period (i) a SER Unscheduled Holiday shall have occurred or be continuing on the day immediately following such period (the "**Final Day**"), then such Final Day shall be deemed to be the relevant SER Valuation Date and (ii) if a Price Source Disruption shall have occurred or be continuing on the Final Day, then Valuation Postponement shall not apply and the Settlement Exchange Rate shall be determined in accordance with the next applicable SER Disruption Fallback.

### **(e) Postponement of payment or settlement days**

Where any SER Valuation Date is postponed as a consequence of the provisions of this Payout Condition 6.1, then the corresponding date for payment or delivery of any assets shall fall on the later of (a) the date for such payment or delivery otherwise determined in accordance with the Applicable Transaction Terms and (b) the day falling the SER Number of Postponement Settlement Days specified in the Applicable Transaction Terms (or, if none are so specified, two Business Days) after the SER Valuation Date.

## **6.2 Consequences of a SER Additional Disruption Event**

Other than where limb (a) of the definition of "*Settlement Exchange Rate*" below applies, if the Calculation Agent determines that a SER Additional Disruption Event has occurred, the Issuer may redeem the Notes by giving notice to Noteholders in accordance with Condition 14 (*Notices*). If the Notes are so redeemed the Issuer will pay an amount to each Noteholder in respect of each Note held by him which amount shall be the fair market value of a Note, taking into account the SER Additional Disruption Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent in its sole and absolute discretion. Payments

Such adjustments may but do not have to include determining any EUA Contract Fallback Value(s).

Any obligation or role of the Issuer or Guarantor specified in these EUA Contract Linked Conditions may be performed on its behalf by the Calculation Agent.

### 5. **Correction of EUA Contract Reference Price**

With the exception of any corrections published after the day which is three EUA Contract Business Days prior to the due date for any payment under the Notes, if the EUA Contract Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the EUA Contract Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant EUA Contract as so corrected. Corrections published after the day which is three EUA Contract Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

### 6. **Rolling Futures Contract Notes**

If the Applicable Transaction Terms specify that the Notes are "**Rolling Futures Contract Notes**", the EUA Contract Reference Price in respect of the Notes will be valued by reference to rolling futures contracts each of which have delivery months that do not correspond with the term of the Notes. In such case, on or prior to the Issue Date, the Calculation Agent will select the relevant Futures Contract and for each following day until the Futures Rollover Date such futures contract will be the Futures Contract for the purposes of the EUA Contract Reference Price. On each Futures Rollover Date, the Calculation Agent will select another Futures Contract and such contract shall be the Futures Contract for the purposes of the EUA Contract Reference Price until the next occurring Futures Rollover Date. If on a Futures Rollover Date a Market Disruption Event occurs and it is impossible or materially impracticable for the Calculation Agent to select a Futures Contract and/or at such time hedge the Issuer's obligations in respect of the Notes then the provisions of EUA Contract Linked Condition 4.2 (*Consequences of a Market Disruption Event and Disruption Fallbacks*) shall apply to the Notes.

**ANNEX 8 – ADDITIONAL TERMS AND CONDITIONS FOR EUA CONTRACT LINKED  
NOTES**

**7. EUA Contract Early Redemption Amount**

- 7.1 If the Applicable Transaction Terms specify that "EUA Contract Early Redemption Amount" is applicable, notwithstanding anything to the contrary in the Conditions and in respect of the early redemption of the Notes (in all circumstances), "Early Redemption Amount" or "Early Redemption Amount (Tax)" (as the case may be), with respect to each Calculation Amount and the Early Redemption Payment Date, shall be an amount in the Specified Currency determined by the Calculation Agent, in accordance with the following formula and in respect of the last occurring Final Pricing Date. References in the Terms and Conditions to "Early Redemption Amount" shall be deemed to apply *mutatis mutandis* in respect of any "Early Redemption Amount (Tax)":

$$[(\text{Market Value} - \text{Associated Costs}) + \text{EUA Value}]$$

provided that such amount shall not be less than zero.

Where:

"**D**" means the Calculation Amount.

"**EUA Closing Value 1**" means the Relevant Price of EUA Contract 1 in respect of the relevant Final Pricing Date; and

"**EUA Closing Value 2**" means the Relevant Price of EUA Contract 2 in respect of the relevant Final Pricing Date;

"**EUA Contract 1**" is as specified in the Applicable Transaction Terms.

"**EUA Contract 2**" is as specified in the Applicable Transaction Terms.

"**EUA Initial Value 1**" means the Relevant Price of EUA Contract 1 in respect of the Initial Pricing Date;

"**EUA Value**" means, with respect to the Calculation Amount, an amount calculated by the Calculation Agent in accordance with the following formula. The EUA Value can be a positive or negative value, or zero:

$$m \times \frac{(\text{EUA Closing Value 1} - \text{EUA Closing Value 2})}{\text{EUA Initial Value 1}} \times D$$

"**m**" is as specified in the Applicable Transaction Terms.

"**Market Value**" is as specified in the Applicable Transaction Terms.

"**Pending Interest**", if applicable, is as specified in the Applicable Transaction Terms.

- 7.2 In the event that a Market Disruption Event occurs and the Issuer or, as the case may be, the Guarantor determines that the action to be taken in respect of the Market Disruption Event is to be "Termination" pursuant to EUA Contract Linked Note Condition 4.2(c) (*Termination*) or the Notes are to be early redeemed for any other reason under the Conditions or the Applicable Transaction Terms, the Calculation Agent will as soon as reasonably practicable designate a Final Pricing Date which will apply for each EUA Contract. Such scheduled Final Pricing Date will be the same for each EUA Contract but any adjustment of the Final Pricing Date for an EUA Contract pursuant to the definition of "Pricing Date" in EUA Contract Linked Condition 1 (*Definitions*) will be applied separately in respect of each EUA Contract. For example, the Final Pricing Date for one EUA Contract might be the scheduled Pricing Date, while the Final Pricing Date for the other EUA Contract might be delayed pursuant to such definition.

- 7.3 In the circumstances described in EUA Contract Linked Condition 7.2 above, the Notes shall be redeemed at their Early Redemption Amount on the Early Redemption Payment Date.

"**Early Redemption Payment Date**" means five Business Days following the last immediately occurring Final Pricing Date as the same may be adjusted pursuant to the definition of Pricing Date.

### 14. [ROC TAXATION]

## PRO FORMA FINAL TERMS

*[N.B.: To be inserted if Notes are listed on the Taipei Exchange: The following is a general description of the principal of the Republic of China ("ROC") tax consequences for investors receiving interest in respect of, or disposing of, the Notes and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.*

This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.]

### ***Interest on the Notes***

As the Issuer is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest [or deemed interest] to be paid on the Notes.

ROC corporate holders must include the interest [or deemed interest]<sup>12</sup> receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax ("AMT") is not applicable.

### ***Sale of the Notes***

In general, the sale of corporate bonds or financial bonds is subject to a 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Notes. However,

---

<sup>12</sup> Applicable for Zero Coupon Notes only.

ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the Income Basic Tax Act of the ROC (also known as the AMT Act), the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders may be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

[Specify]

15. [ROC SETTLEMENT AND TRADING]

[N.B.: To be inserted if Notes are listed on the Taipei Exchange: An investor with a securities book-entry account with a ROC securities broker and a foreign currency deposit account with a ROC bank may request the approval of the Taiwan Depository & Clearing Corporation ("TDCC") to the settlement of the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by the TDCC, the Notes may be so cleared and settled. In such circumstances, TDCC will allocate the respective Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interests in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second ROC business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one ROC business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.]

[The Notes are [not] Specified Notes for purposes of Section 871(m).] [Based on market conditions on the date of these Final Terms, the Issuer has made a preliminary determination that the Notes are [not] Specified Notes for purposes of Section 871(m). If the Notes reference a U.S. equity or an index that contains a component U.S. equity or otherwise provide direct or indirect exposure to U.S. equities and (i) are issued prior to January 1, 2027 and provide a return that does not differ significantly from the return on an investment in the underlying, or (ii) are issued on or after January 1, 2027, further analysis would be required.)*

8. [ROC TAXATION]

*[N.B.: To be inserted if Notes are listed on the Taipei Exchange:* The following is a general description of the principal of the ROC tax consequences for investors receiving interest in respect of, or disposing of, the Notes and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.

This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.]

***Interest on the Notes***

As the Issuer is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest [or deemed interest] to be paid on the Notes.

## PRO FORMA PRICING SUPPLEMENT

ROC corporate holders must include the interest [or deemed interest]<sup>6</sup> receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax ("AMT") is not applicable.

### *Sale of the Notes*

In general, the sale of corporate bonds or financial bonds is subject to a 0.1 per cent. securities transaction tax ("STT") on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the ordinary income tax calculated pursuant to the Income Basic Tax Act of the ROC (also known as the AMT Act), the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders may be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

## 9. [ROC SETTLEMENT AND TRADING]

[N.B.: To be inserted if Notes are listed on the Taipei Exchange: An investor with a securities book-entry account with a ROC securities broker and a foreign currency deposit account with a ROC bank may request the approval of the Taiwan Depository & Clearing Corporation ("TDCC") to the settlement of the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg and if such approval is granted by the TDCC, the Notes may be so cleared and settled. In such circumstances, TDCC will allocate the respective Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to

the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interests in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second ROC business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one ROC business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.]

## FORM OF NOTES

**General**

Unless otherwise specified in the Applicable Transaction Terms, the Notes shall be represented initially by one or more Notes in global form.

Registered Notes shall be represented initially by (i) one or more global Notes in registered form, without Coupons (each, a "**Global Note Certificate**") or (ii) one or more definitive Notes in registered form, without Coupons (each, a "**Definitive Note Certificate**").

If so specified in the Applicable Transaction Terms, Registered Notes may be represented, in whole or in part, by a U.S. Global Note Certificate (as defined below), that is registered in the name of DTC, as depository, or a successor or nominee thereof, and which shall be deposited on behalf of the purchasers thereof with a custodian for DTC. Beneficial interests in the Restricted U.S. Global Note Certificates and Unrestricted U.S. Global Note Certificates (each as defined below) shall be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Purchasers of Notes may elect to hold interests in Restricted U.S. Global Note Certificates or, as the case may be, Unrestricted U.S. Global Note Certificates through any of DTC (in the United States), Clearstream, Luxembourg or Euroclear if they are participants in such systems or indirectly through organisations which are participants in such systems.

If so specified in the Applicable Transaction Terms, Registered Notes may be represented, in whole or in part, by an International Global Note Certificate (as defined below) that is deposited with or on behalf of a common depository or, in the case of an International Global Note Certificate to be held under the New Safekeeping Structure (as defined below), a common safekeeper, for Euroclear and Clearstream, Luxembourg, or a nominee thereof for credit to the respective accounts of beneficial owners of the Notes represented thereby. Beneficial interests in the Restricted International Global Note Certificates and Unrestricted International Global Note Certificates (each as defined below) shall be represented through book-entry accounts of participants in Euroclear and/or Clearstream, Luxembourg. Purchasers of Notes may elect to hold interests in Restricted International Global Note Certificates or, as the case may be, Unrestricted International Global Note Certificates through any of Euroclear or Clearstream, Luxembourg if they are participants in such systems or indirectly through organisations which are participants in such systems. International Global Note Certificates will be subject to the restrictions and procedures referred to under "*International Global Note Certificates*" below.

If so specified in the Applicable Transaction Terms, Registered Notes may be represented, in whole or in part, by a Definitive Note Certificate registered in the name of the holder thereof.

Bearer Notes shall be represented initially by a temporary global Note in bearer form, without Coupons (a "**Temporary Global Note**"), which shall be deposited (a) in the case of a global Note which is not intended to be issued in new global note form (a "**Classic Global Note**" or "**CGN**"), as specified in the relevant Applicable Transaction Terms, with or on behalf of a common depository located outside the United States for Euroclear and Clearstream, Luxembourg; or (b) in the case of a global Note which is intended to be issued in new global note form (a "**New Global Note**" or "**NGN**"), as specified in the relevant Applicable Transaction Terms, with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Beneficial interests in such Temporary Global Note shall be exchangeable for beneficial interests in a permanent global Note in bearer form, without coupons (a "**Permanent Global Note**" and each of a Temporary Global Note and a Permanent Global Note, a "**Global Note**"), in an equal aggregate principal amount, not earlier than the 40th day after the applicable closing date upon certification of non-U.S. ownership, as set forth in the Programme Manual. Such exchange will be made upon certification to the effect that the holder is (i) a person that is not a United States person, (ii) a United States person that is (A) a foreign branch of a United States financial institution (as defined in United States Treasury Regulations Section 1.165-12(c)(1)(iv)) subscribing for or purchasing for its own account or for resale or (B) a United States person who acquired Notes through a foreign branch of a United States financial institution and who holds the Notes through such financial institution on the date of such certification (and in each case (A) or (B), that the financial institution agrees to comply with the requirements of section 165(j)(3)(A), (B) or (C) of the United States Internal Revenue Code of 1986 and the United States Treasury Regulations promulgated thereunder) or (iii) a financial institution that acquired Notes for purposes of resale during the restricted period (as defined in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7) (or any successor United States Treasury Regulations Section including, without limitation, regulations issued in accordance with U.S. Internal Revenue Service Notice 2012-20 or otherwise in connection with the U.S. Hiring Incentives to Restore Employment Act of 2010)), and such financial institution certifies that it has not acquired the Notes for purposes of resale directly or indirectly within the United States or its possessions or to a United States person. A financial institution,

whether or not described in (i) or (ii) above, that purchases Notes for purposes of resale during the restricted period, may only give the certification described in (iii) above. Except in the limited circumstances described below or as otherwise set forth in the Applicable Transaction Terms, owners of beneficial interests in the Global Notes shall not be entitled to receive Notes in definitive form. For details of how Notes may be transferred see "*Terms and Conditions of the Notes – Condition 2 (Form, Denomination and Title)*".

In the United States securities market, the presumption is that settlement of all trades of Notes will occur on the basis of the trade date plus one business day.

Registered Notes may be evidenced by (i) one or more Global Note Certificates in an aggregate principal amount equal to the principal amount of the Notes of such Series, which shall be exchangeable in the limited circumstances described below for Registered Notes in definitive form, each evidenced by an individual note certificate (an "**Individual Note Certificate**") or (ii) one or more Definitive Note Certificates in an aggregate principal amount equal to the principal amount of the Notes of such Series.

Bearer Notes will initially be issued in the form of a Temporary Global Note, without Coupons, in an initial aggregate principal amount equal to the principal amount of the Notes of such Series, which shall be exchangeable as described below.

Where the Global Notes issued in respect of any Tranche are in NGN form or the International Global Note Certificates are held under the New Safekeeping Structure ("**NSS**"), as the case may be, the Applicable Transaction Terms will also indicate whether or not such Global Notes or International Global Note Certificates are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes or the International Global Note Certificates are so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for NGNs and International Global Note Certificates which are held under NSS will either be Euroclear or Clearstream, Luxembourg or another entity approval by Euroclear or Clearstream, Luxembourg.

A Note may be accelerated by the Noteholder(s) in certain circumstances described in Condition 10 (*Events of Default*). In such circumstances, where any Note is still represented by a Global Note or a Global Note Certificate and the Global Note or Global Note Certificate (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes or the Maturity Date has occurred and, in either case, the payment in full of the amount due has not been made in accordance with the provisions of the Global Note or Global Note Certificate then from 5.00 p.m. (London time) on such day, each account holder which has Notes represented by such Global Note or Global Note Certificate credited to its securities accounts with Euroclear and/or Clearstream, Luxembourg, as the case may be, will become entitled to proceed directly against the Issuer and will acquire all those rights that it would have had if at the relevant time it held, executed and authenticated Notes in definitive form in respect of the relevant Notes (including the right to claim and receive all payments due at any time in respect of the relevant Notes) subject to and in accordance with the terms of a deed of covenant (the "**Deed of Covenant**") dated 2 July 2024 and executed by the Issuer, and the relevant Global Note or Global Note Certificate and, from that time, the holder of the Global Note or Global Note Certificate will have no further rights under such Global Note or Global Note Certificate (but without prejudice to the rights which the holder or any other person may have under the Deed of Covenant).

### **Registered Notes**

#### **Registered Notes in global form**

##### *General*

Unless otherwise specified in the relevant Applicable Transaction Terms, Registered Notes of the same Series will be represented, in whole or in part, by either (i) a Restricted Global Note Certificate and/or an Unrestricted Global Note Certificate that is registered in the name of a nominee for DTC and deposited on or about the relevant issue date with the custodian for DTC, for credit to the respective accounts of beneficial owners of the Notes represented thereby (respectively, a "**Restricted U.S. Global Note Certificate**" and an "**Unrestricted U.S. Global Note Certificate**" and each a "**U.S. Global Note Certificate**") or (ii) a Restricted Global Note Certificate and/or an Unrestricted Global Note Certificate that is either (a) registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common depositary (in the case of a Certificate that is not to be held under the New Safekeeping Structure),

or (b) registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common safekeeper (in the case of a Certificate that is to be held under the New Safekeeping Structure), in each case for credit to the respective accounts of beneficial owners of the Notes represented thereby (respectively, a "**Restricted International Global Note Certificate**" and an "**Unrestricted International Global Note Certificate**" and each an "**International Global Note Certificate**").

Where the Registered Global Notes issued in respect of any Tranche are intended to be held under the NSS, the applicable Final Terms will indicate whether or not such Registered Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Registered Global Notes are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The common safekeeper for a Registered Global Note held under the NSS will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

U.S. Global Note Certificates and International Global Note Certificates will be sold in reliance on specific registration exemptions of the Securities Act. U.S. Global Note Certificates will be subject to special restrictions and procedures referred to under "*U.S. Global Note Certificates*" below, and International Registered Global Notes will be subject to special restrictions and procedures referred to under "*International Global Note Certificates*" below.

### *U.S. Global Note Certificates*

Notes that are sold in reliance on Rule 144A will be represented by a Restricted U.S. Global Note Certificate, unless otherwise specified in the Applicable Transaction Terms. A Restricted U.S. Global Note Certificate in the form provided in the Programme Manual (and any Notes issued in exchange therefor) will be subject to certain restrictions on transfer set forth therein and will bear the legend regarding such restrictions described under "*Transfer Restrictions*".

Registered Notes that are sold outside the United States in reliance on Regulation S will be represented by an Unrestricted U.S. Global Note Certificate, unless otherwise specified in the Applicable Transaction Terms. On or prior to the 40th day after the later of the commencement of the offering and the date of delivery of the Notes represented by an Unrestricted U.S. Global Note Certificate, a beneficial interest therein may be transferred to a person who takes delivery in the form of an interest in a Restricted U.S. Global Note Certificate of the same Series, but only upon receipt by the Registrar of a written certification from the transferor (in the form provided in the Programme Manual) to the effect that such transfer is being made to a person who the transferor reasonably believes is purchasing for its own account or accounts as to which it exercises sole investment discretion and that such person and each such account is a QIB within the meaning of Rule 144A, in each case in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States or any other jurisdiction. After such 40th day, such certification requirement will no longer apply to such transfers.

Beneficial interests in a Restricted U.S. Global Note Certificate may be transferred to a person who takes delivery in the form(s) of an interest in an Unrestricted U.S. Global Note Certificate of the same Series, whether before, on or after such 40th day, but only upon receipt by the Registrar of a written certification from the transferor (in the form provided in the Programme Manual) to the effect that such transfer is being made outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act or pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available) and that, if such transfer occurs on or prior to such 40th day, the interest transferred will be held immediately thereafter through Euroclear or Clearstream, Luxembourg.

Any beneficial interest in a U.S. Global Note that is transferred to a person who takes delivery in the form of a beneficial interest in another U.S. Global Note Certificate of the same Series will, upon transfer, cease to be a beneficial interest in the first mentioned U.S. Global Note Certificate, will become a beneficial interest in such other U.S. Global Note Certificate and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other U.S. Global Note Certificate for as long as it remains such a beneficial interest.

*Book-Entry System (DTC)*

Upon the issuance of a U.S. Global Note Certificate, DTC or its custodian will credit, on its internal system, the respective principal amount of the individual beneficial interests represented by such U.S. Global Note Certificate to the accounts of persons who have accounts with DTC. Ownership of beneficial interests in a U.S. Global Note Certificate will be limited to persons who have accounts with DTC (including Euroclear and Clearstream, Luxembourg), or persons who hold interests through participants. Ownership of beneficial interests in a U.S. Global Note Certificate will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants), which may include Euroclear and Clearstream, Luxembourg, as described below.

So long as DTC, or its nominee, is the registered holder of a U.S. Global Note Certificate, DTC or such nominee, as the case may be, will be considered the sole owner and holder of the Notes represented by such U.S. Global Note Certificate for all purposes under the Agency Agreement and the Notes. Unless DTC notifies the Issuer that it is unwilling or unable to continue as depository for such Note, or ceases to be a "clearing agency" registered under the Exchange Act, or an Event of Default has occurred and is continuing with respect to such Note, DTC is at any time unwilling or unable to continue as a depository and a successor depository is not appointed by the Issuer within 90 days or, in respect of an Unrestricted U.S. Global Note Certificate only, Euroclear or Clearstream, Luxembourg or DTC is closed for business for a continuous period of 14 days or announces an intention to permanently cease business or an Event of Default has occurred and is continuing with respect to such Note, the Issuer will (i) issue Restricted Individual Note Certificates in exchange for the relevant Restricted U.S. Global Note Certificate and/or (ii) issue an Unrestricted Individual Note Certificate in exchange for the relevant Unrestricted U.S. Global Note Certificates. In the case of Restricted Individual Note Certificates issued in exchange for Restricted U.S. Global Note Certificates, such Restricted Individual Note Certificates will bear, and be subject to, the legend described under "*Transfer Restrictions*". Except in the limited circumstances described in this paragraph, owners of beneficial interests in a U.S. Global Note Certificate will not be entitled to receive physical delivery of Individual Note Certificates. In addition, no beneficial owner of an interest in a U.S. Global Note Certificate will be able to transfer that interest except in accordance with DTC's applicable procedures (in addition to those under the Agency Agreement and, if applicable, those of Euroclear and Clearstream, Luxembourg as participants of DTC).

Investors may hold their interests in an Unrestricted U.S. Global Note Certificate through Euroclear or Clearstream, Luxembourg (as participants of DTC), if they are participants in such systems, or indirectly through organisations which are participants in such systems. Beginning 40 days after the later of the commencement of the offering and the date of delivery of the Notes represented by such Unrestricted U.S. Global Note Certificate (but not earlier), investors may also hold such interests through organisations other than Euroclear and Clearstream, Luxembourg that are participants in the DTC system. Euroclear and Clearstream, Luxembourg will hold interests in an Unrestricted U.S. Global Note Certificate on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories, which in turn will hold such interests in customers' securities accounts in the depositories' names on the books of DTC.

Investors may hold their interests in a Restricted U.S. Global Note Certificate directly through DTC, if they are participants in such system, or indirectly through organisations which are participants in such system.

Payments of the principal of and any premium, interest, and other amounts on any U.S. Global Note Certificate will be made to DTC or its nominee, as the registered owner thereof. Neither the Issuer, the Guarantor, the Registrar, the Transfer Agent nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a U.S. Global Note Certificate or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that DTC or its nominee, upon receipt of any payment in respect of a U.S. Global Note Certificate held by it or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such U.S. Global Note Certificate as shown on the records of DTC or its nominee. The Issuer also expects that payments by participants to owners of beneficial interests in a U.S. Global Note Certificate held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in accordance with DTC's procedures and will be settled in same-day funds. The laws of some states of the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in a U.S. Global Note Certificate to such persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in a U.S. Global Note Certificate to pledge such interest to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate of such interest. Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Notes described above, cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear or Clearstream, Luxembourg participants, on the other hand, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, Luxembourg, as the case may be, by its respective depository; however, such crossmarket transactions will require delivery of instructions to Euroclear or Clearstream, Luxembourg, as the case may be, by the counterparty in such system in accordance with its rules and procedures and within its established deadlines. Euroclear or Clearstream, Luxembourg, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in any U.S. Global Note Certificate in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to the depositories for Euroclear or Clearstream, Luxembourg.

Because of time zone differences, the securities account of a Euroclear or Clearstream, Luxembourg participant purchasing an interest in a U.S. Global Note Certificate from a DTC participant will be credited during the securities settlement processing day (which must be a business day for Euroclear or Clearstream, Luxembourg, as the case may be) immediately following the DTC settlement date and such credit of any transactions in interests in a U.S. Global Note Certificate settled during such processing day will be reported to the relevant Euroclear or Clearstream, Luxembourg participant on such day. Cash received in Euroclear or Clearstream, Luxembourg as a result of sales of interests in a U.S. Global Note Certificate by or through a Euroclear or Clearstream, Luxembourg participant will be received for value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream, Luxembourg cash account only as of the business day following settlement in DTC.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of a U.S. Global Note Certificate (including the presentation of Notes for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in such U.S. Global Note Certificate are credited and only in respect of such portion of the aggregate principal amount of such U.S. Global Note Certificate as to which such participant or participants has or have given such direction. However, if there is an Event of Default under a U.S. Global Note Certificate, DTC will exchange such U.S. Global Note Certificate for Individual Note Certificates, which it will distribute to its participants.

DTC has advised the Issuer as follows: DTC is a limited purpose trust company organised under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organisations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in the U.S. Global Note Certificates among participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither the Issuer nor the Guarantor will have any responsibility for the performance by DTC, Clearstream, Luxembourg or Euroclear or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

### *International Global Note Certificates*

If so specified in the Applicable Transaction Terms, Registered Notes sold to qualified institutional buyers in reliance on Rule 144A under the Securities Act will initially be represented, in whole or in part, by a Restricted International Global Note Certificate. If so specified in the Applicable Transaction Terms, Registered Notes sold to non-U.S. persons outside the United States in reliance on Regulation S will be represented, in whole or in part, by an Unrestricted International Global Note Certificate. International Global Note Certificates will be either (i) registered in the name of a common depository (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common depository (in the case of a Certificate that is not to be held under the New Safekeeping Structure), or (ii) registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and deposited on or about the relevant issue date with such common safekeeper (in the case of a Certificate that is to be held under the New Safekeeping Structure), in each case for credit to the respective accounts of beneficial owners of the Notes represented thereby.

Investors may hold their interests in an International Global Note Certificate through Euroclear or Clearstream, Luxembourg, if they are participants in such systems, or indirectly through organisations that are participants in such systems. Euroclear and Clearstream, Luxembourg will hold interests in an International Global Note Certificate on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories or safekeepers, as applicable.

So long as the common depository, or, in the case of a Certificate to be held under the New Safekeeping Structure, the common safekeeper, or the relevant nominee, is the registered holder of an International Global Note Certificate, the common depository, common safekeeper or such nominee, as the case may be, will be considered the sole owner and holder of the Notes represented by the relevant International Global Note Certificate for all purposes under the Agency Agreement and such Notes. Holders of beneficial interests in an International Global Note Certificate will not be entitled to have any portion of such International Global Note Certificate registered in their names, will not receive or be entitled to receive delivery of Individual Note Certificates in exchange for their interests in an International Global Note Certificate and will not be considered the owners or holders of such International Global Note Certificate (or any Notes represented thereby) under the Agency Agreement or the Notes. In addition, no beneficial owner of an interest in an International Global Note Certificate will be able to transfer that interest except in accordance with applicable procedures of Euroclear and Clearstream, Luxembourg (in addition to those under the Agency Agreement referred to herein).

Payments of the principal of and any premium, interest and other amounts on any International Global Note Certificate will be made to the common depository, common safekeeper or its nominee as the registered owner thereof. Neither the Issuer, the Guarantor, the Registrar, the Transfer Agent nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in an International Global Note Certificate or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that each of Euroclear and Clearstream, Luxembourg, upon receipt of any such payment in respect of an International Global Note Certificate represented by a Global Note Certificate held by a common depository or common safekeeper (or its nominee), will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the International Global Note Certificate evidenced by such Global Note Certificate as shown on the records of Euroclear or Clearstream, Luxembourg, as the case may be. The Issuer also expects that payments by participants to owners of beneficial interests in an International Global Note Certificate held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in accordance with the rules of Euroclear and/or Clearstream, Luxembourg and will be settled in immediately available funds.

International Global Note Certificates will bear a legend to the effect set forth in "*Transfer Restrictions*". Book-entry interests in International Global Note Certificates will be subject to the restrictions on transfers and certification requirements discussed under "*Transfer Restrictions*".

Transfer of ownership interests in a Restricted International Global Note Certificate ("**Restricted Book-Entry Interests**") to persons wishing to take delivery of Restricted Book-Entry Interests will at all times be subject to such transfer restrictions.

Restricted Book-Entry Interests may be transferred to a person who takes delivery in the form of any ownership interests in an Unrestricted International Global Note Certificate ("**Unrestricted Book-Entry Interests**") only upon delivery by the transferor of a written certification (in the form provided in the Programme Manual) to the effect that such transfer is being made in accordance with Regulation S or Rule 144 (if available) under the Securities Act. Prior to 40 days after the date of initial issuance of the Notes, ownership of Unrestricted Book-Entry Interests will be limited to persons that have accounts with Euroclear or Clearstream, Luxembourg or persons who hold interests through Euroclear or Clearstream, Luxembourg and any sale or transfer of such interest to U.S. persons shall not be permitted during such period unless such resale or transfer is made pursuant to Rule 144A.

Unrestricted Book-Entry Interests may be transferred to a person who takes delivery in the form of Restricted Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Programme Manual) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Transfer Restrictions*" and in accordance with any applicable securities laws of any other jurisdiction.

Any beneficial interest in an International Global Note Certificate that is transferred to a person who takes delivery in the form of a beneficial interest in another International Global Note Certificate will, upon transfer, cease to be a beneficial interest in the first mentioned International Global Note Certificate and will become a beneficial interest in such other International Global Note Certificate and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other International Global Note Certificate for as long as it remains such a beneficial interest.

#### **Registered Notes in definitive form**

If specified in the Applicable Transaction Terms, Registered Notes may be represented on issue by Definitive Note Certificates, registered in the name of the holder thereof.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 7(b) (*Registered Notes*)) immediately preceding the due date for payment in the manner provided in that Condition.

#### *Modifications to the Conditions of Notes represented by Global Note Certificates*

*Physical Delivery in relation to International Global Note Certificates:* In order to obtain delivery of any Entitlement in respect of any Physical Delivery Note represented by an International Global Note Certificate, any Asset Transfer Notice should be delivered to the Principal Paying Agent in the manner acceptable to Euroclear or Clearstream, Luxembourg which is expected to be by authenticated SWIFT message and must include an irrevocable instruction to the relevant clearing system to debit the relevant securities account with the relevant Notes on or before the date of delivery of the Entitlement.

#### ***Bearer Notes***

Bearer Notes shall initially be issued in the form of a Temporary Global Note, without Coupons, in an initial aggregate principal amount equal to the principal amount of the Notes of such Series, which shall be exchangeable, unless otherwise specified in the Applicable Transaction Terms, (i) for a Permanent Global Note, without Coupons attached, which shall in turn be exchangeable (in whole, but not in part) in limited circumstances in the form of definitive Bearer Notes, with or without Coupons attached, or for interests in a Certificate of such Series, (ii) in whole but not in part, directly for definitive Bearer Notes, with or without Coupons attached, which shall in turn be exchangeable at the option of the Noteholder for interests in a Certificate of such Series or (iii) directly for interests in a Certificate. Purchasers in the United States (including its territories, its possessions and other areas subject to its jurisdiction) will not be able to receive Bearer Notes.

The Principal Paying Agent shall deliver each Temporary Global Note executed and authenticated: (1) in the case of a Classic Global Note, to the common depository; or (2) in the case of an NGN, to the common safekeeper in each case for the benefit of Euroclear and Clearstream, Luxembourg for credit against payment in immediately available funds on the date of settlement to the respective accounts of the holders of the Notes of the Series represented by such Temporary Global Note.

## FORM OF NOTES

The bearer of a Global Note will be considered the sole owner and holder of the Notes represented by such Global Note for all purposes under the Agency Agreement and such Notes. Owners of beneficial interests in a Global Note will not be considered the owners or holders of such Global Note (or any Notes represented thereby) under the Agency Agreement or the Notes. In addition, no beneficial owner of an interest in a Global Note will be able to transfer that interest except in accordance with applicable procedures of Euroclear and Clearstream, Luxembourg (in addition to those under the Agency Agreement referred to herein).

Payments of the principal of and any premium, interest and other amounts on any Global Note will be made to the bearer thereof. Neither the Issuer, the Guarantor nor any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a Global Note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Issuer expects that each of Euroclear and Clearstream, Luxembourg, upon receipt of any such payment in respect of a Global Note held by a common depositary or its nominee or by a common safekeeper, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Note as shown on the records of Euroclear or Clearstream, Luxembourg, as the case may be. The Issuer also expects that payments by participants to owners of beneficial interests in a Global Note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

On or after the date (the "**Exchange Date**") which is the earlier of (i) the first Business Day following the expiration of a period of 40 days after the date on which the Notes of such Series were issued and (ii) the first day on which interest, if any, is paid on the Notes of such Series, beneficial interests in the Temporary Global Note of a Series as to which the Principal Paying Agent has received certification as to the non-U.S. beneficial ownership thereof as required by United States Treasury Regulations and as set forth in the Programme Manual, interests in the Temporary Global Note will, upon presentation thereof to or to the order of the Principal Paying Agent, be exchanged (i) for interests in a Permanent Global Note of such Series, (ii) directly for interests in a Global Note Certificate of such Series, or (iii) in whole but not in part, directly for one or more definitive Bearer Notes of the same Series, in each case pursuant to the procedures set forth in the next paragraph, with respect to that portion of such Temporary Global Note; provided, however, that, if definitive Bearer Notes and (if applicable) Coupons have already been issued in exchange for a portion of such Temporary Global Note or for all of the Notes represented for the time being by such Permanent Global Note because Euroclear and/or Clearstream, Luxembourg do not regard the Permanent Global Note to be fungible with such definitive Bearer Notes, then such Temporary Global Note may only thereafter be exchanged for definitive Bearer Notes and (if applicable) Coupons pursuant to the terms of the Agency Agreement and of such Notes.

If the Applicable Transaction Terms specifies that a Temporary Global Note is exchangeable for definitive Bearer Notes or a Permanent Global Note becomes exchangeable for definitive Bearer Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of definitive Bearer Notes (or, as described below, Certificates) to the order of the Principal Paying Agent within 30 days of the bearer requesting exchange, and, in the case of a Temporary Global Note in respect of which the Applicable Transaction Terms specifies that the D Rules are applicable, upon receipt of the certifications required by United States Treasury Regulations referred to above.

Any definitive Bearer Note delivered in exchange for a beneficial interest in a Temporary Global Note or Permanent Global Note shall bear substantially the same legends as are set forth on the face of the Temporary or Permanent Global Note for which it was exchanged. No Bearer Note may be delivered nor may any interest be paid on any Bearer Note until the person entitled to receive such Bearer Note or such interest furnishes the certifications required by United States Treasury Regulations referred to above.

Where the Applicable Transaction Terms specifies that the Notes are "Exchangeable Bearer Notes" then, upon the conditions set out in the Agency Agreement, Permanent Global Notes and definitive Bearer Notes representing such Notes may be exchanged for the same aggregate principal amount of Individual Note Certificates of the same Series in authorised denominations, or, if so indicated in the Applicable Transaction Terms, for beneficial interests in a Global Note Certificate, at the request in writing of the Holder and, in the case of an exchange of definitive Bearer Notes, upon surrender of such definitive Bearer Notes to be exchanged (together with all unmatured Coupons, if any, relating to it) to the specified office of the Registrar, its duly authorised agent or any other Transfer Agent. Where, however, an Exchangeable Bearer Note is surrendered for exchange after the Clearing System Business Day before the due date for any payment of interest or any Instalment Amount, or such other record Date as may be applicable, the Coupon in respect of that payment of interest or Receipt in respect of that Instalment Amount need not be surrendered with it.

No holder of any Note may require a Permanent Global Note or definitive Bearer Note to be exchanged for a Registered Note during the period of 15 days ending on the due date for any payment of principal on that Note. Notes issued pursuant to the exchanges described above will be available from the specified office of the Registrar, its duly authorised agent or any other Transfer Agent (including the Transfer Agent located in Luxembourg).

Subject as provided below, until exchanged in full, Global Notes of a Series shall in all respects be entitled to the same benefits under the Agency Agreement as definitive Bearer Notes of such Series authenticated and delivered thereunder, except that principal of and any premium, interest, additional amounts and other amounts on a Temporary Global Note will not be payable unless a certification, as described herein, is given by the persons appearing in the records of Euroclear or Clearstream, Luxembourg as the owner of the Temporary Global Note or portions thereof being presented for payment, and unless a corresponding certification by Euroclear or Clearstream, Luxembourg shall have been delivered prior to each such date on which such amounts are to be paid.

### *Modifications to the Conditions of Notes represented by Global Notes*

Each Global Note will contain provisions which modify the Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

In relation to the Permanent Global Note only:

*Physical Delivery:* In order to obtain delivery of any Entitlement in respect of any Physical Delivery Note represented by a Global Note, any Asset Transfer Notice should be delivered to the Principal Paying Agent in the manner acceptable to Euroclear or Clearstream, Luxembourg which is expected to be by authenticated SWIFT message and must include an irrevocable instruction to the relevant clearing system to debit the relevant securities account with the relevant Notes on or before the date of delivery of the Entitlement.

The following legend will appear on all Permanent Global Notes and definitive Bearer Notes and any related Coupons or Talons relating to such Notes where TEFRA D is specified in the Applicable Transaction Terms:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections referred to in the above legend provide that a United States taxpayer, with certain exceptions, will not be permitted to deduct any loss, and will not be eligible for capital gains treatment with respect to any gain realised on any sale, exchange or redemption of Bearer Notes or any related Coupons.

Notwithstanding any other provision herein, Bearer Notes with maturities of one year or less may be issued.

### TRANSFER RESTRICTIONS

Each prospective purchaser of Notes offered in reliance on Rule 144A by accepting delivery of this Base Prospectus will be deemed to have represented and agreed that such offeree acknowledges that this Base Prospectus is personal to such offeree and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire the Notes other than pursuant to Rule 144A or in offshore transactions in accordance with Regulation S. Distribution of this Base Prospectus, or disclosure of any of its contents to any person other than such offeree and those persons, if any, retained to advise such offeree with respect thereto is unauthorised, and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold in the United States or to, or for the account of benefit of, U.S. persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has agreed that it will not offer, sell or deliver the Notes, (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date (the "**Resale Restriction Termination Date**"), within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each dealer to which it sells the Notes prior to the Resale Restriction Termination Date a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons

In addition, until 40 days after the commencement of the offering, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offer) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction.

Each purchaser of Notes offered and sold in reliance on Rule 144A will be deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- (3) Prospective purchasers are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A.
- (4) The purchaser understands that Notes of a Series offered in reliance on Rule 144A will be represented by a Restricted U.S. Global Note Certificate or, as the case may be, a Restricted International Global Note Certificate. Before any interest in such Restricted U.S. Global Note Certificate or, as the case may be, a Restricted International Global Note Certificate may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in an Unrestricted U.S. Global Note Certificate or, as the case may be, a Unrestricted International Global Note Certificate, the seller will be required to provide the Registrar with a

- (6) The purchaser will deliver to each person to whom it transfers the Notes notice of any restrictions on transfer of such Notes.

In order to effectuate the foregoing restrictions on resales and other transfers of definitive Bearer Notes or Individual Note Certificates sold, or issued in exchange for a Note sold pursuant to Rule 144A, if any resale or transfer of a Note is proposed to be made (otherwise than to or through a Dealer or in reliance on Rule 144A or Regulation S), (i) directly by the holder of a Note, or (ii) through the services of a dealer other than a Dealer, the prospective purchaser of the Note, in the case of a resale or transfer of a Note to be made directly by the holder of such note, or such dealer, in the case of a resale or transfer of such Note to be made through such dealer, shall deliver a letter to the Issuer substantially in the form provided in the Programme Manual, appropriately completed. Inquiries concerning transfers of Notes should be made to any Dealer.

The Restricted U.S. Global Note Certificates will bear a legend to the following effect unless the Issuer determines otherwise in compliance with applicable law:

"THE NOTES REPRESENTED HEREBY HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**") OR ANY U.S. STATE SECURITIES LAWS. ### **No transfer of Implicit Yield Notes other than Book-Entry Notes to Spanish Individuals**

The sale, transfer or acquisition of Implicit Yield Notes (as defined below) other than Book-Entry Notes, including, but not limited to, Zero Coupon Notes, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as an owner of Implicit Yield Notes other than as an owner of Book-Entry Notes or (ii) list any Implicit Yield Notes other than Book-Entry Notes on AIAF.

## TRANSFER RESTRICTIONS

**"Implicit Yield Notes"** means Notes in respect of which the income derives from (a) the difference between the redemption amount and the issue price of the Notes, or (b) subject to the paragraph below, a combination of (i) an explicit coupon and (ii) the difference between the redemption amount and the issue price of the Notes. For the purposes of this Base Prospectus and in accordance with Spanish tax regulations, Notes with the characteristics set out in (b) above will only be deemed Implicit Yield Notes if the interest payable in each year (explicit coupon) is lower than the Interest Rate of Reference applicable as of the Issue Date.

The **"Interest Rate of Reference"** shall be the interest rate applicable to each calendar quarter determined by reference to 80 per cent. of the weighted average rate fixed in the preceding calendar quarter for (a) three-year Spanish Government Bond issues, if the Notes have a term of four years or less, (b) five-year Spanish Government Bond issues, if the Notes have a term of more than four years but equal or less than seven years, or (c) 10, 15 or 30-year Spanish Government Bond issues, if the Notes have a term of more than seven years, all as determined by the Calculation Agent in a commercially reasonable manner.

### USE OF PROCEEDS

If so specified in the Applicable Transaction Terms, the net proceeds of the issue of each Tranche of Notes will be fully and permanently invested in the Guarantor and will allow the Guarantor:

- (a) to finance, refinance or invest in, in whole or in part, Eligible Green Assets meeting the Eligibility Criteria, in which case the relevant Notes will be identified as "Green Bonds" in the Applicable Transaction Terms ("**Green Bonds**");
- (b) to finance, refinance or invest in, in whole or in part, Eligible Social Assets meeting the Eligibility Criteria, in which case the relevant Notes will be identified as "Social Bonds" in the Applicable Transaction Terms ("**Social Bonds**"); or
- (c) to finance, refinance or invest in, in whole or in part, a combination of Eligible Green Assets and Eligible Social Assets, in each case, meeting the Eligibility Criteria, in which case the relevant Notes will be identified as "Sustainable Bonds" in the Applicable Transaction Terms ("**Sustainable Bonds**").

Otherwise and unless otherwise specified in the Applicable Transaction Terms, the net proceeds of the issue of each Tranche of Notes will be applied by the Issuer for the general corporate purposes of the Guarantor (subject to certain security arrangements, which may be entered into from time to time between the Issuer and the Guarantor).

Santander has established the relevant internal procedures for monitoring the Issuer's compliance with the Green, Social & Sustainability Funding Global Framework. Decisions relating to the selection and financing of Eligible Green Assets and Eligible Social Assets will be made by a local sustainability funding steering group consisting of senior directors and managers of the Guarantor. The steering group is also responsible for management of proceeds and ongoing reporting. In addition to this, compliance with the Green, Social & Sustainability Funding Global Framework, as well as the allocation of proceeds and the Eligible Green Assets and Eligible Social Assets alignment with the Eligibility Criteria, is also supported by external reviews provided by "Sustainalytics", as sustainability consultant, not only in the pre-issuances process, but also within the context of the relevant ad-hoc second party opinions in the event for example that additional green and social eligible categories are added to the Green, Social & Sustainability Funding Global Framework.

The Guarantor will, on an annual basis until full allocation and thereafter in case of material changes, publish an annual report containing both allocation and expected impact metrics of the proceeds of outstanding Green Bonds, Social Bonds and Sustainable Bonds.

The terms of the Green, Social & Sustainability Funding Global Framework can be amended by Santander, mainly to adapt such terms to the principles, standards and regulations in force from time to time. The amended Green, Social & Sustainability Funding Global Framework will be subject to the relevant internal and external review processes, as described. Noteholders will not be entitled to vote on such cases.

The Green, Social & Sustainability Funding Global Framework and any Tranche of Green Bonds, Social Bonds or Sustainable Bonds are or will be subject to external review and a second party opinion available at <https://www.santander.com/content/dam/santander-com/es/documentos/presentaciones-de-renta-fija/2023/06/prf-santander-gss-global-funding-framework-june-2023.pdf>

Neither the Green, Social & Sustainability Funding Global Framework, nor any of the related reports, opinions or contents of any of the web-sites referenced herein are incorporated in or form part of this Base Prospectus.

**i. Tender offer for shares of Banco Santander México, S.A., Institución de Banca Múltiple, Grupo Financiero Santander México**

On 21 October 2022, Banco Santander, S.A. ("**Banco Santander**") announced that it intends to make concurrent cash tender offers to acquire all of the shares of Banco Santander México, S.A., Institución de Banca Múltiple, Grupo Financiero Santander México ("**Santander Mexico**") in Mexico (Series B shares) and United States (American Depositary Shares ("**ADSs**")) which are not owned by the Group, which amount to approximately 3.76 per cent. of Santander Mexico's share capital.

The offers were launched on 7 February 2023 and were originally scheduled to close on 8 March 2023. On 1 March 2023, Banco Santander announced its decision to extend the expiration date of the offers so that they could be concluded on 10 April 2023. Finally, after the offers' closing, 3.6 per cent. of the capital accepted the offer, which raised the Group's stake in Santander México from 96.2 per cent. to 99.8 per cent will be settled on 13 March 2023.

Shareholders who participated in the offerings received 24.52 Mexican pesos (approximately EUR 1.20) per Share and USD 6.6876 in cash for each ADS (i.e., the equivalent in United States dollars of 122.6 Mexican pesos in cash for each ADS at the US dollar/Mexican peso exchange rate on the expiration date of 10 April 2023), which corresponded to the book value of the Santander México share according to the quarterly report of Santander México corresponding to the fourth quarter of the year 2022 in accordance with applicable legislation, with a total disbursement by Banco Santander of approximately EUR 300 million.

The operation has led to an increase of EUR 13 million in Reserves and a decrease of EUR 313 million in minority interests.

Once the offers were concluded and settled, Banco Santander proceeded to: (i) withdraw the ADSs from the listing on the New York Stock Exchange ("**NYSE**") and the Shares from the registry before the Securities and Exchange Commission ("**SEC**") in the United States and; (ii) cancel the registration of the

Shares in the National Securities Registry of the National Banking and Securities Commission ("CNBV") and withdraw the listing of the Shares in the Mexican Stock Exchange, S.A.B. de C.V. ("BMV").

Said cancellation was approved by the extraordinary general shareholders' meeting of Santander México held on 30 November 2022, with the favourable vote of the holders of the shares that represent more than 95 per cent. of the shares of Santander Mexico, as required by the Mexican Securities Market Law.

Pursuant to Mexican law, on 12 May 2023, Banco Santander and Santander México established a trust (the "**Repurchase Trust**"), to which the holders of the Shares that remain outstanding after the conclusion of the offers, to sell said Shares to the repurchase trust, at the same cash price that would have been paid to them in the Mexican offer with respect to the same. At the end of the year, said trust has already been liquidated and the Group's effective participation amounts to 99.98 per cent.

Likewise, on 26 March 2021, Banco Santander, S.A. announced its intention to make a tender offer for all shares of Banco Santander Mexico, S.A., Institución de Banca Múltiple, Santander México that were not owned by the Group (8.3 per cent. of the share capital of Santander México at that time). The announcement was subsequently supplemented by other publications on 24 May, 8 June and 28 October 2021, in which amendments to some of the terms of the offer were announced.

The offer was finally launched on 3 November 2021 and was settled on 10 December. Banco Santander accepted all of the Santander Mexico Shares and Santander Mexico American Depositary Share (ADS) (securities listed on the New York Stock Exchange, each represented 5 shares of Santander Mexico) tendered and not withdrawn representing approximately 4.5 per cent. of the share capital of Santander México. After the transaction, the Group held approximately 96.2 per cent. of Santander México share capital.

The shareholders who tendered their shares in the offer received MXN 26.5 (approximately EUR 1) per share of Santander México and USD 6.2486 in cash per each ADS (the USD equivalent of MXN 132.50 per ADS based on the USD/MXN exchange rate on the expiration date of 7 December 2021) which meant a disbursement of approximately EUR 335 million.

This transaction entailed a decrease of reserves of EUR 41 million and a decrease of EUR 294 million of minority interests.

## **ii. Agreement to acquire a significant holding in Ebury Partners Limited**

On 28 April 2020, the investment announced on 4 November 2019 in Ebury, a payments and foreign exchange platform for SMEs, was completed. The transaction involved a total disbursement of GBP 357 million (EUR 409 million) of which GBP 70 million (approximately EUR 80 million) was for new shares. By the end of 2019, the Group had already acquired 6.4 per cent. of the company for GBP 40 million (approximately EUR 45 million). Following the disbursement made in April 2020, which gave the Group 50.38 per cent. of the economic rights of the company, without the conditions to obtain control being met, this interest was recorded under 'Investments – Associated entities' in the consolidated balance sheet.

In April 2022, the Group acquired a new package of shares for GBP 113 million (EUR 135 million) and subscribed in full to a new capital increase, paying an additional GBP 60 million (EUR 72 million). Following these transactions, the Group holds 66.54 per cent. of the economic rights and control of the company.

The total value of the net assets identified in the business combination amounted to EUR 413 million, mainly intangible assets (IT developments, customer lists and brand) and resulted in the recognition of goodwill of EUR 316 million.

No gain or loss was recorded for the difference between the book value and the fair value of the previous holding as this difference was not significant.

The amount contributed by this business to the Group's net attributable profit since the date of acquisition is immaterial. Similarly, the result that this business would have contributed to the Group if the transaction had been carried out on 1 January 2022 would also have been immaterial.

## **iii. Purchase by SHUSA for shares of Santander Consumer USA**

In August 2021 Santander Holdings USA, Inc. ("SHUSA") and Santander Consumer USA Holdings Inc. ("SC") entered into a definitive agreement pursuant to which SHUSA acquired all outstanding shares of common stock of SC not already owned by SHUSA via an all-cash tender offer (the "**Tender Offer**") for USD 41.50 per SC common share (the "**Offer Price**"), followed by a second-step consisting of a merge (together with the Offer, the "**Transaction**") in which a wholly owned subsidiary of SHUSA was merged with and into SC, with SC surviving as a wholly owned subsidiary of SHUSA, and all outstanding shares of common stock of SC not tendered in the Tender Offer were converted into the right to receive the Offer Price in cash. The Offer Price represented a 14 per cent. premium to the closing price of SC common stock of USD 36.43 as of 1 July 2021, the last day prior to the announcement of SHUSA's initial offer to acquire the remaining outstanding shares of SC's common stock.

On 31 January 2022, after completion of the customary closing conditions, the Transaction was performed and SHUSA increased its share up to the 100 per cent. of SC's common stock. The transaction has meant a disbursement of USD 2,510 million (around EUR 2,239 million) for the Group, with a decrease of reserves of EUR 487 million and a decrease of EUR 1,752 million of minority interests.

**iv. Acquisition of Amherst Pierpont Securities LLC, a US fixed-income broker dealer**

On 15 July 2021, Santander Holdings USA, Inc. reached an agreement to acquire Amherst Pierpont Securities LLC, a market-leading independent fixed-income and structured products broker dealer, through the acquisition of its parent holding company, Pierpont Capital Holdings LLC, for a total consideration of approximately USD 450 million (around EUR 405 million). The operation was closed on 11 April 2022 once the pertinent regulatory approvals have been obtained. Immediately after the acquisition, SHUSA has lent financing to the company for an amount of USD 163 million (approximately EUR 147 million), which the company will use to cancel debt with third parties. Amherst Pierpont Securities LLC will become part of Santander Corporate & Investment Banking (Santander CIB) Global business line.

The business combination meant the recognition of a goodwill of EUR 158 million and EUR 24 million of intangible assets (mainly relationships with customers) identified in the purchase price allocation, without other relevant value adjustments to net assets of the business.

The amount contributed by this business to the group net attributable profit since the date of acquisition is not material. Similarly, the result that this business would have brought to the group if the transaction had been carried out on 1 January 2022 is also immaterial.

**Offshore entities**

*Spanish regulation*

According to current Spanish regulation (Law 11/2021, of 9 July, Royal Decree 1080/1991, of 5 July and Order HFP/115/2023, of 9 February), Santander has one subsidiary and three branches in the non-cooperative jurisdictions of Jersey, the Isle of Man and the Cayman Islands (offshore entities). Santander also has two other subsidiaries incorporated in non-cooperative jurisdictions that are tax resident in the UK and subject to British tax law.

**i. Offshore subsidiaries**

At the reporting date, the Group has only one subsidiary resident in Jersey, Abbey National International Limited, with activity of services, immaterial losses and no employees as of December 2023.

**ii. Offshore branches**

The Group also has three offshore branches in the Cayman Islands, the Isle of Man and Jersey. They report to, and consolidate balance sheets and income statements with, their foreign headquarters. They are taxed either with their headquarters (the Cayman Islands branch in Brazil) or in the territories they are located in (Jersey and Isle of Man, pertain to the UK).

These three offshore branches have a total of 166 employees as of December 2023.

**iii. Subsidiaries in non-cooperative jurisdictions that are tax resident in the United Kingdom**

The Group also has two subsidiaries that were incorporated in offshore jurisdictions (one in Bermuda without activity and one in Guernsey with leasing activity) but are not deemed offshore entities because they only operate from and are tax resident in the UK and, thus, are subject to British tax law.

**iv. Other offshore holdings**

From Brazil, the Group manages Santander Brazil Global Investment Fund SPC, a segregated portfolio company located in the Cayman Islands. The Group also has other non-controlling financial interest of a reduced amount in entities located in non-cooperative jurisdictions.

*The European Union (EU)*

As of October 2023, the EU blacklist comprises 16 jurisdictions where Santander is only present in The Bahamas. In this jurisdiction, Santander has one bank without third-party activity, Santander Bank & Trust Ltd., and one branch of the Swiss bank Banco Santander International SA.

These entities have a total of 26 employees as of December 2023.

In 2023, one subsidiary residing in The Bahamas moved its domicile to Spain.

Additionally, the EU grey list comprises 14 jurisdictions which have sufficiently committed to adapt their legislation to international standards, subject to monitoring by the EU. Within these jurisdictions, Santander is mainly present in Hong Kong through a branch.

*Organization for Economic Cooperation and Development (OECD)*

The Group is not present in any jurisdictions non-compliant with both OECD standards on transparency and exchange of information for tax purposes (Automatic exchange of information standard -AEOI- and Exchange of information on request standard -EOIR-) according to the last annual report of the OECD Global forum on transparency and exchange of information for tax purposes released in November 2023.

However, the Group is present in The Bahamas and Chile. Although these territories have complete legal and regulatory frameworks in place for the application of the AEOI standard, they need to improve the effectiveness of this standard.

The Group's presence in offshore territories at the end of 2023 is as follows:

| Presence of the Group in non-cooperative jurisdictions | Spanish legislation |        | Council of the EU blacklist |        | OECD <sup>a</sup> |        |

The Group has the right mechanisms (risk management, supervision, verification and review plans, and regular reporting) to prevent reputational, tax and legal risk in entities resident in non-cooperative jurisdictions. The Group also maintains its policy of reducing the number of these entities.

PricewaterhouseCoopers ("PwC") member firms audited the financial statements of the Group's offshore entities in 2023, 2022 and 2021.

Likewise, at 31 December 2021, the Bank's share capital consisted of EUR 8,670 million, represented by 17,340,641,302 shares of EUR 0.50 of nominal value each and all of them of a unique class and series.

Santander shares are listed on the London Stock Exchange under Crest Depository Interest ("CDIs"), each CDI representing one Bank's share. As of 31 December 2023, no Bank shareholder individually held more than 3 per cent. of its total share capital (which is the threshold generally provided for in Spanish regulations for mandatory notification of a significant participation in a listed company). Even though at 31 December 2023, certain custodians appeared in our shareholder registry as holding more than 3 per cent. of our share capital, we understand that those shares were held in custody on behalf of other investors, none of whom exceeded that threshold individually. These custodians were State Street Bank (14.97 per cent.), Chase Nominees Limited (6.89 per cent.), The Bank of New York Mellon Corporation (5.98 per cent.), Citibank New York (3.87 per cent.), BNP (3.09 per cent.).

#### **Other considerations**

Under Spanish law, only shareholders at the general meeting have the authority to increase share capital. However, they may delegate the authority to approve or execute capital increases to the board of directors. The Bank's Bylaws are fully aligned with Spanish law and do not establish any different conditions for share capital increases.

At 31 December 2023 the shares of the following companies were listed on official stock markets: Banco Santander Argentina S.A.; Banco Santander - Chile; Banco Santander (Brasil) S.A. and Santander Bank Polska S.A..

At 31 December 2023, the number of Bank shares owned by third parties and managed by Group management companies (mainly portfolio, collective investment undertaking and pension fund managers) or jointly managed was 36 million shares, which represented 0.22 per cent. of Bank's share capital (50 and 45 million shares, representing 0.30 per cent. and 0.26 per cent. of the share capital in 2022 and 2021, respectively). In addition, the number of Bank shares owned by third parties and received as security was 159 million shares (equal to 0.98 per cent. of the Bank's share capital).

At 31 December 2023, the capital increases in progress at Group companies and the additional capital authorised by their shareholders at the respective general meetings were not material at Group level.

**Financial information by segment****Description of segments**

The Group bases segment reporting on financial information presented to the chief operating decision maker, which excludes certain statutory results items that distort year-on-year comparisons and are not considered for management reporting. This financial information (underlying basis) is computed by adjusting reported results for the effects of certain gains and losses (capital gains, write-downs, impairment of goodwill, etc.). These gains and losses are items that management and investors ordinarily identify and consider separately to better understand the underlying trends in the business.

The Group has aligned the information in this section with the underlying information used internally for management reporting and with that presented in the Group's other public documents.

The Group's executive committee has been selected to be its chief operating decision maker. The Group's operating segments reflect its organizational and managerial structures. The executive committee reviews internal reporting based on these segments to assess performance and allocate resources.

During 2023, the segments were split by geographic area in which profits were earned or by type of business. The Group prepared the information by aggregating the figures for the Group's various geographic areas and business units, relating it to both the accounting data of the business units integrated in each segment and that provided by management information systems. The same general principles as those used in the Group were applied.

In 2023, the Group maintained the criteria applied in 2022, with two exceptions:

- In the secondary segments: usual annual customer perimeter adjustment between Retail Banking and Santander Corporate & Investment Banking and between Retail Banking and Wealth Management & Insurance.
- In the Group's financial statements: as a result of the implementation from 1 January 2023 of the amendments to IFRS 17 (new general accounting standard for insurance contracts), the Group retrospectively performed a reclassification in the balance sheet to 'Liabilities under insurance or reinsurance contracts', related to the different treatment established by this new standard for the components of an insurance contract. This reclassification was made in the corresponding segments.

For comparison purposes, the 2022 data have been restated to include these changes.

In terms of the operating segment structure, the Group maintained the two levels of segmentation applied in 2022.

**Primary Segments**

This primary level of segmentation, which is based on the Group's management structure in 2023, comprised five reportable segments: four operating areas plus the Corporate Centre. The operating areas in 2023 were:

- Europe: which comprises all business activity carried out in the region, except that included in Digital Consumer Bank. Detailed financial information is provided on Spain, the UK, Portugal and Poland.
- North America: which comprises all the business activities carried out in Mexico and the US, which includes the holding company ("SHUSA") and the businesses of Santander Bank, Santander Consumer USA ("SC USA"), the specialized business unit Banco Santander International, Santander Investment Securities ("SIS"), the New York branch and Amherst Pierpont Securities ("APS").
- South America: includes all the financial activities carried out by Santander through its banks and subsidiary banks in the region. Detailed information is provided on Brazil, Chile, Argentina, Uruguay, Peru and Colombia.
- Digital Consumer Bank: includes Santander Consumer Finance, which incorporates the entire consumer finance business in Europe, Openbank and ODS.

## Secondary Segments

At this secondary level in 2023, Santander is structured into Retail Banking, Santander Corporate & Investment Banking ("SCIB"), Wealth Management & Insurance ("WM&I") and PagoNxt.

- Retail Banking: this segment covered all customer banking businesses, including consumer finance, except those of corporate banking which are managed through SCIB and asset management, private banking and insurance, which are managed by WM&I. The results of the hedging positions in each country are also included, conducted within the sphere of their respective assets and liabilities committees.
- Santander Corporate & Investment Banking: this segment included global corporate banking, investment banking and markets worldwide including treasuries managed globally (always after the appropriate distribution with Retail Banking customers), as well as equity business.
- Wealth Management & Insurance: includes the asset management business (Santander Asset Management), the corporate unit of Private Banking and International Private Banking in Miami and Switzerland and the insurance business (Santander Insurance).
- PagoNxt: this included digital payment solutions, providing global technology solutions for our banks and new customers in the open market. It is structured in four businesses: Merchant Acquiring, International Trade, Payments and Consumer.

In addition to these operating units, both primary and secondary segments, the Group maintained the Corporate Centre, which included the centralised activities relating to equity stakes in financial companies, financial management of the structural exchange rate position, assumed within the sphere of the Group's assets and liabilities committee, as well as management of liquidity and shareholders' equity via issuances.

As the Group's holding entity, this area managed all capital and reserves and allocations of capital and liquidity with the other businesses. It did not incorporate the costs related to the Group's central services (charged to the areas), except for corporate and institutional expenses related to the Group's functioning.

#### **Strategy**

Our aim is to create a better bank in Europe, that our customers and employees will feel a close connection with and to deliver sustainable value to shareholders and society. We aim to:

- Improve our customer experience by making headway with our omnichannel strategy and adding value to our customer interactions, towards our vision of becoming a digital bank with branches.
- Grow our business, supported by the best Group assets and leveraging our unique position, as a result of our scale and geographical diversification.
- Increase efficiency by implementing a common operating model based on simplification, exploiting the Group's global scale through common platforms and services and becoming a more agile organization.
- Maximize business value and sustainable growth focused on capital-efficient opportunities and risk management.

We expect to improve performance, profitability and efficiency, while strengthening customer experience.

In 2023, we consolidated our transformation by providing more than 16 million customers with access to our common app (full migration in Poland and available in the UK), by making the shared services operating model more robust and, by increasing our ambition to work together with the launch of a new digital value proposition for sole traders. As a result of these actions, we achieved:

- sustainable business growth, increasing customer loyalty;
- efficient price and balance sheet management in a higher interest rate environment;
- strong cost discipline, which led to a better efficiency ratio, despite the inflationary environment;
- solid risk management which enabled us to keep the cost of risk under control; and
- greater shareholder value, with a RoTE of 14.5 per cent. (up from 9.3 per cent. in 2022).

2023 was marked by a complex and highly uncertain environment that accelerated the deleveraging of the economy. In this context, our priority was to remain close to our customers, reflected in 28 consecutive months of net growth inactive customers.

In Retail Banking, we continued to grow in short-term funding, while demand for long-term funding decreased in the year, impacted by the environment of rising interest rates and inflation. However, in the fourth quarter, new business rebounded, mainly in corporates and mortgages. We continued to gain market share in payrolls and PoS and in CIB, we consolidated our leadership in the main league tables.

Loans and advances to customers fell 7 per cent. year-on-year. In gross terms and excluding reverse repurchase agreements, they decreased 8 per cent.

Customer deposits fell 2 per cent. year-on-year. Minus repurchase agreements, they decreased 4 per cent., with a change of mix towards time deposits. In addition, we led the market in mutual funds, with 8 per cent. growth year-on-year.

#### **Results**

Attributable profit for the year totalled EUR 2,371 million (20 per cent. of the Group's total operating areas), 52 per cent. higher than in 2022. By line:

- Total income was up 23 per cent. propelled by net interest income, as a result of higher interest rates and customer base growth. Net fee income decreased in asset management due to a change of mix towards fixed income products and lower average volumes.

- Administrative expenses and amortizations increased 6 per cent., affected by inflation. However, our efficiency ratio improved 7pp to 41.7 per cent.
- Net loan-loss provisions decreased 6 per cent. and the NPL ratio improved 21 bps to 3.06 per cent.
- The other gains (losses) and provisions line recorded a loss of EUR 984 million, impacted by the temporary levy on revenue (EUR 202 million) and other losses associated with portfolio sales and operational risk.

Our transformation programme continues to deliver efficiency improvements through the simplification and digitalization of key processes. We are promoting the use of digital channels with 77 per cent. of refinanced mortgage loans processed online and 92 per cent. of new current accounts opened through digital channels. The launch of our competitive Edge Up current account and broadening of our savings proposition demonstrated our continued commitment to providing value for individuals.

Loans and advances to customers were 2 per cent. lower year-on-year. In gross terms, minus reverse repurchase agreements and inconstant euros, they decreased 6 per cent. impacted by cost-of-living pressures and higher customer rates, which resulted in lower new business volumes as we carefully manage our net interest margin.

Customer deposits grew 1 per cent. year-on-year. Minus repurchase agreements and in constant euros, both customer deposits and total customer funds decreased 1 per cent. We saw lower balances in current accounts offset by higher in savings accounts. Mutual funds remained flat.

**Results**

Attributable profit was EUR 1,545 million (13 per cent. of the Group's total operating areas), 11 per cent. up on 2022. In constant euros, profit grew 13 per cent.. By line:

- Net loan-loss provisions decreased 20 per cent.. Cost of risk was 10 basis points, slightly better than in 2022.
- The negative impact from other gains (losses) and provisions decreased 16 per cent. year-on-year, as in 2022 we recorded the settlement agreed with the FCA regarding AML controls prior to 2017.

## Portugal

### Business performance

We executed our growth strategy supported by commercial and digital transformation processes, focused on improving service quality and profitability based on selective growth and greater customer loyalty.

Higher interest rates caused households and corporates to deleverage, which influenced both new business and the stock of mortgages, as a large number of prepayments were made at the beginning of the year. As a result, loans and advances to customers fell 6 per cent. year-on-year, both in net terms and in gross terms minus reverse repurchase agreements.

Customer deposits (with and without repurchase agreements) fell 6 per cent., as customers took advantage of their liquidity to prepay their loans. Mutual funds continued to perform positively, up 17 per cent. year-on-year, supported by our growth strategy in higher value-added segments.

### Results

Attributable profit reached EUR 896 million (7 per cent. of the Group's total operating areas), 68 per cent. higher than in 2022:

- Total income increased 53 per cent., reflecting recovery in net interest income (+96 per cent.) supported by higher interest rates and good liability cost management. Net fee income fell slightly, impacted by lower volumes and regulatory changes affecting certain mortgage-related transactions.
- Administrative expenses and amortizations rose 8 per cent., affected by inflation. However, the efficiency ratio improved 11 pp to 27.3 per cent..
- Net loan-loss provisions rose from the low levels registered in 2022, bringing cost of risk to 20 bps. Credit quality remained solid as the NPL ratio fell 39 bps to 2.59 per cent..
- The other gains (losses) and provisions line recorded losses of EUR 49 million associated with the tax contribution of the banking sector.

- Total revenue was 25 per cent. higher driven by net interest income on the back of higher average interest rates and strict control of the cost of funding. Net fee income also performed well.
- Administrative expenses and amortizations increased 21 per cent., mainly driven by a tight labour market as well as some lagged effects from high inflation in 2022. The efficiency ratio improved to 27.1 per cent..
- Net loan-loss provisions grew 48 per cent., reflecting the increased coverage of the Swiss franc mortgage portfolio.
- Other gains (losses) and provisions were less negative, mainly due to the losses related to the mortgage payment holiday recorded in 2022.

**Strategy**

We continued to pursue business transformation across the US and Mexico leveraging our global and regional scale. We:

- Accelerated the transformation of our Retail Banking and Consumer businesses in both countries by simplifying our product portfolio, streamlining our operations to increase efficiency and adopting global technology platforms to deliver an excellent digital experience.
- Continued to develop our profitable CIB and Wealth Management businesses, with targeted investments to further complete our global businesses' capabilities and strengthen growth levers.
- Strengthened our regional operating model in Technology & Operations to consolidate know-how, digitalization, digital hubs, front-office and back-office automation to drive more effective and efficient operations.

In line with our strategy to allocate capital to the most profitable businesses, in 2023:

- The Group increased its shareholding in Banco Santander México to 99.9 per cent. and subsequently delisted it from the Mexican and New York Stock Exchanges.
- The Federal Deposit Insurance Corporation (FDIC) selected Santander US to partner it in a joint venture that will manage USD 9 billion of Signature Bank's Multifamily portfolio. We acquired a 20 per cent. equity stake and will service 100 per cent. of the assets.
- Santander US distributed dividends totalling USD 3 billion.

In line with our global responsible banking agenda and public commitments, we focused on expanding and implementing sustainable finance opportunities within our businesses in 2023.

**Business performance**

Loans and advances to customers rose 2 per cent. year-on-year. In gross terms, minus reverse repurchase agreements and in constant euros, they were 3 per cent. higher driven by mortgages, credit cards, auto and payroll loans in Mexico and by Corporate & Investment Banking and Multifamily in the US.

Customer deposits grew 4 per cent. compared to 2022. Minus repurchase agreements and in constant euros, they also rose 4 per cent. driven by flows into time deposits that were incentivized by competitive interest rates to attract new customers and volumes and foster customer loyalty.

Mutual funds were flat in constant euros, as growth in Mexico was offset by a decline in the US.

**Results**

Attributable profit in 2023 was EUR 2,354 million (20 per cent. of the Group's total operating areas). Year-on-year, attributable profit decreased 18 per cent.. In constant euros, profit fell 20 per cent., by line:

- Total income increased 5 per cent. year-on-year. Net interest income growth (+3 per cent.) was mainly driven by Mexico, supported by the higher interest rate environment and greater loan volumes. Net fee income rose 7 per cent. driven mainly by credit cards and insurance in Mexico and CIB in the US. Gains on financial transactions more than doubled, driven by excellent results in CIB in both countries.
- Other operating income declined due to leasing in the US where there was an increased proportion of repurchases at dealerships and growth in electric vehicle leases which obtain a fiscal benefit (recorded upfront in the tax line) that was partially passed through to customer rates.

- Administrative expenses and amortizations were 8 per cent. higher impacted by inflation and investments in technology, digitalization and transformation initiatives.
- Net loan-loss provisions rose 45 per cent. reflecting the normalization in retail portfolios in both countries, performing in line with expectations at the beginning of the year.
- We recorded a EUR 138 million loss in the other gains (losses) and provisions line, more negative than a year ago due to strategic restructuring costs in the US.

**Business performance**

Loans and advances to customers were 3 per cent. lower than in December 2022. In gross terms, minus reverse repurchase agreements and in constant euros, they were 1 per cent. up year-on-year driven by CIB and Multifamily.

Customer deposits fell 2 per cent. year-on-year. Minus repurchase agreements and in constant euros, they grew 1 per cent.. Our retail deposit base at SBNA remained stable year-on-year and we saw inflows into corporate deposits. Mutual funds declined 12 per cent. as Wealth Management customers moved funds into higher yielding investment portfolios.

**Results**

Attributable profit in the year was EUR 932 million (8 per cent. of the Group's total operating areas), a 48 per cent. decline year-on-year. In constant euros, profit fell 46 per cent.:

- Total income decreased 3 per cent.. Higher funding costs drove down net interest income (partially mitigated by loan growth and disciplined pricing actions) and leasing income declined due to higher dealer repurchases and increased electric vehicle mix. Also, there was a one-time special assessment impacting all FDIC insured banks. On the other hand, both net fee income and gains on financial transactions performed well, supported by higher activity in CIB and the APS acquisition.
- Administrative expenses and amortizations were 5 per cent. higher as investments to build-up our CIB franchise and Wealth Management were partially offset by savings from transformation initiatives.
- Net loan-loss provisions continued to normalize in line with expectations. However, late-stage delinquency payments remain favourable and the cost of risk remained below 2 per cent..

### South America

#### Strategy

South America offers great growth potential, with opportunities to increase banking penetration and financial inclusion. To consolidate our leadership position in the region, we continue to focus on increasing the value we bring to the Group and on working to become the most profitable bank in each of the countries where we operate.

We continue to transform our business model, by building a digital bank with branches focused on improving customer experience, while also driving synergies across our global and regional businesses. Initiatives during the year include:

- In consumer finance, we strengthened our leadership position, reinforcing partnerships with OEMs and developing new agreements by leveraging existing ones globally. In Peru, for example, we signed nine agreements with manufacturers. In Uruguay, we launched the Mi Auto offer, which enabled us to nearly triple the number of vehicles financed. We continued to develop models in the region that speed up the approval of transactions, in addition to improving user experience. In Colombia, we adopted the Fast Track tool, which boosted originations and consolidated our position in new and used car loans, increasing our portfolio by 45 per cent. year-on-year.
- In payments, we aim to increase our market share through One Trade and Getnet, which continued to grow. In Argentina, we expanded our offering, focusing on e-commerce and host-to-host solutions for large merchants. We also increased our trade finance activity through new international solutions, such as the expansion of Ebury's services in Brazil. In addition, we are building a unique global platform which has been launched in Brazil.
- In CIB and corporates, we continued to work on the development and implementation of joint initiatives to deepen relationships with multinational clients. Our goal is to become the leading wholesale banking operator in most countries and products. To consolidate the offering in all regions, we are launching a regional Markets hub. For corporates, we are reinforcing the differential value offering through Multi-Latins and working with other countries in the Group to increase synergies in multinational companies.
- In ESG, our aim is to become the leading bank in South America in inclusive and sustainable businesses. In 2023, we developed business plans in relevant sectors such as Agro, Green Energy and Electromobility. We continued to support our microcredit business, through our Prospera and Surgirprogrammes, with 50 per cent. portfolio growth year-on-year. This business already provides service to more than 1.2 million customers throughout the region. In addition, to support the Group's goal of zero net emissions by 2050, we focused on supporting our customers in the transition to a low-carbon economy, providing them the advice and solutions needed, through initiatives such as Way Carbon.

Our efforts to improve customer service and satisfaction have resulted in a top 3 NPS position in three markets and substantial customer base growth in the region.

- Administrative expenses and amortizations increased 8 per cent.(+3 per cent. in real terms), impacted by salary agreements, expenses related to higher business growth and technology investments. The efficiency ratio was 34.6 per cent..
- Net loan-loss provisions rose 6 per cent., in line with loan growth. Both 2022 and 2023 provisions were impacted by single names in CIB. The cost of risk stood at 4.77 per cent. (4.79 per cent. in 2022).
- The negative impact of other gains (losses) and provisions increased due to higher labour provisions in 2023.

  - (i) single IT platforms, (ii) a simpler operational structure, and (iii) automation and processes redesign;
- grow by progressing in transformational projects in Europe, with new OEM partnerships and leasing platform in auto and through the full transition to Zinia's tech stack in consumer; and
- reduce sensitivity to interest rate rises by increasing deposit acquisition (deposits are already our primary funding source) with focus on profitability. Also, promote an originate-to-distribute model to increase balance sheet mobilization and build a more capital-light business.

In 2023, we continued to expand our business reach in Europe, with new products, services and platforms and by signing new agreements with retail distributors and manufacturers. In the year, we strengthened our leadership in global digital consumer lending, focusing on growth and transformation in these areas:

1. Auto: progress with strategic initiatives to build a world-class digital offering in mobility. Aid OEMs' transformation journeys with online lending, leasing (both financial and operational), subscription offerings, and providing our partners with innovative finance and sale solutions on dealer websites and auto marketplaces. Our transformational initiatives are:

- a. In leasing, we continued developing our proprietary digital leasing platform for Europe with the ambition of disrupting the market. We see it as an entire "new" business to be run, building customer loyalty by our direct relationships, providing innovative features across the value chain (key control of the asset and user from first proposal to hand back), enabling us to create a consolidated mobility-related customer view and cross-border proposition.
- b. In subscription, where we are already a European leader, we continued to expand Wabi, our consumer subscription platform and Uility, our new platform for vehicle subscription-based solutions for companies. Our auto subscription service offers flexible subscriptions across two models: (i) Wabi, our direct-to-consumer own brand, is already live in Spain, Norway and Germany and will expand to other countries in the coming years, and (ii) Uility, a white label solution for OEMs and Service Car companies launched in June 2022. Through Uility we have already entered into important agreements with pan-European ride-hailing services and OEMs.
- c. In mobility, we created one digital front that connects all of our partners to enhance their experience: OEMs, digital dealers and third party marketplaces. Moreover, we further expanded transformational OEM relationships with strong electric vehicle (EV) propositions and other sizeable ongoing negotiations.
- d. We are also developing our own digital channel with leading proprietary marketplaces and car advising value added services.

- e. We continued our pursuit of future market share gains while also addressing new segments and accelerating growth in high potential markets.

In 2023, we renewed our partnership with Stellantis in Europe, which will enable us to consolidate our position as their main financing partner while continue to work with the strongest OEMs in the world.

We had an auto loan book of EUR 103.5 billion in December 2023.

2. Consumer (Non-Auto): gain market share through specialization and the development of tech platforms that build our leadership in Europe, leveraging Zinia ("BNPL"), checkout lending, credit cards and direct loans. In BNPL, Zinia continues to achieve outstanding results serving our medium/large partners. By year end, the new stack had reached 1.15 million total requests while developing functionalities to serve our tech partners.

The joint venture with TIMFin, the leading Italian telecommunications company, had more than 2.2 million contracts since launch as well as 5,884 active points of sale and more than 2,600 connected merchants as of end 2023.

Our loan book was EUR 21.7 billion at the end of 2023.

### 3. Digital Bank:

Expand loyalty among our 3.9 million Digital Bank customers within Openbank and SC Germany Retail while boosting digitalization and promoting digital banking activity.

Increase profit by leveraging strategic operations (e.g. Stellantis), leasing and subscription launch (in auto) and BNPL development (non-auto);

Drive tech transformation projects to seize on the fast-growing transition to online, support digital customer base expansion and provide our partners with digital tools to achieve a single digital connection in Europe while maintaining high profitability and one of the best efficiency ratios in the sector.

Moreover, we continue supporting the European mobility green transformation, financing more than 200,000 new electric vehicles in 2023 with a market share in the region's EV sales of more than 10 per cent., and developing new initiatives in other fields such as electric chargers, solar panels, green heating systems and e-bikes.

We were also recognized as a Top Employer or Great Place to Work (GPTW) in four countries.

## **Business performance**

After a difficult environment in 2022, 2023 was also a complex year due to rising interest rates that affected new business profitability, cost of risk and customers' credit appetite. Some of the headwinds were: i) the change of TLTRO contractual conditions, ii) rising interest rates that put pressure on consumer finance monoliners' margins, compressing them while loan books repriced, added to a time when the Auto and Consumer industries are transforming towards more sustainable businesses (from a mobility and consumption perspective), iii) provisioning for the Swiss franc mortgage portfolio in Poland, and iv) normalization from a very low cost of risk towards the average across the cycle.

In this context, we managed to increase our new lending 3 per cent. year-on-year in constant euros. After a 2022 where new market registrations in Europe fell 4 per cent. vs. 2021 and -29 per cent. vs. 2019, in 2023 grew 14 per cent. vs. 2022. Our new business volumes were up 16 per cent. in new cars but fell 5 per cent. in used cars year-on-year in constant euros, slightly below market transactions in our footprint as we prioritized profitability over volume. We are also actively repricing our new business to offset higher funding costs from higher interest rates in the year.

The stock of loans and advances to customers increased 8 per cent. year-on-year. In gross terms, minus reverse repurchase agreements and in constant euros they also rose 8 per cent. year-on-year to EUR 135 billion. We continue to proactively monitor our portfolios to prevent the impact of any deterioration in our activity.

Customer deposits increased 18 per cent., +19 per cent. minus repurchase agreements and in constant euros to EUR 69 billion. Mutual funds increased 18 per cent. in constant euros. Our recourse to wholesale funding markets remained strong and diversified. We are actively repricing our new business to offset higher funding costs.

## Results

Attributable profit in 2023 was EUR 1,199 million (10 per cent. of the Group's total operating areas), 8 per cent. down. In constant euros, profit fell 7 per cent. (-5 per cent. excluding the impact of the temporary levy in Spain):

- Total income was up 6 per cent.. To neutralize the negative sensitivity to interest rate rises, we are actively repricing loans, focusing on the most profitable segments and increasing customer deposits which are structurally our primary funding source. As a result, net interest income rose 6 per cent..
- Net fee income declined 5 per cent., impacted by the insurance regulation in Germany capping achievable fees. Gains on financial transactions considerably increased along with other operating income, supported by leasing income.
- Administrative expenses and amortizations increased 8 per cent., mainly affected by strategic transformation investments, business growth and inflation. In real terms, costs grew 3 per cent.. Net operating income increased 4 per cent. and the efficiency ratio stood at 47.6 per cent..
- Net loan-loss provisions increased 48 per cent. due to the normalization of provisions, but remained at comfortable levels coming from a low base in 2022. Cost of risk remains low, at 0.62 per cent. but is also normalizing, and the NPL ratio stood at 2.12 per cent..
- Negative contribution in other gains (losses) and provisions due to the temporary levy on revenue in Spain and regulatory charges in Poland, among others.
- By country, the largest contribution to attributable profit came from the Nordic countries (EUR 241 million), Germany (EUR 235 million), the UK (EUR 177 million), France (EUR 145million) and Spain (EUR 119 million).

## Corporate Centre

### Strategy and functions

The Corporate Centre contributes value to the Group, through the following functions, among others:

- Implementing global control frameworks and supervision.
- Fostering the exchange of best practices in cost management, which enables us to be one of the most efficient banks.
- Collaborating in the definition and execution of the global strategy, competitive development operations and projects that ensure we meet the business plan.

- Contributing to the launch of projects that will be developed by our global businesses aimed at leveraging our worldwide presence to generate economies of scale.
- Ensuring open and constructive communication with shareholders, analysts, investors, bondholders, rating agencies and other market players.
- Adding value to countries and divisions by encouraging the exchange of best practices, driving and managing innovative global initiatives and defining corporate policies, all in the communication, marketing and sustainability fields.

It also coordinates the relationship with European regulators and supervisors and develops functions related to financial and capital management, as follows:

- Financial Management functions:
- Structural management of liquidity risk associated with funding the Group's recurring activity and stakes of a financial nature. At the end of 2023, the liquidity buffer exceeded EUR 348 billion.

This activity is carried out by the diversification of funding sources (issuances and other), maintaining an adequate profile in volumes, maturities and costs.

The price of these transactions with other Group units is the market rate that includes all liquidity concepts (which the Group supports by immobilizing funds during the term of the transaction) and regulatory requirements (TLAC/MREL).

- Interest rate risk is also actively managed in order to dampen the impact of interest rate changes on net interest income, conducted via high credit quality, very liquid and low capital consumption derivatives.
- Strategic management of exposure to exchange rates inequity and dynamic management of the FX hedge countervalue related to the units' next twelve months results in euros. The net investments in equity currently hedged totalled EUR 12,396 million (mainly in the UK and Mexico) with different FX instruments (spot or forwards).
- Management of capital and reserves: team responsible for the Group's capital analysis, adequacy and management. Its functions include: coordination with subsidiaries, monitoring profitability to maximize shareholder returns, setting solvency targets and capital contributions, and monitoring the capital ratio (in both regulatory and economic terms), and efficient capital allocation to the units.

## Results

The attributable loss of EUR 998 million was 51 per cent. lower than in 2022 (loss of EUR 2,049 million):

- Net interest income improved by EUR 612 million, due to higher liquidity buffer remuneration as a result of higher interest rates.
- Higher gains on financial transactions (EUR 422 million better), due to lower negative FX hedging impacts.
- Administrative expenses and amortizations increased 5 per cent. year-on-year, due to the general upturn in inflation in 2023. Excluding this impact, they increased 2 per cent..
- Net loan-loss provisions recorded releases in both 2022 and 2023 (EUR 9 million and EUR 2 million, respectively).
- The net negative impact of other gains (losses) and provisions (which include provisions, intangible asset impairments, cost of the state guarantee on deferred tax assets, pensions, litigation, one-off provisions, etc.) decreased from a loss of EUR 173 million in 2022 to a EUR 134 million loss in 2023.

**Secondary segments****Retail Banking****Strategy**

In recent years, one of the Group's main priorities has been to intensify our transformation strategy, focusing on the simplification and the digitalization of products, services and processes.

As part of this strategy, in 2022 we launched ONE Transformation, the programme that aims to accelerate structural changes in our model, in three countries (Spain, Mexico and the US) to simplify, automate and improve our retail service. During 2023, we made great progress:

- In terms of simplification, we reduced the number of products by 16% year-on-year.

- We increased the digitalization and automation of processes, which enabled us to reduce the transactions carried out in branches, focusing more on value-added tasks that require advice and personalized attention.
- We made progress in our digital self-service model, which enabled us, for example, to reduce the use of our contact centres by 16%. In Mexico, we digitalized the entire onboarding process.
- We continued to roll out a common operating model and technology for the segment in all countries.

Additionally, and as a final step in our ONE Santander strategy, in September, we announced the consolidation of commercial banking activities into a new global area, Retail & Commercial Banking, which, as of January 2024, will be reported as a primary segment together with four other global businesses.

We will focus on expanding ONE Transformation to the rest of our banks, which will allow us to continue improving efficiency and quality of our service, as well as increasing our customer base and profitability.

In addition to the efforts made in terms of transformation, digitalization and process automation, during the year we carried out numerous commercial actions and initiatives such as:

- In the retail segment: in an environment of higher interest rates, we offered savers competitive prices in the UK through an easy-access savings account. In Spain, we increased our market share in payrolls. In Mexico, we increased our market share in credit cards and payroll loans, while consolidating our third position in terms of market share in the auto market. In Argentina, we acquired an unregulated consumer finance company, with more than 30 points of sale in the Buenos Aires metropolitan area. In Uruguay, we strengthened the SOY Santander offer.
- In the SME and Corporate segment: in the US, we remain one of the top 10 Multifamily Real Estate lenders and acquired a 20% stake in a joint venture that will manage the multifamily real estate assets retained by the FDIC following Signature Bank's bankruptcy. In Brazil, we are redesigning our service model for SMEs. In Chile, we expanded our offering of integrated financing, cash management and treasury solutions for companies. In Poland, we were recognized as the Best Bank for SMEs by Euromoney.

All this has enabled us to grow the Group's total customer base by 3% to 165 million and digital customers by 5%. We also achieved a top 3 NPS ranking in seven of our countries, a clear recognition of our efforts to improve customer service and attention.

### **Business performance**

Loans and advances to customers increased by 1% compared with 2022. In gross terms, minus reverse repurchase agreements and in constant euros, they remained stable, as growth in North and South America offset lower demand in Europe, affected by the prepayments of mortgages.

Customer deposits rose 4% year-on-year. Minus repurchase agreements and in constant euros, they were up 3%, driven by time deposits (+38%), as demand deposits declined 5% year-on-year.

### **Results**

Attributable profit in 2023 was EUR 7,436 million (62% of the Group's total operating areas), down 6% compared to 2022. Inconstant euros, it decreased 7%, with the following detail:

- Total income grew 8% driven by higher net interest income (+12%), mainly in Europe and Mexico.
- Administrative expenses and amortizations increased 8%, affected by inflation. Net operating income also grew 8% and efficiency improved to 42.9%.
- Net loan-loss provisions rose 21%, mainly driven by the increase in North America, in line with expectations, and higher provisions in South America.
- The other gains (losses) and provisions line was slightly more negative than in 2022, mainly due to South America and the temporary levy on revenue earned in Spain.

- Continued investment in talent, highlighting the acceleration in building our US advisory capabilities, complementing existing capabilities to carry out new business opportunities.
- Focusing on digital transformation, SCIB formed a partnership with the insurance firm Allianz Trade and the fintech Two (B2B e-commerce payments platform) to offer a new receivables solution that replicates the buy now, pay later ("BNPL") model available in the retail segment.
- In ESG, Santander acquired a stake in InnoEnergy's capital acting as a joint advisor in the capital increase, which confirms our commitment to sustainable development objectives and our leadership position in climate tech.

- In terms of positioning, we maintained our leadership position in the rankings of different products:
- In Export & Agency Finance, we maintained our global and European leadership, whilst in Structured Finance we reached second position, standing out as leaders in Renewables globally as well as in Europe and Latin America.
- In Debt Capital Markets ("DCM"), we remained among the top 3 in the bond issuance market in Latin America and continued to be leaders in Spain. In Equity Capital Markets ("ECM"), we are leaders in Spain and Poland, and in the top 5 in Latin America.
- In M&A, we are leaders in Spain and top 3 in Latin America and Poland.

### **Business performance**

In a challenging macroeconomic and geopolitical environment, our priority has been to support our clients with our advisory and high value-added solutions. In this context, total income reached EUR 8,296 million, growing 12 per cent. year-on-year. In constant euros, total income rose 18 per cent., backed by relevant growth across core businesses:

- Markets showed solid growth of 22 per cent. year-on-year, as a result of managing market volatility well.

In Europe, sales revenue continued to increase, both from corporate and institutional clients, achieving another year of strong growth, especially in the UK. By product, there were good results in Securities Financing, Equity Derivatives and Credit.

In Latin America, we saw good year-on-year growth, particularly in Mexico, Chile, Colombia and Uruguay, and especially Commodities, Cash Equity, FI Rates and FX products. In Brazil, the Electricity and Commodities desks stood out.

In the US, activity increased 30 per cent. year-on-year. Despite the macroeconomic challenges faced by some businesses, we continued to capture the synergies and efficiencies related to the creation of SanCap. Securities Financing, Exchange Traded Derivatives and Rates products stood out. There was good activity with corporate clients, including closing several important transactions in FX and Rates whilst flows with institutional clients remained stable compared to 2022.

- Global Transaction Banking ("GTB") increased total income by 20 per cent. year-on-year.

Cash Management experienced another year of significant growth, both in terms of activity, with a greater number of clients and operations, and in terms of liability income, due to higher volumes and the benefits from high interest rates in the markets where we operate. The team continued to support our clients by creating solutions to optimize their treasury and commercial processes. A clear example was the development of our Nexus Global Collections platform for collection tools, helping to simplify and automate their reconciliation process.

Trade & Working Capital Solutions continued to strengthen its global and distribution capabilities, consolidating its leadership in the market. Santander was chosen as agent bank for major international transactions, such as a EUR 5 billion confirming programme covering Europe, Asia and the Americas. We acquired a stake in Komgo's capital, and the recent partnership with SAP enabled us to integrate our solutions into our clients' own ERP, already providing good results in confirming and invoice discounting.

Export Finance maintained its leadership in the ECA financing market, participating in important transactions globally. Highlights include the mandate for the largest transaction in the history of Export Finance, the renewable energy development programme in Mexico, in which Santander acted as global coordinator and ECA Agent, as well as participating in the first offshore wind farm in Poland.

- Global Debt Financing ("GDF") closed the year with significant growth in total income (+11 per cent.). The growth in non-financial fees was particularly strong (+23 per cent. year-on-year), as was the efficient use of capital.

For DCM, 2023 was a year of recovery in the global debt and loan markets as inflation fell back and interest rate rises slowed. Santander remained top 3 in bond issuances in Latin America and achieved a

significant increase in market share globally, with total income growing 27 per cent. year-on-year. Good examples were the debt issuances in dollars for the Brazilian Treasury, for AstraZeneca in euros and dollars, and an issuance for the European Union in euros.

In Structured Finance, Santander ended the year in second place worldwide and as a leader in Renewables, contributing to total income exceeding the EUR 900 million mark for the first time, growing at 16 per cent. year-on-year. Our high value added services, such as debt advisory or underwritings, contributed to the improvement in profitability. The area is making good progress in positioning towards new energy transition assets (electric vehicle charging, gigafactories, green hydrogen, etc.) with several mandates executed or underway.

We continued developing our investment funds financing activity ("Fund Finance").

In the Securitizations business, we continued to rapidly expand our capabilities. Total income grew by 31 per cent. year-on-year, allowing us to lead the European ranking.

- In Corporate Finance ("CF"), despite the general stagnation of the market, there were some signs of recovery in the last quarter 2023. There were major Mergers and Acquisitions (M&A) transactions in Energy, advising on the divestment of wind farms.

In addition, Santander demonstrated its global leadership in environmental transactions related to waste treatment, through the advisory to the Canadian pension fund CPPIB on the acquisition of a stake in FCC Medioambiente and the sale of Sacyr's environmental division.

In the Telecommunications, Media, Technology (TMT) industry, there was significant activity in telecommunications towers and fibre, highlighting the advisory to GIP on the purchase of Vantage Towers and Telefónica on the sale of a majority stake in its fibre network in Latin America to KKR. In the technology area, Santander acted as joint bookrunner in Arm's IPO, one of the year's most important transactions.

In Consumer Retail & Healthcare (CRH), we advised on the spin-off of Grupo Éxito, which was followed by others in Brazil (Viveo, Via Varejo), where capital markets have reopened.

Interest rate hikes during the year had a negative impact on IPOs. However, takeover bids increased significantly in the Spanish market, where Santander maintained a leading position. Santander also participated in large international transactions such as the aforementioned Arm transaction, secondary placements by London Stock Exchange Group and Coty's listing on Euronext Paris.

Collaboration revenue and income from multinational clients outside their local market increased by 9 per cent. year-on-year to around EUR 2.5 billion.

## Results

## Wealth Management & Insurance

### Strategy

In 2023, we continued to work to become the best Wealth and Insurance Manager in Europe and the Americas. WM&I was one of the Group's growth drivers with a record year of 21 per cent. growth in contribution to Group profit. During the year, Euromoney named us Latin America's Best Bank for Wealth Management.

- In Private Banking, we continued to leverage our global platform so our clients can benefit from our scale and international presence, making it easy for them to move from one region of the Group to another. In terms of collaboration, we remained leaders in investment flows between Latin America, Europe and the US, managing network business volumes (cross-border business between markets) of EUR 53.9 billion (+15 per cent. year-on-year).

Our collaboration business with SCIB continued to increase, especially in Brazil, Chile and BPI. In 2023, total income reached EUR 189 million, 8 per cent. higher year-on-year.

During 2023, we continued to widen our value proposition and to innovate across our product range, seeking the best opportunities for our clients. We had a particular focus on alternatives, structured products, secured lending and socially responsible products (ESG).

In alternatives, we had almost EUR 3 billion in total capital commitments at the end of the year. In collaboration with Santander Alternative Investments, we launched Santander Innoenergy, a venture capital fund that invests in innovative startups in the field of energy transition. Aiming to select the best managers and the most appropriate strategies, we launched a new fund of funds in our Irish ICAV, Laurion Secondaries, offering a diversified Private Equity portfolio with secondary transactions.

Our offering in discretionary portfolio management and advisory mandates exceeded EUR 48 billion of total assets in 2023. Consistent performance and customized service has resulted in steady growth in this service in recent years.

Our real estate investment service, which is capturing a large part of investment flows between Latin America, Europe and the US, reached a total volume of EUR 240 million in transactions in 2023.

During 2023, Euromoney named us the Best Private Bank in Latin America, as well as the Best International Private Bank in Mexico, Argentina, Brazil, Peru, Uruguay, Poland and Portugal. Additionally, we received the prize for the Best Global Private Bank in Cybersecurity and Digital Portfolio Management in Europe by the Professional Wealth Management magazine, a Financial Times publication.

- In Santander Asset Management ("SAM"), we had a record year in net sales (EUR 9.0 billion) driven by the adaptation of our value proposition to current market conditions. We are gaining market share in almost all our markets, and we continued to be the global product platform of choice for our retail banks, with EUR 1,128 million in total fees generated, in line with those of the previous year.

In Spain, we are developing the discretionary portfolio management model and launched two new funds whose advisory services are delegated to top managers such as BlackRock (US equities) and Fidelity (Asia). We continue to complement with our GO range in Luxembourg with two new strategies launched (Global Equity ESG and Asian Equity). Santander Pensiones was also one of the five entities awarded the contract to participate in the Publicly Promoted Employment Pension Fund in Spain (FPEPP), created to promote collective savings.

We also adapted our value proposition for institutional clients and implemented a new coverage model expanding our business beyond our existing footprint. Total net inflows for institutional clients in 2023 surpassed EUR 3 billion.

The range of alternative products is becoming increasingly robust, with 22 vehicles globally and EUR 2.5 billion in total commitments. Our main strategies include Private Debt, Infrastructure, Trade Finance and Real Estate, with the notable launch of Santander Global Real Assets Fund of Funds, for Private Banking clients.

We made further headway in terms of our ESG strategy, with assets under management of around EUR 48 billion. Together with RED, we launched the Santander Prosperity fund in seven countries and won the Best Product Innovation in The Global Private Banker Innovation Awards 2023.

Our efforts to continue offering the best investment solutions were recognized through several awards in the year, both globally (Most Innovative Investment Manager in Europe by Pan Finance magazine) and at a local level (Best Fixed Income Manager in Spain, Best Multi-Asset Manager in the UK, Best Money Market Manager in Brazil and Most Awarded Asset Manager in Chile, just to name a few).

- In Insurance, we continued delivering growth in gross premiums (+12 per cent. year-on-year), mainly driven by non-related and savings businesses. The credit-related business was slightly affected by the lower demand for credit in general.

In Europe, non-credit related insurance sales were particularly strong, as a result of new products and the transformation plans deployed across countries to improve customer experience and loyalty. During 2023, we reinforced our value proposition for SMEs and Health, launching a leasing insurance product in Portugal and a new partnership with BUPA in the UK. More recently in the fourth quarter, we reinforced our Savings value offer in Portugal with a new five-year product, offering yields until maturity. In Spain, we also started the commercialization of reverse mortgages with Mapfre.

In the Americas, new sales in non-credit related insurance business continued with strong growth, especially in savings. In 2023, we completed our Savings offer in Mexico by launching a USD unit linked for Private Banking and Plan Futuro funds for the Select segment. In Chile, we launched a new Health product in alliance with UC Christus, one of the best hospitals in the country. We also reinforced our value offer for SMEs with new products (e.g., Cyber in Mexico, a cyber threat insurance for SMEs). Smart use of data was implemented in all countries to reduce claim processing times by 90 per cent. compared to traditional processes.

The motor vehicle insurance business grew 10 per cent. year-on-year. Our Autocompara platform, with presence in Argentina, Brazil, Chile, Mexico and Uruguay, reached 1.4 million active policies and we added new companies in Brazil such as Porto Seguro (market leader in Auto segment) and Azul to further strengthen our competitive position.

Our digital strategy continued to drive growth in new sales through digital channels, now representing 20 per cent. of total sales.

**PagoNxt**

**Strategy**

PagoNxt aims to be a global leadership in payments through a distinct, holistic and customer-centric value proposition. We are a one-of-a-kind pay tech business that provides customers with a wide range of innovative payments and integrated value added solutions.

Since 2020, PagoNxt has been built through the combination of several strategic and high-growth business segments (e.g. Merchant Acquiring, International Trade and Payments Hub).

Already existing businesses, like Merchant Acquiring in core Santander countries like Brazil, Mexico and Spain, have been combined with newly internally developed global technology platforms (i.e. Merchant Solutions, OneTrade and Account-To-Account Payments) and a limited number of in organic acquisitions (e.g. Ebury).

PagoNxt's technology platforms and specialist teams serve the payments needs of Grupo Santander's customers and cater to open market opportunities beyond Santander's footprint within-depth solutions for millions of businesses and people.

PagoNxt runs an efficient global operating model that covers three core regions (Europe, South America and North America) with bank-grade security and compliance embedded in our customer products.

**PagoNxt's strategy for the next few years is anchored on 3 key pillars:**

- Scaling up our global, cloud-native, secure and efficient platform, which is interconnected and API-based to ensure customer access through a single integration. We process and generate insights to help our customers and their businesses harness the full power of data to make decisions.
- accelerating commercial growth by further strengthening our commerce and trade ecosystem and our distribution through Santander commercial platforms with a focus on SMEs.
- maximizing the open market opportunity through direct commercialization and distribution partnerships (with integrated software vendors (ISVs), financial institutions (FI), non-banking financial institutions (NBFIs)), increasing our market penetration in Europe, South America and North America and extending our footprint to additional strategic countries.

This strategy is fully aligned with PagoNxt's short-and medium-term targets, namely, delivering sustained and diversified revenue growth, growing the open market business and ensuring operational leverage for improved scale-driven margins and bottom-line profitability.

### **Business performance**

Getnet, our end-to-end Merchant Acquiring business with presence in Latin America (Brazil, Mexico, Argentina, Chile and Uruguay) and Europe (pan-European activity with active merchants in 15 countries), continued consolidating its franchise and market position and growing above market in most regions. Getnet improved its position in Merchant acquiring to second in Latin America and 17th globally, according to the Nilson reports based on number of transactions.

In 2023, Getnet's Total Payments Volume (TPV) reached EUR206 billion, +25 per cent. year-on-year (+22 per cent. in constant euros). This growth was accompanied by margin expansion due to increasing scale and the roll out of innovative value-added services, global e-commerce capabilities and further developed specialized vertical solutions which it shares across countries. Highlights by market were:

- Getnet Brazil's TPV increased 14 per cent.. Brazil's focus has been on profitable growth through higher penetration in SMEs, our pre-payments products, and value-added services. We are pursuing opportunities across all sales channels and enhancing open market sales through partnerships with banks and ISVs, direct sales and digital channels.
- Getnet Europe, our pan-European acquirer, grew significantly in the year. TPV increased 31 per cent. year-on-year, mainly driven by the Spanish and Portuguese markets. In the UK, we are currently operating with a reduced number of customers under our UK FCA licence. We continue enhancing our platform capabilities, with new payment methods, a vertical solution for airlines and a stronger value-added proposition for SMEs, which enable us to progress on our open market strategy with merchants operating in 15 countries.
- Getnet Mexico's activity remained strong, with TPV increasing 23 per cent. year-on-year, driven by higher SME penetration and the strong performance of our open market distribution channels, which include several partnerships with payment's facilitators, ISVs and payment ecosystems. We launched several innovative value-added services like tap-on-phone, DCC and dynamic working capital.
- We are ramping up Getnet's commercial activity in other Latin American countries. Our acquiring businesses in Argentina and Uruguay launched in 2022 are showing strong growth as they start penetrating Santander's merchant base. Chile, with 80 per cent. year-on-year TPV growth, is accelerating its penetration in the Chilean market through Santander and open market, which already represents around 50 per cent. of new onboardings.

PagoNxt OneTrade platform comprises two different activities: one which offers a range of international business services delivered to our banks and their customers as a Banking-as-a-Service proposition, and another service delivered to open market customers through an Electronic Money Institution.

The Banking-as-a-Service proposition enabled Santander to replace multiple investments in local institutions with a single global one, accelerating implementation while reducing operational and maintenance costs.

In 2023, we achieved significant progress and all core interconnected services are fully operational. Some of the services which have already been rolled out across core markets such as Spain, Mexico and Chile are: OneTrade

FX, a digital FX service facilitating currency trading; International Payments, aimed at fostering Corporate and SMEs business; and TradeNxt, a trade finance platform supporting import/export activities.

We expect to ramp up OneTrade open market activities in the first half of 2024 by scaling up its correspondent banking offering (cross-border payments and FX services) targeted at financial institutions, non-banking financial institutions and other entities in need of cross-border payments optimization.

PagoNxt continued to accelerate its roadmap to be Santander's wholesale payments processing provider, centralizing all types of payments (except cards). In 2023, we continued the development of our product capability around five core areas (Instant Payments, Credit Transfers, Bulk Credit Transfers, Direct Debits and International Payments) and implemented functionality across multiple countries and businesses (SCIB, Openbank, Spain, Portugal, Germany, the UK and Mexico). Significant volumes of payments have already been migrated into the new payments platform reaching an annualized volume of 700 million transactions.

Ebury continued to deliver organic top-line growth, with double-digit growth in total income. The business continued to enhance its B2B offerings and recently completed the acquisition of Bexs, the Brazilian cross-border payments and FX transactions specialist.

**Results**

Attributable loss of EUR 77 million in 2023, a marked improvement versus a loss of EUR 215 million in 2022.

Total income continued its upward momentum in 2023 and reached EUR 1,140 million, a 17 per cent. increase year-on-year in constant euros, backed by increased activity and volumes, especially in our Merchant and Trade businesses (Getnet and Ebury).

In 2023, administrative expenses and amortizations grew by 6 per cent. year-on-year and reflected inflation pressures and the ongoing investment plans to develop and implement global technology.

**7. TREND INFORMATION**

The forward-looking statements included in this section are based on the current beliefs and expectations of our management, including the macroeconomic expectations described below, and are subject to

significant risks and uncertainties. These risks and uncertainties could cause the Group's actual results to differ materially from those set forth in such forward-looking statements. See "*Risk Factors*".

We expect a moderate economic slowdown in 2024, in an environment of continued uncertainty due to global geopolitical tensions. We expect inflation will continue to decelerate gradually towards the central banks' targets, which should allow regions such as Latin America to continue to cut rates and others, such as the US and Europe, to slowly start reducing them, particularly in the second half of 2024. We do not expect this slowdown to cause a marked pick up in unemployment, given the tight labour supply in most markets.

The **macroeconomic forecast for 2024** by country/region is as follows:

**Eurozone**

Following the economic stagnation in 2023, we expect the weaker tone to continue in 2024 (forecast GDP growth of 0.6 per cent.). However, the eurozone may avoid a recession as we expect private consumption and foreign demand to pick up. We believe inflation will continue to fall, though not linearly, as the withdrawal of fiscal measures causes temporary upturns. We expect a slight rise in the unemployment rate while remaining close to historic lows. Fiscal policy is expected to adopt a restrictive tone as the Stability Pact is reactivated. The reduction in inflation could pave the way for interest rate cuts in the second half of 2024.

**Spain**

We expect GDP growth to slow down in 2024 to 1.6 per cent.. Private consumption will likely be the main driver of growth as household disposable income remains high (lower inflation, expected rate cuts in 2024 and a stable labour market). Tourism is expected to grow above GDP, but decelerating. We expect inflation (headline and core) will end the year around 3 per cent.. Energy should no longer detract from inflation and the withdrawal of the measures introduced to combat the energy crisis may drive a step up in inflation. Despite this, underlying pressures should moderate and we do not expect second round effects.

**UK**

Economic growth is forecasted to be practically flat, with 0.4 per cent. GDP growth, with weak consumption due to real income restraints (due to higher interest rates, no price subsidies and unchanged tax thresholds, among other reasons). We expect a soft landing in the labour market from full employment to an unemployment rate below 5 per cent.. Inflation should be close to 3 per cent. by the end of 2024, paving the way for possible Bank of England base rate cuts in the second quarter. We expect rates to end the year at 4.5 per cent..

**Portugal**

Economic growth is expected to moderate in 2024 (forecast GDP growth of 0.6 per cent.), driven by subdued domestic demand, as households and businesses face higher interest rates and weaker purchasing power. In the first half of 2024, external demand will likely be affected by the weak recovery in the eurozone but is expected to reverse in the second half of the year, benefiting Portuguese exports. We project the unemployment rate will rise to 8 per cent. (near its natural rate) in 2024, due to the lagged effects from lower economic activity. We believe inflation will remain around 2 per cent. throughout the year.

**Poland**

The economy started to recover in the third quarter of 2023 and we expect higher GDP growth around 3 per cent. in 2024, driven by private consumption. The strong labour market and rising real incomes are expected to support domestic demand while the external sector is expected to contribute less to this economic recovery. Our projections show a further decline in inflation to 3 per cent. year-on-year in the first quarter and then a pick up to around 7 per cent., dependent on the new government's measures. We assume that the central bank's benchmark interest rate will remain unchanged at 5.75 per cent. until the fourth quarter of 2024.

## **US**

After a more dynamic 2023 than expected, in 2024, we believe economic growth will moderate, affected by cumulative interest rate hikes, post-pandemic savings running out and a less expansionary fiscal policy. We are forecasting a soft landing accompanied by a further rebalancing of the labour market contributing to a gradual decline in inflation. The Fed is waiting to make sure that inflation is converging towards the target before lowering rates and will slow down its balance sheet reduction.

## **Mexico**

We expect economic growth to remain robust, driven by investments linked to nearshoring and related infrastructure investment projects. We believe the central bank will begin to cut the official rate, albeit gradually, depending on inflation and whether expectations are anchored at its 3 per cent. target.

## **Brazil**

We expect a deceleration due to lower global economic growth partially explained by the strong agricultural growth in 2023, which will be difficult to repeat. Additionally, there will be uncertainty about commodity prices in an environment of lower demand growth in major developed and developing economies. On the other hand, further rate cuts as monetary policy continues to normalize (assuming inflation nears target) will support GDP growth.

## **Chile**

After completing its adjustment process in 2023 and correcting the macro imbalances that were generated in the previous expansionary phase, the economy is well positioned to return to growth rates of around 2.5 per cent.. We expect inflation will be very close to the 3 per cent. target, allowing the monetary policy to get closer to the neutral rate, accelerating rate cuts.

## **Argentina**

The economy could experience its second year of negative growth, but this time with an intense adjustment programme that aims to balance fiscal accounts and moderate inflation. The extension of the financial agreement with the IMF and an exchange rate more in line with fundamentals, following the devaluation at the end of 2023, should ease external pressures and enable the country to rebuild international reserves.

There are no potential conflicts of interests between any duties owed to the Guarantor by the directors and their private interests and/or other duties.

**9.2 *Administrative, management, and supervisory bodies conflicts of interests. Potential conflicts of interests between any duties to the issuing entity of the persons referred to in item 9.1 and their private***

*interests and or other duties must be clearly stated. In the event that there are no such conflicts, make a statement to that effect.*

None of the members of the Board of Directors or persons related to them perform, as independent professionals or as employees, activities that involve effective competition, be it present or potential, with the activities of Banco Santander, S.A., or that, in any other way, place the directors in an ongoing conflict with the interests of Banco Santander, S.A.

With regard to situations of conflict of interest, as stipulated in Article 36.1.b.vi of the Rules and regulations of the board, the directors must notify the board of any direct or indirect conflict with the interests of the Bank in which they or persons related thereto may be involved. The director involved shall refrain from taking part in discussions or voting on any resolutions or decisions in which the director or any persons related thereto may have a conflict of interest.

Also, under Article 40 of the Rules and regulations of the board, following a favourable report by the audit committee, transactions carried out by the Bank with directors (unless the power to approve them is vested by law in the general meeting), shall require approval from the board.

However, the board of directors (on the audit committee's recommendation) voted to delegate to executive bodies, committees and competent proxies the approval of related-party transactions that meet the requirements included in Article 40.4 of the Rules and regulations of the board, approving an internal procedure for the reporting and periodic control of related-party transactions, involving the audit committee, to confirm that those transactions are fair and transparent and meet the standards that apply in the aforementioned Article 40.4.

Accordingly, in 2023, the audit committee found that no director or any other related parties in the terms of International Financial Reporting Standards carried out transactions deemed "significant" (i.e. material to Santander and the related party) or under non-market conditions.

The audit committee confirmed that all related-party transactions carried out in 2023, had been performed correctly, after conducting a bi-annual review on their conformity to the law, the Rules and regulations of the board and the conditions set forth by the board resolution, and met the requirements to be considered fair, reasonable and under market conditions.

In 2023, no director reported a conflict of interest with Santander. Nonetheless, there were 52 abstentions in votes on matters deliberated at board and committee meetings, including 28 instances where directors did not vote on resolutions on nominations, re-elections or board committee assignments; 10 instances concerning remuneration; four instances relating to a transaction between Banco Santander and a director or a company related to a director; and 10 instances where directors removed themselves during the review of their status and suitability.

**11.3.2 An indication of other information relating to the guarantor in this Base Prospectus which has not been audited by the auditors.**

The information contained in "Business Overview" above is not audited and was obtained from the internal accounting records and management records of the Guarantor.

The Guarantor considers the following metrics to constitute Alternative Performance Measures as defined in the ESMA Guidelines introduced on 3 July 2016 ("ESMA Guidelines") on Alternative Performance Measures, that are not required by, or presented in accordance with, IFRS-EU.

The Guarantor considers that these metrics provide useful information for investors, securities analysts and other interested parties in order to better understand the Group's business, financial position, profitability, results of operations, the quality of its loan portfolio, the amount of equity per share and their progression over time.

Such measures should, however, not be considered as a substitute to profit or loss attributable to the Group or any other performance measures derived in accordance with IFRS-EU or as an alternative to cash flow from operating, investing and financing activities as a measure of the Group's liquidity.

Other companies in the industry may calculate similarly titled measures differently, such that disclosure of similarly titled measures by other companies may not be comparable with that of the Issuer and the Group. Investors are advised to review these alternative performance measures in conjunction with the Group's audited consolidated financial statements and accompanying notes which are incorporated by reference in this Base Prospectus.

Terms relating to profitability and return on investment measure the ratio of results on capital, assets and risk-weighted assets in accordance with the definitions set out in the table below. The efficiency ratio makes it possible to measure the amount of general administrative expenses (personnel and others) and amortisation expenses necessary to generate income.

Terms relating to the impairment of loans measure the quality of the loan portfolio and the percentage of the credit impaired portfolio that is covered by allowances for loan-loss provisions, in accordance with the definitions set out in the table below.

| <b>Ratio</b>                                  | <b>Formula</b>  | <b>Relevance of the metric</b>  |
|---|---|---|
| <b>NPL ratio</b> (Non-performing loans ratio) | Credit impaired loans and advances to customers, customer guarantees and customer commitments granted<br><br>Total Risk <sup>A</sup>  | The NPL ratio is an important variable regarding financial institutions' activity since it gives an indication of the level of risk the entities are exposed to. It calculates risks that are, in accounting terms, declared to be credit impaired as a percentage of the total outstanding amount of customer credit and contingent liabilities. |
| <b>Total coverage ratio</b>                   | Total allowances to cover impairment losses on loans and advances to customers, customer guarantees and customer commitments granted<br>Credit impaired loans and advances to customers, customer guarantees and customer commitments granted | The total coverage ratio is a fundamental metric in the financial sector. It reflects the level of provisions as a percentage of the credit impaired assets. Therefore it is a good indicator of the entity's solvency against client defaults both present and future.   |
| <b>Cost of Credit</b>                         | Allowances for loan-loss provisions over the last 12 months<br>Average loans and advances to customers over the last 12 months  | This ratio quantifies loan-loss provisions arising from credit risk over a defined period of time for a given loan portfolio. As such, it acts as an indicator of credit quality.   |

**11.3.3 Where financial data in this Base Prospectus is not extracted from the guarantor's audited financial statements, state the source of the data and state that the data is unaudited.**

Other than information extracted from the Guarantor's audited financial statements, no other information relating to the Guarantor in this Base Prospectus has been audited by PricewaterhouseCoopers Auditores, S.L.

The date of the most recent audited annual consolidated financial information of the Guarantor is 31 December 2023.

The audited consolidated and non-consolidated financial statements of the Guarantor for each of the years ended 31 December 2022 and 31 December 2023 have been filed with the Spanish securities market regulator.

**11.4 Legal and arbitration proceedings**

**11.4.1 Information on any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the guarantor is aware), during a period covering at least the previous 12 months which may have, or have had in the recent past, significant effects on the guarantor and/or group's financial position or profitability, or provide an appropriate negative statement.**

Save as outlined below in the sub-sections entitled "Tax-related litigation" and "Non-Tax-related litigation" below, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Guarantor is aware) which may have, or have

had in the previous 12 months, significant effects on the Guarantor and/or the Group's financial position or profitability.

The following is a summary of certain legal proceedings affecting the Group: The Guarantor believes that it has made adequate reserves related to the costs anticipated to be incurred in connection with these and other legal proceedings and believes that liabilities related to such proceedings should not have a significant effect on the Guarantor and/or the Group's financial position or profitability.

The Guarantor's general policy is to record provisions for tax and legal proceedings in which it assesses the chances of loss to be probable and it does not record provisions when the chances of loss are possible or remote. The Guarantor determines, on a case-by-case basis, amounts to be provided as its best estimate of the expenditure required to settle the corresponding claim based, among others, on the analysis and legal opinion of internal and external counsel or by considering the historical average amount of loss of such category of lawsuits.

**Wherever possible the proceedings listed below are quantified. However, in view of the inherent difficulty of predicting the outcome of contentious matters, the Bank is unable sometimes to quantify the potential loss or practical consequences if a judgment were ordered against it and accordingly no specific amount is attributed to such claims.**

### **Tax-related litigation**

At 31 March 2024 the main tax-related proceedings concerning the Group were as follows:

- Legal actions filed by Banco Santander (Brasil) S.A. and other Group entities to avoid the application of Law 9.718/98, which modifies the basis to calculate Programa de Integração Social (PIS) and Contribuição para Financiamento da Seguridade Social (COFINS), extending it to all the entities income, and not only to the income from the provision of services. In relation of Banco Santander (Brasil) S.A. process, in 2015 the
- Federal Supreme Court (FSC) admitted the extraordinary appeal filed by the Federal Union regarding PIS, and dismissed the extraordinary appeal lodged by the Brazilian Public Prosecutor's Office regarding COFINS contribution, confirming the decision of Federal Regional Court favourable to Banco Santander (Brasil) S.A. of August 2007. The Federal Supreme Court also admitted the appeals related to the other Group
- entities both for PIS and COFINS. On June 13, 2023, the Federal Supreme Court ruled unfavorably two cases through General Repercussion (Theme 372), including Banco Santander (Brasil) S.A. case. The Bank has filed a new appeal, considering the possible loss as a contingent liability. The cases of the other Group entities are no longer susceptible of appeal and a provision has been recognized for the amount of the estimated loss.
- Banco Santander (Brasil) S.A. and other Group companies in Brazil have appealed against the assessments issued by the Brazilian tax authorities questioning the deduction of loan losses in their income tax returns (Imposto sobre a Renda das Pessoas Jurídicas - IRPJ - and Contribuição Social sobre o Lucro Líquido -CSLL-) in relation to different administrative processes of various years on the ground that the requirements under the applicable legislation were not met. The appeals, which involves several cases, are pending decision different administrative and judicial instances.
- No provision was recognised in connection with the amount considered to be a contingent liability.
- Banco Santander (Brasil) S.A. and other Group companies in Brazil are involved in administrative and legal proceedings against several municipalities that demand payment of the Service Tax on certain items of income from transactions not classified as provisions of services. There are several cases in different judicial instances. A provision was recognised in connection with the amount of the estimated loss.

- Banco Santander (Brasil) S.A. and other Group companies in Brazil are involved in administrative and legal proceedings against the tax authorities in connection with the taxation for social security purposes of certain items which are not considered to be employee remuneration. There are several cases in different judicial instances. A provision was recognised in connection with the amount of the estimated loss.
- In May 2003 the Brazilian tax authorities issued separate infringement notices against Santander Distribuidora de Títulos e Valores Mobiliários, Ltda. (DTVM, actually Santander Brasil Tecnologia S.A.) and Banco Santander (Brasil) S.A. in relation to the Provisional Tax on Financial Movements (Contribuição Provisória sobre Movimentação Financeira) of the years 2000 to 2002. The administrative discussion ended unfavourably for both companies, and on July 3, 2015, filed a lawsuit requesting the cancellation of both tax assessments. The lawsuit was judged unfavourably in first instance. Therefore, both plaintiffs appealed to the court of second instance. On December 2020, the appeal was decided unfavourably. Against the judgment, the bank filed a motion for clarification which has not been accepted. Currently it is appealed to higher courts. There is a provision recognized for the estimated loss.
- In December 2010 the Brazilian tax authorities issued an infringement notice against Santander Seguros S.A. (Brasil), (currently Zurich Santander Brasil Seguros e Previdência S.A.), as the successor by merger to ABN AMRO Brasil dois Participações S.A., in relation to income tax (IRPJ and CSLL) for 2005, questioning the tax treatment applied to a sale of shares of Real Seguros, S.A. The administrative discussion ended unfavourably, and the CARF decision has been appealed at the Federal Justice. As the former parent of Santander Seguros S.A. (Brasil) (currently Zurich Santander Brasil Seguros e Previdência S.A.), Banco Santander (Brasil) S.A. is liable in the event of any adverse outcome of this proceeding. No provision was recognised in connection with this proceeding as it is considered to be a contingent liability.
- In November 2014 the Brazilian tax authorities issued an infringement notice against Banco Santander (Brasil) S.A. in relation to corporate income tax (IRPJ and CSLL) for 2009 questioning the tax-deductibility of the amortisation of the goodwill of Banco ABN AMRO Real S.A. performed prior to the absorption of this bank by Banco Santander (Brasil) S.A., but accepting the amortisation performed after the merger. The Bank appealed before the Higher Chamber of CARF, and a favourable decision was obtained in April 2024. No provision was recognised in connection with this proceeding as it was considered to be a contingent liability.
- Banco Santander (Brasil) S.A. has also appealed against infringement notices issued by the tax authorities questioning the tax deductibility of the amortisation of the goodwill arising on the acquisition of Banco Comercial e de Investimento Sudameris S.A from years 2007 to 2012. No provision was recognised in connection with this matter as it was considered to be a contingent liability.
- Banco Santander (Brasil) S.A. and other companies of the Group in Brazil are undergoing administrative and judicial procedures against Brazilian tax authorities for not admitting tax compensation with credits derived from other tax concepts, not having registered a provision for the amount considered to be a contingent liability.
- Banco Santander (Brasil) S.A. is involved in appeals in relation to infringement notices initiated by tax authorities regarding the offsetting of tax losses in the CSLL of year 2009 and 2019. The appeals are pending decision at the administrative level. No provision was recognised in connection with this matter as it is considered to be a contingent liability.
- Banco Santander (Brasil) S.A. filed a suspensive judicial measure aiming to avoid the withholding income tax (Imposto sobre a Renda Retido na Fonte - IRRF), on payments derived from technology services provided by Group foreign entities. A favorable decision was handed down and an appeal was filed by the tax authority at the Federal Regional Court, where it awaits judgment. No provision was recognized as it is considered to be a contingent liability.

- Brazilian tax authorities have issued infringement notices against Getnet Adquirência e Serviços para Meios de Pagamento S.A and Banco Santander (Brasil) S.A. as jointly liable in relation to corporate income tax (IRPJ and CSLL) for 2014 to 2018 questioning the tax-deductibility of the amortization of the goodwill from the acquisition of Getnet Tecnologia Proces S.A., considering that the company would not have complied with the legal requirements for such amortization. The tax assessment notices were appealed to the CARF. In March 2024, CARF issued a favourable partial decision on the infraction notice of 2014/2015.
- No provision was recognized as it is considered to be a contingent liability.
- The total amount for the aforementioned Brazil lawsuits that are fully provisioned is EUR 823 million, and for lawsuits that qualify as contingent liabilities is EUR 5,606 million.
- Banco Santander appealed before European Courts the Decisions 2011/5/CE of 28 October 2009 (First Decision), and 2011/282/UE of 12 January 2011 (Second Decision) of the European Commission, ruling that the deduction of the financial goodwill regulated pursuant to Article 12.5 of the Corporate Income Tax Law constituted illegal State aid. On October 2021 the Court of Justice definitively confirmed these
- Decisions. The dismissal of the appeal, that only affects these two decisions, had no impact on results.

At 31 March 2024, there are other less significant tax disputes.

#### **Non-Tax-related litigation**

At 31 March 2024 the main non-tax-related proceedings concerning the Group were as follows:

- **Payment Protection Insurance (PPI):** AXA France IARD and AXA France Vie (former GE Capital Corporation Group entities (GE Capital), known as Financial Insurance Company Ltd (FICL) and Financial Assurance Company Ltd (FACL), acquired by AXA SA in 2015) (together, AXA France) have brought a claim for GBP 552 million (EUR 645.9 million) (plus interest) against (i) Santander Cards UK Limited (former GE Capital entity known as GE Capital Bank Limited (GECB), which was acquired by Banco Santander SA in 2008 and subsequently transferred to Santander UK plc); and (ii) Santander Insurance Services UK Limited (a Banco Santander SA subsidiary) (together the Santander Entities). The claim relates to the allocation of liability for compensation and associated costs in respect of a large number of PPI policies distributed by GECB pre-2005, which were underwritten by FICL and FACL. AXA France updated the amount of losses initially claimed from GBP 636 million (EUR 733.5 million) to GBP 670 million (EUR 772.7 million) (plus interest) in their Re-Amended Particulars of Claim dated 2 December 2022. However, AXA France reduced their claim from GBP 670m (plus interest) to GBP 552 million (EUR 645.9 million) (plus interest) in their Re-Re-Amended Particulars of Claim dated 29 June 2023. The Santander Entities strongly refute the claim. Trial has been fixed for six weeks, beginning on 3 March 2025.

There are ongoing factual issues to be resolved which may have legal consequences including in relation to liability. These issues create uncertainties which mean that it is difficult to reliably predict the outcome or the timing of the resolution of the matter. The provision recognized includes the best estimate of the Santander Entities' liability to the specific portfolio.

- **Motor Finance Broker Commissions:** following the Financial Conduct Authority's (FCA) Motor Market review in 2019 which resulted in a change in rules in January 2021, Santander Consumer (UK) plc (SCUK) has received a number of county court claims and complaints in respect of its historical use of discretionary commission arrangements (DCAs) prior to the 2021 rule changes. In the context of the complaints made to the Financial Ombudsman Service relating to such commission arrangements, the FCA announced on 11 January 2024 that it intends to use its powers under s166 of the Financial Services and Markets Act 2000 to review the historical use of DCAs between lenders and credit brokers (the FCA Review) and whether redress should be payable within all the industry. In line with the FCA's announcement, we have paused the response to customer complaints until at least 20 November 2024. A claim has been issued against SCUK, Santander UK plc and others in the

Competition Appeal Tribunal (CAT), alleging that SCUK's historical commission arrangements in respect of used car financing operated in breach of the Competition Act 1998. The CAT proceedings have been stayed until 25 November 2024 given the ongoing FCA Review. While it is possible that certain charges may be incurred in relation to the FCA Review, existing or future county court claims, FOS complaints and the CAT proceedings, it is not considered that a legal or constructive obligation has been incurred in relation to these matters that would require a provision to be recognized at this stage. The resolution of such matters is not possible to predict with any certainty. There remain significant inherent uncertainties regarding the existence, scope and timing of any possible outflow which make it impracticable to disclose the extent of any potential financial impact.

- **Delforca:** dispute arising from equity swaps entered into by Gaesco (now Delforca 2008, S.A. (Delforca)) on shares of Inmobiliaria Colonial, S.A. Banco Santander, S.A. is claiming to Delforca before the Court of Barcelona in charge of the bankruptcy proceedings, a total of EUR 66 million from the liquidation resulting from the early termination of financial transactions due to Delforca's non-payment of the equity swaps. In the same bankruptcy proceedings, Delforca and Mobiliaria Monesa, S.A., parent of Delforca, (Monesa) have in turn claimed the Bank to repay EUR 57 million, which the Bank received for the enforcement of the agreed guarantee, as a result of the aforementioned liquidation. On 16 September 2021 the Commercial Court Number 10 of Barcelona has ordered Delforca to pay the Bank EUR 66 million plus EUR 11 million in interest and has dismissed the claims filed by Delforca. This decision has been appealed by Delforca, Monesa and the bankruptcy administrator. On 1 June 2023, the appeal hearing took place and on 15 November 2023 the Provincial Court of Barcelona rendered a judgment dismissing the appeals filed by Delforca, Monesa and the bankruptcy administrator and confirming the first instance judgment. Delforca and Monesa (not the bankruptcy administrator) have filed an appeal in cassation before the Supreme Court against the judgment of the Provincial Court of Barcelona. Separately, Mobiliaria filed in 2009 a civil procedure with the Courts of Santander against the Bank claiming damages that have not been specified to date. The procedure is suspended.
- **Former employees of Banco do Estado de São Paulo S.A., Santander Banespa, Cia. de Arrendamiento Mercantil:** class action filed by AFABESP (an association of retirees and former Banespa employees) claiming payment of a semi-annual bonus provided for in the Bank's bylaws. The final decision rendered on the merits was unfavorable to Santander. However, a favorable decision was subsequently rendered stating that each beneficiary of the decision shall file an individual lawsuit to receive the due amount. Since the judgments adopted different positions for each case, a procedure called Incident for the Resolution of Repetitive Demands (IRDR) was commenced before the Regional Labor Court (TRT) with the purpose of establishing objective criteria regarding the arguments brought by the Bank, mainly the statute of limitations and limitation of payments until December 2006 (Plan V). On 11 March 2024, the IRDR was admitted for future judgment, and it was determined that all cases filed in São Paulo - Capital remained suspended from its second instance (TRT).

Finally, due to the divergence between the interpretation of the Federal Constitution, an Action for Allegation of Non-Compliance with a Fundamental Precept (ADPF) was also filed, so that the Federal Supreme Court (STF) settles the issue and indicates the correct statute of limitations to be used in the individual cases filed.

Santander Brazil's external advisers have classified the risk as probable. The recorded provisions are considered sufficient to cover the risks associated with the legal claims that are being substantiated as of 31 March 2024.

- **'Planos Econômicos':** like the rest of the banking system in Brazil, Santander Brazil has been the target of customer complaints and collective civil suits stemming mainly from legislative changes and its application to bank deposits (economic plans). At the end of 2017, an agreement between regulatory entities and the Brazilian Federation of Banks (Febraban) with the purpose of closing the lawsuits was reached and was approved by the Supremo Tribunal Federal. Discussions focused on specifying the amount to be paid to each affected client according to the balance in their notebook at the time of the Plan. Finally, the total value of the payments will depend on the number of adhesions there may be and the number of savers who have proved the existence of the account and its balance on the date the indexes were changed. In November 2018, the STF ordered the suspension of all economic plan proceedings for two years from May 2018. On 29 May 2020, the STF approved the extension of the agreement for 5 additional years starting from 3 June 2020. Condition for this extension was to include

in the agreement actions related to the Collor I Plan. On 31 March 2024, the provision recorded for the economic plan proceedings amounts to EUR 193.4 million.

- **Floor clauses:** as a consequence of the acquisition of Banco Popular Español, S.A.U. (Banco Popular), the Group has been exposed to a material number of transactions with floor clauses. The so-called floor clauses are those under which the borrower accepts a minimum interest rate to be paid to the lender, regardless of the applicable reference interest rate. Banco Popular included floor clauses in certain asset-side transactions with customers. In relation to this type of clauses, and after several rulings issued by the Court of Justice of the European Union (CJEU) and the Spanish Supreme Court, and the extrajudicial process established by the Spanish Royal Decree-Law 1/2017, of 20 January, Banco Popular made provisions that were updated in order to cover the effect of the potential return of the excess interest charged for the application of the floor clauses between the contract date of the corresponding mortgage loans and May 2013. On 31 March 2024, after having processed most of the customer requests, the potential residual loss associated with ongoing court proceedings is estimated at EUR 49.3 million, amount which is fully covered by provisions.
- **Banco Popular's acquisition:** after the declaration of the resolution of Banco Popular, some investors filed claims against the EU's Single Resolution Board decision, and the FROB's resolution executed in accordance with the aforementioned decision. Likewise, numerous appeals were filed against Banco Santander, S.A. alleging that the information provided by Banco Popular was erroneous and requesting from Banco Santander, S.A. the restitution of the price paid for the acquisition of the investment instruments or, where appropriate, the corresponding compensation.

In relation to these appeals, on the one hand, the General Court of the European Union (GCUE) selected 5 appeals from among all those filed before the European courts by various investors against the European institutions and processed them as pilot cases. On 1 June 2022, the GCUE rendered five judgements in which it completely dismissed the appeals, (i) supporting the legality of the resolution framework applied to Banco Popular, (ii) confirming the legality of the action of the European institutions in the resolution of Banco Popular and (iii) rejecting, in particular, all the allegations that there were irregularities in the sale process of Banco Popular to Banco Santander, S.A. Although four of these five judgments were initially appealed in cassation before the CJEU, in July 2023 one of the appellants withdrew his appeal. Therefore, only the appeals against three judgments are pending before the CJEU.

On the other hand, in relation to the lawsuits initiated by investors directly against Banco Santander, S.A. derived from the acquisition of Banco Popular, on 2 September 2020, the Provincial Court of La Coruña submitted a preliminary ruling to the CJEU in which it asked for the correct interpretation of the Article 60, section 2 of Directive 2014/59/EU of the European Parliament and of the Council of 15 May, establishing a framework for the restructuring and resolution of credit institutions and investment services companies. Said article establishes that, in the cases of redemption of capital instruments in a bank resolution, no liability will subsist in relation to the amount of the instrument that has been redeemed.

On 5 May 2022, the CJEU rendered its judgement confirming that Directive 2014/59/EU of the European Parliament and of the Council does not allow that, after the total redemption of the shares of the share capital of a credit institution or an investment services company subject to a resolution procedure, the shareholders who have acquired shares within the framework of a public subscription offer issued by said company before the start of such a resolution procedure, exercise against that entity or against its successor, an action for liability for the information contained in the prospectus, under Directive 2003/71/EC of the European Parliament and of the Council, or an action for annulment of the subscription contract for those shares, which, taking into account its retroactive effects, gives rise to the restitution of the equivalent value of said shares, plus the interest accrued from the date of execution of said contract. Regarding this judgment, several courts have referred additional preliminary rulings before the CJEU: (i) in December 2022 the Supreme Court requested three preliminary rulings in respect of its applicability to the holders of subordinated obligations, preferred stocks and subordinated bonds of Banco Popular; (ii) in April 2023, the First Instance Court 3 of Santa Coloma de Farners requested three preliminary rulings to the CJEU asking about pre-emptive subscription rights and the compatibility of the principles of proportionality and legal certainty with the bringing of legal actions by former holders of pre-emptive subscription rights and shares against the entity issuing the securities or against the entity succeeding it,

which have been stayed by the CJEU until the preliminary rulings raised by the Supreme Court are resolved; and (iii) in November 2023, the Supreme Court requested another two preliminary rulings which supplement the ones requested in December 2022, regarding to a holder of subordinated bonds who filed a claim against Banco Popular before the resolution.

On 4 March 2024, in the context of preliminary proceedings 42/2017, the Central Court of Instruction No. 4 issued a ruling transforming the proceedings into Summary Proceedings and which terminating the investigation phase. This ruling considers that the circumstantial evidence resulting from the investigation which could constitute a crime is basically the following: (i) an alleged misrepresentation in the prospectus of the 2016 capital increase of Banco Popular; (ii) an alleged misrepresentation in the annual accounts of Banco Popular for 2015, the interim financial statements for 2016 and the annual accounts for 2016; and (iii) the offer to the market of a distorted amount of regulatory capital, after the capital increase of 2016 (for allegedly having been granted by Banco Popular financing to clients for the subscription of shares in the aforementioned capital increase, without discounting it from the regulatory capital). According to the aforementioned ruling, these facts could constitute the crimes of fraud of investors (art. 282 of the Criminal Code) and accounting falsehood (art. 290 of the Criminal Code). This ruling is not final as it has been appealed by several parties. All appeals are pending to be resolved.

During the course of the proceedings, on 30 April 2019, the Spanish National Court, ruled in favour of Banco Santander, S.A. declaring that Banco Santander, S.A. cannot inherit Banco Popular's potential criminal liability. This ruling was appealed before the Supreme Court, which rejected it. In these proceedings, Banco Santander, S.A. could potentially be subsidiarily liable for the civil consequences. In view of the CJEU ruling of 5 May 2022, the Bank requested confirmation of the exclusion of its subsidiary civil liability status in this criminal proceeding. On 26 July 2022, the Court rejected this request stating that it is a matter to be determined at a later procedural time. This decision was confirmed on appeal by the Chamber of the National Court by judgment of 5 October 2022.

The estimated cost of any compensation to shareholders and bondholders of Banco Popular recognized in the 2017 accounts amounted to EUR 680 million, of which EUR 535 million were applied to the commercial loyalty program. The CJEU judgement of 5 May 2022 represented a very significant reduction in the risk associated with these claims.

- **German shares investigation:** the Cologne Public Prosecution Office is conducting an investigation against the Bank and other group entities based in UK - Santander UK plc, Santander Financial Services Plc and Cater Allen International Limited -, in relation to a particular type of tax dividend linked transactions known as cum-ex transactions.

The Group is cooperating with the German authorities. According to the state of the investigations, the result, and the effects for the Group, which may potentially include the imposition of material financial penalties, cannot be anticipated. For this reason, the Bank has not recognized any provisions in relation to the potential imposition of financial penalties.

- **Banco Santander, S.A. was sued in a legal proceeding in which the plaintiff alleges that the Bank breached his contract as CEO of the institution:** in the lawsuit, the claimant mainly requested a declaratory ruling upholding the existence, validity and effectiveness of such contract and its enforcement together with the payment of certain amounts. For the case that the main request is not granted, the claimant sought a compensation for a total amount of approximately EUR 112 million or, an alternative relief for other minor amounts. Banco Santander, S.A. answered to the legal action stating that the conditions to which the appointment of that position was subject to were not met; that the executive services contract required by law was not concluded; and that in any case, the parties could terminate the contract without any justified cause.

On 17 May 2021, the plaintiff reduced his claims for compensation to EUR 61.9 million. On 9 December 2021, the Court upheld the claim and ordered the Bank to compensate the claimant in the amount of EUR 67.8 million. By court order of 13 January 2022, the Court corrected and supplemented its judgment, reducing the total amount to be paid by the Bank to EUR 51.4 million and clarifying that part of this amount (buy out) was to be paid under the terms of the offer letter, i.e., entirely in Banco Santander shares, within the deferral period for this type of remuneration at the plaintiff's former employer and subject to the performance metrics or parameters of the plan in force at the Bank, which was that of 2018.

As explained in note 5 of the report of the consolidated annual accounts for the year 2022, the degree of performance of these objectives was 33.3 per cent.

The Bank filed an appeal against the judgment before the Madrid Court of Appeal, which was opposed by the plaintiff. At the same time, the plaintiff filed an application for provisional enforcement of the judgment in the First Instance Court. A court order was issued ordering enforcement of the judgment, and the Bank deposited in the court bank account the full amount provisionally awarded to the claimant, including interest, for an approximate sum of EUR 35.5 million, within the voluntary compliance period.

On 6 February 2023, Banco Santander was notified with the judgment of 20 January 2023 by which the Madrid Court of Appeal partially upheld the appeal filed by the Bank. The judgment reduced the amount to be paid by EUR 8 million, which, to the extent that this amount was already paid in the provisional partial enforcement of the judgment of First Instance Court, must be returned to the Bank together with other amounts for interest, which the appeal judgement also rejects. The plaintiff deposited circa EUR 9.6 million. This amount was received by the Bank on 11 July 2023.

On 11 April 2023, the Bank filed an extraordinary appeal for procedural infringement and an appeal in cassation against the Madrid Court of Appeal's judgment before Spanish Supreme Court. Existing provisions cover the estimated risk of loss.

- **Universalpay Entidad de Pago, S.L. (Upay):** has filed a lawsuit against Banco Santander, S.A. for breach of the marketing alliance agreement (MAA) and claims payment (EUR 1,050 million). The MAA was originally entered into by Banco Popular and its purpose is the rendering of acquiring services (point of sale payment terminals) for businesses in the Spanish market. The lawsuit was mainly based on the potential breach of clause 6 of the MAA, which establishes certain obligations of exclusivity, non-competition and customer referral. On 16 December 2022, the Court ruled in favour of the Bank and dismissed the plaintiff's claim in its entirety. The decision has been appealed before the Provincial Court of Madrid and the Bank has filed its opposition to Upay's appeal.

Considering the decision at first instance and following the analysis carried out by the Bank's external lawyers, with the best information available to date, it is considered that no provision needs to be registered.

- **CHF Polish Mortgage Loans:** on 3 October 2019, the CJEU rendered its decision in relation to a judicial proceeding against an unrelated bank in Poland considering that certain contractual clauses in CHF-Indexed loan agreements were abusive. The CJEU left to Polish courts the decision on whether the whole contract can be maintained once the abusive terms have been removed, which should in turn decide whether the effects of the annulment of the contract are prejudicial to the consumer. In case of maintenance of the contract, the court may only integrate the contract with subsidiary provisions of national law and decide, in accordance with those provisions, on the applicable rate.

On 15 June 2023, the CJEU issued its judgment in Case C-520/21, in which it confirmed that it is national law that is relevant to determine the effect of cancellation of a contract - respecting the principles arising from Directive 93/13/EEC. According to the ruling of the CJEU in that case, the bank's claims in excess of the repayment of the nominal amount of the loan's principal and, as the case may be, the payment of default interest are contrary to the objectives of Directive 93/13/EEC if they were to lead to a profit analogous to the one it intended to make from the performance of the contract and thus eliminate the deterrent effect.

At the same time, the CJEU ruled that, under European law, there is no obstacle to the consumer being able to claim compensation from the bank beyond the return of the instalments paid, but at the same time stipulated that such a claim should be evaluated in light of all the circumstances of the case, so that the consumer's possible benefits from the cancellation of the contract do not exceed what is necessary to restore the factual and legal situation in which he would have been without entering into the defective contract and do not constitute an excessive sanction for the entrepreneur (principle of proportionality). Santander Bank Polska and Santander Consumer Bank Poland estimate legal risk using a model which considers different possible outcomes and regularly monitor court rulings on foreign currency loans to verify changes in case law practice.

As of 31 March 2024, Santander Bank Polska S.A. and Santander Consumer Bank S.A. maintain a portfolio of mortgages denominated in or indexed to CHF for an approximate gross amount of PLN 6,027.4 million (EUR 1,399.5 million). As of 1 January 2022, in accordance with IFRS 9 and based on the new best available information, the accounting methodology was adapted so that the gross carrying amount of mortgage loans denominated and indexed in foreign currencies is reduced by the amount in which the estimated cash flows are not expected to cover the gross amount of loans, including as a result of legal controversies relating to these loans. In the absence of exposure or insufficient gross exposure, a provision according to IAS 37 is recorded.

As of the same date, the total value of adjustment to gross carrying amount in accordance with IFRS9 as well as the provisions recorded under IAS37, amount to PLN 4,816.6 million (EUR 1,118.4 million). PLN 3,975.6 million (EUR 923.1 million) corresponds to adjustment to gross carrying amount under IFRS9 and PLN 841 million (EUR 195.3 million) to provisions recognized in accordance with IAS37. The adjustment to gross carrying amount in accordance with IFRS9 in the 3 months of 2024 amounted to PLN 88.7 million (EUR 20.5 million), and the additional provisions under IAS37 amounted to PLN 81.8 million (EUR 18.9 million). Other costs related to the dispute amounted to PLN 118.5 million (EUR 27.3 million). These provisions represent the best estimate as of 31 March 2024. Santander Bank Polska and Santander Consumer Bank Poland will continue to monitor and assess appropriateness of those provisions.

In December 2020, the Chairman of the KNF presented a proposal for voluntary settlements between banks and borrowers under which CHF loans would be retrospectively settled as PLN loans bearing an interest rate based on WIBOR plus margin. KNF continues to support the concept of offering such settlements by banks after the verdict of the CJEU on 15 June 2023. The Bank has prepared settlement proposals which consider both the key elements of conversion of home loans indexed to CHF, as proposed by the KNF Chairman, and the conditions defined internally by the Bank. The proposals are being presented to customers. This is reflected in the model which is currently used to calculate legal risk provisions.

Following the closing of the quarter, on 25 April 2024, the Civil Chamber of the Supreme Court rendered a decision according to which: (i) in the event that a provision of an indexed or denominated loan agreement relating to the manner of determining the exchange rate of a foreign currency constitutes an abusive contractual term and is not binding, based on the current case law, it is not possible for this provision to be replaced by any other method of determining exchange rates under the law or prevailing practices; (ii) in the event that it is not possible to determine a foreign currency exchange rate binding for the parties in an indexed or denominated credit agreement, the agreement is not binding. Further, referring to the issues related to the cancellation of a credit agreement, the Supreme Court pointed out that: (i) if the bank has paid all or part of the credit amount to the borrower and the borrower has made repayments of the credit, independent claims for the repayment of the undue payment arise in favour of each party (the so-called two condition theory); (ii) the limitation period of the bank's claim for reimbursement of amounts paid under the credit begins from the day following the day on which the borrower challenged the bindingness of the terms of the agreement; (iii) there is no legal basis for either party to claim interest or other benefits for the use of its funds during the period between the undue payment and the date when the repayment became due. The criteria set out by the Supreme Court in its decision could clarify the previous decisions described above.

Nine judges of the Supreme Court declined to participate in the resolution raising questions of a constitutional nature and six judges submitted dissenting opinions mainly on issues related to the maintenance of the agreement after the elimination of abusive clauses. Santander Bank Polska and Santander Consumer Bank Poland are analyzing the effect that the judgment can have on provisions which it is not possible to estimate in a reliable manner at the date of the approval of these interim financial statements.

- **Banco Santander Mexico:** dispute regarding a testamentary trust constituted in 1994 by Mr. Roberto Garza Sada in Banca Serfin (currently Santander Mexico) in favor of his four sons in which he affected shares of Alfa, S.A.B. de C.V. (respectively, Alfa and the Trust). During 1999, Mr. Roberto Garza Sada instructed Santander México in its capacity as trustee to transfer 36,700,000 shares from the Trust's assets to his sons and daughters and himself. These instructions were ratified in 2004 by Mr. Roberto Garza Sada before a Notary Public.

Mr. Roberto Garza Sada passed away on 14 August 2010 and subsequently, in 2012, his daughters filed a complaint against Santander Mexico alleging it had been negligent in its trustee role. The lawsuit was dismissed at first instance in April 2017 and on appeal in 2018. In May 2018, the plaintiffs filed an appeal (*recurso de amparo*) before the First Collegiate Court of the Fourth Circuit based in Nuevo León, which ruled in favor of the plaintiffs on 7 May 2021, annulling the 2018 appeal judgment and condemning Santander Mexico to the petitions claimed, consisting of the recovery of the amount of 36,700,000 Alfa shares, together with dividends, interest and damages.

Santander Mexico has filed various constitutional reviews and appeals against the *recurso de amparo* referred to above, which have been dismissed by the Supreme Court of Justice of the Nation. As of this date, an amparo review filed by the Bank is pending to be resolved in the Collegiate Courts in the State of Nuevo León, thus the judgment is not final. On 29 June 2022, Santander México, within the framework of the amparo review filed by the Bank, requested the First Collegiate Court in Civil Matters of the Fourth Circuit of Nuevo León the recusal of two of the three Magistrates who rendered against Santander Mexico, which was resolved in favour of Santander Mexico. Plaintiffs requested the recusal of the third Magistrate who ruled with a dissenting vote against the *recurso de amparo* referred above and this was resolved in favour of Plaintiffs, and consequently the matter has been referred to the Second Collegiate Court of the Fourth Circuit based in Nuevo León, for it to resolve the matter.

Santander México believes that the actions taken should prevail and reverse the decision against it. The impact of a potential unfavorable resolution for Santander México will be determined in a subsequent proceeding and will also depend on the additional actions that Santander México may take in its defense, so it is not possible to determine it at this time. At the current stage of the proceedings, the provisions recorded are considered sufficient to cover the risks deriving from this claim.

- **URO Property Holdings, SOCIMI SA:** on 16 February 2022, legal proceedings were commenced in the Commercial Court of London against Uro Property Holdings SOCIMI SA (Uro), a subsidiary of Banco Santander, S.A., by BNP Paribas Trust Corporation UK Limited (BNP) in its capacity as trustee on behalf of certain bondholders and beneficiaries of security rights. The litigation concerns certain terms of a financing granted to Uro which was supported by a bond issue in 2015. The claimant seeks a declaration by the Court and a monetary award against Uro, in connection with an additional premium above the nominal value of the financing repayment because of Uro having lost its status as SOCIMI (Sociedad Anónima Cotizada de Inversión Inmobiliaria), such loss causing the prepayment of the bond issue and, in the opinion of the claimant BNP, also the obligation to pay the additional premium by Uro. Uro denies being liable to pay that additional premium and filed its defense statement and a counterclaim against the claimant. The trial hearing has been scheduled for November and December 2024. Furthermore, Uro filed a summary judgement application for BNP's claim to be dismissed before trial. The dismissal of this application by the Commercial Court was confirmed by the Appeal Court. It is estimated that the maximum loss associated with this possible contingency, amounts to approximately EUR 250 million.

Banco Santander and the other Group companies are subject to claims and, therefore, are party to certain legal proceedings incidental to the normal course of their business including those in connection with lending activities, relationships with employees and other commercial or tax matters additional to those referred to here.

With the information available to it, the Group considers that, as of 31 March 2024, it had reliably estimated the obligations associated with each proceeding and had recognized, where necessary, sufficient provisions to cover reasonably any liabilities that may arise as a result of these tax and legal risks. Disputes in which provisions have been registered but are not disclosed is justified on the basis that it would be prejudicial to the proper defense of the Group. Subject to the qualifications made, it also believes that any liability arising from such claims and proceedings will not have, overall, a material adverse effect on the Group's business, financial position, or results of operations.

- (b) By constituting a private offering of securities, Dealer does not have the provision of regulated periodic information according to the rules issued by the National Council of Supervision of the Financial System and SUGEVAL.
- (c) Since it is not a public offering of securities registered in the National Registry of Securities and Intermediaries, the Dealer cannot trade its securities in the secondary market of registered securities.

- (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA; or
- (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

### *Certain Restrictions applicable to Notes issued in Singapore dollars:*

Notes denominated in Singapore dollars and issued to persons in Singapore by a person carrying on a deposit-taking business (whether in Singapore or elsewhere) with a maturity period of less than 12 months and a denomination of less than S\$200,000 would be treated as deposits for the purposes of the Banking Act 1970 of Singapore (the "**Singapore Banking Act**"), unless the Notes are issued to certain persons, including either:

- (a) an individual whose total net personal assets exceed in value S\$2 million (or its equivalent in foreign currency) at the time of the subscription, whose financial assets (net of any related liabilities) exceed in value S\$1 million (or equivalent in foreign currency) at the time of subscription, or whose income in the 12 months preceding the time of subscription is not less than S\$300,000 (or its equivalent in foreign currency) at the time of the payment; or
- (b) a company whose total net assets (as determined by the last audited-balance sheet of the company) exceeds S\$10 million (or its equivalent in foreign currency) at the time of subscription.

In determining the value of an individual's total net personal assets for the purposes of paragraph (a) above, the value of the individual's primary residence is taken to be the lower of the following:

- (a) the value calculated by deducting any outstanding amounts in respect of any credit facility that is secured by the residence from the estimated fair market value of the residence; and
- (b) S\$1 million.

In addition, even where Notes issued in Singapore dollars with a denomination of less than S\$200,000 are not treated as deposits for the purposes of the Singapore Banking Act, certain additional information is required to be furnished to investors in Singapore by an issuer which is carrying on a deposit-taking business. *In such case, please refer to the Applicable Transaction Terms for such further information.*

Selling restrictions may be supplemented or modified with the agreement of the Issuer. Any such supplement or modification may be set out in the applicable Pricing Supplement (in the case of a supplement or modification relevant only to a particular Tranche of Notes which are Exempt Notes) or in a supplement to this Base Prospectus.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Tax legislation, including in the country where the investor is domiciled or tax resident and in the Issuer's country of incorporation, may have an impact on the income that an investor receives from the Notes.

*The information provided below does not purport to be a complete summary of tax law and practice currently applicable in Spain, Austria, Andorra, France, Ireland, Italy, Germany, the Netherlands, Peru, Poland, Singapore and Switzerland and is subject to any changes in law and the interpretation and application thereof, which could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of the Notes, and does not purport to deal with the tax consequences applicable to all categories of investors, some of whom (such as dealers in securities) may be subject to special rules. Prospective investors who are in any doubts as to their position should consult with their own professional advisers.*

The Issuer does not assume any responsibility for the withholding of taxes at source.

#### Taxation in Spain

*The following is a general description of certain Spanish tax considerations and it is based on the laws presently in force in Spain (without prejudice of regional tax regimes in the Historical Territories of the Basque Country and the Community of Navarre or provisions passed by Autonomous Communities which may apply to investors for certain taxes). The information provided below does not purport to be a complete summary of tax law and practice currently applicable in Spain and is subject to any changes in law and the interpretation and application thereof, which could be made with retroactive effect.*

#### Introduction

- (a) of general application, Additional Provision One of Law 10/2014, of 26 June 2014 on the ordination, supervision and solvency of credit institutions, as well as Royal Decree 1065/2007 ("**Royal Decree 1065/2007**"), of 27 July 2007, as amended by Royal Decree 1145/2011, of 29 July 2011;

- (d) for individuals and legal entities who are not resident for tax purposes in Spain and are Non-Resident Income Tax ("**Non-Resident Income Tax**") taxpayers, Royal Legislative Decree 5/2004, of 5 March 2004, promulgating the Consolidated Text of the Non-Resident Income Tax Law, as amended from time to time, Royal Decree 1776/2004, of 30 July 2004, promulgating the Non-Resident Income Tax Regulations, as amended from time to time, along with Law 19/1991, of 6 June 1991, on Wealth Tax, as amended from time to time and Law 29/1987, of 18 December 1987, on Inheritance and Gift Tax, as amended from time to time, and Law 38/2022, for the establishment of temporary levies on energy and on financial credit institutions and introducing a temporary solidarity tax on large fortunes.

#### Indirect Taxation

Whatever the nature and residence of the holder of a beneficial interest in the Notes (each, a "**Beneficial Owner**"), the acquisition and transfer of the Notes will be exempt from indirect taxes in Spain, in accordance with Article 338 of the Securities Market Law, approved by Law 6/2023, of 17 March, for example exempt from transfer tax

and stamp duty, in accordance with the consolidated text of such tax promulgated by Royal Legislative Decree 1/1993, of 24 September 1993, and exempt from value added tax, in accordance with Law 37/1992, of 28 December 1992, regulating such tax, as amended from time to time.

### 1. **Individuals with Tax Residence in Spain**

#### 1.1 **Personal Income Tax (*Impuesto sobre la Renta de las Personas Físicas*)**

Spanish individuals ("*personas físicas*") with tax residency in Spain (each a "**Spanish Individual**") are subject to PIT on a worldwide basis. Accordingly, income obtained from the Notes will be taxed in Spain when obtained by persons that are considered resident in Spain for tax purposes. The fact that a Spanish company pays interest or guarantees payments under a Note will not lead an individual or entity to be considered tax-resident in Spain.

Both interest payments periodically received and income derived from the transfer, redemption or exchange of the Notes constitute a return on investment obtained from the transfer of a person's own capital to third parties in accordance with the provisions of Section 25 of the PIT Law, and therefore must be included in the investor's PIT savings taxable base pursuant to the provisions of the aforementioned law and taxed at a flat rate of 19 per cent. on the first €6,000, 21 per cent. for taxable income between €6,000.01 and €50,000, 23 per cent. for taxable income between €50,000.01 and €200,000, 27 per cent. for taxable income between €200,000.01 and €300,000, and 28 per cent. for taxable income exceeding €300,000.

According to Article 44.4 of the Royal Decree 1065/2007, in relation to withholding taxes, the Spanish Issuer would be obliged to withhold taxes in Spain on any interest paid under the Book-Entry Notes to PIT payers.

In that sense, in the case of Book-Entry Notes, other than Implicit Yield Notes with a duration of more than 12 months, the information procedures set out in Royal Decree 1065/2007 would need to be compiled with.

In addition, with respect to Implicit Yield Notes with a maturity of more than twelve (12) months, the information procedures set out in the PIT regulations would also need to be observed.

For that reason, in the case of Implicit Yield Notes with a maturity of more than twelve (12) months, the Issuer will proceed to reimburse them provided that the holder thereof accredits their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain. In accordance with the legislation currently in force, in case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof.

#### 1.2 **Net Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Net Wealth Tax may be levied in Spain on resident individuals, on a worldwide basis. In particular, individuals with tax residency in Spain are subject to Net Wealth Tax to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Notes which they hold as at 31 December each year, the applicable rates ranging between 0.2 per cent. and 3.5 per cent. The final tax rates may vary depending on any applicable regional tax laws, and some reductions may apply.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022 and, although it was introduced as a two year direct wealth tax, in December 2023, it was extended indefinitely. In general terms, it applies, under certain conditions, to those residents in an autonomous region where the Wealth Tax is partial or fully exempt. The amount payable for this tax could be reduced by the amount paid for Wealth Tax.

The rates of the "Solidarity Tax" are:

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

| Taxable base up to (Euros) | Tax due (Euros) | Rest of taxable base (Euros) | Rate |
|----------------------------|-----------------|------------------------------|------|
| 0.00                       | 0.00            | 3,000,000.00                 | 0%   |
| 3,000,000.00               | 0.00            | 2,347,998.03                 | 1.7% |
| 5,347,998.03               | 39,915,97       | 5,347,998.03                 | 2.1% |
| 10,695,996.06              | 152,223,93      | Any excess                   | 3.5% |

Notwithstanding the foregoing, note that this regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the net wealth, not tax exempt, are greater than €3.7 million.

Prospective investors are advised to seek their own professional advice in this regard.

### 1.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)

Individuals resident in Spain for tax purposes who acquire ownership or other rights over any Notes by inheritance, gift or legacy will be subject to the Spanish Inheritance and Gift Tax in accordance with the applicable Spanish regional and State rules. The applicable effective tax rates currently range between 0 per cent. and 81.6 per cent. depending on relevant factors.

## 2. Legal Entities with Tax Residency in Spain

### 2.1 Corporate Income Tax (*Impuesto sobre Sociedades*)

Both interest received periodically and income deriving from the transfer, redemption or repayment of the Notes are subject to Corporate Income Tax (at the current general rate of 25 per cent.) in accordance with the rules for this tax. This general rate will not be applicable to all Corporate Income Tax taxpayers and, for instance, it will not apply to banking institutions (which will be taxed at the rate of 30 per cent.). Special rates apply in respect of certain types of entities (such as qualifying collective investment institutions).

In accordance with Sections 4 and 5 of Article 44 of Royal Decree 1065/2007, there is no obligation to withhold on interest payable under the Notes issued in accordance with the Law 10/2014 and on the reimbursement of the Implicit Yield Notes with a duration of equal to or less than 12 months to Spanish CIT taxpayers (which for the sake of clarity, include Spanish tax resident investment funds and Spanish tax resident pension funds). Consequently, the Issuer will not withhold on interest payments from the Notes or on the reimbursement of Implicit Yield Notes to Spanish CIT taxpayers provided that the relevant information about the Notes is duly submitted.

According to Article 61.q) of the Corporate Income Tax Regulations, the Spanish Issuer would not be obliged to withhold taxes in Spain on any interest paid under the Implicit Yield Notes with a maturity of more than 12 months, other than Bearer Notes and Registered Notes, to Spanish CIT taxpayers provided that such Implicit Yield Notes would be issued in book entry form and admitted to trading on an official secondary securities market or in the Alternative Fixed Income Market in Spain. In addition, according to Article 61.s) of the Corporate Income Tax Regulations, the Spanish Issuer would not be obliged to withhold taxes in Spain on any interest paid under the Implicit Yield Notes with a maturity of more than 12 months, other than Book-Entry Notes, to Spanish CIT taxpayers provided that such Implicit Yield Notes would be listed and admitted to trading on an official securities market in an OECD country.

Likewise, in relation to the Implicit Yield Notes referred in the two preceding paragraphs, the information procedures set out in the CIT regulations would also need to be observed. In this respect, it is necessary to distinguish the procedure to be followed in the case of Notes issued in accordance with the Law 10/2014 or Implicit Yield Notes with a maturity equal to or less than 12 months, from the procedure applicable to the Implicit Yield Notes with a maturity of more than 12 months.

In the case of Implicit Yield Notes including, but not limited to, Zero Coupon Notes, with a duration of more than 12 months, the Issuer will proceed to reimburse them provided that the holder thereof accredits

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain. In accordance with the legislation currently in force, in case of failure to provide such certificate, the Issuer will not proceed to pay to the holder the reimbursement thereof.

In the case of Notes held by Spanish resident entities and deposited with a Spanish resident entity acting as depositary or custodian, payments of interest under the Notes may be subject to withholding tax at the generally applicable rate of 19 per cent., if the Notes do not comply with applicable exemption requirements including those specified in the Reply to the Consultation of the Directorate General for Taxation (*Dirección General de Tributos*) dated 27 July 2004 in which case the required withholding will be made by the depositary or custodian.

Notwithstanding the above, amounts withheld, if any, may be credited by the relevant investors against their final CIT liability.

### **2.2 Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Spanish resident legal entities are neither subject to Wealth Tax, nor to Solidarity Tax.

### **2.3 Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Legal entities with tax residency in Spain which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to Inheritance and Gift Tax and must include the market value of the Notes in their taxable income for Corporate Income Tax purposes.

## **3. Individuals and Legal Entities with no Tax Residency in Spain**

### **3.1 Non-Resident Income Tax (*Impuesto sobre la Renta de No Residentes*)**

#### **(a) *Non-Spanish resident investors acting through a permanent establishment in Spain***

Ownership of the Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

If the Notes form part of the assets of a permanent establishment in Spain of a person or legal entity who is not resident in Spain for tax purposes, the tax rules applicable to income deriving from such Notes are the same as those for Spanish Corporate Income Tax taxpayers.

In the same way, the reimbursement of Implicit Yield Notes with a maturity of more than 12 months will follow the same procedure as those for Spanish Corporate Income Tax taxpayers.

#### **(b) *Non-Spanish resident investors not acting through a permanent establishment in Spain***

Both interest payments received periodically and income deriving from the transfer, redemption or repayment of the Notes issued in accordance with the Law 10/2014 and Implicit Yield Notes with a maturity equal to or less than 12 months, obtained by individuals or entities who have no tax residency in Spain, and which are Non-Resident Income Tax taxpayers with no permanent establishment in Spain, are exempt from such Non-Resident Income Tax on the same terms laid down for income from public debt provided that the relevant information about such Notes is duly submitted to the Issuer.

In the case of Implicit Yield Notes with a maturity of more than 12 months, the Spanish Issuer would not be obliged to withhold taxes in Spain to Non-Resident Income Tax taxpayers if the holder provides the Issuer with a certificate of tax residence issued by the tax authorities of the relevant country.

To make the above exemptions effective, it will be necessary to comply with the information provision obligations described below. For these purposes, it is necessary to distinguish the procedure to be followed in the case of Notes issued in accordance with Law 10/2014 or Implicit Yield Notes with a maturity equal to or less than 12 months, from the procedure applicable to Implicit Yield Notes with a maturity of more than 12 months.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### 3.2 **Wealth Tax (*Impuesto sobre el Patrimonio*) and Solidarity Tax (*Impuesto Temporal de Solidaridad de las Grandes Fortunas*)**

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to the Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights located in Spain, or that can be exercised within the Spanish territory exceed EUR 700,000 would be subject to Wealth Tax in tax year 2022, the applicable rates ranging between 0.2 per cent. and 3.5 per cent..

Non-Spanish resident legal entities are not subject to Wealth Tax.

In addition to the above, the so-called "Solidarity Tax" was approved in December 2022 and, although it was introduced as a two year direct wealth tax, in December 2023, it was extended indefinitely. In general terms, it applies, under certain conditions, to those non-Spanish residents having properties or rights over properties located in Spain, or that can be exercised within the Spanish territory. The amount payable for this tax could be reduced by the amount paid for Wealth Tax.

The rates of the "Solidarity Tax" are:

| Taxable base up to (Euros) | Tax due (Euros) | Rest of taxable base (Euros) | Rate |
|----------------------------|-----------------|------------------------------|------|
| 0.00                       | 0.00            | 3,000,000.00                 | 0%   |
| 3,000,000.00               | 0.00            | 2,347,998.03                 | 1.7% |
| 5,347,998.03               | 39,915,97       | 5,347,998.03                 | 2.1% |
| 10,695,996.06              | 152,223,93      | Any excess                   | 3.5% |

Notwithstanding the foregoing, note that the regulation lays down a minimum exempt amount of €700,000 which means that its effective impact, in general, will occur when the value of the properties and rights over properties located in Spain, or that can be exercised within the Spanish territory, of the non-Spanish residents not tax exempt, are greater than €3,700,000.

Non-Spanish resident legal entities are not subject to Solidarity Tax.

Prospective investors are advised to seek their own professional advice in this regard.

### 3.3 **Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*)**

Individuals who do not have tax residency in Spain who acquire ownership or other rights over the Notes by inheritance, gift or legacy, and who reside in a country with which Spain has entered into a double tax treaty in relation to Inheritance and Gift Tax will be subject to the relevant double tax treaty.

If the provisions of the foregoing paragraph do not apply, such individuals will be subject to Inheritance and Gift Tax in accordance with Spanish regional and state legislation.

Non-Spanish resident legal entities which acquire ownership or other rights over the Notes by inheritance, gift or legacy are not subject to Inheritance and Gift Tax. They will be subject to Non-Resident Income Tax. If the legal entity is resident in a country with which Spain has entered into a double tax treaty, the provisions of such treaty will apply. In general, double tax treaties provide for the taxation of this type of income in the country of residence of the beneficiary.

## 4. **Obligation to inform the Spanish tax authorities of the ownership of the Notes**

With effect as from 1 January 2013, Law 7/2012, of 29 October, as implemented by Royal Decree 1558/2012, of 15 November, introduced new annual reporting obligations applicable to Spanish residents (i.e. individuals, legal entities, permanent establishments in Spain of non-resident entities) in relation to certain foreign assets or rights.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

Consequently, if the Notes are deposited with or placed in the custody of a non-Spanish entity, holders resident in Spain will be obliged, if certain thresholds are met as described below, to declare before the Spanish tax authorities, between 1 January and 31 March every year, the ownership of the Notes held on 31 December of the immediately preceding year (e.g. to declare between 1 January 2025 and 31 March 2025 the Notes held on 31 December 2024).

This obligation would only need to be complied with if certain thresholds are met: specifically, if the only rights/assets held abroad are the Notes, this obligation would only apply if the value of the Notes together with other qualifying assets held on 31 December exceeds €50,000 (with the corresponding valuation to be made in accordance with Wealth Tax rules). If this threshold is met, a declaration would only be required in subsequent years if the value of the Notes together with other qualifying assets increases by more than €20,000 as against the declaration made previously. Similarly, cancellation or extinguishment of the ownership of the Notes before 31 December should be declared if such ownership was reported in previous declarations.

### **5. Information about the Notes in Connection with Payments**

#### **5.1 Notes issued in accordance with Law 10/2014 or Implicit Yield Notes with a term equal to or less than 12 months**

In the case of Notes issued in accordance with Law 10/2014 or Implicit Yield Notes with a duration equal to or less than 12 months, the Issuer is currently required by Spanish law to file an annual return with the Spanish tax authorities in which it reports on certain information relating to the Notes.

In the case of Book-Entry Notes, other than Implicit Yield Notes with a duration of more than 12 months, according to Section 44.4 of Royal Decree 1065/2007, for the purpose of preparing the annual return referred to above, certain information with respect thereto must be submitted to the Issuer at the time of each payment.

Such information would be the following:

- (a) identification of the Notes (as applicable) in respect of which the relevant payment is made;
- (b) the date on which relevant payment is made;
- (c) the total amount of the relevant payment;
- (d) the amount of income corresponding to PIT taxpayers, except segregated coupons and segregated principal for which reimbursement an intermediary entity is involved; and
- (e) the amount of income which, according to paragraph 2 of article 44 of Royal Decree 1064/2007, must be paid gross.

In respect of Bearer Notes and Registered Notes, other than Implicit Yield Notes with a maturity of more than 12 months, in accordance with Section 44.5 of Royal Decree 1065/2007, for the purpose of preparing the annual return referred to above, certain information with respect thereto must be submitted to the Issuer at the time of each payment.

Such information would be the following:

- (a) identification of the Notes (as applicable) in respect of which the relevant payment is made;
- (b) the date on which relevant payment is made;
- (c) the total amount of the relevant payment; and
- (d) the amount of the relevant payment corresponding to each entity that manages a clearing and settlement system for securities situated outside Spain.

In particular, the Principal Paying Agent or (in the case of Book-Entry Notes) the Iberclear Paying Agent (or any other entity that holds securities on behalf of third parties within clearing and settlement systems domiciled in the Spanish territory) must certify the information above about such Notes by means of a certificate the form of which is attached as Annex 1 of this Base Prospectus. In light of the above, the

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

Issuer and the Principal Paying Agent or the Iberclear Paying Agent, as applicable, have arranged certain procedures to facilitate the collection of information concerning such Notes. Investors should note that the Issuer does not accept any responsibility relating to the procedures established for the collection of information concerning the Notes.

Accordingly, the Issuer will not be liable for any damage or loss suffered by any holder who would otherwise be entitled to an exemption from Spanish withholding tax but whose income payments are nonetheless paid net of Spanish withholding tax because these procedures prove ineffective. Moreover, the Issuer will not pay any additional amounts with respect to any such withholding. See "*Risk Factors*". The procedures for providing documentation referred to in this section are set out in detail in the Agency Agreement which may be inspected during normal business hours at the specified office of the Principal Paying Agent or the Iberclear Paying Agent. In particular, if the Principal Paying Agent does not act as common depository, the procedures described in this section will be modified in the manner described in the Agency Agreement.

If, following clarifications by the Spanish Tax Authorities, procedures in relation to Royal Decree 1065/2007 are subsequently amended, the Issuer, the Principal Paying Agent and the Iberclear Paying Agent will implement such procedures as may be required to enable the Issuer to comply with its obligations under applicable legislation as clarified by the Spanish Tax Authorities.

Please note that the procedure set out in Section 7 (*Implicit Yield Notes that are Book-Entry Notes with a maturity of more than 12 months*) below would also apply for Implicit Yield Notes with a maturity equal or less than 12 months when the holders are Spanish individuals taxpayers.

*Set out below is Annex 1. Sections in English have been translated from the original Spanish and such translations constitute direct and accurate translations of the Spanish language text. In the event of any discrepancy between the Spanish language version of the certificate contained in Annex 1 and the corresponding English translation, the Spanish tax authorities will give effect to the Spanish language version of the relevant certificate only.*

### **6. No holding of Implicit Yield Notes other than Book-Entry Notes by Spanish Individuals**

The sale, transfer, or acquisition of Implicit Yield Notes other than Book-Entry Notes including, but not limited to, Zero Coupon Notes, to or by individuals (*personas físicas*) who are tax resident in Spain (each a "**Spanish Individual**") is forbidden in all cases. Any transfer of Implicit Yield Notes other than Book-Entry Notes to or by Spanish Individuals is not permitted and such transfer will be considered null and void by the Issuer and the Guarantor. Accordingly, neither the Issuer nor the Guarantor will (i) recognise any Spanish Individual as owner of Implicit Yield Notes other than as an owner of Book-Entry Notes or (ii) list any Implicit Yield Notes other than Book-Entry Notes on AIAF.

### **7. Implicit Yield Notes that are Book-Entry Notes with a maturity of more than 12 months**

In case of Implicit Yield Notes that are Book-Entry Notes with a duration of more than 12 months, the reimbursement proceeding requires that the holder (i) provides the Issuer with a certificate of tax residence issued by the tax authorities of the country of its tax residence, in the case of Non-Resident Income Tax taxpayers, according to which no withholding tax should apply upon such reimbursement and (ii) accredits their prior acquisition and the corresponding acquisition price by means of the legally required certificate that has been issued by a Spanish financial institution or established in Spain.

In accordance with the legislation currently in force, in the case of failure to provide the certificate in relation to the prior acquisition and the corresponding acquisition price, the Issuer will not proceed to pay to the holder the reimbursement thereof.

### **8. The proposed financial transactions tax ("EU FTT")**

On 14 February 2013, the European Commission published a proposal for a Directive for a common EU FTT in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia and Spain. Estonia, however, withdrew from the enhanced cooperation in March 2016 (the "**FTT Participating Member States**").

The initial proposal had a very broad scope and could, if introduced, apply to certain dealings in financial instruments (including secondary market transactions) in certain circumstances.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

The initial proposal could apply to persons both within and outside of the FTT Participating Member States. Generally, it would apply to certain dealings in financial instruments where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the EU FTT proposal remains subject to negotiation between the FTT Participating Member States and the scope of any such tax is uncertain. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate, and FTT Participating Member States may withdraw.

Prospective investors of the Notes are advised to seek their own professional advice in relation to the FTT.

### **9. The Spanish financial transactions tax**

The Spanish law which implements the Spanish financial tax (the "**Spanish FTT**") was approved on 7 October 2020 (the "**FTT Law**") and the FTT Law was published in the Spanish Official Gazette (*Boletín Oficial del Estado*) on 16 October 2020. The Spanish FTT came into force three months after the publication of the FTT Law in the Spanish Official Gazette (that is, on 16 January 2021).

Spanish FTT will charge a 0.2 per cent. rate on specific acquisitions of listed shares issued by Spanish companies whose market capitalisation exceeds €1 billion, regardless of the jurisdiction of residence of the parties involved in the transaction. The tax payer will be the financial traders that transfer or execute the purchase order and must submit an annual tax return.

The list of the Spanish companies with a market capitalisation exceeding €1 billion at 1 December of each year will be published on the Spanish tax authorities' website before 31 December each year. For the purposes of transactions closed during 2024, the Spanish tax authorities issued a list of entities whose market capitalisation exceeded €1 billion as of 1 December 2023, that will fall within the scope of the Spanish FTT.

In principle, the Spanish FTT does not affect transactions involving bonds or debt or similar instruments.

Prospective investors are advised to seek their own professional advice in relation to the Spanish FTT.

# TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

## Taxation in the Principality of Andorra

The following is a general description of certain Andorran tax considerations based upon the laws currently in force in the Principality of Andorra ("Andorra").

### Introduction

This information has been drafted based upon the following Andorran tax legislation in force as of the date of this Base Prospectus:

- (i) For legal entities resident for tax purposes in Andorra which are Corporate Income Tax ("**Corporate Income Tax**" or "**CIT**") taxpayers, the (a) Law 95/2010, of 29 December 2010, on the Corporate Income Tax, as amended from time to time and the (b) Decree of 14 May 2019, on the Corporate Income Tax Regulations, as amended from time to time (both referred to as "**Corporate Income Tax Regulations**"); and
- (ii) For individuals being residents for tax purposes in Andorra which are Personal Income Tax ("**Personal Income Tax**" or "**PIT**") taxpayers, the (a) Law 5/2014, of 24 April 2014, on Personal Income Tax and the (b) Decree of 24 April 2014, as amended from time to time (both referred to as "**Personal Income Tax Regulations**").

The acquisition and transfer of the Notes will be exempt from indirect taxes in Andorra.

### Legal Entities with Tax Residency in Andorra

#### (a) Corporate Income Tax ("*Impost sobre Societats*")

Both interests received periodically and income deriving from the transfer, redemption or repayment of the Notes are subject to Corporate Income Tax (at the current general rate of 10 per cent.) in accordance with the Corporate Income Tax Regulations. This general rate will not be applicable to all Corporate Income Tax taxpayers and, for instance, a special rate (0 per cent.) applies for collective investment undertakings.

#### (b) Other considerations (Wealth, Gifts and heritances)

Andorran tax legislation does not provide for wealth tax. Consequently, the mere holding of the Notes is not a taxable event.

Andorran tax legislation does not provide for specific inheritance and gifts tax. However, Andorran-resident legal entities which acquire ownership or other rights over the Notes by inheritance or gift must include the market value of the Notes (or the market value of the rights so acquired) in their taxable income for Corporate Income Tax Regulations purposes.

### Individuals with Tax Residency in Andorra

#### (a) Personal Income Tax ("*Impost sobre la Renda de les Persones Físiques*")

Both interests received periodically and income deriving from the transfer, redemption or repayment of the Notes are subject to Personal Income Tax (at the current general rate of 10 per cent.) in accordance with the Personal Income Tax Regulations as a part of saving tax base. The Personal Income Tax establishes an exemption of €3,000 per year applicable to the saving tax base.

In accordance with the Personal Income Tax Regulations, there is a withholding obligation on interest payable to Andorran PIT taxpayers. Consequently, the Local Entity will withhold on interest payments to Andorran PIT at a 10 per cent. fix rate.

However, the Personal Income Tax Regulations establish a €3,000 exemption per year for the benefit of Andorran tax resident individuals.

#### (b) Other considerations (Wealth, Gifts and heritances)

Andorran tax legislation does not provide for wealth tax nor inheritance or gifts tax.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### Taxation in Austria

*This summary is based on Austrian tax laws as currently in force and as applied on the date of this Base Prospectus. The laws and their interpretation by the tax authorities and tax courts may change and such changes may also have retroactive effect. The following comments reflect the Issuer's understanding of certain aspects of Austrian tax laws in connection with the acquisition, ownership, disposition and redemption of the Notes. They are of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. For their particular case, prospective investors should consult their professional legal and tax advisors.*

### General Remarks

Individuals resident in Austria are subject to Austrian income tax (*Einkommensteuer*) on their worldwide income (unlimited income tax liability). Individuals qualify as residents if they have either their permanent domicile and/or their habitual abode in Austria. Otherwise, they are non-resident individuals subject to income tax only on income from certain Austrian sources (limited income tax liability).

Companies resident in Austria are subject to Austrian corporate income tax (*Körperschaftsteuer*) on their worldwide income (unlimited corporate income tax liability). Companies qualify as residents if they have their place of effective management and/or their legal seat in Austria. Otherwise they are non-residents subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability).

Under Austrian tax law, individuals are subject to income tax pursuant to the Austrian Income Tax Act 1988 (*Einkommensteuergesetz* 1988, Federal Law Gazette 1988/400 as amended – "ITA") generally at progressive tax rates between 0 per cent. and 55 per cent. Corporate entities are subject to a corporate income tax at a rate of 23 per cent. pursuant to the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz* 1988, Federal Law Gazette 1988/40 I as amended – "CITA").

In case of unlimited and limited (corporate) income tax liability, Austria's right to levy taxes may be restricted by double taxation treaties.

There is no transfer tax, registration tax or similar tax payable in Austria by the holders of Notes as a consequence of the acquisition, ownership, disposition or redemption of Notes (when issued in bearer form only). The sale and purchase of Notes is not subject to Austrian stamp duty provided that no other transaction potentially taxable under the Federal Stamp Duty Act (*Gebührengesetz* 1957, Federal Law Gazette 1957/267 as amended) such as an assignment is entered into for which a document (*Urkunde*) within the meaning of the Stamp Duty Act is executed.

### *Austrian Resident Individuals*

Income derived from debt instruments such as the Notes qualifies as investment income (*Einkünfte aus Kapitalvermögen*). Such income comprises not only current income, i.e. interest payments and similar earnings, but also "realized" capital gains (*Einkünfte aus realisierten Wertsteigerungen von Kapitalvermögen*) from the sale or redemption of debt instruments, irrespective of whether they have been held as business or non-business assets and irrespective of whether the profits have been realized within a particular holding period. According to the relevant provisions of the ITA, in the tax base is, in general, the difference (surplus) between the proceeds from the sale or redemption of the debt instruments, i.e. their selling or redemption price, and their purchase price (acquisition cost).

Such profits, i.e. current income and "realized" capital gains, are in principle subject to a special tax rate of 27.5 per cent. (*Kapitalertragsteuer*, Capital Proceeds Tax – "CPT") and will be deducted by the custodian bank (*depotführende Stelle*) or the paying office (*auszahlende Stelle*), if located in Austria. Expenses which are directly connected with income subject to the special tax rate are not deductible. However, as regards profits from debt instruments such as the Notes, the special tax rate will only apply in cases where the instruments have in the primary offering been offered to an undetermined number of people (a "public offer"). This tax is in principle "final", which means that no further tax will be levied on such income and capital gains and that they do not have to be declared in other tax declarations of the taxpayer (in particular, a personal tax rate exceeding 27.5 per cent. will not apply). In case the taxpayer applies for regular taxation (*Regelbesteuerungsoption* - which they might do in case their personal tax rate is below 27.5 per cent.) or for the offsetting of losses (*Verlustausgleichsoption*), taxation is not final. The option for regular taxation may be exercised independently from the option for the offsetting of losses by filing a respective request to the tax office. It leads to an assessment for income tax and to the application of the regular, progressive income tax rate (currently amounting to a maximum of 55 per cent.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

whereby the 55 per cent. tax rate applies, according to the currently existing legal framework up to and including 2025, only for yearly taxable income exceeding €1,000,000) on all taxable capital gains.

Further, pursuant to the relevant provisions of the ITA, the withdrawal or transfer of debt instruments such as the Notes from their current investor's securities account shall, as a general rule, also trigger CPT, unless one of the exemptions contained in the ITA applies. These exemptions are all based on the idea that no CPT shall be deducted, in cases where the taxation in Austria of potential future profits deriving from the sale or redemption of the transferred debt instruments remains in fact possible. In addition exit tax rules (*Wegzugsbesteuerung*) apply if Austria loses its right to tax the notes in the event of certain transfers or relocation, which are not discussed herein.

In its international dimension, the capital gains tax applies only and CPT will only be deducted, if either the custodian bank (*depotführende Stelle*) or - under certain conditions - the paying office (*auszahlende Stelle*) is located in Austria. In most cases the paying office (*auszahlende Stelle*) will be the bank with which the investor maintains their securities account. The term "custodian bank" refers to banks (its branches and offices) providing the securities account to the investor and not to any other bank up in the holding chain. The custodian bank or, if applicable, the paying office will be responsible for the deduction of the capital gains tax (CPT) and its transfer to the respective Austrian tax office.

To the extent that no CPT is deducted due to the lack of a custodian bank (*depotführende Stelle*) or a paying office (*auszahlende Stelle*) located in Austria, the income derived from debt instruments such as the Notes must be included into the respective taxpayer's tax declaration, if such profits are received by an Austrian resident individual subject to unlimited income tax liability. In this case, the special tax rate of 27.5 per cent. equally applies.

The Issuer does not assume any responsibility for Austrian CPT (*Kapitalertragsteuer*) to be withheld by any custodian bank (*depotführende Stelle*) or a paying office (*auszahlende Stelle*) located in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

### *Austrian Resident Corporate Investors*

Resident corporate investors deriving business income from the Notes may avoid the deduction of CPT by filing a statement of exemption with the securities account keeping bank (or the paying office) and (via the bank/paying office) with the competent Austrian tax office to the fact that the payment received is due to a commercial enterprise subject to taxation in Austria (*Befreiungserklärung*). Income derived from the Notes by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 23 per cent. A special tax regime applies for private foundations (*Privatstiftungen*).

### **Non-Resident Individuals and Non-Resident Corporate Investors**

Interest income falls within the limited income tax liability applicable to non-resident individuals in case the interest payment is qualified "domestic" (section 98 para 1 no. 5 of the ITA) and provided that CPT has to be deducted. Interest payments will be qualified domestic in case the debtor's domicile, legal seat or place of effective management is located in Austria or in case the debtor is an Austrian branch of a foreign bank. Interest income derived from debt instruments (interest payments, realised capital gains) will be qualified domestic in case the debt securities have been issued by an Austrian issuer. For non-resident corporate entities deriving business income from Notes the current exemption in section 98 para 1 no. 5 of the ITA will continue to apply pursuant to which interest payments which are not received by individuals are exempt from the limited income tax liability. In addition, an exemption will apply in case interest income is received by individuals which are resident in countries in respect of which an automatic exchange of financial account information (see below) with Austria is implemented. The justification of residence in such a country must be proven by a certificate of residence. Further, non-resident corporate investors deriving business income from Notes may avoid the deduction of CPT by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian paying office.

Applicable double taxation treaties may provide for a reduction of or relief from CPT. In case non-residents receive income from Notes through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors. Investors should consult their professional advisers to clarify their position.

### **Other Taxes**

Due to a decision of the Austrian Constitutional Court (*Verfassungsgerichtshof*), the Austrian inheritance and gift tax (*Erbschafts- und Schenkungssteuer*) has been abolished with effect of August 1, 2008. However, pursuant to

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

section 121a of the Federal Fiscal Code (*Bundesabgabenordnung*, Federal Law Gazette 1961/194 as amended), gifts exceeding certain amounts must be notified to the Austrian tax authorities within a three-month notification period. In addition, it should be mentioned that certain gratuitous transfers of assets to (Austrian or foreign) private law foundations and comparable legal estates are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Federal Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*, Federal Law Gazette I 2008/85). This tax is triggered, if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of effective management in Austria. The tax is based on the market value of the transferred assets less any debt economically linked to these assets. In general, the applicable tax rate amounts to 2.5 per cent. However, in certain cases a higher tax rate of 25 per cent. applies.

### **Taxation in France**

*The following is an overview of certain tax consequences relating to the holding of the Notes. This overview is based on the laws and regulations in full force and effect in France as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that this overview is of a general nature and does not constitute legal or tax advice and should not be understood as such. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or disposal of the Notes.*

#### ***Withholding taxes***

*The following has been prepared on the assumption that the Issuer is not a French resident for French tax purposes (whether actually or constructively) and the Notes (and any transaction in relation to the Notes) are not attributed or attributable to a French branch, permanent establishment or place of business of the Issuer for French tax purposes.*

The withholding tax treatment of the Notes issued by the Issuer will depend on their nature and characterisation for French tax purposes.

#### ***Notes issued by the Issuer constituting debt instruments for French tax purposes***

Payments with respect to Notes issued by the Issuer which are treated as debt instruments for French tax purposes would be made free of any compulsory withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by France or any political subdivision or taxing authority thereof or therein.

However, if the paying agent (*établissement payeur*) is established in France, pursuant to Article 125 A I of the French *Code général des impôts*, subject to certain exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at an aggregate rate of 17.2 per cent. on such interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France, subject to certain exceptions.

#### ***Notes issued by the Issuer not constituting debt instruments for French tax purposes***

Payments with respect to Notes issued by the Issuer which are not treated as debt instruments for French tax purposes would not be subject to any mandatory withholding tax in France.

#### ***Transfer tax and other taxes***

*The following may be relevant in connection with Notes which may be settled or redeemed by way of physical delivery of (i) certain listed shares or certain assimilated securities issued by a company whose registered office is situated in France or (ii) securities representing such shares (or assimilated securities). In circumstances where the Notes are settled or redeemed by way of physical delivery of assets (other than certain listed French shares (or certain assimilated securities) or securities representing certain listed French shares (or certain assimilated securities), investors are urged to consult their advisor to assess the potential French tax consequences.*

Pursuant to Article 235 *ter* ZD of the French *Code général des impôts*, a financial transaction tax (the "**French FTT**") is applicable, to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) within the meaning of Article L 212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) within the meaning of Article L 211-41 of the French

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

*Code monétaire et financier*, admitted to trading on a recognised stock exchange when the said security is issued by a company whose registered office is situated in France and whose market capitalisation exceeds €1 billion on 1 December of the year preceding the year in which the imposition occurs (the "**French Shares**") or (ii) a security (*titre*) representing French Shares (irrespective of the location of the registered office of the issuer of such security). The rate of the French FTT is 0.3 per cent. of the acquisition value of the French Shares (or securities representing French Shares). There are a number of exemptions from the French FTT and investors should consult with their counsel to identify whether they can benefit from them.

If the French FTT applies to an acquisition of French Shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is situated in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

### Taxation in Ireland

The following is an overview of certain tax consequences relating to the holding of the Notes. This overview is based on the laws and regulations in full force and effect in Ireland as at the date of this Base Prospectus, which may be subject to change in the future, potentially with retroactive effect. Investors should be aware that this overview is of a general nature and does not constitute legal or tax advice and should not be understood as such. It deals with holders of Notes who beneficially own their Notes as an investment and who are not associated with the Issuer (otherwise than by virtue of holding the Notes). Particular rules not discussed below may apply to certain classes of taxpayers holding Notes such as dealers in securities. Prospective investors are therefore advised to consult their own qualified advisers so as to determine, in the light of their individual situation, the tax consequences of the purchase, holding, redemption or disposal of the Notes.

#### *Withholding tax*

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which could include interest paid on the Notes. However, an exemption from withholding on interest payments exists under Section 64 of the Taxes Consolidation Act, 1997 (the "**1997 Act**") for certain interest bearing securities ("**quoted Eurobonds**") issued by a body corporate (such as the Issuer) which are quoted on a recognised stock exchange (which would include Euronext Dublin).

Any interest paid on such quoted Eurobonds can be paid free of withholding tax provided:

- (a) the person by or through whom the payment is made is not in Ireland; or
- (b) the payment is made by or through a person in Ireland, and either:
  - (i) the quoted Eurobond is held in a clearing system recognised by the Irish Revenue Commissioners (Euroclear and Clearstream, Luxembourg are so recognised), or
  - (ii) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as an Irish paying agent) in the prescribed form.

So long as the Notes are quoted on a recognised stock exchange and are held in Euroclear and/or Clearstream, Luxembourg, interest on the Notes can be paid by the Issuer and any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax.

In certain circumstances, Irish tax will be required to be withheld at the rate of 25 per cent from interest on any quoted Eurobond, where such interest is collected by a bank or other agent in Ireland on behalf of any Noteholder.

#### *Taxation of Noteholders*

Notwithstanding that a Noteholder may receive interest on the Notes free of withholding tax, the Noteholder may still be liable to pay Irish income tax. Interest paid on the Notes may have an Irish source and therefore be within the charge to Irish income tax, pay related social insurance "**PRSI**" and the universal social charge. Ireland operates a self-assessment system in respect of income tax and any person, including a person who is neither resident nor ordinarily resident in Ireland, with Irish source income comes within its scope.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

However, interest on the Notes will be exempt from Irish income tax if the recipient of the interest is resident in a relevant territory (a member state of the European Union (other than Ireland) or in a country with which Ireland has a comprehensive double taxation agreement) provided either (i) the Notes are quoted Eurobonds and are exempt from withholding tax as set out above, (ii) the Notes are not or cease to be quoted Eurobonds exempt from withholding tax and the recipient of the interest is a company resident in a relevant territory that generally taxes foreign source interest.

In addition, provided that the Notes are quoted Eurobonds and are exempt from withholding tax as set out above, the interest on the Notes will be exempt from Irish income tax if the recipient of the interest is (i) a company under the control, directly or indirectly, of persons who by virtue of the law of a relevant territory are resident in that country and that person or persons are not themselves under the control whether directly or indirectly of a person who is not resident in such a country, or (ii) a company, the principal class of shares of such company, or another company of which the recipient company is a 75 per cent. subsidiary, is substantially and regularly traded on one or more recognised stock exchanges in Ireland or a relevant territory or a stock exchange approved by the Irish Minister for Finance.

Notwithstanding these exemptions from income tax, a corporate recipient that carries on a trade in Ireland through a branch or agency in respect of which the Notes are held or attributed may have a liability to Irish corporation tax on the interest.

Noteholders receiving interest on the Notes which does not fall within the above exemptions may be liable to Irish income tax, PRSI and the universal social charge on such interest.

### ***Capital gains tax***

A holder of Notes may be subject to Irish tax on capital gains on a disposal of Notes unless such holder is neither resident nor ordinarily resident in Ireland and does not carry on a trade in Ireland through a branch or agency in respect of which the Notes are used or held.

### ***Capital acquisitions tax***

A gift or inheritance comprising of Notes will be within the charge to capital acquisitions tax if either (i) the disponer or the donee/successor in relation to the gift or inheritance is resident or ordinarily resident in Ireland (or, in certain circumstances, if the disponer is domiciled in Ireland irrespective of his residence or that of the donee/successor) or (ii) the Notes are regarded as property situate in Ireland. Bearer notes are generally regarded as situated where they are physically located at any particular time. Registered Notes are generally regarded as situated where the principal register of Noteholders is maintained or is required to be maintained, but the Notes may be regarded as situated in Ireland regardless of their physical location or the location of the register as they represent a debt owed by an Irish incorporated debtor which may be secured over Irish property. Accordingly, if such Notes are comprised in a gift or inheritance, the gift or inheritance may be within the charge to tax regardless of the residence status of the disponer or the donee/successor.

### ***Stamp duty***

Any document or transfer order effected through a securities settlement system operated by a central securities depository transferring an interest in the Notes is potentially subject to 1 per cent. Irish stamp duty. However, if the terms of the loan capital exemption are satisfied, no stamp duty is payable. There are four conditions that must be satisfied to avail of this exemption:

- (a) the Notes must not carry a right of conversion into shares of an Irish incorporated company;
- (b) the Notes must not carry rights similar to those attaching to shares, including voting rights, entitlement to a share of profits or a share in surplus on liquidation of the Issuer;
- (c) the Notes must be issued for a price which is not less than 90 per cent. of the nominal value of the Notes; and
- (d) the Notes must not carry a right to a sum in respect of repayment or interest which is related to certain movements in an index or indices (based wholly or partly and directly or indirectly on stocks or marketable securities) specified in any document relating to the Notes.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

A second possible exemption may apply to the Notes if the loan capital exemption above is not available. The transfer of foreign loan securities issued by an Irish company is exempt from stamp duty. For this purpose, a "foreign loan security" is a security issued outside Ireland in respect of a loan which is expressed in a currency other than euro and is neither offered for subscription in Ireland nor offered for subscription with a view to an offer for sale in Ireland of securities in respect of the loan.

Where the above exemptions (or any other available exemption) do not apply, the transfer of a Note will be subject to stamp duty at a rate of 1 per cent of the consideration paid in respect of the transfer (or if greater, the market value thereof) which must be paid in Euro by the transferee (assuming an arm's length transfer) within 30 days of the date on which the transfer of the Note is executed.

### **Taxation in Italy**

*The following is a summary of current Italian law and practice relating to the taxation of Notes and Certificates. The statements herein regarding taxation are based on the laws in force in Italy and published practices of the Italian tax authorities issued as at the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of Notes and Certificates and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of Notes and Certificates are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of Notes and Certificates.*

*This summary does not describe the tax consequences for an investor with respect to Notes and Certificates that will be redeemed by physical delivery. Prospective Noteholders and Certificateholders are advised to consult their own tax advisers concerning the overall tax consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Notes and Certificates and receiving payments of interest, principal and/or other amounts under the Notes and Certificates, including in particular the effect of any state, regional or local tax laws.*

*In any case, Italian legal or tax concepts may not be identical to the concepts described by the same English term as they exist under terms of different jurisdictions and any legal or tax concept expressed by using the relevant Italian term shall prevail over the corresponding concept expressed in English terms.*

*Law No. 111 of 9 August 2023, published in the Official Gazette No. 189 of 14 August 2023 ("**Law 111**"), delegates power to the Italian Government to enact, within twenty-four months from its publication, one or more legislative decrees implementing the reform of the Italian tax system (the "**Tax Reform**"). According to Law 111, the Tax Reform will significantly change the taxation of financial incomes and capital gains and introduce various amendments in the Italian tax system at different levels. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with certainty at this stage.*

### **Italian tax treatment of the Notes and Certificates**

As clarified by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, the Notes and Certificates may be subject to different tax regimes depending on whether:

- they represent a debt instrument implying a use of capital (*impiego di capitale*), through which the relevant holders transfer to the Issuer a certain amount of capital, for the economic exploitation of the same, subject to the right to obtain a (partial or entire) reimbursement of such amount at maturity; or
- they represent derivative financial instruments or bundles of derivative financial instruments that do not entail a use of capital, through which the holders purchase indirectly underlying financial instruments for the purpose of obtaining a profit deriving from the negotiation of such underlying financial instruments.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Italian resident holders*

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, ("**Decree No. 239**") provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from securities falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) issued, *inter alia*, by non-Italian resident issuers.

For these purposes, debentures similar to bonds are defined as debentures that incorporate an unconditional obligation to pay, at redemption or maturity, an amount not less than their principal amount (whether or not providing for interim payments), that do not give any right to directly or indirectly participate in the management of the relevant Issuer or of the business in relation to which they are issued nor any type of control on such management and do not provide for a remuneration which is entirely linked to the profits of the issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued.

Where an Italian resident Noteholder or Certificateholder is (i) an individual not engaged in an entrepreneurial activity to which the relevant securities are connected, (ii) a non-commercial partnership or a *de facto* partnership not carrying out commercial activities pursuant to Article 5 of Presidential Decree No. 917 of 22 December 1986 (the Italian Income Consolidated Tax Code, "**TUIR**") (with the exception of general partnership, limited partnership and similar entities), (iii) a non-commercial private or public institution (other than a company), a trust not carrying out mainly or exclusively commercial activities or the Italian State or other public and territorial entity, or (iv) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to Notes and Certificates, accrued during the relevant holding period, are subject to a withholding tax, referred to as "*imposta sostitutiva*", levied at the rate of 26 per cent. unless the relevant holder has entrusted the management of his financial assets, including the Notes and Certificates, to an authorised intermediary and has opted for the so called "*risparmio gestito*" regime (see under "*Capital gains tax*", below). In the event that holders described under (i) to (iii) above are engaged in an entrepreneurial activity to which the relevant Notes and Certificates are connected, the *imposta sostitutiva* applies as a provisional tax. Interest will be included in the relevant beneficial owner's Italian income tax return and will be subject to Italian ordinary income taxation and the *imposta sostitutiva* may be recovered as a credit that can be offset against the income tax due.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the *imposta sostitutiva*, on interest, premium and other income relating to the Notes and Certificates if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Where an Italian resident holder is a company or similar commercial entity pursuant to Article 73 of TUIR or a permanent establishment in Italy of a foreign company to which Notes and Certificates are effectively connected and such securities are deposited with an authorised intermediary, interest, premium and other income from such Notes and Certificates will not be subject to *imposta sostitutiva*, but must be included in the relevant holder's income tax return and are therefore subject to general Italian corporate taxation ("**IRES**") and, in certain circumstances, depending on the "status" of the holder, also to the regional tax on productive activities ("**IRAP**").

Payments of interest, premium and other income deriving from the Notes and Certificates made to Italian resident real estate investment funds and Italian resident real estate investment companies with fixed capital (SICAF, i.e. *società di investimento a capitale fisso*) (the **Real Estate Funds**) complying with the relevant legal and regulatory requirements and subject to the regime provided for by, *inter alia*, Law Decree No. 351 of 25 September 2001 and/or Law Decree No. 44 of 4 March 2014, each as amended, are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of such Real Estate Funds, provided that the Notes are timely deposited with an Intermediary (as defined below). Subsequent distributions made in favour of unitholders or shareholders of the Real Estate Fund and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Real Estate Fund may be subject, in certain circumstances, to a withholding tax of 26 per cent.. Moreover, subject to certain conditions, depending on the status of the investor and the percentage of its

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

participation, income realised by Real Estate Funds may be attributed to the relevant investors and subject to tax in their hands irrespective of its actual collection and in proportion to the percentage of ownership of units or shares on a tax transparency basis.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund other than a Real Estate Fund, a SICAF (an investment company with fixed share capital) other than a Real Estate SICAF or a SICAV (an investment company with variable capital) established in Italy (the "**Fund**") and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Notes and Certificates are held by an authorised intermediary, interest, premium and other income accrued during the holding period on such securities will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results but a withholding tax of 26 per cent., may apply, in certain circumstances to distributions made in favour of unitholders or shareholders (the "**Collective Investment Fund Tax**").

Where an Italian resident holder is a pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) and Notes and Certificates are deposited with an authorised intermediary, interest, premium and other income relating to such securities and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax. Subject to certain conditions and limitations (including minimum holding period requirement) and limitations, interest, premium and other income may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes and Certificates are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("**SIMs**"), fiduciary companies, *società di gestione del risparmio* ("**SGRs**"), stockbrokers and other entities identified by a decree of the Ministry of Economics and Finance (each an "**Intermediary**") as subsequently amended and integrated.

An Intermediary to be entitled to apply the *imposta sostitutiva* must (i) be (a) resident in Italy or (b) a permanent establishment in Italy of a non-Italian resident financial intermediary or (c) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree No. 239; and (ii) intervene, in any way, in the collection of interest or in the transfer of Notes and Certificates. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes and Certificates includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant securities or in a change of the Intermediary with which such Notes and Certificates are deposited.

Where the Notes and Certificates are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a holder or, absent that, by the issuer. If interest, premium and other income on the Notes and Certificates are not collected through an Intermediary or any entity paying interest and as such no *imposta sostitutiva* is levied, the Italian resident beneficial owners listed above will be required to include interest, premium and other income in their yearly income tax return and subject them to a final substitute tax at a rate of 26 per cent.

### *Non-Italian resident holders*

No Italian *imposta sostitutiva* is applied on payments to a non-Italian resident holder of interest or premium and other income relating to Notes and Certificates provided that, if the securities are held in Italy, the non-Italian resident holder declares itself to be a non-Italian resident according to Italian tax regulations.

### *b. Notes and Certificates classified as atypical securities*

Interest payments relating to Notes and Certificates that are not deemed to fall within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are debentures that incorporate an unconditional obligation to pay, at redemption or maturity, an amount not lower than their nominal value (whether or not providing for interim payments), and that do not give any

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

right to directly or indirectly participate in the management of the relevant Issuer or of the business in relation to which they are issued nor any type of control on such management and do not provide for a remuneration which is entirely linked to the profits of the issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not acting in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from any income taxation, including the withholding tax on interest, premium and other income relating to the Notes and Certificates that are classified as atypical securities, if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Such withholding tax does not apply to interest payments made to an Italian resident holder which is (i) a company or similar commercial entity (including the Italian permanent establishment of foreign entities), (ii) a commercial partnership (with the exception of general partnership, limited partnership and similar entities), or (iii) a commercial private or public institution.

Interest payments relating to atypical securities received by non-Italian resident beneficial owners (not having a permanent establishment in Italy to which the Notes and Certificates are effectively connected) are generally not subject to tax in Italy provided that, if the Notes and Certificates are held in Italy, the non-Italian resident holder declares itself to be non-Italian resident according to the Italian tax regulations.

### *c. Payments made by a non-resident guarantor*

With respect to payments made to Italian resident holders by a non-Italian resident guarantor, in accordance with one interpretation of Italian tax law, any such payment made by the Italian non-resident guarantor could be treated, in certain circumstances, as a payment made by the Issuer and would thus be subject to the tax regime described in the previous paragraphs of this section.

### *d. Capital gains tax*

#### *Italian resident holders*

Any gain obtained from the sale, early redemption or redemption of Notes and Certificates would be treated as part of the taxable income for IRES purposes (and, in certain circumstances, depending on the "status" of the holder, also as part of the net value of production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the relevant securities are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the relevant securities are connected.

Where an Italian resident holder is (i) an individual not holding Notes and Certificates in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such holder from the sale, early redemption or redemption of such securities would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Under some conditions and limitations, holders may set off capital gains with their capital losses.

Subject to certain limitations and requirements (including a minimum holding period), Italian resident individuals not engaged in an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from Italian capital gain taxes, including the *imposta sostitutiva*, on capital gains realised upon sale or redemption of the Notes and Certificates if the securities are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below:

1. under the "tax declaration" regime (*regime della dichiarazione*), which is the default regime for holders under (i) to (iii) above, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by the

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Italian taxpayer pursuant to all sales, early redemption or redemptions of the relevant Notes and Certificates carried out during any given tax year. These holders must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years;

2. as an alternative to the tax declaration regime, Italian resident holders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale, early redemption or redemption of the relevant Notes and Certificates (the "*risparmio amministrato*" regime provided for by Article 6 of the Legislative Decree No. 461 of 21 September 1997, the "**Decree No. 461**"). Such separate taxation of capital gains is allowed subject to (i) Notes and Certificates being deposited with Italian banks, SIMs or certain authorised financial intermediaries; and (ii) an express valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant holder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale, early redemption or redemption of Notes and Certificates (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the holder or using funds provided by the holder for this purpose. Under the *risparmio amministrato* regime, where a sale, early redemption or redemption of Notes and Certificates results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the holder is not required to declare the capital gains in its annual tax return; and
3. any capital gains realised or accrued by Italian holders under (i) to (iii) above who have entrusted the management of their financial assets, including Notes and Certificates, to an authorised intermediary and have validly opted for the so-called "*risparmio gestito*" regime (regime provided by Article 7 of Decree No. 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under the *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the holder is not required to declare the capital gains realised in its annual tax return. Any capital gains realised by a holder which is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. The Fund will not be subject to taxation on such result, but the Collective Investment Fund Tax will apply.

Any capital gains realised by a Noteholder that is a Real Estate Fund will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the Real Estate Fund. Subsequent distributions made in favour of unitholders or shareholders of the Real Estate Fund and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Real Estate Fund may be subject, in certain circumstances, to a withholding tax of 26 per cent.. Moreover, subject to certain conditions, depending on the status of the investor and the percentage of its participation, income realised by Real Estate Funds may be attributed to the relevant investors and subject to tax in their hands irrespective of its actual collection and in proportion to the percentage of ownership of units or shares on a tax transparency basis.

Any capital gains realised by an Italian Noteholder or Certificateholder that is a Fund will not be subject to *imposta sostitutiva*, but will be included in the result of the relevant portfolio accrued at the end of the relevant tax period which is exempt from income tax. Subsequent distributions made in favour of unitholders or shareholders and income realised by the unitholders or shareholders in the event of redemption or sale of the units or shares in the Fund may be subject, in certain circumstances, to the Collective Investment Fund Tax.

Any capital gains realised by a holder which is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

Subject to certain conditions and limitations (including minimum holding period requirement) and limitations, capital gains realised upon sale or redemption of the Notes and Certificates may be excluded from the taxable base of the 20 per cent. substitute tax if the Notes and Certificates are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

### *Non-Italian resident holders*

Capital gains realised by non-Italian resident holders not having a permanent establishment in Italy to which the Notes and Certificates are effectively connected from the sale or redemption of Notes and Certificates are not subject to Italian taxation, provided that the relevant securities (i) are traded on regulated markets in Italy or abroad or (ii) if not traded on regulated markets, are held outside Italy.

The Italian tax authorities have clarified that the notion of multilateral trading facility ("**MTF**") under EU Directive 2014/65/CE (so called MiFID II) can be assimilated to that of "regulated market" for income tax purposes; conversely, organized trading facilities ("**OTF**"), not falling in the definition of MTF under MiFID II, cannot be assimilated to "regulated market" for Italian income tax purposes.

Capital gains realised by non-Italian resident holders from the sale or redemption of Notes and Certificates not traded on regulated markets and deposited with a bank, a SIM or certain authorised financial intermediary in Italy are not subject to the *imposta sostitutiva*, provided that the relevant holder of the instrument qualifies as the beneficial owner of the capital gain (certain types of institutional investors are deemed to be beneficial owners by operation of law) and (i) is resident for income tax purposes in a country included in the list provided under Decree No 239 and possibly further amended by future decrees issued pursuant to Article 11(4)(c) of Legislative Decree No. 239 (the "**White List**"); or (ii) is an international entity or body set up in accordance with international agreements ratified in Italy; or (iii) is a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (iv) is an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation, in any case, to the extent that the relevant non-Italian resident holders file in due course an appropriate self-declaration (*autocertificazione*) stating that they meet the requirements indicated above.

If none of the conditions above are met and the Notes and Certificates are deposited with a bank, a SIM or certain authorised financial intermediaries in Italy, capital gains realised by non-Italian resident holders are subject to the *imposta sostitutiva* at the current rate of 26 per cent.. In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Notes and Certificates are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale or redemption of the securities are to be taxed only in the country of tax residence of the recipient and comply with the relevant formalities, will not be subject to *imposta sostitutiva* in Italy, provided that all conditions for the application of the said double taxation treaty are met.

## **2. Notes and Certificates classified as derivative financial instruments or bundles of derivative financial instruments**

Based on the principles stated by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, payments in respect of Notes and Certificates qualifying as securitised derivative financial instruments not entailing a "use of capital" (*impiego di capitale*) as well as capital gains realised through the sale of the same securities would be subject to Italian taxation according to the same rules described under the section headed "*Capital gains tax*" above.

### *Inheritance and gift taxes*

Pursuant to Law Decree No. 262 of 3 October 2006, converted into Law No. 286 of 24 November 2006, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 1,000,000;

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree, are subject to an inheritance and gift tax applied at a rate of 6 per cent. on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding, for each beneficiary, Euro 100,000; and
- (c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

The transfer of financial instruments as a result of death is exempt from inheritance tax when such financial instruments are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

### *Transfer tax*

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarised deeds (*atti pubblici e scritture private autenticate*) are subject to fixed registration tax at a rate of Euro 200; (ii) private deeds (*scritture private non autenticate*) are subject to registration tax only in case of use (*caso d'uso*), explicit reference (*enunciazione*) or voluntary registration.

### *Stamp duties*

Pursuant to Article 13(2-ter) of Annex A (*Tariffa*) of Presidential Decree No. 642 of 26 October 1972 as amended, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by Italian based financial intermediaries to their clients for the securities deposited in Italy. The stamp duty applies at a rate of 0.2 per cent. and cannot exceed €14,000, for taxpayers different from individuals; this stamp duty is determined on the basis of the market value or - if no market value figure is available - the nominal value or redemption amount of the securities held.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 29 July 2009, as subsequently amended, supplemented and restated) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory. The communication is deemed to be sent to the customers at least once a year, even for instruments for which it is not mandatory.

### *Wealth tax on securities deposited abroad*

Pursuant to Article 19(18) of Law Decree No. 201 of 6 December 2011, Italian resident individuals, non-commercial entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of TUIR) resident in Italy for tax purposes holding the securities outside the Italian territory are required to pay a wealth tax at the rate of 0.2 per cent. (0.4 per cent., as of 2024, in case of financial assets held in States or territories with privileged tax regime identified by the Ministerial Decree of the Ministry of Economy and Finance of May 4, 1999) ("**IVAFE**"). For taxpayers other than individuals, IVAFE cannot exceed Euro 14,000 per year.

This tax is calculated on the market value of the securities at the end of the relevant year or, if no market value figure is available, the nominal value or the redemption value of such securities held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

### *Italian Financial Transactions Tax*

Pursuant to Article 1(491 *et seq*) of Law No. 228 of 24 December 2012, a financial transaction tax (**FTT**) applies to (i) transfers of property rights in shares and other participating securities issued by Italian resident companies (together, the **Relevant Participating Instruments**); (ii) transfers of property rights in financial instruments representing any such Relevant Participating Instruments, whether or not such financial instruments are issued by Italian resident issuers (such financial instruments, together the

Relevant Participating Instruments, the **Relevant Instruments**); and (iii) derivative transactions referencing Relevant Instruments (i.e. derivative transactions or derivative financial instruments and certain equity-linked securities having an underlying mainly represented by one or more of Relevant Instruments or whose value is mainly linked to the Relevant Instruments) including securitised derivatives referencing Relevant Instruments (e.g. certificates).

With respect to derivative transactions referencing Relevant Instruments including securitised derivatives the FTT applies regardless of the tax residence of both the counterparties of the transactions and/or where the transaction is executed. The FTT is levied at a fixed amount of between Euro 0.01875 and Euro 200 per transaction, which varies depending on the features and notional value of the securitised derivatives. Where a securitised derivative is settled by physical settlement, the FTT is also due upon the transfer of the ownership rights in the underlying Relevant Instruments. A reduced FTT (one fifth of the standard rate) is payable in respect of transactions executed on certain qualifying regulated markets or multilateral trading facilities.

The FTT due in respect of derivative transactions referencing Relevant Instruments including securitised derivatives is payable by both counterparties to a transaction. However, the FTT does not apply where one of the parties to the transaction is the European Union, the ECB (European Central Bank), central banks of the EU Member States, foreign Central Banks or entities which manage the official reserves of a foreign State, or international bodies or entities set up in accordance with international agreements which have entered into force in Italy. Further specific exemptions exist including, *inter alia*, for (i) subjects who carry on market making activities; (ii) mandatory social security entities and pension funds set up according to Legislative Decree No. 252 of 5 December 2005; and (iii) entities merely interposed in the execution of a transaction.

Pursuant to Article 19 of Ministerial Decree of 21 February 2013, the FTT is levied by the banks and other financial intermediaries (*società fiduciarie e imprese di investimento abilitate all'esercizio professionale nei confronti del pubblico dei servizi e delle attività di investimento*) (**Intermediaries**) that are involved, in any way, in the execution of the transaction and subsequently paid to the Italian Revenue. If more than one Intermediary is involved in the execution of the transaction, the FTT is levied by the Intermediary who receives the order of execution by the purchaser of the Relevant Instruments or, in the case of a derivative transaction or securitised derivative referencing a Relevant Instrument, by the counterparty to or purchaser of such derivative. Intermediaries not resident in Italy can appoint an Italian representative for the purposes of the FTT. If no Intermediaries are involved in the execution of the transaction, the relevant FTT must be paid by each relevant party to the transaction themselves.

### Taxation in Germany

*The following is a general discussion of certain German tax consequences of the acquisition, holding and disposal of Notes. It does not purport to be a comprehensive description of all German tax considerations that may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the tax laws of Germany currently in force and as applied on the date of this Base Prospectus, which are subject to change, possibly with retroactive or retrospective effect.*

*As each Series or Tranche of Notes may be subject to a different tax treatment due to the specific terms of such Series or Tranche of Notes as set out in the Applicable Transaction Terms, the following section only provides some general information on the possible tax treatment. Tax consequences that may arise if an investor combines certain series of Notes so that he or she derives a certain return are not discussed herein.*

*The law as currently in effect provides for a reduced tax rate for certain investment income. There is an ongoing discussion in Germany as to whether the reduced tax rate should be increased or abolished altogether so that investment income would be taxed at regular rates. It is still unclear, whether, how and when the current discussion may result in any legislative changes.*

*Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposal of Notes, including the effect of any state, local or church taxes, under the tax laws of Germany and any country in which they are resident or whose tax laws apply to them for other reasons.*

### German Tax Residents

This section "*German Tax Residents*" refers to persons who are tax residents of Germany (i.e. persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany).

#### *Withholding tax on on-going payments and capital gains*

On-going payments received by a non-business Noteholder will be subject to German withholding tax if the Notes are kept or administered in a custodial account with a German securities institution or a German branch of a German or non-German bank or financial services institution (each, a "**Disbursing Agent**", *auszahlende Stelle*). The tax rate is 25 per cent. (plus solidarity surcharge at a rate of 5.5 per cent. thereon, the total withholding being 26.375 per cent.). For individual Noteholders who are subject to church tax, an electronic information system for church withholding tax purposes applies in relation to investment income, with the effect that church tax will be collected by the Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*) in which case the investor will be assessed to church tax. Further, church tax is not collected by way of withholding if the investment income forms part of income from trade business, self-employment, agriculture and forestry, or letting and leasing.

The same treatment applies to capital gains (i.e. the difference between the proceeds from the disposal, redemption, repayment or assignment after deduction of expenses directly related to the disposal, redemption, repayment or assignment and the cost of acquisition) derived by a non-business Noteholder provided the Notes have been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition. If similar Notes kept or administered in the same custodial account were acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purposes of determining the capital gains. Where Notes are acquired and/or sold or redeemed in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively with the result that any currency gains or losses are part of the capital gains. If the Issuer exercises the right to substitute the Issuer of the Notes, the substitution might, for German tax purposes, be treated as an exchange of the Notes for new notes issued by the new Issuer. Such substitution could result in the recognition of a taxable gain or loss for the respective investors. The Substitute shall agree to indemnify each Noteholder for any tax incurred by such Noteholder relating to the substitution of the Issuer pursuant to the relevant provisions as set out in the Applicable Transaction Terms. The indemnities to be paid may constitute taxable income. If interest coupons or interest claims are disposed of separately (i.e. without the Notes), the proceeds from the disposal are subject to withholding tax. The same applies to proceeds from the payment of interest coupons or interest claims if the Notes have been disposed of separately.

If Notes qualifying as a forward/future or option transaction (*Termingeschäft*) according to sec. 20 para. 2 sent. 1 no. 3 German Income Tax Act (*Einkommensteuergesetz*) are settled by a cash payment, capital gains realised upon exercise (i.e. the cash amount received minus directly related costs and expenses, e.g. the acquisition costs) are subject to withholding tax. In the event of physical delivery, the acquisition costs of such Notes plus any additional sum paid upon exercise are generally regarded as acquisition costs of the underlying assets received upon physical settlement. Withholding tax may then apply to any gain resulting from the subsequent disposal, redemption, repayment or assignment of the assets received, in particular if they are securities. In case of certain assets being the underlying (e.g. commodities or currencies) a subsequent sale of the underlying received may not be subject to German withholding tax as outlined in this section but any disposal gain may be fully taxable at the personal income tax rate of the non-business Noteholder.

In case of a physical settlement (not qualifying as forward/future or option transactions) of certain Notes which grant the Issuer the right to physically deliver the underlying securities or the Noteholder to demand the physical delivery of the underlying securities instead of a cash payment, upon physical delivery the acquisition costs of the Notes may be regarded as proceeds from the disposal, redemption, repayment or assignment of the Notes and hence as acquisition costs of the underlying securities received by the non-business Noteholder upon physical settlement; any consideration received by the Noteholder in addition to the underlying securities may be subject to withholding tax. To the extent the provision mentioned above is applicable, generally no withholding tax has to be withheld by the Disbursing Agent upon physical settlement as such exchange of the Notes into the underlying securities does not result in a taxable gain for the non-business Noteholder. However, withholding tax may then apply to any gain resulting from the disposal, redemption, repayment or assignment of the securities received in exchange for the Notes. In this case, the gain will be the difference between the proceeds from the disposal, redemption, repayment or assignment of the underlying securities and the acquisition costs of the Notes (after deduction of expenses related directly to the disposal, if any).

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

To the extent the Notes have not been kept or administered in a custodial account with the same Disbursing Agent since the time of their acquisition, upon the disposal, redemption, repayment or assignment withholding tax applies at a rate of 26.375 per cent. (including solidarity surcharge, plus church tax, if applicable) on 30 per cent. of the disposal proceeds (plus interest accrued on the Notes ("**Accrued Interest**", *Stückzinsen*), if any), unless the current Disbursing Agent has been notified of the actual acquisition costs of the Notes by the previous Disbursing Agent or by a statement of a bank, financial services or securities institution from another Member State of the European Union or the European Economic Area or from certain other countries (e.g. Switzerland or Andorra).

Pursuant to administrative guidance losses incurred by a Noteholder from bad debt (*Forderungsausfall*) or from a claim, which is partially or totally irrecoverable for other reasons shall not be tax-deductible when calculating the withholding tax. The Disbursing Agent has to follow the view of the tax authorities expressed in the administrative guidance when computing the tax to be withheld. The taxpayer has to include such loss in his or her annual tax return, which will then be subject to the same limitations as set out in further details below.

According to administrative guidance, where a Note qualifies as a full risk security (*Vollrisikozertifikat*) which provides for several payments to be made to the Noteholder such payments shall qualify as taxable investment income, unless the terms and conditions of the Notes explicitly provide for the redemption or partial redemption during the term of the Notes and these terms and conditions are complied with. Should the terms and conditions of these certificates not provide for payment at maturity or is no such payment made because the underlying value of the certificate has left a defined range, the acquisition cost of the certificate can now generally be taken into account as tax deductible loss subject to the further restrictions described below.

In computing any German tax to be withheld, the Disbursing Agent generally deducts from the basis of the withholding tax negative investment income realised by a non-business Noteholder of the Notes via the Disbursing Agent (e.g. losses from the sale of other securities with the exception of shares in stock corporations and forward transactions). The Disbursing Agent also deducts Accrued Interest on the Notes or other securities paid separately upon the acquisition of the respective security by a non-business Noteholder via the Disbursing Agent. In addition, subject to certain requirements and restrictions, the Disbursing Agent credits foreign withholding taxes levied on investment income in a given year regarding securities held by a non-business Noteholder in the custodial account with the Disbursing Agent.

Non-business Noteholders are entitled to an annual allowance (*Sparer-Pauschbetrag*) of EUR 1,000 (EUR 2,000 for couples and partners filing jointly) for all investment income received in a given year. Upon the non-business Noteholder filing an exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent, the Disbursing Agent will take the allowance into account when computing the amount of tax to be withheld. No withholding tax will be deducted if the Noteholder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the competent local tax office.

German withholding tax will not apply to gains from the disposal, redemption, repayment or assignment of Notes held by a corporation while ongoing payments, such as interest payments, are subject to withholding tax (irrespective of any deductions of foreign tax and capital losses incurred). The same may apply where the Notes form part of a trade or business, subject to further requirements being met.

### ***Taxation of current income and capital gains***

The personal income tax liability of a non-business Noteholder deriving income from capital investments under the Notes is, in principle, settled by the tax withheld. To the extent withholding tax has not been levied, such as in the case of Notes kept in custody abroad or if no Disbursing Agent is involved in the payment process, the non-business Noteholder must report his or her income and capital gains derived from the Notes on his or her tax return and then will also be taxed at a rate of 25 per cent. (plus solidarity surcharge and church tax thereon, where applicable). If the withholding tax on a disposal, redemption, repayment or assignment has been calculated from 30 per cent. of the disposal proceeds (rather than from the actual gain), a non-business Noteholder may, and in case the actual gain is higher than 30 per cent. of the disposal proceeds must also, apply for an assessment on the basis of his or her actual acquisition costs. Further, a non-business Noteholder may request that all investment income of a given year is taxed at his or her lower individual tax rate based upon an assessment to tax with any amounts over withheld being refunded. In each case, the deduction of expenses (other than transaction costs) on an itemised basis is not permitted.

The offsetting of losses incurred by a non-business Noteholder is subject to several restrictions. Losses incurred with respect to the Notes can only be offset against investment income of the non-business Noteholder realised in the same or the following years. Any losses realised upon the disposal of shares in stock corporations received in

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

exchange for the Notes can only be offset against capital gains deriving from the disposal of shares. Losses from capital claims of private investors can be offset against income derived from capital investments up to an amount of EUR 20,000.00 p.a. Further, losses from Notes which qualify for tax purposes as forward/futures transactions may only be applied against profits from other forward/futures transactions, and only up to an amount of EUR 20,000.00 in a given year. Losses exceeding any of these thresholds can be carried forward.

Where Notes form part of a trade or business, the withholding tax, if any, will not settle the personal or corporate income tax liability. Where Notes form part of a trade or business, interest (accrued) must be taken into account as income. Where Notes qualify as zero coupon notes and form part of a trade or business, each year the part of the difference between the issue or purchase price and the redemption amount attributable to such year must be taken into account. The respective Noteholder will have to report income and related (business) expenses on the tax return and the balance will be taxed at the Noteholder's applicable tax rate. Withholding tax levied, if any, will be credited against the personal or corporate income tax of the Noteholder. Where Notes form part of a German trade or business, the current income and gains from the disposal, redemption, repayment or assignment of the Notes may also be subject to German trade tax. Where according to an applicable accounting standard Notes include an embedded derivative, the Noteholder may have to account for a receivable and a derivative. The deduction of losses from derivatives may be ring-fenced as discussed below.

Generally the deductibility of capital losses from Notes which qualify for tax purposes as forward/future or option transactions and which form part of a trade or business is limited. These losses may only be applied against profits from other forward/future or option transactions derived in the same or, subject to certain restrictions, the previous year. Otherwise these losses can be carried forward indefinitely and, within certain limitations, applied against profits from forward/future or option transactions in subsequent years. This generally does not apply to forward/future or option transactions hedging risks from the Noteholder's ordinary business, unless the underlying of the hedge is a stock in a corporation. Further special rules apply to credit institutions, financial services institutions and finance companies within the meaning of the German Banking Act.

In the case of physically settled Notes, special limitations may apply to losses from the disposal of an underlying which is a share in a corporation or a unit of an equity investment fund.

### **German Investment Taxation**

If a Note (in particular a Note which is physically settled by delivery of fund shares, fund units or similar instruments or a Note which replicates the performance of an investment fund) was considered to qualify as an investment fund unit within the meaning of the German Investment Tax Act (*Investmentsteuergesetz*), tax consequences different from those discussed above would apply. A Noteholder subject to German taxation may then be required to include into his or her taxable income unrealized gains from the appreciation in value of the Note which may be deemed to be a portion of the fair market value of the Note at the relevant time. In general, the taxed unrealized gains will be deductible in computing the capital gain derived from the disposal, redemption or termination of the Note.

### **Non-German Tax Residents**

Interest and capital gains are not subject to German taxation, unless (i) the Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Noteholder or (ii) the income otherwise constitutes German-source income. In cases (i) and (ii), a tax regime similar to that explained above in the subsection "*German Tax Residents*" applies.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and capital gains. However, where the income is subject to German taxation as set forth in the preceding paragraph and the Notes are kept or administered in a custodial account with a Disbursing Agent, withholding tax may be levied under certain circumstances. Where Notes are not kept in a custodial account with a Disbursing Agent and interest or proceeds from the disposal, assignment or redemption of a Note or an interest coupon are paid by a Disbursing Agent to a non-resident upon delivery of the Notes or interest coupons, withholding tax generally will also apply. The withholding tax may be refunded based on an assessment to tax or under an applicable tax treaty.

### **Solidarity surcharge**

The solidarity surcharge has been partially abolished as of the assessment period 2021 for certain individuals. The solidarity surcharge shall, however, continue to apply for investment income and, thus, on withholding taxes levied. In case the individual income tax burden for a non-business Noteholder tax resident in Germany is lower

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

than 25 per cent. such Noteholder can apply for his/her investment income being assessed at his/her individual tariff-based income tax rate in which case solidarity surcharge would be refunded (see above).

### Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the deceased nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

### Other Taxes

No stamp, issue or registration taxes or similar duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

### Taxation in the Netherlands

#### Introduction

The following summary outlines certain principal Dutch tax consequences of the acquisition, holding, redemption and disposal of the Notes, but does not purport to be a comprehensive description of all Dutch tax considerations that may be relevant. For purposes of Dutch tax law, a holder of Notes may include an individual or entity who does not have the legal title of these Notes, but to whom nevertheless the Notes or the income thereof is attributed based on specific statutory provisions or on the basis of such individual or entity having an interest in the Notes or the income thereof. This summary is intended as general information only and each prospective investor should consult a professional tax adviser with respect to the tax consequences of the acquisition, holding, redemption and disposal of the Notes.

This summary is based on tax legislation, published case law, treaties, regulations and published policy, in each case as in force as of the date of this Base Prospectus, and it does not take into account any developments or amendments thereof after that date whether or not such developments or amendments have retroactive effect.

This summary does not address the Dutch corporate and individual income tax consequences for:

- (a) investment institutions (*fiscale beleggingsinstellingen*);
- (b) pension funds, exempt investment institutions (*vrijgestelde beleggingsinstellingen*) or other entities that are not subject to or exempt from Dutch corporate income tax;
- (c) holders of Notes holding a substantial interest (*aanmerkelijk belang*) or deemed substantial interest (*fictief aanmerkelijk belang*) in the Issuer and holders of Notes of whom a certain related person holds a substantial interest in the Issuer. Generally speaking, a substantial interest in the Issuer arises if a person, alone or, where such person is an individual, together with his or her partner (statutorily defined term), directly or indirectly, holds or is deemed to hold (i) an interest of 5 per cent. or more of the total issued capital of the Issuer or 5 per cent. or more of the issued capital of a certain class of shares of the Issuer, (ii) rights to acquire, directly or indirectly, such interest or (iii) certain profit-sharing rights in the Issuer;
- (d) persons to whom the Notes and the income therefrom are attributed based on the separated private assets (*afgezonderd particulier vermogen*) provisions of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*);
- (e) holders of Notes for whom the benefits from the Notes qualify for the participation exemption within the meaning of article 13 of the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*) or would qualify for the participation exemption had the corporate holders of Notes been resident in the Netherlands;
- (f) entities which are a resident of Aruba, Curaçao or Sint Maarten and that have an enterprise which is carried on through a permanent establishment or a permanent representative on Bonaire, Sint Eustatius or Saba and the Notes are attributable to such permanent establishment or permanent representative; and

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (g) individuals to whom the Notes or the income there from are attributable to employment activities which are taxed as employment income in the Netherlands.

For the purpose of the Dutch tax consequences described herein, it is assumed that the Issuer is neither a resident of the Netherlands nor deemed to be a resident of the Netherlands for Dutch tax purposes nor has a permanent establishment in the Netherlands to which the Notes are attributed.

Where this summary refers to 'the Netherlands' or 'Dutch', such reference is restricted to the part of the Kingdom of the Netherlands that is situated in Europe and the legislation applicable in that part of the Kingdom.

This summary does not describe the consequences of the exchange or the conversion of the Notes.

### **Dutch Withholding Tax**

All payments made by the Issuer under the Notes may be made free of withholding or deduction for any taxes of whatsoever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

### **Dutch Corporate and Individual Income Tax**

#### *Residents of the Netherlands*

If a holder of Notes is a resident of the Netherlands or deemed to be a resident of the Netherlands for Dutch corporate income tax purposes and is fully subject to Dutch corporate income tax or is only subject to Dutch corporate income tax in respect of an enterprise to which the Notes are attributable, income derived from the Notes and gains realised upon the redemption or disposal of the Notes are generally taxable in the Netherlands (at up to a maximum rate of 25.8 per cent.).

If an individual is a resident of the Netherlands or deemed to be a resident of the Netherlands for Dutch individual income tax purposes, income derived from the Notes and gains realised upon the redemption or disposal of the Notes are taxable at the progressive rates (at up to a maximum rate of 49.5 per cent.) under the Dutch Income Tax Act 2001, if:

- (a) the individual is an entrepreneur (*ondernemer*) and has an enterprise to which the Notes are attributable or the individual has, other than as a shareholder, a co-entitlement to the net worth of an enterprise (*medegerechtigde*), to which enterprise the Notes are attributable; or
- (b) such income or gains qualify as income from miscellaneous activities (*resultaat uit overige werkzaamheden*), which includes activities with respect to the Notes that exceed regular, active portfolio management (*normaal, actief vermogensbeheer*).

If neither condition (a) nor condition (b) above applies to the holder of the Notes, taxable income with regard to the Notes must be determined on the basis of a deemed return on savings and investments (*sparen en beleggen*), rather than on the basis of income actually received or gains actually realised. This deemed return on savings and investments is determined based on the individual's yield basis (*rendementsgrondslag*) at the beginning of the calendar year (1 January), insofar as the individual's yield basis exceeds a statutory threshold (*heffingvrij vermogen*) (EUR 57,000 in 2024). The individual's yield basis is determined as the fair market value of certain qualifying assets held by the individual less the fair market value of certain qualifying liabilities on 1 January. The individual's deemed return is calculated by multiplying the individual's yield basis with a 'deemed return percentage' (*effectief rendementspercentage*), which percentage depends on the actual composition of the yield basis, with separate deemed return percentages for savings (*banktegoeden*), other investments (*overige bezittingen*) and debts (*schulden*). As of 1 January 2024, the percentage for other investments, which include the Notes, is set at 6.04 per cent.. The deemed return on savings and investments is taxed at a rate of 36 per cent..

#### *Non-residents of the Netherlands*

If a person is neither a resident of the Netherlands nor is deemed to be a resident of the Netherlands for Dutch corporate or individual income tax purposes, such person is not liable to Dutch income tax in respect of income derived from the Notes and gains realised upon the redemption or disposal of the Notes, unless:

- (a) the person is not an individual and such person (1) has an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands to which

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

permanent establishment or a permanent representative the Notes are attributable, or (2) is, other than by way of securities, entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, which is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

This income is subject to Dutch corporate income tax at up to a maximum rate of 25.8 per cent..

- (b) the person is an individual and such individual (1) has an enterprise or an interest in an enterprise that is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands to which permanent establishment or permanent representative the Notes are attributable, or (2) realises income or gains with respect to the Notes that qualify as income from miscellaneous activities in the Netherlands which include activities with respect to the Notes that exceed regular, active portfolio management, or (3) is, other than by way of securities, entitled to a share in the profits of an enterprise that is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Income derived from the Notes as specified under (1) and (2) by an individual is subject to individual income tax at progressive rates up to a maximum rate of 49.5 per cent.. Income derived from a share in the profits of an enterprise as specified under (3) that is not already included under (1) or (2) will be taxed on the basis of a deemed return on savings and investments (as described above under "*Residents of the Netherlands*").

### **Dutch Gift and Inheritance tax**

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of the Notes by way of gift by, or on the death of, a holder of Notes, unless:

- (a) the holder of the Notes is, or is deemed to be, resident in the Netherlands for the purpose of the relevant provisions; or
- (b) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in the Netherlands for the purpose of the relevant provisions.

### **Dutch Value Added Tax**

In general, no value added tax will arise in respect of payments in consideration for the issue of the Notes or in respect of a cash payment made under the Notes, or in respect of a transfer of the Notes.

### **Other Dutch Taxes and Duties**

No registration tax, customs duty, transfer tax, stamp duty, capital tax or any other similar documentary tax or duty will be payable in the Netherlands by a holder in respect of or in connection with the subscription, issue, placement, allotment, delivery or transfer of the Notes.

### **Taxation in Peru**

The discussion in this offering memorandum regarding Peruvian tax considerations is not intended or written to be used and cannot be used or relied upon by any person, for the purpose of avoiding Peruvian taxation, and was written to support the promotion or marketing of this offering. Prospective investors should consult an independent tax advisor with respect to the Peruvian tax consequences of acquiring, owning or disposing of the Notes.

The following is a general summary of certain material Peruvian tax consequences that may be relevant with respect to the purchase, ownership or disposition of the Notes by non-Peruvian and Peruvian holders. This summary is not intended to be a comprehensive description of all Peruvian tax considerations that may be relevant to a decision by non-Peruvian holders to make an investment in the Notes.

For purposes of this section, "non-Peruvian holder" means (i) any individual who is not domiciled in Peru; and, (ii) any legal entity incorporated outside of Peru, *provided* that it does not conduct any trade or business through a permanent establishment in Peru or hold the Notes through a Peruvian branch. A non-Peruvian individual will be deemed domiciled in Peru for tax purposes if such individual has resided or has remained in Peru for more than

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

183 calendar days during any 12-month period. The change on the condition of residence will be effective as of January 1 of the following calendar year.

For purposes of this section, the term "Peruvian holder" means a beneficial owner of a Note who, for Peruvian income tax purposes, is treated as a resident of Peru. A legal entity is treated as a Peruvian tax resident whether it has been incorporated in Peru, or it is deemed to be a permanent establishment in Peru of a foreign entity. An individual is deemed to be a Peruvian tax resident if such individual (i) is a Peruvian citizen and has a regular residence in Peru, or (ii) is not a Peruvian citizen but has resided in Peru for a period of at least 183 calendar days during any 12-month period.

The following considerations are general, and consequences may vary if a tax treaty signed by Peru is applicable. The tax treaties currently in force are those signed with Chile, Canada, Brazil, Portugal, Mexico, Korea, Switzerland, Japan and the Decision No. 578 applicable to countries that are members of the Andean Community (Colombia, Ecuador, Bolivia and Peru). If a non-Peruvian holder of the Notes is a resident of any of those countries, we recommend consulting an independent tax advisor.

### ***Income tax***

#### **(a) *Payment of interest***

As: (i) the Issuer of the Notes is a company that does not qualify as an entity domiciled in Peru for purposes of the Peruvian Income Tax Law (*Ley del Impuesto a la Renta*), whose Unified Text has been approved by Supreme Decree N° 179-2004-EF, as amended, and its regulations, approved by Supreme Decree N° 122-94-EF, as amended; and, (ii) the net proceeds from the offering of the Notes will not be directly placed or economically used in Peru; interest paid on the Notes to non-Peruvian holders will not be subject to Peruvian income tax.

On the other hand, interest paid on the Notes to Peruvian holders (companies incorporated and domiciled in Peru and individuals domiciled in Peru) will be taxable income of foreign source under Peruvian Income Tax Law and its regulations. Accordingly, Peruvian holders should include such interest within their foreign source taxable income, considering that the positive balance after off-setting such taxable income against their foreign source losses (except for losses generated in a "non-cooperative", "low tax", "zero tax" or "preferential tax regime" countries or territories, as defined under Peruvian Income Tax Law and its regulations) should be incorporated within their net taxable income for purposes of their annual income tax return.

#### **(b) *Sale of the Notes***

Proceeds received by a non-Peruvian holder on a sale, exchange or disposition of the Notes will not be subject to Peruvian income tax.

Proceeds received by Peruvian holders on a sale, exchange or disposition of the Notes, will be taxable income of foreign source under Peruvian Income Tax Law and its regulations, and Peruvian holders should include such proceeds within their foreign source taxable income, considering that the positive balance after off-setting such taxable income against their foreign source losses (except for losses generated in a "non-cooperative", "low tax", "zero tax" or "preferential tax regime" countries or territories, as defined under Peruvian Income Tax Law and its regulations), should be incorporated within their net taxable income for purposes of their annual income tax return.

#### **(c) *Redemption of the Notes***

Any premium received by a non-Peruvian holder upon an early redemption of the Notes will not be subject to Peruvian income tax.

Any premium received by Peruvian holders upon an early redemption of the Notes, will be taxable income of foreign source under Peruvian Income Tax Law and its regulations, and Peruvian holders should include such premium within their foreign source taxable income, considering that the positive balance after off-setting such taxable income against their foreign source losses (except for losses generated in a "non-cooperative", "low tax", "zero tax" or "preferential tax regime" countries or territories, as defined under Peruvian Income Tax Law and its regulations), should be incorporated within their net taxable income for purposes of their annual income tax return.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

*Non-Peruvian holders of the Notes should consult an independent tax advisor regarding the specific Peruvian income tax considerations of, among others, acquiring, owning or disposing of the Notes.*

### *Value added tax*

Interests paid on the Notes are not subject to Peruvian Value added tax (*Impuesto General a las Ventas, or "VAT"*).

The sale, exchange or disposition of the Notes is not subject to VAT.

### *Financial transaction tax*

In Peru, there is a financial transactions tax or "FTT", which taxes at a rate of 0.005 per cent. any debit or credit made in an account opened with a Peruvian bank or any other financial institution, within the Peruvian Financial System or "PFS", either in Peruvian or foreign currency. Therefore, the issue price paid for the Notes deposited in a PFS bank account will be subject to FTT, as will the subsequent withdrawal of that amount. Likewise, interest and principal paid from or deposited in a PFS bank account will also be subject to the FTT. The taxpayer of the FTT is the holder of the PFS bank account.

Under Art. 3.1a of the PIT Act, a Polish tax resident individual is a natural person who (i) has their centre of personal or business interests located in Poland or (ii) stays in Poland for longer than 183 days in a year, unless any relevant tax treaty dictates otherwise.

- (a) Interest income and income from the issuer's redemption of Notes on which periodic benefits are due

Under Art. 30a.1.2 and Art. 30a.1.2a of the PIT Act interest income and income from the issuer's redemption of Notes on which periodic benefits are due is subject to a 19 per cent. flat rate tax.

According to Art. 30a.7 of the PIT Act, interest income, including discount from Notes and income from the issuer's redemption of Notes which periodic benefits are due derived by a Polish tax resident individual does not cumulate with general income subject to the progressive tax rate but under Art.30a.1.2 of the PIT Act it is subject to tax at a flat rate of 19 per cent..

Under Art. 30a.9 of the PIT Act, withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability. Particular double tax treaties can provide other methods of withholding tax settlements.

Under Art. 41.4 of the PIT Act, the interest payer, other than an individual not acting within the scope of their business activity, is obliged to collect flat-rate income tax on payments made (benefits) or on the money or money equivalents made available to the taxpayer..

Under Art. 41.4d of the PIT Act, the entities operating securities accounts for the individuals, acting as tax remitters, should withhold this interest income if such interest income (revenue) has been earned in the territory of Poland and is connected with securities registered in the said accounts, and the interest payment to the individual (the taxpayer) is made through said entities. These rules should also apply to the entities indicated in Art. 3.2 of the CIT Act (non-residents), to the extent they conduct their business activity through a foreign establishment located within the territory of Poland, if the account on which given securities are recorded is connected with the activity of that establishment. Consequently, foreign entities that do not operate through a Polish permanent establishment, e.g. foreign investment firms, not acting through Polish permanent establishments, should not be obliged to withhold the tax.

There are no regulations defining in which cases income earned (revenue) by a Polish tax resident should be considered income (revenue) earned in Poland. However, it cannot be excluded that in practice the tax authorities will apply the regulations concerning non-residents. Pursuant to Art. 3.2b of the PIT Act, income (revenues) earned in the Republic of Poland by non-residents shall include in particular income (revenues) from:

- 1. work performed in the Republic of Poland based on a service relationship, employment relationship, outwork system and co-operative employment relationship irrespective of the place where remuneration is paid;

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

2. activity performed in person in the Republic of Poland irrespective of the place where remuneration is paid;
3. economic activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland;
4. immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from disposal of any rights to such property;
5. securities and derivatives other than securities, admitted to public trading in the Republic of Poland as part of the regulated stock exchange market, including those obtained from the disposal of these securities or derivatives, or the exercise of rights resulting from them;
6. redemption, repurchase, buy-out and otherwise annihilation of participation titles in capital funds established on the basis of the provisions in force in the Republic of Poland and sale of these participation titles for a fee;
7. the transfer of ownership of shares in a company, of all rights and obligations in a partnership without legal personality, or participation in an investment fund, a collective investment undertaking or other legal entity and rights of similar character or from receivables being a consequence of holding those shares, rights and obligations, participation or rights – if at least 50 per cent. of the value of assets of this company, partnership, investment fund, collective investment undertaking or legal entity is constituted, directly or indirectly, by immovable properties located in the Republic of Poland, or rights to such immovable properties;
8. the transfer of ownership of shares, all rights and obligations, participation or similar rights in a real estate company (as defined in the PIT Act);
9. the receivables settled, including receivables put at disposal, paid out or deducted, by natural persons, legal persons, or organisational units without legal personality, having their place of residence, registered office, or management board in the Republic of Poland, irrespective of the place of concluding and performing the agreement; and the income (revenue) referred to in this point is considered to be the revenue listed in Art. 29.1 of the PIT Act, if they do not constitute income (revenue) referred to in points 1 to 7 above. Art. 29.1 of the PIT Act lists, among others, interest income other than those mentioned in Art. 30a.1 of the PIT Act (which, in turn, refers to interest and discount on securities and income from the issuer's redemption of bonds on which periodic benefits are due); and
10. unrealised gains as referred to in the exit tax regulations.

The above list is not exhaustive; therefore, the tax authorities may also consider that income (revenues) not listed above is sourced in Poland.

Given the above, each situation should be analysed to determine whether interest earned by a Polish tax resident individual from the Notes is considered to be income sourced in Poland and whether the entity operating the securities account for the individual will withhold the tax. Since the Issuer is not a Polish entity as a rule interest from Notes should not be considered as earned in the territory of Poland, unless specific situation occurs (eg the Notes are admitted to public trading in Poland).

It should be expected that the issuer itself or a non-Polish entity operating the securities account for the individual will not withhold the tax.

Under Art. 45.3b of the PIT Act, if the tax is not withheld, the individual is obliged to settle the tax themselves in their annual tax return. Under Art. 45.1 of the PIT Act, the annual tax return should be submitted and the tax should be settled by 30 April of the following year.

Separate, specific rules apply to interest income on securities held on Polish omnibus accounts (within the meaning of the provision of the Act on Trading in Financial Instruments, hereinafter "**Omnibus Accounts**"). Under Article 41.10 of the PIT Act, insofar as securities registered in Omnibus Accounts are concerned, the entities operating Omnibus Accounts through which the amounts due are paid are liable to withhold the flat-rate income tax on interest income. The tax is charged on the day of placing the amounts due at the disposal of the Omnibus Account holder. This rule also applies to remitters who

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

are payers of corporate income tax and are subject to limited tax liability in Poland, to the extent they conduct their business through a foreign establishment and it is to that establishment's operations that the securities account is linked.

Pursuant to Article 30a.2a of the PIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter (under Article. 41.10 of the PIT Act the entity operating the Omnibus Account) from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. These rules should also apply to the entities indicated in Art. 3.2. of the CIT Act to the extent that they conduct business activity through a foreign establishment located within the territory of Poland, if the account on which given securities are recorded is connected with the activity of that establishment. Consequently, foreign entities that do not operate through a Polish permanent establishment, e.g. foreign investment firms not acting through Polish permanent establishments, should not be obliged to withhold the tax.

Under Art. 45.3c of the PIT Act, taxpayers are obliged to disclose the amount of interest (discount) on securities (including the Notes referred to herein) in the annual tax return if the Notes were registered in Omnibus Account and the taxpayer's identity was not revealed to the tax remitter.

Under Art. 30a.9 of the PIT Act, withholding tax incurred outside Poland (including countries which have not concluded a tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than 19 per cent. tax on the interest amount, could be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

(b) Other income

Income other than interest derived by a Polish tax resident individual from financial instruments, such as the Notes, held as non-business assets, qualify as capital gains according to Article 17 of the PIT Act. Such income does not cumulate with the general income subject to the progressive tax scale but is subject to a 19 per cent. flat-rate tax. The costs of acquiring the financial instruments are recognised at the time the revenue is achieved. If the price expressed in the contract without a valid reason significantly deviates from the market value, the amount of income is determined by the tax authority or fiscal control authority in the amount of the market value.

In principle, this income should be settled by the taxpayer by 30 April of the year following the year in which the income was earned. No tax or tax advances are withheld by the person making the payments.

Furthermore, capital gains are subject to 4 per cent. solidarity levy calculated on the surplus of various incomes above PLN 1 million in total. The levy must be calculated and settled by the individuals themselves.

In principal, if an individual holds the Notes as a business asset, in principle in accordance with art. 30b.3 of the PIT Act the income should be taxed, in the same way as other business income. This will either be tax, at 19 per cent. rate or the 12 per cent. to 32 per cent. progressive tax rate depending upon the individual's choice and the meeting of certain conditions, should be settled by the individual themselves.

Furthermore, business income is subject to 4 per cent. solidarity levy calculated on the surplus of various incomes above PLN 1 million in total. The levy must be calculated and settled by the individuals themselves.

### ***Taxation of a Polish tax resident corporate income taxpayer***

Under Art. 3.1 of the Corporate Income Tax Act dated 15 February 1992 (the "CIT Act") the entire income of taxpayers who have their registered office or management in Poland is subject to tax obligation in Poland, irrespective of where the income is earned.

According to Art. 3.1a of the CIT Act, a taxpayer has a place of management in the territory of the Republic of Poland, inter alia, when the current affairs of this taxpayer are conducted in an organized and continuous manner on the territory of the Republic of Poland, based in particular on:

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

- (i) an agreement, decision, court ruling or other act regulating the establishment or functioning of the taxpayer; or
- (ii) powers of attorney; or
- (iii) Affiliations.

The appropriate tax rate is the same as the tax rate applicable to business activity, i.e. 19 per cent. for a regular corporate income taxpayer or 9 per cent. for small and new taxpayers i.e. taxpayers with revenues in the tax year not exceeding EUR 2 million (with certain exceptions listed in Art. 19.1a-1e of the CIT Act), taking into consideration the appropriate source of income (the lower rate does not apply to incomes classified as capital incomes – Art. 7b of the CIT Act).

A Polish tax resident corporate income taxpayer is subject to income tax in respect of the securities (including any capital gains and on interest/discount) following the same principles as those which apply to any other income received from business activity within the same source of income, called capital profits (*zyski kapitałowe*). In the case of insurers, banks and some other entities (financial institutions), this revenue is included in revenues other than revenues from capital gains.

As a rule, for Polish income tax purposes interest is recognised as revenue on a cash basis, i.e. when it is received and not when it has accrued. In respect of capital gains, the cost of acquiring the Notes will be recognised at the time the revenue is achieved. If the price expressed in the contract, without a valid reason, significantly deviates from the market value, the revenue amount is determined by the tax authority in the amount of the market value. The taxpayer itself (without the involvement of the tax remitter) settles tax on interest (discount) or capital gains on securities, which is aggregated with other income derived from business operations conducted by the taxpayer.

Although Polish corporate income taxpayers should not be subject to Polish withholding tax, such tax may be withheld, under specific rules applying to interest income on securities held in Omnibus Accounts, under Art. 26.2a of the CIT Act, for income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. If such tax is withheld for a Polish tax resident corporate income taxpayer, to receive a refund of such tax, the entity should contact its tax advisor.

Any withholding tax incurred outside Poland (including countries which have not concluded any tax treaty with Poland), up to an amount equal to the tax paid abroad, but not higher than the tax calculated in accordance with the applicable domestic tax rate, can be deducted from the Polish tax liability. Double tax treaties can provide other methods of withholding tax settlements.

### ***Notes held by a non-Polish tax resident (natural person or corporation)***

Under Art. 3.2a of the PIT Act, natural persons, if they do not reside in Poland, are liable to pay tax only on income (revenue) earned in Poland (limited obligation to pay tax).

Under Art. 3.2 of the CIT Act, in the case of taxpayers who do not have their registered office or management in Poland, only the income they earn in Poland is subject to tax obligation in Poland.

Non-Polish tax resident individuals and corporate income taxpayers are subject to Polish income tax only with respect to their income earned in Poland. Under Art. 3.3 of the CIT Act, income (revenues) earned in the Republic of Poland by non-residents shall include in particular income (revenues) from:

1. all types of activity pursued in the Republic of Poland, including through a foreign establishment located in the Republic of Poland;
2. immovable property located in the Republic of Poland or rights to such property, including from its disposal in whole or in part, or from the disposal of any rights to such property;
3. securities and derivatives other than securities, admitted to public trading in the Republic of Poland as part of the regulated stock exchange market, including those obtained from the disposal of these securities or derivatives, or the exercise of rights resulting from them;

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

4. the transfer of ownership of shares in a company, of all rights and obligations in a partnership without legal personality, or participation in an investment fund, a collective investment undertaking or other legal entity and rights of similar character or from receivables being a consequence of holding those shares, rights and obligations, participation or rights - if at least 50 per cent. of the value of assets of this company, partnership, investment fund, collective investment undertaking or legal entity is constituted, directly or indirectly, by immovable properties located in the Republic of Poland, or rights to such immovable properties;
5. the transfer of ownership of shares, all rights and obligations, participation or similar rights in a real estate company (as defined in the CIT Act);
6. the receivables settled, including receivables put at disposal, paid out or deducted, by natural persons, legal persons, or organisational units without legal personality, having their place of residence, registered office, or management board in the Republic of Poland, irrespective of the place of concluding or performing the agreement; and
7. unrealised gains referred to in the exit tax regulations.

Similar provisions are included in Art. 3.2b of the PIT Act.

It should be noted that the list of incomes (revenues) gained in Poland, as provided in Art. 3.3. of the CIT Act and Art. 3.2b of the PIT Act is not exhaustive, therefore, other income (revenues) may also be considered as earned in Poland.

Given the above, each situation should be analysed to determine whether interest earned by a Polish tax resident from the Notes is considered to be income sourced in Poland. However, since the issuer is not a Polish entity, income from the Notes should not be considered as earned in Poland and no Polish withholding tax should apply, unless specific circumstances occur, e.g. the Notes are admitted to public trading in Poland.

If income from the Notes is considered as sourced in Poland, the following applies:

- (a) Exemption for interest obtained by non-Polish tax residents on Notes meeting special conditions and remittance exemption

### *Corporate income tax*

Under Art. 17.1.50c of the CIT Act, tax-free income is income earned by a CIT taxpayer subject to limited tax liability in Poland in respect of interest or a discount on notes:

- (i) having a maturity of at least one year;
- (ii) admitted to trading on a regulated market or introduced into an alternative trading system within the meaning of the Act of 29 July 2005 on Trading in Financial Instruments, in the territory of Poland or in the territory of a state that is a party to a double tax convention concluded with Poland which regulates the taxation of income from dividends, interest and royalties;

unless the taxpayer is an Affiliated Entity of the issuer of such notes, and holds, directly or indirectly, together with other Affiliated Entities, more than 10 per cent. of the nominal value of those notes (the "**Special Exemption**").

Under Art. 26.1aa and 1ae of the CIT Act, remitters are not obliged to withhold tax on interest or discount in respect of the Notes eligible for Special Exemption, provided that the issuer submits to the tax authority a declaration that it has acted with due diligence in informing Affiliated Entities (excluding entities whose Affiliations result solely from connections with the State Treasury (Skarb Państwa) or local government units or their associations), about the exemption conditions applying to those Affiliated Entities (the "**Remittance Exemption**").

According to Art. 26.1af of the CIT Act, the declaration referred to above is submitted once in relation to a given Notes issue, no later than the date of payment of interest or discount on these securities. At the payer's request, the issuer is obliged to confirm its submission (Art. 26.1ag of the CIT Act).

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

The declaration is submitted in electronic form corresponding to the logical structure available in the Public Information Bulletin on the website of the office serving the minister responsible for public finances (Art. 26.7j of the CIT Act).

### *Personal income tax*

Analogous provisions apply to personal income tax (Art. 21.1.130c and Art. 41.24-27 of the PIT Act), with certain differences.

From 1 January 2024, besides interest (discount) and income from disposal of securities for remuneration, a new category of income has been introduced: income from the issuer's redemption of notes on which periodic benefits are due (Art. 17.1.3a) of the PIT Act). However, the scope of the exemption for non-residents, referred to above (Art. 21.1.130c of the PIT Act, which is analogous to the exemption under Art. 17.1.50c of the CIT Act) has not been amended. Therefore, it is reasonable to assume that the exemption under Art. 21.1.130c of the PIT Act does not cover income from the issuer's redemption of notes on which periodic benefits are due. This income is calculated as the difference between the amount obtained from the redemption of notes together with the benefits obtained for the last period before the redemption of these notes and the expenses incurred for acquiring or purchasing these notes on the primary or secondary market by the taxpayer or the testator (excluding expenses on acquisition of benefits that are not taxable) (Art. 24.24 of the PIT Act).

Also, the Remittance Exemption under PIT regulations is limited from 1 January 2024, because the tax remitters being entities operating securities accounts and Omnibus Accounts are obliged to withhold tax with respect to income (revenue) obtained by Polish tax resident natural persons (Art. 41.24 in fine of the PIT Act). These remitters include entities being Polish tax residents as well as non-Polish tax residents conducting business activities through a foreign establishment located in the territory of the Republic of Poland, if the account on which the securities are recorded is related to the activities of this establishment (Art. 41.4d and 41.10 of the PIT Act).

It must be noted that under Art. 30a.2a of the PIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder.

Therefore, if the entities operating Omnibus Accounts acting as tax remitters are not able to identify the natural person *i.e.*, whether it is or not tax resident in Poland, they may withhold tax at full rate on income from notes that would otherwise be eligible for the Special Exemption.

(b) Failure to meet the conditions for the Special Exemption

In the absence of the Special Exemption referred to above, the following rules apply.

In the case of taxpayers subject to limited tax liability in Poland, the interest (discount) on the Notes earned in the Polish territory is taxed as a general rule at a flat rate of 20 per cent. in the case of corporate income taxpayers (Art. 21.1.1 of the CIT Act) or 19 per cent. in the case of natural persons (Art. 30a.1.2 of the PIT Act). Under Art. 26.1 of the CIT Act, interest payers, other than individuals not acting within the scope of their business activity, should withhold this tax. When verifying the conditions for the application of a withholding tax rate, exemption or the conditions for the non-collection of tax resulting from special provisions or double tax treaties, the remitter must exercise due diligence. When assessing the exercise of due diligence, the nature and scale of activity conducted by the remitter as well as its Affiliation with the taxpayer must be taken into account. Similar provisions are provided in Art. 41.4-4aa of the PIT Act.

Under Art. 26.2c.1 and Art. 26.2a of the CIT Act, the entities operating securities accounts and Omnibus Accounts for taxpayers, acting as tax remitters, should withhold this interest income if such interest income (revenue) was earned in Poland and is connected with securities registered in said accounts, and the interest payment to the taxpayer is made through said entities. Although it is considered that foreign entities do not act as Polish tax remitters, according to the discussed provision, this obligation applies to non-residents to the extent they operate a permanent establishment in Poland and the account, on which securities are registered, is linked to the activity of this permanent establishment. Similar provisions concerning interest payments to individuals are provided in Art. 41.4d and 41.10 of the PIT Act.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

The described rules of taxation may be modified by the relevant provisions of double tax treaties concluded by Poland, based on which a reduced tax rate or income tax exemption may apply to income (revenue) obtained from interest/discount (Art. 21.2 of the CIT Act, Art. 30a.2 of the PIT Act). To benefit from the tax rate or income tax exemption under the tax treaty, the taxpayer should present a valid certificate of its tax residence. As a rule, the tax residence certificate is considered valid for twelve consecutive months from its date of issue.

Moreover, tax treaties provide protection only for beneficial owners. Pursuant to Art. 4a.29 of the CIT Act and, respectively, Art. 5a.33d of the PIT Act, beneficial owner means an entity meeting all of the following conditions:

- (i) it receives the amount due for its own benefit, which includes deciding independently about its purpose, and bears the economic risk associated with the loss of that receivable or part of it;
- (ii) it is not an intermediary, representative, trustee, or another entity obliged to transfer the receivable in whole or in part to another entity; and
- (iii) it conducts actual business activity in the country of its registration (country of domiciliation in case of the PIT Act), if the receivables are obtained in connection with the conducted business activity, whereas when assessing whether the entity conducts actual business activity, the nature and scale of such activity in the scope of received receivables are taken into account.

Although the definition of the beneficial owner does not refer to and Art. 24a.18 of the CIT Act and Art. 30f. 20 of the PIT Act those are the only places in the income tax legislation where actual business activity is defined. Therefore, it cannot be ruled out that factors listed there will be taken into account by the tax authorities in determining beneficial ownership status. Those factors include:

- (i) the business activity carried out by the taxpayer is performed through an existing enterprise that actually performs activities constituting an economic activity; in particular, it possesses premises, qualified personnel and equipment used for performing business activity;
- (ii) the taxpayer does not create artificial arrangement without a connection with any business activity;
- (iii) the taxpayer's actual premises, its personnel or equipment correspond to the scope of its actual business activity;
- (iv) the agreements concluded by the taxpayer are realistic in economic terms, they have economic justification and they are not noticeably contrary to the general business interest of the taxpayer; and
- (v) the taxpayer carries out its business functions independently, using its own resources, including managers who are present in the country of taxpayer's tax residency.

The majority of double tax treaties concluded by Poland provide for an exemption from income tax on capital gains, including income from the sale of notes obtained in Poland by a tax resident of a given country. The interest treatment differs under particular double tax treaties, some of them providing for general exemption, limiting the exemption to certain categories of recipients or providing for a reduced rate of tax (which may also vary depending on the recipient).

Separate, specific rules apply to interest income on securities held in Omnibus Accounts. In cases where Polish withholding tax should not apply on interest payable to non-Polish tax residents (natural persons or corporate income taxpayers), under specific rules applicable to interest income on securities held in Omnibus Accounts there is a risk that such tax would be withheld. Under Art. 26.2a of the CIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 20 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income (revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. Under Art. 30a.2a of the PIT Act, with respect to income (revenue) from interest transferred to taxpayers holding rights attached to securities registered in Omnibus Accounts whose identity has not been revealed to the tax remitter in accordance with the Act on Trading in Financial Instruments, a 19 per cent. flat-rate tax is withheld by the tax remitter from the aggregate income

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

(revenue) released for the benefit of all such taxpayers through the Omnibus Account holder. If such tax is withheld for non-Polish tax resident taxpayers, to receive a refund of such tax, the entity should contact its tax advisor regarding a refund of such tax.

If a foreign recipient of income acts through a permanent establishment in Poland, as a matter of principle it should be treated in the same manner as a Polish tax resident, with some necessary additional requirements (e.g. the requirement to present the interest payer with a certificate of tax residence along with a declaration that the interest is related to the establishment's activities).

(c) Pay & Refund regime

In addition to the rules set out above, in the event of failure to meet the conditions for a special exemption, the following regime applies.

*Corporate income tax*

Under Art. 26.2e of the CIT Act, if the total amount paid out between Affiliated Entities on account of the items listed in Art. 21.1.1 of the CIT Act (including interest on notes) and Art. 22.1 of the CIT Act to the same taxpayer exceeds PLN 2,000,000 in the tax year of the payer, payers are, as a general rule, required to withhold, on the day of payment, a flat-rate income tax at the basic rate (20 per cent. in the case of interest/discount on notes) from the excess over that amount, without being able not to withhold that tax on the basis of an appropriate double tax treaty, and also without taking into account exemptions or rates resulting from special regulations or double tax treaties (hereinafter the Pay & Refund).

Under Art. 26.2i and 26.2j of the CIT Act, if the payer's tax year is longer or shorter than 12 months, the amount to which the Pay & Refund applies is calculated by multiplying 1/12 of PLN 2,000,000 and the number of months that have begun in the tax year in which the payment was made; if the calculation of that amount is not possible by reference to the payer's tax year, the Pay & Refund shall apply accordingly to the payer's current financial year and, in its absence, with respect to the payer's other period with features specific to the financial year, not longer however than 23 consecutive months.

Based on Art. 26.2ca of the CIT Act, the entities making payments through securities accounts or Omnibus Accounts are obliged to provide the entities maintaining these accounts, at least 7 days before the payment is made, with information about the existence of Affiliations between them and the taxpayer and about exceeding the amount of PLN 2,000,000. Entities providing this information are required to update it before making the payment in the event of a change in the circumstances covered by the information. In addition, in accordance with Art. 26.2ed of the CIT Act, in the circumstances referred to in section 2c, the excess amount and the existence of Affiliations will be determined by the entity keeping securities accounts or Omnibus Account. The entity keeping securities accounts or omnibus accounts does not take into consideration the amounts of payments on which tax was collected in accordance with Art. 26.2a of the CIT Act.

Under Art. 26.2k of the CIT Act, if the payment was made in a foreign currency, to determine whether the amount to which the Pay & Refund applies was exceeded, the amounts paid are converted into PLN at the average exchange rate published by the National Bank of Poland on the last business day preceding the payment day.

Under Art. 26.2l of the CIT Act, if it is not possible to determine the amount paid to the same taxpayer, it is presumed that it exceeded the amount from which the Pay & Refund applies.

Under Art. 26.7a of the CIT Act, the Pay & Refund does not apply if the payer has declared that:

- (i) it holds the documents required by the tax law for the application of the tax rate or tax exemption or non-taxation under special regulations or double tax treaties;
- (ii) after the verification of the conditions to apply an exemption or reduced withholding tax rate resulting from special regulations or double tax treaties, it is not aware of any grounds for the assumption that there are circumstances that exclude the possibility of applying the tax rate or tax exemption or non-taxation under special regulations or double tax treaties, in particular it is not aware of the existence of circumstances preventing the fulfilment of certain conditions referred to in other regulations, including the fact that the interest recipient is their beneficial

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

owner and, if the interest is obtained in connection with the business activity conducted by the taxpayer, that in the country of tax residence the taxpayer carries on the actual business activity.

The above is to be declared by the head of the unit within the meaning of the Accounting Act or a designated member of such head being a collegiate body (e.g. the Issuer's management board). The declaration cannot be made by proxy. The declaration is to be made by in electronic form not later than on the last day of the second month following the month in which the threshold specified above was exceeded, however, the performance of this obligation after the payment is made does not release the payer from the obligation to exercise due diligence before the payment is made (Art. 26.7b and 26.7c of the CIT Act).

In the case of withholding tax being a result of the Pay & Refund, if double tax treaties or special regulations provide for a tax exemption or reduced tax rate, the taxpayer or tax remitter (if the taxpayer has paid tax with its own funds and has borne the economic burden of such tax, e.g. as a result of a gross-up clause) may apply for a refund of that tax by submitting the relevant documents and declarations. When recognizing that the refund is justified, the tax authorities shall carry it out within six months.

The Pay & Refund does not apply in the case of the Notes meeting conditions for the Remittance Exemption above.

Pursuant to the Regulation of the Minister of Finance dated 28 December 2022 regarding the exclusion of the obligation to collect flat-rate corporate income tax (the "**Regulation**"), in respect of securities held on securities accounts or Omnibus Accounts, until 31 December 2024 the application of the Pay & Refund regime is excluded to interest payable to taxpayers having their registered office or management outside the territory of the Republic of Poland.

### *Personal Income Tax*

Analogous provisions apply to personal income tax, including Art. 41.12 of the PIT Act which provides for an analogous Pay & Refund regime, while the Regulation of the Minister of Finance of 28 December 2022 regarding the exclusion of the obligation to collect flat-rate personal income tax is the equivalent of the Regulation. It should be noted, however, that the scope of the Remittance Exemption under PIT is different than under CIT.

## **Taxation in Portugal**

### *General*

The following is a general summary of the Issuers' understanding of current law and practice in Portugal as in effect as at the date of this Base Prospectus in relation to certain current relevant aspects of the Notes to Portuguese taxation and is subject to changes in such laws, including changes that could have a retroactive effect. The following summary is intended as a general guide only and is not exhaustive. It is not intended to be, nor should it be considered to be, legal or tax advice to any beneficial owner of the Notes. It does not take into account or discuss the tax laws of any country other than Portugal and relates only to the position of persons who are the absolute beneficial owners of the Notes. Prospective investors are advised to consult their own tax advisers as to the Portuguese or other tax consequences resulting from the purchase, ownership and disposition of the Notes, including the effect of any state or local taxes, under the tax laws of Portugal and each country where they are resident, or are deemed to be resident.

The reference to "**interest**", "**other investment income**" and "**capital gains**" in the paragraphs below means "**interest**", "**other investment income**" and "**capital gains**" as understood in Portuguese tax law. The statements below do not take into account any different definitions of "**interest**", "**other investment income**" or "**capital gains**" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation.

There is neither wealth nor estate tax in Portugal.

Payments made by the Issuer of interest, other investment income or principal on Notes issued by it to an individual or legal person non-resident in Portugal for tax purposes without a permanent establishment to which such income may be attributable are not subject to Portuguese income tax.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

Capital gains obtained on the transfer of Notes by an individual or a legal person who is neither resident nor engaged in business through a permanent establishment in Portugal to which that gain is attributable are not subject to Portuguese income tax.

### *Portuguese resident individuals*

Interest and other investment income obtained by Portuguese resident individuals on the Notes are subject to individual income tax. If the payment of interest or other types of investment income is made available to Portuguese resident individuals through a Portuguese resident entity or a Portuguese branch of a non-resident entity, withholding tax applies at a rate of 28 per cent., which is the final tax on that income unless the individual elects to aggregate it to his taxable income, subject to tax at progressive rates varying from 14.5 per cent. up to 48 per cent. In the latter circumstance, a solidarity surcharge is due on the part of the taxable income exceeding €80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding €80,000 up to €250,000 and (ii) 5 per cent. on the taxable income exceeding €250,000 (if any). Also, in case the individual elected to aggregate the interest and other investment income, the tax withheld is deemed a payment on account of the final tax due. Interest and other investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more accountholders acting on behalf of undisclosed entities is subject to a final withholding tax at a rate of 35 per cent., unless the beneficial owner of the income is disclosed, in which case the general rules will apply. If the interest and other investment income on the Notes is not received through an entity located in Portugal, it is not subject to Portuguese withholding tax, but an autonomous taxation rate of 28 per cent. will apply unless an option for aggregation is made, subject to the aforementioned progressive tax rates and a solidarity surcharge.

Gains obtained with the repayment of the Notes are classified as capital gains for Portuguese tax purposes.

Capital gains obtained by Portuguese resident individuals on the repayment or transfer of the Notes are taxed at a rate of 28 per cent. levied on the positive difference between the capital gains and capital losses realised on the transfer of securities and derivatives of each year, which is the final tax on that income, unless the individual elects to aggregate it to his taxable income, subjecting it to tax at progressive rates of up to 48 per cent. In the latter circumstance, a solidarity surcharge is due on the part of the taxable income exceeding €80,000 as follows: (i) 2.5 per cent. on the part of the taxable income exceeding €80,000 and up to €250,000 and (ii) 5 per cent. on the taxable income exceeding €250,000 (if any). Accrued interest qualifies as interest for tax purposes.

The positive balance between capital gains and capital losses arising from the transfer for consideration of shares and other securities is mandatorily accumulated and taxed at progressive rates if the assets have been held for less than 365 days and the taxable income of the taxpayer, including the balance of the capital gains and capital losses, amounts to or exceeds EUR 81,199.

### *Portuguese resident legal entities or legal entities not resident in Portugal but with a permanent establishment herein*

Interest and other investment income derived from the Notes and capital gains obtained with the transfer of the Notes by legal persons resident for tax purposes in Portugal and by non-resident legal persons with a permanent establishment in Portugal to which the income or gains are attributable are included in their taxable profits and are subject to Corporate Income Tax at a 21 per cent. tax rate (a 17 per cent. rate is applicable to the first €50,000 of taxable income obtained by small and medium sized companies, or small and mid-capitalization enterprises (Small Mid Cap) as defined in Decree-Law no. 372/2007, of 6 November, or a 12.5 per cent rate is applicable to the first €50,000 of taxable income obtained by startup entities, as defined in Law no. 21/2023, of 5 May, complying with the conditions set forth in Article 2.º, no. 1, f) of such Law), to which a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of their taxable income may be added. A state surcharge (*derrama estadual*) also applies at 3 per cent. on taxable profits in excess of €1,500,000 and up to €7,500,000, 5 per cent. on taxable profits in excess of €7,500,000 and up to €35,000,000, and 9 per cent. on taxable profits in excess of €35,000,000.

The acquisition of Notes through gift or inheritance by a Portuguese resident legal person or non-resident legal person acting through a Portuguese permanent establishment is subject to Corporate Income Tax at a 21 per cent. tax rate (a 17 per cent. rate is applicable to the first €50,000 of taxable income obtained by small and medium sized companies, or small and mid-capitalization enterprises (Small Mid Cap) as defined in Decree-Law no. 372/2007, of 6 November, or a 12.5 per cent rate is applicable to the first €50,000 of taxable income obtained by startup entities, as defined in Law no. 21/2023, of 5 May, complying with the conditions set forth in Article 2.º, no. 1, f) of such Law), to which a municipal surcharge (*derrama municipal*) of up to 1.5 per cent. of their taxable income may be added. A state surcharge (*derrama estadual*) also applies at 3 per cent. on taxable profits in excess

of €1,500,000 and up to €7,500,000, 5 per cent. on taxable profits in excess of €7,500,000 and up to €35,000,000, and 9 per cent. on taxable profits in excess of €35,000,000.

Interest and other investment income paid or made available (*colocado à disposição*) to accounts in the name of one or more account holders acting on behalf of undisclosed entities is subject to a final withholding tax at 35 per cent. unless the beneficial owner of the income is disclosed, in which case the general rules will apply.

### *General*

A company is tax resident in Singapore if the control and management of its business is exercised in Singapore. An individual is tax resident in Singapore in a Year of Assessment if, in the preceding year, he was physically present in Singapore or exercised an employment in Singapore (other than as a director of a company) for 183 days or more, or if he resides in Singapore except for such temporary absences therefrom as may be reasonable and not inconsistent with a claim by such person to be tax resident in Singapore.

Corporate taxpayers who are Singapore tax residents are subject to Singapore income tax on income accrued in or derived from Singapore and, subject to certain exceptions, on foreign-sourced income received or deemed to be received in Singapore from outside Singapore.

However, foreign-sourced income in the form of, amongst certain other things, dividends received or deemed to be received in Singapore by Singapore tax residents will be exempt from income tax if certain prescribed conditions are met. The conditions for the exemption of foreign-sourced dividends include that the recipient must receive such income directly from a jurisdiction with a headline (or highest published) corporate rate of income tax on gains or profits from a trade or business of at least 15 per cent. and the foreign-sourced dividends (or the underlying income out of which the dividends were paid) must have been subject to tax in the foreign jurisdiction.

Certain concessions and clarifications have also been announced by the IRAS with respect to the above conditions.

Non-resident corporate taxpayers are subject to income tax on income accrued in or derived from Singapore, and on foreign-sourced income received in Singapore, subject to certain exceptions.

The corporate tax rate in Singapore is currently 17 per cent.. Certain exemptions or reductions in tax rate apply to the first S\$200,000 in chargeable income, with effect from the Year of Assessment 2020.

Individual taxpayers who are Singapore tax residents are subject to Singapore income tax on income accrued in or derived from Singapore except for certain specified investment income.

All foreign-sourced income received (except for income received through a partnership in Singapore) in Singapore by Singapore tax resident individuals will be exempt from income tax if the Comptroller is satisfied that the tax exemption would be beneficial to the individual.

Non-resident individuals, subject to certain exceptions, are subject to income tax on income accrued in or derived from Singapore.

The rate of tax for Singapore resident individuals is tiered, subject to a maximum rate of 24 per cent. with effect from the Year of Assessment 2024. Non-Singapore resident individuals are generally subject to tax at a rate equivalent to the top individual marginal tax rate of Singapore tax resident individuals, subject to certain exceptions.

### *Dividends paid by Singapore tax resident companies*

All Singapore-resident companies are under the one-tier corporate tax system. Under this system, the tax on corporate profits is final and dividends paid by a Singapore resident company will be tax exempt in Singapore in the hands of a shareholder, regardless of whether the shareholder is a company or an individual and whether or not the shareholder is a Singapore tax resident.

### *Interest and Other Payments on the Notes*

Subject to the following paragraphs, under Section 12(6) of the ITA, the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment

outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or

- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent. final withholding tax described below) to non-resident persons (other than non-resident individuals) is currently 17 per cent.. The applicable rate for non-resident individuals is 24 per cent. with effect from the Year of Assessment 2024. However, if the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent. The rate of 15 per cent. may be reduced by applicable tax treaties.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) early redemption fee or redemption premium from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

*Exemption from Withholding Tax for payments made by Licensed Banks etc.*

Pursuant to Section 45I of the ITA, payments of income which are deemed under Section 12(6) of the ITA to be derived from Singapore and which are made by a specified entity are exempt from withholding tax if such payments are liable to be made by such specified entity for the purpose of its trade or business under a debt security which is issued during the period from 17 February 2012 to 31 December 2026 (both dates inclusive)<sup>1</sup>, provided further that the payment does not arise from a transaction to which the general-anti-avoidance rule in Section 33 of the ITA applies.

Notwithstanding the above, permanent establishments in Singapore of non-resident persons are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax). A specified entity includes a bank or merchant bank licensed under the Banking Act 1970 of Singapore.

*Qualifying Debt Securities Scheme*

In addition, if more than half of the principal amount of a tranche of Notes issued as debt securities under the Programme are distributed by a specified licensed entity(ies) for the purposes of the ITA and such tranche of Notes are debt securities issued on or before 31 December 2028, such Relevant Notes (hereinafter called "**Relevant Notes**") would be "qualifying debt securities" for the purposes of the ITA, to which the following treatments shall apply:

- (i) (in a case where payments on the Relevant Notes falls within Section 12(6) of the ITA) subject to certain prescribed conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS for the Relevant Notes within such period as the relevant authorities may specify and such other particulars in connection with the Relevant Notes as the MAS may require, and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, early redemption fee or redemption premium from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall

---

<sup>1</sup> The end date of 31 December 2026 does not apply for payments made to Singapore branches of non-resident companies as there is a waiver of withholding tax on all Section 12(6) ITA and 12(7) ITA payments made to such entities.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

not apply if the non-resident person acquires the Relevant Notes using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), early redemption fee and redemption premium (collectively, the "**Qualifying Income**") from the Relevant Notes, derived by a Noteholder who is not resident in Singapore and who (A) does not have any permanent establishment in Singapore, or (B) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;

- (ii) subject to certain conditions having been fulfilled (including the furnishing of a return on debt securities to the MAS in respect of the Relevant Notes within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require), Qualifying Income from the Relevant Notes derived by any company or body of persons (as defined in the ITA) in Singapore is subject to income tax at a concessionary rate of 10 per cent. (except for holders of the relevant financial sector incentive(s) who may be taxed at different rates); and
- (iii) (in a case where payments on the Relevant Notes falls within Section 12(6) of the ITA) subject to:
  - (1) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and
  - (2) the furnishing to the MAS of a return on debt securities for the Relevant Notes within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Qualifying Income derived from the Relevant Notes are not subject to withholding of tax by the Issuer.

Where interest, discount income, early redemption fee or redemption premium is derived from any of the Relevant Notes by any person who (i) is not resident in Singapore and (ii) carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for qualifying debt securities (subject to certain conditions) under the ITA shall not apply if such person acquires such Relevant Notes using the funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, early redemption fee or redemption premium derived from the Relevant Notes is not exempt from tax (including for the reasons described above) shall include such income in a return of income made under the ITA.

However, notwithstanding the foregoing:

- (a) if during the primary launch of any tranche of Relevant Notes, such Relevant Notes are issued to fewer than four persons and 50 per cent. or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as "qualifying debt securities"; and
- (b) even though a particular tranche of Relevant Notes may qualify as "qualifying debt securities", if, at any time during the tenure of such tranche of Relevant Notes, 50 per cent. or more of the issue of such Relevant Notes is held beneficially or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Notes held by:
  - (1) any related party of the Issuer; or
  - (2) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or the concessionary rate of tax described in the immediately preceding paragraphs.

The term "**related party**", in relation to a person, ("**A**"), means any person (a) who directly or indirectly controls A, (b) who is being controlled directly or indirectly by A, or (c) who, together with A, is directly or indirectly under the control of a common person.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

  - (iv) such other person as may be prescribed by rules made under Section 7 of the ITA. Capital Gains.

### *Capital Gains*

Any gains considered to be in the nature of capital made from the sale of the Notes will generally not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature. In addition, any foreign-sourced disposal gains received in Singapore from outside Singapore from the sale of the Notes that occurs on or after 1 January 2024 by an entity of a multinational group that does not have adequate economic substance in Singapore may be taxable as further described in Section 10L of the ITA.

Holders of the Notes who apply or are required to apply Singapore Financial Reporting Standard 39 ("**FRS 39**"), Singapore Financial Reporting Standard 109 - Financial Instruments ("**FRS 109**") or Singapore Financial Reporting Standard (International) 9 (Financial Instruments) ("**SFRS(I) 9**") (as the case may be) may for Singapore income tax purposes be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Notes, irrespective of disposal, in accordance with FRS 39, FRS 109 or SFRS(I) 9 (as the case may be). Please see the section below on "*Adoption of FRS 39, FRS 109 or SFRS(I) 9 treatment for Singapore income tax purposes*".

### *Adoption of FRS 39, FRS 109 or SFRS(I) 9 treatment for Singapore income tax purposes*

Section 34A of the ITA requires taxpayers who adopt or are required to adopt FRS 39 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 39, subject to certain exceptions provided in that section and certain "opt-out" provisions. The IRAS has also issued an e-tax guide entitled "Income Tax Implications Arising from the Adoption of FRS 39 – Financial Instruments: Recognition and Measurement" to provide guidance on the Singapore income tax treatment of financial instruments.

FRS 109 or SFRS(I) 9 (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January, 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who adopt or who are required to adopt FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions provided in that section. The IRAS has also issued an e-tax guide entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Notes who may be subject to the tax treatment under the FRS 39 tax regime, FRS 109 tax regime or the SFRS(I) 9 tax regime should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes.

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

### *Special tax rules for Notes which constitute negotiable certificates of deposit*

Notwithstanding the paragraphs above, under Section 10(12) of the ITA, where a person derives interest from a negotiable certificate of deposit or derives gains or profits from the sale thereof, the person's income is treated as follows:

- (a) in the case of a financial institution, the interest and the gains or profits are deemed to be income from a trade or business under Section 10(1)(a) of the ITA;
- (b) in any other case, the interest and the gains or profits are deemed to be income from interest under Section 10(1)(d) of the ITA subject to the following provisions:
  - (1) if the interest is received by a subsequent holder of a certificate of deposit the income derived from such interest excludes the amount by which the purchase price exceeds the issued price of the certificate, except where that amount has been excluded in the computation of any previous interest derived by the person in respect of that certificate; and
  - (2) where a subsequent holder sells a certificate after receiving interest therefrom the gains or profits are deemed to be the amount by which the sale price exceeds the issued price or the purchase price, whichever is the lower; and
- (c) for the purposes of paragraph (b) above, where a subsequent holder purchases a certificate at a price which is less than the issued price and holds the certificate until its maturity, the amount by which the issued price exceeds the purchase price is deemed to be interest derived by the person.

Holders should consult their own professional tax advisers regarding the application of Section 10(12) of the ITA to the Singapore income tax consequences of their acquisition, holding or disposal of any negotiable certificates of deposit.

### *Goods and Services Tax*

Under the Goods and Services Tax Act 1993 of Singapore (the "**GST Act**"), the following are examples of exempt supplies not subject to Goods and Services Tax ("**GST**") under the Fourth Schedule to the GST Act:

- (a) the exchange of currency (whether effected by the exchange of bank notes, currency notes or coin, by crediting or debiting accounts, or otherwise) other than the supply of a note or a coin as a collector's item, investment article or item of numismatic interest;
- (b) the issue, allotment or transfer of ownership of an equity security (i.e. any interest in or right to a share in the capital of a body corporate (other than a limited liability partnership) or any option to acquire any such interest or right but excludes a contract of insurance and an estate or interest in land, other than an estate or interest as mortgagee or chargeholder) or an interest in a partnership (i.e. (i) any right of a partner in a partnership or limited liability partnership to a proportion of the partnership property on the dissolution or winding up of the partnership or limited liability partnership (as the case may be), as specified in the partnership agreement; or (ii) if none is specified, any right of a partner in a partnership or limited liability partnership to a proportion of the profits of the partnership or limited liability partnership, as the case may be);
- (c) the issue, allotment, transfer of ownership, drawing, acceptance or endorsement of a debt security (i.e. any interest in or right to be paid money that is, or is to be, owing by any person or any option to acquire any such interest or right but excludes a contract of insurance and an estate or interest in land, other than an estate or interest as mortgagee or chargeholder);
- (d) the provision or assignment of a derivative (i.e. any financial instrument that derives its value from an underlying financial asset, index or other investment, and includes options, swaps and credit default swaps) that does not lead to any delivery of goods or supply of taxable services; or

Holders of the Notes should, however, consult their own professional accounting and tax advisers regarding the Singapore GST consequences of their acquisition, holding, conversion or disposal of the Notes.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

### *Stamp Duty*

Stamp duty is generally not imposed on the issue or redemption for cash of Notes. Where an instrument of transfer of stocks or shares (including funded debt) is executed in Singapore, or is executed outside Singapore but is brought into Singapore, the instrument would be subject to stamp duty of up to 0.2 per cent. of the amount or value of the consideration, or the value of the stocks or shares sold or transferred, whichever is higher. Transfers of securities on a scripless basis through the Central Depository (Pte) Limited are not subject to stamp duty. Transfers of stocks or shares by way of sale or gift of any stock issued by a company, corporation or body of persons incorporated, formed or established outside Singapore (other than stock registered in register kept in Singapore) are also exempt from stamp duty. Special rules apply to certain contracts or agreements for the sale of, or instruments of transfer of, equity interests in entities whose assets include significant Singapore residential property interests. A detailed description of these rules is beyond the scope of this tax section.

Prospective investors should consult their own professional advisers in respect of the Singapore stamp duty treatment of the issue, transfer or settlement of Notes, particularly where the Notes are capable of settlement by physical delivery. Any stamp duty payable on the issuance of a series of Notes will be specified in the Applicable Transaction Terms.

### *Estate Duty*

Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

### **Taxation in Switzerland**

*The following summary does not purport to be a comprehensive description of all Swiss tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and, in particular, does not consider specific facts or circumstances that may apply to a particular purchaser. It is for general information only and does not discuss all tax consequences of an investment in Notes under the tax laws of Switzerland. This summary is based on the tax laws of Switzerland currently in force and as applied on the date of this Base Prospectus which are subject to changes (or changes in interpretation) which may have retroactive effect. Prospective purchasers are advised to consult their own tax advisers as to the tax consequences of the purchase, ownership and disposition of Notes in the light of their particular circumstances.*

### **Swiss Income Tax**

#### *Swiss Resident Noteholders*

Swiss residents receiving periodic interest payments during the investment or at redemption as one-time-interest generally must include these interest payments in their financial statements and/or in their income tax returns and owe individual income tax or corporate income tax on the relevant amounts.

Notes which are not straight debt instruments but have components of debt instruments and derivatives intertwined generally qualify as combined instruments. The tax treatment of such Notes depends on whether the Notes are considered as transparent or not for Swiss income tax purposes.

If the Note is considered as not transparent for Swiss income tax purposes, any amount received by the Noteholder (upon sale, laps, exercise or redemption) in excess of the amount invested (at issue or upon purchase) is treated as taxable income in the hands of the Noteholder if the Note qualifies as a note with predominant one-time interest payment. If the Note does not qualify as a note with predominant one-time interest payment, the Noteholder is subject to tax on the periodic interest payments and (at redemption) on the difference between initial issuance price and the redemption price. For the purpose of determining whether the Note is a note with predominant one-time interest payment the difference between initial issuance price and the redemption price is treated as one-time interest.

If the Note is considered as transparent for Swiss income tax purposes, it will be split notionally in a debt instrument and a derivative instrument component. Gains or losses on the derivative instrument component are treated as capital gains or losses (see below). Interest payments received during the investment, at laps or exercise or at redemption as one-time interest related to the debt instrument component are treated as taxable income in the hands of the Noteholder. Such a treatment is also applicable for the purpose of determining whether the Note is a note with predominant one-time interest payment.

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

The Note is generally considered as transparent if the debt and the derivative components are traded separately or if the different elements of the Note (such as the guaranteed redemption amount, the issuance price of the debt component, the interest rates determining the issuance price of the debt component) are separately stated in the sales documentation as well as in the offering prospectus and if each one of such components is separately evaluated. Such evaluation has to be performed through calculations of financial mathematics determining the intrinsic value of the debt instrument and the derivative instrument components contained in the Note. In particular, the calculations have to determine the notional issuance price of the debt instrument, based on the interest rate taken into account by the issuer which has to be at market value. The Swiss Federal Tax Administration has to approve such calculations. Such calculations have to be reviewed on a quarterly basis in order to take into account the evolution of the interest rates. If the tax authorities are not provided with sufficient information the Notes can be treated as not transparent. Products with prevalent structures but for which the issuer does not provide the information allowing to distinguish the different elements of a product as described above are made transparent in retrospect by the tax authorities, banks or other channels of distribution if the following requirements are fulfilled: (a) the issuer of the product must have at least a single-A-rating; and (b) the product at hand has to be admitted to official quotation at the commercial exchange market or, at least, a market maker has to insure liquid trading of the product at hand. Liquid trading by a market maker is a condition that the key data of the product can be used as credible basis of calculation.

Notes which are linked to underlying assets, such as bonds, shares, or baskets of such assets may also be treated, under certain circumstances, as direct investments in bonds, shares or in an investment fund. Notes linked to a basket of investment funds may be treated as an investment in an investment fund.

Notes in the form of reverse convertibles linked to shares, precious metals and commodities with no guaranteed payments and a duration of less than or equal to one year may be treated as straight derivatives.

### *Non-Swiss Resident Noteholders*

Under present Swiss tax law, a Noteholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on interest of the Notes.

### **Capital Gains**

#### *Swiss Resident Private Noteholders*

Swiss resident Noteholders who do not qualify as so-called professional securities dealer for income tax purposes ("*gewerbsmässiger Wertschriftenhändler*") and who hold the Notes as part of their private (as opposed to business) assets are hereby defined as Swiss Resident Private Noteholders.

Swiss Resident Private Noteholders realise a tax free capital gain upon the disposal of Notes which do not qualify as notes with predominant one-time interest payment and realise taxable income if the Notes qualify as notes with one-time predominant interest payment.

The tax treatment of capital gains on Notes which qualify as combined instruments (see above) depends on whether the Note qualifies as tax transparent or not. Notes which are not transparent for Swiss income tax purposes (see above) generally qualify as notes with predominant one-time interest payment and are treated as such. Notes which qualify as tax transparent are notionally split into a debt instrument and a derivative instrument component. The debt instrument component follows the usual tax treatment either as note with predominant one-time interest payment or as note with no predominant one-time interest payment as applicable. Capital gains arising from the derivative instrument component of transparent Notes are generally not subject to income tax in the hands of Swiss Resident Private Noteholders.

#### *Swiss Resident Business Noteholders*

Gains realised on the sale of Notes, by Swiss resident individual Noteholders holding the Notes as part of their business assets as well as by Swiss resident legal entity Noteholders, are part of their business profit subject to individual income tax or corporate income taxes, respectively. The same applies to Swiss Resident Private Noteholders who qualify as so-called professional securities dealer ("*gewerbsmässiger Wertschriftenhändler*").

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

### *Non-Swiss Resident Noteholders*

Under present Swiss tax law, a Noteholder who is a non-resident of Switzerland and who, during the taxable year has not engaged in trade or business through a permanent establishment or a fixed place of business within Switzerland and who is not subject to taxation in Switzerland for any other reason, will not be subject to any Swiss federal, cantonal or municipal income tax on gains realised on sale or redemption of the Notes.

### *Swiss Stamp Duties*

The issuance of the Notes is not subject to Swiss transfer stamp duty, except in case that the Notes qualify as units in a foreign collective investment scheme. In such a case, Swiss transfer stamp duty at the current rate of up to 0.3 per cent. may apply.

The subsequent sale or transfer of the Notes with a duration of more than one year may be subject to Swiss transfer stamp duty at the current rate of up to 0.3 per cent. if such sale or transfer is made by or through the intermediary of a Swiss or Liechtenstein bank or other securities dealer as defined in the Swiss Stamp Tax Act and no exemption applies. The same applies in case of physical delivery of the underlying being a taxable security in the meaning of the Swiss Stamp Tax Act at redemption.

### *Swiss Withholding Tax*

At present, payments by the Issuer of interest on, and repayment of principal of, the Notes, will not be subject to Swiss Withholding Tax, provided that the Issuer is at all times resident and managed outside Switzerland for Swiss tax purposes.

### *Automatic Exchange of Information in Tax Matters*

Switzerland has concluded a multilateral agreement with the European Union on the international automatic exchange of information (the "AEOI") in tax matters, which applies to all EU member states and some other jurisdictions. In addition, Switzerland has concluded the multilateral competent authority agreement on the automatic exchange of financial account information (the "MCAA"), and a number of bilateral AEOI agreements with other countries, most of them on the basis of the MCAA. Based on such agreements and the implementing laws of Switzerland, Switzerland collects and exchanges data in respect of financial assets, including, as the case may be, Notes, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in an EU member state or in another treaty state. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective can be found on the website of the State Secretariat for International Financial Matters (SIF).

### *Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act*

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of FATCA (the "IGA"). Under the U.S.-Switzerland IGA, financial institution acting out of Switzerland generally are directed to become participating foreign financial institutions ("FFIs"). The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland ("DTA"). On 20 September 2019, Switzerland and the U.S. ratified the 2009 protocol (the "Protocol") amending the DTA. With the subsequent exchange of the ratification instruments, the amended DTA entered into force, and provide for a mechanism for the exchange of information upon request in tax matters between Switzerland and the United States, which is in line with international standards, and allows the United States to make group requests under FATCA concerning non-consenting U.S. accounts and non-consenting non-participating foreign financial institutions for periods from June 30, 2014. Furthermore, on 8 October 2014, the Swiss Federal Council approved a mandate for negotiations with the U.S. on changing the current direct-notification-based regime to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the U.S. tax authorities. It is not yet known when any new regime would come into force.

### **Foreign Account Tax Compliance Act**

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, withholding may be required on, among other things, (i) certain payments made by "foreign financial institutions"

## TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS

("foreign passthru payments") and (ii) dividend equivalent payments (as described below in "*U.S. Dividend Equivalent Withholding*"), in each case, to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Spain) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes.

Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. If withholding would be required pursuant to FATCA or an IGA with respect to foreign passthru payments, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Notes characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or before the relevant grandfathering date would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). The grandfathering date for (A) Notes that give rise solely to foreign passthru payments, is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, and (B) Notes that give rise to a dividend equivalent pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 and the U.S. Treasury regulations promulgated thereunder, is six months after the date on which obligations of its type are first treated as giving rise to dividend equivalents. If additional notes (as described under "*Terms and Conditions of the Notes – Condition 13 (Further Issues)*") that are not distinguishable from such previously issued grandfathered Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

### U.S. Dividend Equivalent Withholding

Section 871(m) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") treats a "dividend equivalent" payment as a dividend from sources within the United States. Such payments generally would be subject to a 30 per cent. U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the U.S. Internal Revenue Service (the "**IRS**"). A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) or (ii). U.S. Treasury regulations issued under Section 871(m) and applicable guidance (the "**Section 871(m) Regulations**") require withholding on certain non-U.S. holders of the Notes with respect to amounts treated as dividend equivalent payments. Under the Section 871(m) Regulations, only a Note that has an expected economic return sufficiently similar to that of the underlying U.S. security based on tests set forth in the Section 871(m) Regulations will be subject to the Section 871(m) withholding regime (making such Note a "**Specified Note**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on a Specified Note or upon the date of maturity, lapse or other disposition by the non-U.S. holder of the Specified Note. If the underlying U.S. security or securities are expected to pay dividends during the term of the Specified Note, withholding generally will still be required even if the Specified Note does not provide for payments explicitly linked to dividends. Additionally, the Issuer may withhold the full 30 per cent. tax on any payment on the Notes in respect of any dividend equivalent arising with respect to such Notes regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law (including, for the avoidance of doubt, where a holder is eligible for a reduced tax rate under an applicable tax treaty with the United States). A holder may be able to claim a refund of any excess withholding provided the required information is timely furnished to the IRS. Refund claims are subject to U.S. tax law requirements and there can be no assurance that a particular refund claim will be timely paid or paid at all. If the Issuer or any withholding agent determines that

## **TAXATION AND DISCLOSURE OF INFORMATION IN CONNECTION WITH PAYMENTS**

withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to Specified Notes issued on or after 1 January 2017. If the terms of a Note are subject to a "significant modification" (as defined for U.S. tax purposes), the Note generally would be treated as retired and reissued on the date of such modification for purposes of determining, based on economic conditions in effect at that time, whether such Note is a Specified Note. Similarly, if additional Notes of the same series are issued (or deemed issued for U.S. tax purposes, such as certain sales of Notes out of inventory) after the original issue date, the IRS could treat the issue date for determining whether the existing Notes are Specified Notes as the date of such subsequent sale or issuance. Consequently, a previously out of scope Note might be treated as a Specified Note following such modification or further issuance.

In addition, payments on the Specified Notes may be calculated by reference to dividends on underlying U.S. securities that are reinvested at a rate of 70 per cent. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30 per cent. of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

The Applicable Transaction Terms will indicate whether the Issuer has determined that Notes are Specified Notes and will specify contact details for obtaining additional information regarding the application of Section 871(m) to Notes. If Notes are Specified Notes, a non-U.S. holder of the Notes should expect to be subject to withholding in respect of any dividend-paying U.S. securities underlying those Notes. The Issuer's determination is binding on non-U.S. holders of the Notes, but it is not binding on the IRS. The Section 871(m) Regulations require complex calculations to be made with respect to Notes linked to U.S. securities and their application to a specific issue of Notes may be uncertain.

Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Notes.
